The Dutch fund(s) has/have yet to be launched and further details relating to estimation of the ongoing charges figures as set out in the KFS are set out below:

a) Targeted / assumed fund size of the Dutch fund(s) upon which such estimated ongoing charges is/are being calculated	
b) Whether it is the management company's intention to launch the Dutch fund(s) only when the targeted / assumed fund size mentioned in a) above has been reached	
c) In the event that the responses to b) is negative or the fund size of the Dutch fund(s) fall(s) below the targeted / assumed fund size in b) shortly after launch, measures that the management company has put in place to ensure that investors would not be misled by the estimated ongoing charges as disclosed in the KFS when investing in the Dutch fund(s)	

Part 4 – Liquidity risk management

1. Please tick if the Dutch fund(s) may allocate 30% or more exposure to less liquid assets, including emerging market securities or below investment grade debt securities, and other similar assets, and provide further details as set out below:

a) Dealing frequency of the Dutch fund(s) (as disclosed in the KFS) ²⁰	
b) The liquidity profile of the Dutch fund(s), under normal and stressed scenarios respectively, with indicative allocations of the Dutch fund(s)' investment portfolio by different liquidity categories. Please elaborate the basis of how the assets of the Dutch fund(s) are classified into different liquidity categories (e.g. with reference to quantitative metrics (e.g. days to trade and costs to trade, bid-ask spread) and relevant qualitative factors where applicable)	

Part 5 – Share class features

1. Please tick if any of the share class(es) to be offered in Hong Kong offer(s) fixed distribution rate, and provide further details as set out below:

a) Name of share class(es) and the corresponding fixed dividend rate per annum

Newly
added

²⁰ Note (1) under 6.13 of the UT Code requires that the management company should ensure that it sets a dealing frequency for units/shares in the Dutch fund which is appropriate for its investment objectives and approach, taking into account its liquidity risk management process that enables effective processing of redemptions and other payment obligations.

b) Expected level of income generated from the Dutch fund(s)' portfolio to support (in whole or part of) the fixed dividend rate stated in a)	
c) Justification that the Dutch fund(s) will remain sustainable in light of the fixed distribution policy / rate, without structural decumulation of its capital, (particularly, if the distribution may be paid out of capital and/or the net distributable income may be lower than the amount of fixed distribution payable by the Dutch fund(s))
