

Inspection Regimes

The following jurisdictions for investment management firms are regarded as subject to an acceptable inspection regime for the purposes of 5.1 of the Code on Unit Trusts and Mutual Funds ("UT Code"). Applicants should note that **this list is not exhaustive** and does not imply that other jurisdictions are necessarily unacceptable. As a general guide, the SFC looks to the following matters in determining the acceptability of an overseas supervisory authority:-

- (a) the overseas regulatory authority or its delegate carries out inspections of investment management firms within its jurisdiction in a manner generally consistent with the SFC; and
- (b) the SFC and the overseas regulatory authority have satisfactory procedures for the timely exchange of information regarding investment management firms.

This list of acceptable inspection regimes is subject to review and update by the SFC from time to time in view of the legal, regulatory and other developments in each acceptable inspection regime and internationally, as well as the level of regulatory oversight, supervision, co-operation and assistance of the primary regulator and reciprocity accorded to the SFC with respect to the investment management firms it regulates.
