II. Instructions for completing the compliance checklists

Please find attached a set of standard compliance checklists that sets out the basic requirements in support of an application for authorization of an Australian MIS and relevant confirmation of compliance against the SFC's requirements as stipulated under the Circular on "Mutual recognition of cross-border offering of collective investment schemes by the Securities and Futures Commission and Australian Securities and Investment Commission" dated 7 July 2008. The compliance checklists should not be considered as exhaustive and where appropriate, they should be tailored to meet the specific features and requirements of the Scheme. Additional material information that is relevant to the application should also be submitted.

When completing the compliance checklists, you must note the following:

1. each relevant requirement in the compliance checklists should be referenced to the page number in the document where the requirement is complied with;
2. to keep the compliance checklists as short as possible, only a small amount of space has been set aside for comments. If further space is required, please attach a separate sheet of paper to the checklist and cross-reference all comments to the appropriate requirement; and
3. where your answer to an item on the checklist is "No" or "Not Applicable", the reason for such response should be clearly disclosed in the "Comments" section and if necessary, on a separate page cross-referenced to the checklist. We may reject an incomplete application to the extent this checklist is not properly or fully completed and/or where negative responses (i.e. "No" or "Not Applicable") are not properly explained.

Please note that we will only accept documents for review if this checklist is submitted and it is substantially complete, accurate and properly annotated. We reserve the right to return forthwith, without processing, any application that is accompanied by documents that do not meet the specified requirements.
