Appendix D – Final form of the consequential amendments to the PRF Code
Appendix E – Final form of the consequential amendments to the ILAS Code
Appendix F – List of respondents
Executive summary

1. On 18 December 2017, the Securities and Futures Commission (SFC) issued a Consultation Paper on Proposed Amendments to the Code on Unit Trusts and Mutual Funds (UT Code). The proposals in the consultation were made to update the regulatory regime for SFC-authorised funds and address risks posed by financial innovation and other market developments.

2. The consultation ended on 19 March 2018. The SFC received 29 written submissions from asset management firms, various industry associations, law and consulting firms and individuals. A list of respondents (other than those who requested anonymity) is set out in Appendix F.

3. A majority of the respondents supported the proposals and agreed that they would strengthen Hong Kong’s role as an international asset management centre. The key comments focused on the classification of funds with derivatives investments exceeding a 50% limit as derivative products which, under our proposals, would be subject to the enhanced distribution requirements. Other comments mainly sought clarification of various technical and operational issues.

4. The SFC has engaged with relevant industry stakeholders to better understand their comments. A technical focus group comprising asset management industry experts was formed in July 2018. The proposals regarding derivatives investments were refined in consultation with the focus group.

5. Having carefully considered the comments received, the SFC will adopt the proposals with appropriate modifications or clarifications. The reasons for and details of the modifications and clarifications are discussed in this conclusions paper.

Key comments

Management companies

6. In general, respondents did not object to the proposed increase in minimum capital for management companies and supported the flexibility to allow multinational management companies to use group resources and expertise to meet key personnel requirements. Clarification was sought on the application of these proposals to investment delegates.

7. As set out in the revised UT Code, the minimum capital requirements are applicable to management companies but not investment delegates. We have clarified in the revised UT Code that investment delegates belonging to a well-established fund management group may also use or rely on group resources and expertise.

---

1 Requirements under 5.1A and 5.3 of the Code of Conduct for Persons Licensed by or Registered with the SFC (Code of Conduct) and, effective from 6 April 2019, 5.5 of the Code of Conduct and Chapter 6 of the Guidelines on Online Distribution and Advisory Platforms. See Consultation Conclusions on the Proposed Guidelines on Online Distribution and Advisory Platforms and Further Consultation on Offline Requirements Applicable to Complex Products (March 2018) and Consultation Conclusions on Offline Requirements Applicable to Complex Products (October 2018) at the following links:
Trustees and custodians

8. Some respondents commented that the compliance costs of trustees and custodians would be significantly increased as a result of the expanded scope and review of the internal controls and systems of trustees and custodians, which may be passed on to funds. Clarification was also sought on the expectations for the internal controls and systems of trustees and custodians in relation to certain functions.

9. In view of the important role of the trustees and custodians, the expanded scope of the review is important to monitor the suitability and operating effectiveness of their internal controls and systems. We have revised the UT Code to provide further clarification and guidance in this respect.

Derivatives investments

10. While respondents generally supported the proposals to allow greater flexibility for plain vanilla funds to invest in derivatives, many comments were received on the proposed 50% limit for derivatives investments and the calculation methodology. There were also suggestions that SFC-authorised funds with derivatives investments exceeding 50% of the fund’s net asset value (calculated using the methodology under the original proposal) should not be classified as derivative products (derivative funds), and therefore should not be subject to enhanced distribution requirements. Funds with extensive derivatives investments were not considered to be necessarily riskier.

11. The 50% limit for derivatives investments aims to provide investors with better product differentiation and transparency for funds which rely on derivatives and associated leverage to generate investment returns and to apply enhanced distribution requirements – including suitability obligation – to these funds.

12. Derivatives may increase the overall leverage of a fund but may also be used for hedging, risk mitigation or enhancing liquidity and transactional efficiency. These uses do not necessarily increase the riskiness of a fund at the portfolio level. Having considered the industry’s comments and consulted the technical focus group, we have modified the calculation methodology for a fund’s derivatives investments to exclude the use of derivatives which would not result in incremental leverage at the fund portfolio level. Accordingly, a fund with a net exposure arising from its derivatives investments exceeding 50% of its net asset value (NAV), after excluding derivatives used for hedging etc, would be regarded as a derivative fund.

13. These refinements have received broad support from the industry. Further guidance will be published by the SFC on the use of derivatives for SFC-authorised funds, which will deal with the calculation methodology and criteria for exclusions from the 50% limit as well as examples. These guidelines may be updated from time to time.

14. It is the responsibility of the management company to ensure compliance with all the applicable regulatory requirements for the use of derivatives in managing their SFC-authorised funds. The SFC will in future collect data and other information to conduct surveillance and monitoring of the use of derivatives by SFC-authorised funds.
**Enhanced disclosure in the product key facts statement**

15. Existing funds which will continue to be offered to the public in Hong Kong must produce a product key facts statement (KFS) with enhanced disclosure about derivatives investments by the expiry of a 12-month transition period. This period will start on the effective date of the revised UT Code (tentatively, on 1 January 2019\(^2\)).

16. To enhance transparency for investors and the industry, starting from the effective date of the revised UT Code, a new column will be added in the list of SFC-authorised funds shown on the SFC website which would indicate whether an SFC-authorised fund is or is not a derivative fund. This will be determined by the management company based on the net exposure arising from the fund’s derivatives investments.

17. Management companies should ensure that distributors have all necessary product information to understand the fund products to carry out their duties accordingly.

**Money market funds**

18. A number of respondents suggested accepting all government securities (regardless of their credit quality) as collateral for reverse repo transactions and as eligible assets for daily and weekly liquid assets.

19. Having considered the industry’s comments and requirements in comparable jurisdictions, we have revised the UT Code to accept high quality government securities with favourable credit quality assessments as collateral for reverse repo transactions. We are of the view that the definitions of daily and weekly liquid assets are appropriate and are in line with the recommendations of the International Organization of Securities Commissions (IOSCO) for money market funds\(^3\). However, we have lowered the minimum levels of daily and weekly liquid assets\(^4\) required to be held by a money market fund to further align with requirements in comparable jurisdictions.

**Other matters**

20. Respondents did not object to the consequential amendments to the SFC Code on MPF Products (MPF Code), the Code on Pooled Retirement Funds (PRF Code) and the Code on Investment-Linked Assurance Schemes (ILAS Code). Corresponding amendments will be made to these codes in line with the revised UT Code.

21. We also received comments on matters beyond the ambit of the current consultation exercise (for example, a suggestion that the Mandatory Provident Fund Schemes Authority (MPFA) make consequential amendments to the Guidelines on Index-Tracking Collective Investment Schemes for consistency purposes, and comments on operational matters relating to existing practices, among others). These comments are not addressed in this paper. We have passed comments to the MPFA for consideration.

---

\(^2\) The effective date of the revised UT Code will be set out in the gazette notice to be published after the publication of this conclusions paper.

\(^3\) *Policy Recommendations for Money Market Funds*, a final report issued by IOSCO in October 2012.

\(^4\) Under the revised UT Code, a money market fund must hold at least 7.5% of its NAV in daily liquid assets and at least 15% of its NAV in weekly liquid assets.
Implementation

22. The marked-up text of the amendments to the UT Code are set out in Appendix A. The revised UT Code will become effective, tentatively on 1 January 2019, following its gazettal.

23. To allow for necessary operational and system changes to comply with the enhanced requirements, a 12-month transition period from the effective date will be provided for existing funds and operators to comply with the revised UT Code.

24. We would like to thank all respondents for their detailed and thoughtful comments.

25. The consultation paper, the responses (other than those requested to be withheld from publication) and this paper are available on the SFC website at www.sfc.hk.
Section 1 – Proposals on amendments to the UT Code

I. Key operators

A. Management companies

| Question 1: | Do you have any comments on the proposed increased minimum capital for management companies? |
| Question 2: | Do you have any comments on the proposals to provide flexibility for well-established fund management groups to leverage group investment expertise and experience? |

Minimum capital requirement

Public comments

26. While most respondents did not object to the increase in minimum capital for management companies from HK$1 million to HK$10 million, some respondents considered the increase in the capital requirement to be irrelevant to investor protection and therefore unnecessary.

27. One respondent, while agreeing that the minimum capital requirements should be increased, suggested alternative thresholds and calculation methods with reference to the size of assets under management by the management companies.

28. Clarification was sought on whether the increased minimum capital requirements apply to investment delegates.

The SFC’s response

29. Strong financial standing and commitment on the part of management companies of public funds is important. In our view, a minimum capital requirement based on a fixed amount is simpler for management companies to comply with as it does not require regular adjustments to the amount of capital required.

30. We wish to clarify that investment delegates are not subject to the minimum capital requirements.

Investment expertise and experience

Public comments

31. Most respondents welcomed the proposal to allow well-established fund management groups to use group investment expertise and experience.

32. Some respondents sought clarification of the key personnel requirements, for example, whether an individual can act as key personnel for both the management company and investment delegates. Some respondents requested guidance on the meaning of “well-established fund management group” and the application of the key personnel requirements to investment delegates.
The SFC’s response

33. An individual can act as key personnel for both the management company and investment delegates within the same fund management group, provided that the individual is able to dedicate sufficient time and attention to manage the relevant SFC-authorised funds for these entities.

34. In respect of guidance on assessing whether or not fund management groups are well-established, the factors that the SFC may consider have been set out in paragraph 17 of the consultation paper and Note (1) to 5.5(a) of the revised UT Code.

35. We have revised the UT Code to clarify that investment delegates belonging to a well-established fund management group can also make use of the flexibility to use or rely on group investment expertise and experience.

General obligations of management companies

Public comments

36. Some respondents made reference to the directive related to Undertakings for Collective Investment in Transferable Securities (UCITS)\(^5\) where depositaries (ie, the equivalent of trustees and custodians) are responsible for overseeing the performance of management companies. They are concerned that this may contradict the revised UT Code requirement that the management company must take reasonable steps to ensure that a trustee or custodian is properly qualified. They are also concerned that potential conflicts may arise between management companies and depositaries of UCITS schemes.

37. In addition, some respondents commented that although the management company may be involved in the selection and recommendation of the trustee or custodian of a scheme, it is the scheme or the board of directors who are responsible for the appointment. Therefore, the obligation to ensure the trustee or custodian is properly qualified should rest with the entity appointing the trustee or custodian, rather than the management company.

The SFC’s response

38. The SFC expects management companies to be responsible for the overall operations of their funds. There should be proper selection and monitoring of the funds’ service providers, including trustees and custodians. In particular, management companies should ensure that trustees and custodians are properly qualified to perform their duties and functions, even though they may not formally appoint the trustee or custodian. This is consistent with IOSCO’s standard\(^6\) that the entity responsible for the management and performance of the functions of a collective investment scheme should use appropriate care, skill and diligence during the appointment and ongoing engagement of a trustee or custodian. This is also in line with the requirement of 4.2.1 of the Fund Manager Code of Conduct.

---

39. In our view, the selection and ongoing monitoring requirement for management companies does not affect UCITS depositaries’ oversight of the management companies.

B. Trustees and custodians

| Question 3: Do you have any comments on the proposals regarding the enhanced obligations of trustees and custodians? |
| Question 4: Do you have any comments on the proposals to enhance the periodic reviews of the internal controls and systems of trustees and custodians? |
| Question 5: What other measures do you think are appropriate to strengthen the regulations for trustees and custodians of public funds in Hong Kong? |

Appointment of and eligibility of trustees and custodians

Public comments

40. A respondent suggested that trust companies which are not subsidiaries of banks or approved by the MPFA should be allowed to act as trustees of SFC-authorised funds.

41. A few respondents sought clarification of the eligibility of some non-banking institutions incorporated outside Hong Kong as trustees and custodians of SFC-authorised funds under the revised UT Code.

The SFC’s response

42. It is important that trustees and custodians of SFC-authorised funds are subject to satisfactory regulatory oversight. In this connection, we are of the view that they need to be part of a banking group or otherwise subject to prudential regulation and supervision.

43. With respect to non-banking institutions incorporated outside Hong Kong, the existing practice is that these entities would be eligible if they are subject to prudential regulation and supervision on an ongoing basis, and acceptable to the SFC. We have revised the UT Code to make this explicit.

General obligations of trustees and custodians

Public comments

44. A respondent commented that trustees and custodians can only exercise control over nominees, agents and delegates which are appointed by them. Nominees, agents and delegates which are appointed by management companies should not, therefore, be the responsibility of trustees and custodians.
45. Two respondents suggested that the SFC reconsider the proposal about the obligation of trustees and custodians to monitor cash flows of the funds. They were of the view that the perceived benefits might be overstated and incur additional costs.

46. Some respondents sought clarifications of the safeguards which should be put in place for omnibus accounts.

47. A few respondents also sought guidance on how trustees and custodians are expected to fulfil the verification of ownership obligation. They also commented that trustees and custodians would have to rely on the information provided by management companies in order to fulfil the obligations required under 4.5 of the revised UT Code.

The SFC’s response

48. As set out in the existing UT Code, trustees and custodians are liable for the acts and omissions of nominees, agents and delegates in relation to scheme property. In this connection, we expect trustees and custodians to be responsible for exercising reasonable care, skill and diligence in the selection, appointment and ongoing monitoring of all nominees, agents and delegates who are involved in the custody of scheme assets (irrespective of whether the formal appointment of these entities is made by management companies or by parties other than the trustee or custodian). Trustees and custodians should also be satisfied that such nominees, agents and delegates remain suitably qualified and competent on an ongoing basis to provide the relevant services.

49. Trustees and custodians should ensure their obligations (including custody of property of the fund or other oversight functions) as set out in the revised UT Code are duly discharged and that their accountability to the funds and investors is not affected even though third parties may be engaged to carry out functions or operations in relation to the funds.

50. Cash flow monitoring, which includes ensuring payments are properly made and received by the fund, is an important function. Therefore, trustees and custodians must still ensure that their obligations can be properly discharged where day-to-day operations are delegated to other parties. We have clarified in 4.5(h) of the revised UT Code that trustees and custodians must take reasonable care to ensure that cash flows are properly monitored.

51. For omnibus accounts, frequent and appropriate reconciliations should be performed by trustees or custodians to ensure that all scheme property is properly recorded. This is in line with the IOSCO Custody Paper and 4.1.1 of the Fund Manager Code of Conduct.

52. Trustees and custodians should obtain sufficient and reliable information when verifying ownership of fund assets. Procedures should involve reconciliations between the records of trustees and custodians and management companies. Management companies should provide relevant information to trustees and custodians to discharge their obligations pursuant to 4.5 of the revised UT Code.

53. The above clarifications have been reflected in Chapter 4 of the revised UT Code and the guidance on the review of the internal controls and systems of trustees and custodians (ie, Appendix G of the revised UT Code).
Periodic review of the internal controls and systems of trustees and custodians

Public comments

54. Some respondents supported the proposal to enhance and expand the scope and review of the internal controls and systems of trustees and custodians. They considered that the proposals can better ensure the competence of trustees and custodians. Several other respondents commented that the expanded scope of the review could add significant compliance costs for trustees and custodians which may be passed on to the funds.

55. Comments were raised that the scope of review should only cover parties which have been appointed by trustees and custodians.

56. In respect of the minimum areas of internal controls and systems as set out in Appendix G of the revised UT Code, a respondent commented that trustees and custodians only have oversight in specific areas (for example, subscription and redemption, valuation and net asset value calculation and investment) while the management companies should have direct responsibility for these operations.

57. Respondents sought clarification of the expectations for various control attributes as set out in Appendix G of the revised UT Code, for example, whether there would be any materiality threshold for breach reporting and whether trustees and custodians are expected to perform pre-trade monitoring to verify instructions given by management companies.

58. Two respondents requested that the report filing deadline be extended from four months to six months from the end of the period of review as it would require a significant effort to review and compile the expanded report.

The SFC’s response

59. The SFC would like to reiterate the essential role of trustees and custodians for safeguarding fund assets and performing independent oversight. Reviews of their internal controls and systems is therefore important to ensure the competence of trustees and custodians in discharging their obligations under the UT Code.

60. The expectation for trustees and custodians with respect to nominees, agents and delegates has been explained in paragraphs 48 and 49. In line with this expectation, we have revised the UT Code to clarify the scope of the review, including the relevant parties to be included in the review and the expected level of monitoring of internal controls and systems.

61. We note that trustees and custodians may not be directly responsible for certain areas set out in the control objectives and policies under Appendix G of the revised UT Code. In determining whether trustees and custodians have exercised reasonable care in these areas and achieved the corresponding key control attributes, the internal controls and systems of the trustees and custodians should, at a minimum, include an initial assessment and regular review of policies and procedures of the delegated parties and ongoing exceptions reporting by them.
62. We have revised the UT Code to provide clarification and guidance on our expectations for the different control attributes, including the areas which were raised by respondents as discussed in paragraph 57 above.

63. In view of the expanded scope and enhanced level of review, we have extended the filing deadline to six months after the end of the period under review under Appendix G of the revised UT Code.
II. Investments

A. Diversification and liquid assets

Diversification requirements

Public comments

64. A number of respondents suggested that funds should be allowed to exceed the 20% limit on cash deposits made with the same entity or entities within the same group under certain circumstances (e.g., after the fund has been launched for a reasonable period of time or for operational cash management purposes).

The SFC’s response

65. The proposed cash deposits limit is to ensure proper diversification of SFC-authorised funds. Taking into account the operational needs of the funds, the consultation paper already proposes to permit cash deposits to exceed the 20% limit in specific circumstances upon the launch, merger and termination of a fund. In view of the comments received, we have revised the UT Code to clarify that the 20% limit may be exceeded (i) after the launch of a fund and before the fund is fully invested, (ii) upon receipt of subscription proceeds pending investment and (iii) when cash is held for settlement of redemption and other payment obligations.

Illiquid assets

Public comments

66. A few respondents disagreed that a fund’s holding of illiquid assets should be subject to a limit. Instead, they considered that management companies should exercise due care, skill and diligence in managing the liquidity of the funds to meet redemption requests from investors.

The SFC’s response

67. As a general principle, an SFC-authorised fund is not expected to invest in assets that would compromise its ability to meet redemption requests or payment obligations. Management companies are expected to maintain and implement effective liquidity risk management policies and procedures for the funds under their management.

68. In setting the limits for illiquid assets, we agree that a management company should take into account the specific circumstances of each fund, including its investment objectives and strategy, investor base, underlying obligations and redemption policy. Hence, a general principle requiring investments held by a scheme to be liquid has been included in the preamble to Chapter 7 of the revised UT Code. This is in line with the IOSCO’s recommendations for liquidity risk management for collective investment schemes7, which provide, among other recommendations, that the responsible entity should regularly assess the liquidity of the assets held in the portfolio and should integrate

---

7 Recommendations for Liquidity Risk Management for Collective Investment Scheme, a final report issued by IOSCO in February 2018.
liquidity management in investment decisions. 7.3 of the UT Code has been modified such that a fund’s investments in securities and other financial products or instruments that are neither listed, quoted nor dealt in on an organised market may not exceed 15% of a fund’s NAV.

B. Derivatives investments

| Question 6: | Do you have any comments on the proposal to introduce an overall limit on derivatives investments for a plain vanilla public fund? Do you consider the proposed 50% limit appropriate? Please explain your views. |
| Question 7: | Do you have any comments on the proposed enhanced disclosures regarding derivatives investments in the fund’s KFS and financial reports? |

Approach to derivatives investments limit

Public comments

69. Respondents generally supported the proposals to allow greater flexibility for plain vanilla funds to invest in derivatives.

70. However, some respondents were of the view that the derivatives investments limit, calculated based on the commitment approach, does not reflect the economic risk arising from derivatives investments. They suggested adopting the value-at-risk approach or to wait for IOSCO to develop consistent measures of leverage.

The SFC’s response

71. In formulating the derivatives investments limit, we have considered approaches used to calculate derivatives limits in other markets. Rules for the measurement and monitoring of derivatives investments and leverage vary. There is no consensus, as yet, on a single consistent measurement of leverage in funds.

72. Regarding the value-at-risk approach, we maintain our view that this is not a measure of leverage from derivatives investments. It is principally a risk-monitoring tool which does not impose any limits on derivatives investments.

73. In its recently published public consultation, IOSCO has set out a proposed approach to identify or develop consistent measures of leverage in funds to facilitate more meaningful monitoring of leverage for financial stability purposes and help enable comparisons across funds, including at a global level. IOSCO’s proposals are not related to identifying or imposing limits on leverage for public funds. Our proposals, however, sought to provide a clear regulatory limit on derivatives investments by plain vanilla public funds in Hong Kong.

---

9 See footnote 8 above.
Calculation of leverage arising from derivatives investments

Public comments

74. A number of respondents sought further guidance on how leverage arising from derivatives investments should be calculated. A few respondents suggested including more exclusions from the leverage calculation.

75. A number of respondents considered that funds using derivatives extensively are not necessarily riskier, and therefore suggested that SFC-authorised funds with derivatives investments exceeding 50% of the fund’s net asset value (calculated using the methodology under the original proposal) should not be classified as derivative funds, and therefore should not be subject to enhanced distribution requirements.

76. In particular, some respondents considered that it is common for bond fund managers to use derivatives more extensively than equity funds in managing interest rate and credit risks. Classifying funds as derivative funds based on how extensively they use derivatives may result in a bond fund being subject to more stringent distribution requirements than an equity fund, even though the bond fund may be less risky than the equity fund.

The SFC’s response

77. We had further meetings with fund management groups and fund industry associations to further analyse funds’ strategies in using derivatives. We acknowledge that the use of derivatives in certain circumstances should not be included in calculating the 50% limit.

78. We have therefore refined our proposal regarding derivatives investments in consultation with a technical focus group comprised of fund asset management industry experts.

79. The calculation has been modified to reflect a net exposure arising from derivatives investments which would generate incremental leverage at the fund portfolio level (net derivative exposure), when positions are converted into the equivalent prevailing market values of their underlying assets. The use of derivatives under the following circumstances may be excluded from the calculation of the funds’ net derivative exposures:

(a) netting, hedging and risk mitigation,

(b) cash flow management,

(c) market access or exposure replication (without incremental leverage\(^{10}\) at the fund portfolio level)\(^{11}\), and

(d) investment in conventional convertible bonds.

---

\(^{10}\) The use of a derivative would not be regarded as resulting in incremental leverage at the fund portfolio level if a fund’s holding of a derivative (eg, an index future contract) is fully backed by cash and cash equivalents. The amount of cash and cash equivalents held by the fund should be equal to the total underlying market value (instead of mark-to-market value or margin value) of the derivative involved.

\(^{11}\) This is not applicable to passively managed index funds (including ETFs) or structured funds.
An SFC-authorised fund with a net derivative exposure exceeding 50% of its NAV will be regarded as a derivative fund. These refinements have received broad support from the fund industry.

80. Where a fund uses derivatives for hedging or risk mitigation purposes, the management company should ensure that the hedging principles as set out under 7.25 of the revised UT Code are complied with. Where the derivatives involved in the hedging or risk mitigation arrangements are not referenced to the same corresponding underlying assets being hedged, the following additional requirements should also be met:

(a) such arrangements may only be adopted in the best interests of investors, with due consideration of the costs involved, where derivatives referenced to the same corresponding underlying assets are not available or the use of such derivatives is not cost effective;

(b) such arrangements should be used in a prudent and consistent manner with provable empirical evidence, demonstrating that such arrangements are efficient in limiting, offsetting or eliminating the risk of the fund’s portfolio;

(c) on an ongoing basis, the management company should regularly monitor and review factors such as correlation, the effectiveness of such arrangements as well as the economic linkage between the derivatives involved in such arrangements and the hedged positions;

(d) where such arrangements are deemed to be less effective, the management company should consider other alternatives for the purposes of hedging or risk mitigation, and to take appropriate action to limit the risks or exposure; and

(e) the residual risks must be properly managed in all market circumstances.

81. A guide will be published on the use of derivatives investments for SFC-authorised funds. This will provide further guidance on the calculation methodology for net derivative exposures, as well as examples, which may be updated from time to time. Having considered comments of the technical focus group, the calculation methodology for net derivative exposures will apply to all SFC-authorised funds (ie, Hong Kong and overseas domiciled funds including UCITS funds)\(^\text{12}\), in order to achieve a level playing field for all public funds.

82. It is the responsibility of the management company to ensure compliance with all regulatory requirements relevant to the use of derivatives in managing their SFC-authorised funds including, where applicable, that the relevant criteria are met for the use of derivatives which may be excluded from the calculation of net derivative exposures (see paragraph 79) as set out in the guide on derivatives investments for SFC-authorised funds. The SFC will in future collect data and other information to conduct surveillance and monitoring on the use of derivatives by the SFC-authorised funds.

83. We believe that these refinements provide a balanced and practical approach to the derivatives investments limit.

\(^{12}\) Applications by funds under mutual recognition arrangements will be processed in accordance with the relevant circulars and guidance.
Disclosure to investors

Public comments

84. Regarding the enhanced KFS disclosure for derivatives investments, some respondents sought clarification of the meaning and determination of expected maximum leverage, and whether changes in the expected maximum leverage disclosure in the KFS would require the SFC’s prior approval.

The SFC’s response

85. The expected maximum leverage arising from derivatives investments should be derived from an assessment made under normal market conditions, taking into account the fund’s investment objectives and strategy.

86. Management companies are expected to exercise professional judgement in determining and monitoring this threshold on an ongoing basis to ensure the disclosure is fair, balanced and not misleading. Taking into account the comments received from the technical focus group, we have revised the enhanced KFS disclosure requirements for derivatives investments. A sample of the disclosure in the KFS is set out below:

<table>
<thead>
<tr>
<th>Use of derivatives / investment in derivatives</th>
</tr>
</thead>
<tbody>
<tr>
<td>• The fund will not use derivatives for any purposes.</td>
</tr>
<tr>
<td>Or</td>
</tr>
<tr>
<td>• The fund’s net derivative exposure may be [up to 50%] / [more than 50% but up to 100%] / [more than 100%] of the fund’s NAV.</td>
</tr>
</tbody>
</table>

87. A fund’s leverage arising from derivatives investments should not exceed the stated maximum threshold under normal market conditions. Where the threshold is exceeded due to market movements, the management company is expected to take all necessary steps to reduce the fund’s leverage within a reasonable period of time to ensure the disclosure is not misleading, while taking into account the interests of the fund’s investors.

88. If changes to the leverage disclosure arise because of a change in the calculation methodology for net derivative exposure, and in the absence of any material changes to the fund’s investment policy or strategy in using derivatives, no prior approval from the SFC or advance notice to investors will be required.

13 The updated KFS templates reflecting the enhanced disclosure requirements for derivatives investments will be posted on the SFC website in due course.
C. Securities financing transactions

| Question 8: Do you agree with the proposed framework for securities financing transactions? Please explain your views. |
| Question 9: Do you consider indemnification by securities lending agents to be a necessary and appropriate safeguard? Please explain your views. |
| Question 10: Do you consider that an overall transaction limit should be imposed on securities financing transactions (other than the additional safeguards proposed)? Please explain your views (with any suggested overall transaction limit, if applicable). |

**Public comments**

89. Some respondents objected to the proposed requirement that counterparties to securities financing transactions should be substantial financial institutions (defined under the revised UT Code).

90. Views were mixed on the proposal for indemnification by securities lending agents to protect a fund against counterparty default. Separately, a majority of respondents considered that it is not necessary to introduce an overall transaction limit on securities financing transactions.

**The SFC’s response**

91. Taking into account industry feedback as well as other safeguards that address counterparty risk (such as the 100% collateralisation and collateral haircut requirements for these transactions), we have revised the UT Code. Counterparties to these transactions will not be required to be subject to a minimum NAV as long as they are financial institutions subject to prudential regulation and supervision. Indemnification by securities lending agents will not be imposed and an overall limit on these transactions will not be introduced.

---

14 “Substantial financial institution” means an authorised institution as defined in section 2(1) of the Banking Ordinance (Chapter 155 of Laws of Hong Kong) or a financial institution which is subject to prudential regulation and supervision on an ongoing basis, with a minimum NAV of HK$2 billion or its equivalent in foreign currency.
D. Collateral

<table>
<thead>
<tr>
<th>Question 11:</th>
<th>Do you think that the proposed collateral requirements are sufficient to safeguard investor interests? What additional criteria should be considered?</th>
</tr>
</thead>
<tbody>
<tr>
<td>Question 12:</td>
<td>Do you agree with the proposed disclosure requirements concerning collateral? Please explain your views.</td>
</tr>
</tbody>
</table>

Enhancements to collateral requirements

*Public comments*

92. A respondent suggested the SFC should provide more guidance on the determination of a haircut policy to eliminate subjectivity in setting haircut rates. Another respondent considered that prescribed haircuts should not be applied to collateral.

93. A respondent suggested allowing re-investment of collateral in accordance with a fund’s investment objectives.

*The SFC’s response*

94. The haircut to be applied to collateral should be based on risk assessments performed by a management company taking into account the nature and quality of the collateral and the fund’s investment objectives and strategy. We have therefore set out high level principles for determining haircuts in the revised UT Code.

95. To limit the leverage of a fund through securities financing transactions, we are of the view that non-cash collateral should not be reinvested. Cash collateral may only be reinvested in short-term and high quality instruments as specified in the revised UT Code.

E. Investments in other funds

| Question 13: | Do you have any comments on the proposals for investments in other funds? |

*Public comments*

96. One respondent asked whether prior approval from the SFC would be required when an existing unit portfolio management fund changes its investment restrictions so as to be reclassified as a Chapter 7 fund.

*The SFC’s response*

97. We aim to streamline the processing of scheme changes arising from the transitional arrangements for the revised UT Code as far as possible. If a unit portfolio management fund changes its investment restrictions to reflect requirements under Chapter 7 of the revised UT Code, in the absence of other material changes to the fund’s investment objectives or strategy, no prior approval from the SFC or advance notice to investors will be required.
F. Structured funds

| Question 14: Do you agree with the proposal to require a structured fund to be subject to 100% collateralisation? |

Public comments

98. Most of the respondents agreed that a structured fund should be subject to 100% collateralisation although one respondent commented that such a requirement is not consistent with the industry’s operational practice for the settlement of margin calls for swap transactions.

The SFC’s response

99. In view of the general support received, the 100% collateralisation proposal will be adopted for structured funds. This requirement has been applied to all synthetic SFC-authorised exchange-traded funds (ETFs) since 2011 and we are not aware of any operational issues so far. We maintain our position that it is appropriate to apply such a requirement equally to listed and unlisted structured funds.
III. Money market funds

| Question 15: Do you agree with the proposed requirements for money market funds? Please explain your views. |

Public comments

100. A number of respondents suggested accepting government securities as collateral for reverse repo transactions and as eligible assets for daily or weekly liquid assets.

101. Several respondents suggested that UCITS money market funds which have adopted a constant NAV and have complied with the relevant requirements under the EU money market funds regulation\(^{15}\) should be deemed to have complied with the relevant requirements for money market funds adopting a constant NAV under the revised UT Code.

The SFC’s response

102. In view of the comments received and the requirements in other comparable jurisdictions, we have clarified that high-quality government securities receiving a favourable credit quality assessment by the management company may also be accepted as collateral for reverse repo transactions.

103. We are of the view that the definitions of daily and weekly liquid assets are appropriate and consistent with those adopted in other comparable jurisdictions. Therefore, a security will not be accepted as an eligible liquid asset solely because it is a government security. To better align with the limits on liquid assets in other comparable jurisdictions, we have lowered minimum daily and weekly liquid assets required for a money market fund to 7.5% and 15% of its NAV respectively.

104. In line with the IOSCO money market funds recommendations, we maintain our position that a money market fund which offers a stable or constant NAV should only be considered by the SFC on a case-by-case basis. Compliance with EU money market funds regulations will be considered by the SFC, among other factors, in authorising retail money market funds with constant NAV in Hong Kong. As provided in the revised UT Code, money market funds adopting a constant NAV should demonstrate to the SFC’s satisfaction that, among other things, proper measures and safeguards in compliance with relevant IOSCO recommendations have been put in place.

IV. Unlisted index funds and index tracking exchange traded funds

Question 16: Do you agree with the proposed amendments to the requirements for unlisted index funds and passive ETFs using index tracking strategies which substantially invest in derivatives? Please explain your views.

Question 17: Do you agree with the proposed enhanced diversification requirements for indices? Please explain your views.

Question 18: Do you agree with the proposed arrangement for setting up listed and unlisted units and/or share classes for index funds and passive ETFs? Please explain your views.

Question 19: Do you agree with the other proposed amendments related to unlisted index funds and passive ETFs under Chapter 8.6 of the UT Code?

105. Respondents generally supported the proposed amendments to the UT Code in relation to unlisted index funds and index tracking exchange traded funds. Comments generally sought clarification of specific matters and implementation arrangements.

Clarify requirements for funds which adopt hybrid index tracking strategies through derivatives investments

Public comments

106. Overall, respondents agreed with the proposed amendments requiring unlisted index funds and index tracking ETFs (also known as passive ETFs) which substantially invest in derivatives to comply with the additional requirements under Chapter 8.8.

The SFC’s response

107. We welcome the support for our proposal and will adopt it as proposed.

Enhancing the “broadly based” requirement for an underlying index

Public comments

108. Respondents generally supported our proposal to enhance the diversification requirements for indices. One respondent commented that it is important for management companies to be able to consult the SFC about indices which do not strictly fulfil the requirements, and for the SFC to allow appropriate exceptions.

109. One respondent sought clarification of whether there will be arrangements for grandfathering or waivers for existing SFC-authorised index funds in respect of the proposed enhanced diversification requirements for indices.
The SFC’s response

110. Noting the broadly positive feedback, we will adopt the enhanced diversification requirements for indices including a 12-month transition period for existing SFC-authorised index funds to comply.

111. We note the comment on the proposed examples of exceptions under the note to Chapter 8.6(e)(ii) of the revised UT Code and wish to clarify that these examples are not meant to be exhaustive.

112. We welcome management companies’ requests to consult with us about innovative product ideas so as to broaden investment choice for the public.

Listed and unlisted share classes for index funds and passive ETFs

Public comments

113. We received several responses to our proposed arrangement for setting up listed and unlisted units or share classes for index funds and passive ETFs. Overall, respondents welcomed our proposal. One respondent commented on the importance of having clear disclosures in offering documents, marketing materials and other relevant documents (such as on websites) to help investors distinguish between the different share classes and provide them with sufficient information to make investment decisions.

114. Some respondents stressed the importance of fair treatment of investors in listed and unlisted share classes. They suggested that, for example, an unlisted share class should be subject to the same disclosure requirements as a listed class and the operation of the fund should not provide an unfair advantage or disadvantage for investors in one class over the other.

115. One respondent requested the SFC to provide education to the general investing public and guidance to market participants on the listed and unlisted share class structure for index funds and passive ETFs.

The SFC’s response

116. Management companies of unlisted funds or ETFs with listed and unlisted units or share classes should ensure that the dealing arrangements and risks associated with both classes are clearly disclosed in offering documents and investors of both classes are treated fairly. We will issue KFS templates to provide guidance to the industry.

117. As mentioned in the consultation paper, we generally expect fund managers to consult us in advance if they would like to offer listed and unlisted units or share classes for an SFC-authorised unlisted fund or ETF.

118. We are also mindful that this structure is new to the Hong Kong market and the general investing public. In this regard, we will work with the Investor Education Centre in preparing educational materials on the key features of listed and unlisted share classes as well as matters to which investors should pay attention when making investment decisions.

119. Given the overall positive feedback, we will adopt the proposal and introduce this new structure. The industry is welcome to approach us if any problems are encountered.
Other amendments relating to index funds and passive ETFs

120. Respondents generally have no objection to the other proposed amendments related to unlisted index funds and passive ETFs under Chapter 8.6 of the UT Code. We received a few comments mainly regarding the disclosure requirements for index constituents, indicative net asset value (iNAV), market maker requirements and requirements for synthetic ETFs.

Disclosure requirements for index constituents

Public comments

121. A few respondents sought clarification of the frequency for updating the top 10 largest constituent securities of an index disclosed in the offering documents and on the publicly accessible website referred to in the offering documents. One respondent argued that as index constituents are constantly changing, the disclosure in the offering documents offers little reference value for investors. At the same time, it is time consuming for fund managers to frequently update the documents.

122. One respondent suggested that the offering documents should, instead of stating the index constituents, advise investors to obtain the most updated index constituent information from the fund’s website. Two respondents proposed that the disclosure of the top 10 largest index constituents should only be required in the KFS rather than the main body of the offering document.

123. Two respondents further pointed out that neither the fund manager nor the passive ETF itself has the right to publish the index constituents on a publicly available website given that this is the index providers’ proprietary information. Fund managers may have to first obtain a licence from the index providers to publish the index constituent data. Separately, one respondent mentioned that the index providers may publish the index constituent information with certain restrictions or on a delayed basis.

The SFC’s response

124. This proposal was intended to provide convenience for fund managers by allowing them to disclose in the offering documents a publicly accessible website where the latest top 10 largest constituent securities of the index are published instead of frequently updating the offering documents with this information.

125. We are aware that some respondents considered it difficult to comply with the proposed requirement as the index constituent information is not publicly available. We subsequently conducted a survey to further understand the industry’s practices relating to the provision of information about indices. The survey suggests that the transparency of indices tracked by existing SFC-authorised unlisted index funds and passive ETFs varies.

126. Under the existing UT Code requirements, an acceptable index for SFC-authorised index funds must be transparent and published in an appropriate manner. We generally expect that information about index constituents, together with their respective weightings, should be easily accessible, free of charge, by investors (e.g., via the internet). Such information should be published after each index rebalancing on a retrospective basis and in
advance of the next index rebalancing. This is in line with comparable European Securities and Markets Authority requirements in Europe.

127. In light of the comments received, we have revised the UT Code to clarify the frequency for updating index information and that managers are only required to disclose in the offering document of passive ETFs and index funds a publicly accessible website where the constituents of the index together with their respective weightings are published. Given that the KFS forms part of the offering document, where the KFS has already included the disclosure of a publicly accessible website, the main body of the offering document is not required to provide the same disclosure.

iNAV

Public comments

128. Two respondents suggested that the SFC should remove the existing requirement for the publication of real time or near-real time iNAV for two reasons. First, the respondents were of the view that the iNAV is likely to be misleading for investors when the underlying securities of an ETF are traded across different time zones. Under such circumstances, the prices used to calculate the iNAV are essentially stale or stagnant while the local exchange is closed. Second, the respondents commented that there are inconsistencies in the pricing and calculation methodologies used by different service providers and funds. These inconsistencies might make the iNAV misleading.

129. One respondent proposed replacing the “iNAV” with the “adjusted iNAV”. According to the respondent, the calculation of “adjusted iNAV” involves using a proxy to determine the best estimate of fair value for the underlying securities which have stale prices. The respondent believed that the “adjusted iNAV” would be a more accurate representation of an ETF’s fair value.

The SFC’s response

130. We do not agree that the iNAV requirement should be removed. We believe the iNAV acts as an important mechanism for helping retail investors in the secondary market to gauge the value of the underlying portfolio against the ETF share price.

131. Fund managers are required to ensure information provided to investors (including iNAV) is not false or misleading, nor presented in a deceptive or unfair manner. They should, where appropriate, provide disclosures on their websites relating to the limitations of iNAV and the related reasons. Where the fund managers engage an external service provider to calculate the iNAV, proper due diligence should be conducted on the competence of such service provider, and there should be ongoing supervision and regular monitoring of the iNAV calculated.

132. While we require the iNAV to be calculated based on the most up-to-date information, fund managers should act in the best interests of investors and exercise their professional judgement to determine how the iNAV should be calculated to best reflect an ETF’s intraday intrinsic value. Fund managers may use the last trading price or other appropriate proxy for such calculations provided that this is clearly disclosed on the funds’ websites.
133. On a side note, we believe that ETF investors will be in a better position to make more informed investment decisions if they are provided with certain key metrics about the secondary trading of ETFs. As such, we are currently in discussion with the industry about enhancing disclosures relating to bid-ask spreads and premiums and discounts to NAV. In our view, these disclosures would promote transparency and facilitate investors’ assessment of the effectiveness of arbitrage mechanisms. In addition, it would help investors better understand the impact which trading costs may have on their investments in ETFs.

**Market maker requirements**

**Public comments**

134. Respondents generally had no objection to the codification of the market maker requirements. A respondent commented that the codification of existing market maker requirements for ETFs may be viewed as restrictive and stringent and might discourage new market makers from entering the market and existing market makers from staying.

135. Furthermore, the respondent said that since the market making obligation rules and arrangements are administrated by The Stock Exchange of Hong Kong Limited (SEHK) and the contractual agreement with market makers resides with SEHK, there is no regulatory recourse from the ETF issuer against the market maker if the last market maker of an ETF terminates its services prior to the expiry of the three months’ notice period. The respondent also pointed out that currently SEHK only requires market makers to provide one month’s notice of termination, instead of three months.

136. Based on the above, the respondent suggested that the SFC take into account the potential negative consequences and reconsider the existing requirements imposed upon market makers.

**The SFC’s response**

137. We have considered the feedback on the codification of the existing market maker requirements and concluded that the proposal we consulted on is the most appropriate approach.

138. We believe that the existing market maker requirements can ensure that ETF managers use their best endeavours to put in place arrangements so that there is at least one market maker for an ETF, and that at least one market maker will give not less than three months’ notice prior to terminating its market-making arrangement. Such requirements would allow ETF managers sufficient time to engage a new market maker and to unwind the ETF in an orderly manner in the event that the manager fails to locate a new market maker.
Requirements for synthetic ETFs

Public comments

139. One respondent asked the SFC to consider making a distinction between the requirements for physical ETFs and synthetic ETFs. The respondent said that it is currently difficult to launch synthetic ETFs in Hong Kong as they are by default regarded as derivative products and hence subject to enhanced distribution requirements without consideration of the actual risk. The respondent also mentioned that synthetic ETFs in Hong Kong are also by default subject to the US$50,000 minimum initial subscription amount by investors and stringent requirements for collateral, which is at odds with practices in other markets and imposes significant costs for end-investors.

The SFC’s response

140. Currently, while there is no regulatory requirement for the minimum initial subscription amount for synthetic ETFs, they are subject to the 100% collateralisation requirement to ensure that there is no uncollateralised derivative counterparty risk exposure. As noted in the consultation paper, we have codified the existing collateralisation requirement for synthetic ETFs. The revised UT Code should provide more clarity for the industry so that going forward, the full collateralisation and relevant disclosure requirements will only apply to synthetic ETFs (ie, with net derivative exposure exceeding 50% of total NAV).
V. Listed open-ended funds (also known as active ETFs)

Question 20: Do you agree with the proposed requirements for listed open-ended funds? Please explain your views.

141. We received several responses to the proposed introduction of listed open-ended funds (also known as active ETFs). The respondents generally supported our proposal as they consider that the introduction of active ETFs in Hong Kong would be conducive to the development of products which can better cater for the needs of investors. The feedback mainly focused on the portfolio information disclosure requirement (including suggestions for alternatives) and the naming of active ETFs.

Portfolio information disclosure requirement

Public comments

142. Two respondents were concerned that the disclosure of an active ETF’s full portfolio holdings to the public on a monthly basis (with a one-month time lag) may encourage front-running, which would be detrimental or prejudicial to the fund and its investors. One of them suggested that the SFC consider permitting the disclosure of an active ETF’s full portfolio holdings to the public on a monthly basis with a 60-day time-lag. Another respondent suggested adopting the Australian approach, where an active ETF’s full portfolio holdings only have to be made public on a quarterly basis with a two-month time lag.

143. Two respondents stressed the protection of the manager’s intellectual property and preferred masking an active ETF’s daily portfolio holdings. They suggested alternative approaches:

(a) **Proxy basket**: providing a tracking or proxy basket (instead of full portfolio holdings), as well as an intraday iNAV for the tracking basket, to the participating dealers and market makers on a daily basis. The proxy basket, optimised so that it could closely track the active ETF, would comprise stocks from the previously disclosed portfolio plus representative proxies such as ETFs.

(b) **Exchange Quoted Managed Fund (EQMF)**: adopting the EQMF model, which is currently only available in Australia when formulating portfolio disclosure requirements for active ETFs. Under the EQMF model, the fund manager will conduct internal market making (i.e., the manager will, through an executing agent, provide bids and offers in ETF units throughout the day on behalf of the fund) without disclosing the daily portfolio information.

144. Separately, a respondent suggested that the SFC may consider imposing guidelines to require investment managers to select market maker which only uses portfolio information for the stated purpose of making a market.
The SFC’s response

145. As mentioned in the consultation paper, we note that there are different regulatory approaches to the portfolio transparency requirement. We are fully aware of fund managers’ concerns that disclosing the full portfolio of an active ETF to the public on a daily basis may enable front running as well as the reverse engineering of a manager’s strategy. In this connection, we proposed in the consultation paper that it would be in the public interest not to require full portfolio disclosure to the public on a daily basis while allowing the provision of portfolio information to participating dealers and market makers ahead of the public. Having considered industry feedback, we maintain the view that the proposal we consulted on is the most appropriate approach, ie, to disclose an active ETF’s full portfolio to the public on a monthly basis with a one-month time lag.

146. Given that making daily portfolio information available to participating dealers and market makers is necessary to facilitate the provision of liquidity and the performance of effective arbitrage for ETFs, managers of SFC-authorised ETFs are expected to provide an ETF’s full portfolio information or proxy basket to participating dealers and market makers on a daily basis before trading commences. Fund managers should also put in place arrangements to ensure that the participating dealers and market makers use such information for creation, redemption or market-making purposes only. We may issue further guidance to the industry in relation to this.

147. As active ETFs are new to the Hong Kong market, we are prepared to consider suggestions for how to structure them provided that there are appropriate investor protection safeguards in place. Interested parties are welcome to approach us to discuss this.

Naming of active ETFs

Public comments

148. To facilitate investors' differentiation of active and passive ETFs, a respondent suggested that the naming of active ETFs should be distinctive, such as including the words “active ETF” in the fund name or using an annotation, distinctive exchange stock codes or stock short names.

The SFC’s response

149. We agree that it would be helpful for investors if there were distinctive ways to distinguish an active ETF from a passive ETF. We will require ETFs to clearly disclose in the upfront disclosure box in the KFS whether the fund is an active ETF or a passive ETF. In addition, for a fund with listed and unlisted share classes, the fund name in the KFS should include “(ETF class)” or “(unlisted class)” where appropriate, and separate KFS will be issued for the listed and unlisted share classes. We will issue KFS templates to provide guidance to the industry.

150. The SFC website will be enhanced so that investors can easily locate information on active and passive ETFs. SEHK is also considering setting up distinctive stock short names for active ETFs.

---

We generally expect a proxy basket to be highly correlated to the portfolio of an ETF (eg, creation or redemption basket).
VI. Closed-ended funds

Question 21: Do you agree with the proposed requirements for closed-ended funds? Please explain your views.

Public comments

151. Respondents generally supported our proposals regarding closed-ended funds. Some respondents noted potential difficulties in meeting the proposed requirement for a scheme to be widely held and to monitor compliance on an ongoing basis. Some respondents also sought further clarification of the requirement.

152. A few respondents suggested that the wording of the proposed 8.11(d) of the UT Code be revised with reference to 6.14 so as to provide greater flexibility for the timing of payment of redemption proceeds to cater for exceptional circumstances beyond the scheme’s control.

153. A respondent suggested that closed-ended funds be exempt from the restriction from investing in real estate under 7.14 of the UT Code. The respondent also enquired if the proposed requirement for daily disclosure of the NAV of closed-ended funds may be removed, given that such funds are more suited to longer-term investment and the less liquid nature of their underlying investments.

The SFC’s response

154. As closed-ended funds are to be listed and publicly offered and investors do not have the right to redeem their units or shares at the NAV of the funds, we have maintained the requirement that these funds be widely held. It is generally expected that there should be an initial public offering of these units or shares and an open market should be maintained for all schemes seeking authorisation under 8.11 of the UT Code. The UT Code has been revised to take into account the comments received and to reflect this requirement for clarity.

155. In respect of ongoing monitoring of compliance, schemes structured in corporate form would be subject to disclosure of interests requirements under the Securities and Futures Ordinance. Fund managers may also consider including disclosure of interests obligations on holders in the constitutive documents of their schemes where appropriate.

156. We have revised 8.11(d) of the UT Code taking into account the comments received in relation to redemption payments. Similar to 6.14 of the UT Code, the revised provision would allow some flexibility for the timing of redemption proceeds payments where payment within the prescribed period is not practicable due to legal or regulatory requirements.

17 The SFC would have regard to the relevant requirements under the Listing Rules in considering whether this requirement is met.

18 Part XV of the Securities and Futures Ordinance.
157. On investment scope, some flexibility from strict compliance with the relevant investment restrictions (including requirements regarding holding of illiquid investments) may be allowed taking into account the fund’s closed-end nature and investment strategy. However, it is expected that the scheme would remain generally invested in securities and other financial products or instruments. Investors may obtain exposure to real estate via other eligible securities and instruments. Applicants should consult the SFC at the earliest possible time on any flexibility to be sought.

158. Taking into account the consultation feedback, we have also fine-tuned the NAV disclosure requirement for closed-ended funds to provide more flexibility to better cater for the different nature of the investments of each scheme.
VII. Operational matters and on-going disclosure and reporting requirements

Question 22: Do you agree with the proposed amendments to the provisions in the UT Code relating to operational requirements and financial reporting? Please explain your views.

Valuation and pricing

Public comments

159. Several respondents requested that only material pricing errors should be reported to trustees or custodians. With respect to the requirement to report to the SFC a pricing error (individually or in aggregate resulting from incidences which occur in a simultaneous or successive manner) amounting to 0.5% or more of the fund’s NAV, a number of respondents sought clarifications of the meaning of “simultaneous or successive manner”.

The SFC’s response

160. Since the trustee or custodian has an oversight responsibility to take reasonable care to ensure the calculation of a fund’s NAV is in accordance with the constitutive documents, we believe that the trustee or custodian should be informed of all the pricing errors.

161. Regarding the reporting of pricing errors resulting from incidences occurring in a simultaneous or successive manner, the UT Code has been revised to clarify that recurring pricing errors due to the same incident or mistake which in aggregate amount to 0.5% or more of the fund’s NAV should be reported to the SFC.

Financial reports

Public comments

162. In relation to the proposal that annual reports must be prepared in compliance with internationally recognised accounting standards, a few respondents sought clarification of whether the accounting standards adopted by recognised jurisdiction schemes or funds under mutual recognition arrangements are considered acceptable to the SFC.

The SFC’s response

163. The proposal is a codification of existing practice and does not change the existing requirements. The accounting standards adopted by UCITS funds will continue to be deemed acceptable. A clarification has been made to the guidance on the application of the revised UT Code to UCITS funds as set out in Appendix B to this conclusions paper. The applications of funds under mutual recognition arrangements will continue to be processed in accordance with the relevant circulars and guidance.
VIII. Miscellaneous

A. Streamlining of specialised schemes in the UT Code

| Question 23: Do you agree with the proposed streamlining of specialised schemes in the UT Code? Please explain your views. |

Public comments

164. Respondents generally agreed with the proposed streamlining of specialised schemes in the UT Code. One respondent sought clarification of whether prior approval from the SFC and notification to investors would be required for the reclassification of futures and options funds as a result of the streamlining of specialised schemes in the UT Code.

The SFC’s response

165. No prior approval from the SFC or advance notice to investors would be required where there is no material change to the fund’s investment objectives or strategy, and the proposed changes to the fund reflect the changes necessary to comply with the chapter under which the fund would be classified, namely Chapter 8.7 (retail hedge funds), Chapter 8.8 (structured funds) or Chapter 8.9 (funds with extensive derivatives investments).

B. Consequential amendments to the MPF Code, PRF Code and ILAS Code

| Question 24: Do you agree with the proposed consequential amendments to the MPF Code? Please explain your views. |
| Question 25: Do you agree with the proposed consequential amendments to the PRF Code? Please explain your views. |
| Question 26: Do you agree with the proposed consequential amendments to the ILAS Code? Please explain your views. |

Public comments

166. Respondents agreed with or had no comments on the consequential amendments to the MPF Code, the PRF Code and the ILAS Code.

The SFC’s response

167. We have made further amendments to the MPF Code and PRF Code to streamline the post-authorisation process in respect of underlying fund-driven changes so that such changes will not require the SFC’s prior approval.

168. The SFC will adopt the consequential amendments to the ILAS Code as set out in Appendix E to this conclusions paper.
Section 2 – Application to UCITS funds

Question 27: Do you agree that a minimum initial subscription by investors be consistently applied to all highly leveraged funds? Do you consider the proposed US$50,000 or the equivalent threshold appropriate? Please explain your views.

Question 28: Do you agree that the requirement for disclosure of the purpose of, and expected maximum leverage arising from, derivatives investments should be consistently applied to all SFC-authorised funds? Please explain your views.

Application of UT Code to UCITS funds

Public comments

169. Respondents generally welcomed the clarification of the application of UT Code requirements to UCITS funds as set out in Appendix B to the consultation paper. Some respondents sought further clarification of whether the requirements under Chapter 7 of the revised UT Code are applicable to UCITS funds which are specialised schemes under Chapter 8 of the revised UT Code.

The SFC’s response

170. We have incorporated further clarifications and modifications regarding the application of the revised UT Code on UCITS funds in Appendix B to this conclusions paper. This will be published on the SFC website (subject to updates from time to time) as guidance to the industry.

Minimum initial subscription by investors

Public comments

171. A number of respondents suggested removing or lowering the minimum initial subscription by investors for UCITS funds with derivatives investments of more than 100% of the fund’s NAV.

The SFC’s response

172. Considering that UCITS funds, unlike retail hedge funds, are subject to a set of requirements to safeguard investors interests, and will also be subject to the enhanced disclosure of the leverage arising from derivatives investments in the KFS to increase transparency, we agree not to impose the minimum initial subscription requirement on UCITS funds.
Disclosure of use of derivatives or investment in derivatives

Public comments

173. In view of the enhanced disclosure requirements for the maximum leverage arising from derivatives investments in KFS, some respondents sought clarification of the application of the existing minimum disclosure of the derivatives investments of a UCITS fund, ie, whether the fund uses derivatives extensively for investment purposes, as set out in Annex 1 of the Guide on Practices and Procedures for Application for Authorization of Unit Trusts and Mutual Funds.

174. Some respondents also sought clarification of the calculation basis of the leverage arising from derivatives investments and whether the change of disclosure of derivatives investments would require the SFC’s prior approval.

The SFC’s response

175. The introduction of the enhanced disclosure requirements for the expected maximum leverage arising from derivatives investments in the KFS will replace the existing KFS disclosure requirements for UCITS funds to disclose whether the funds use derivatives extensively for investment purposes. The guide (see paragraph 173) will be revised to clarify this.

176. The calculation methodology for leverage arising from derivatives investments will be changed to net derivative exposure and in accordance with the derivative guide as discussed under paragraphs 79 and 81. Regarding the approval requirement for the change of leverage arising from derivatives investments, please refer to paragraphs 87 and 88.
Section 3 – Implementation

<table>
<thead>
<tr>
<th>Question 29:</th>
<th>Do you agree with the proposed implementation timetable for the proposed revised UT Code? If not, please set out your reasons and what you think is an appropriate transition period.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Question 30:</td>
<td>Do you agree with the proposed implementation timetable for the proposed revised MPF Code? If not, please set out your reasons and what you think is an appropriate transition period.</td>
</tr>
<tr>
<td>Question 31:</td>
<td>Do you agree with the proposed implementation timetable for the proposed revised PRF Code? If not, please set out your reasons and what you think is an appropriate transition period.</td>
</tr>
<tr>
<td>Question 32:</td>
<td>Do you agree with the proposed implementation timetable for the proposed revised ILAS Code? If not, please set out your reasons and what you think is an appropriate transition period.</td>
</tr>
</tbody>
</table>

Transition period

Public comments

177. Several respondents suggested extending the transition period for implementation of the revised UT Code to 18 months while one respondent suggested extending the period to 24 months. Respondents stated that a longer period of time is needed for market participants to change their systems and operations, and to update the offering documents and constitutive documents of the funds.

178. A respondent requested that a 12-month transition period be allowed for compliance with certain provisions of the revised UT Code, including requirements for the obligations of management companies, fair valuation and pricing errors, so as to allow time for management companies to assess the impact and enhance internal processes to ensure compliance.

179. Respondents generally agreed with or had no comment on the proposed implementation timetable for the revised MPF Code and PRF Code. One respondent suggested extending the transition period for the implementation of the revised MPF Code and PRF Code to 18 months.

180. Respondents generally agreed with or had no comment on the proposed implementation timetable for the revised ILAS Code. Two respondents provided the same comments they made on the transition period for the implementation of the revised UT Code as discussed in paragraphs 177 and 178.

The SFC’s response

181. Given that a majority of the proposals are codifications of existing practice and new proposals have been discussed with the industry for some time, we are of the view that a 12-month transition period is appropriate from the effective date of the revised UT Code, which is tentatively scheduled to be 1
January 2019\textsuperscript{20}. The paragraphs below elaborate on the implementation arrangements.

182. For the purpose of the implementation of the revised UT Code:

(a) “New schemes” refer to funds which apply for the SFC’s authorisation on or after the effective date;

(b) “New operators” refer to management companies which do not manage any SFC-authorised funds as at the effective date (new management companies); and trustees and custodians which do not act as the trustee or custodian of any SFC-authorised funds as at the effective date (new trustees and custodians);

(c) “Existing schemes” refer to funds which are authorised by the SFC as at the effective date; and funds which have applied for the SFC’s authorisation prior to the effective date and are subsequently authorised by the SFC; and

(d) “Existing operators” refer to management companies which are managing SFC-authorised funds as at the effective date (existing management companies); and trustees and custodians which are acting as the trustee or custodian of SFC-authorised funds as at the effective date (existing trustees and custodians).

183. The revised UT Code will apply to new schemes with new operators with immediate effect from the effective date.

184. We have simplified the implementation table (as set out below) to generally allow a 12-month transition period from the effective date for existing schemes and existing operators. During the 12-month transition period, existing schemes and existing operators may continue to operate in accordance with the relevant circulars and guidance currently in place.

185. Existing funds which will continue to be offered to the public in Hong Kong must produce a KFS with the enhanced disclosure for derivatives investments by the expiry of a 12-month transition period from the effective date.

186. Starting from the effective date, a new column will be added in the list of SFC-authorised funds shown on the SFC website which would indicate whether an SFC-authorised fund is or is not a derivative fund, as determined by the management company based on the net derivative exposure of the fund. Management companies will have a 12-month transition period from the effective date to provide confirmations and representations for this classification. We will also revise the references to “non-derivative funds”, “non-derivative ETFs” and “derivative funds” in the SFC’s non-exhaustive list of examples of investment products that are considered to be “non-complex” and “complex” on the SFC website based on the net derivative exposure.

187. Management companies should ensure that distributors have the necessary product information to understand the product to carry out their duties accordingly.

\textsuperscript{20} The effective date will be set out in the gazette notice to be published after the publication of this conclusions paper.
188. The same implementation timetable will apply to the revised MPF Code and PRF Code (wherever applicable).

189. The revised ILAS Code will take effect on the effective date and apply to investment-linked assurance schemes (ILAS) which apply for the SFC’s authorisation on or after the effective date. We will generally allow a 12-month transition period for compliance with the amendments to the ILAS Code (except for those with respect to Chapter 7 which will take effect immediately on the effective date) in the case of (i) ILAS which are authorised by the SFC as at the effective date and (ii) ILAS which have applied for the SFC’s authorisation prior to the effective date and are subsequently authorised by the SFC (together referred to as existing ILAS). Existing ILAS will be grandfathered in respect of the enhanced eligibility requirements for substantial financial institutions (defined under Chapter 3.17 of the ILAS Code) to act as guarantors as set out under Chapter 4.4 and Chapter 6.1 in Appendix E to this conclusions paper.

Implementation arrangements

Public comments

190. Clarification was sought of whether changes which are necessary for compliance with the revised UT Code will require the SFC’s prior approval and one month’s advance notice to investors.

The SFC’s response

191. The SFC’s prior approval and advance notice to investors will generally not be required for changes made to comply with the revised UT Code. We will provide further guidance to the industry by way of a set of frequently asked questions in respect of the approval and notification requirements for implementation of the revised UT Code.

Conclusion and way forward

192. The SFC will proceed to implement the proposals with the modifications and clarifications as set out in this conclusions paper. A marked-up version of the amendments to the UT Code are set out at Appendix A to this conclusions paper.

193. The SFC would like to thank all respondents for their submissions.
Final form of the amendments to the UT Code
Final form of the amendments to the UT Code

The highlighted parts indicate revisions to the UT Code which differ from the proposed amendments set out in the consultation paper.

Code on Unit Trusts and Mutual Funds
Implementation schedule

The effective date of this UT Code is 1 January 2019.

For the purpose of the implementation of this UT Code:

(a) “New schemes” refer to schemes which apply for the SFC’s authorization on or after the effective date;

(b) “New operators” refer to (i) management companies which do not manage any SFC-authorized schemes as at the effective date (new management companies); and (ii) trustees/custodians which do not act as the trustee/custodian of any SFC-authorized schemes as at the effective date (new trustees/custodians);

(c) “Existing schemes” refer to (i) schemes which are authorized by the SFC as at the effective date; and (ii) schemes which applied for the SFC’s authorization prior to the effective date and are subsequently authorized by the SFC; and

(d) “Existing operators” refer to (i) management companies which are managing SFC-authorized schemes as at the effective date (existing management companies); and (ii) trustees/custodians which are acting as the trustee/custodian of SFC-authorized schemes as at the effective date (existing trustees/custodians).

As from the effective date, this UT Code will apply to new schemes with new operators with immediate effect.

As for existing schemes and existing operators, a transition period of 12 months from the effective date will be provided to comply with this UT Code unless otherwise set out in the attached table.

Explanatory Notes:

(a) The Securities and Futures Commission is empowered under section 104(1) of the Securities and Futures Ordinance ("SFO") to authorize collective investment schemes. By virtue of section 104(1), the authorization may be granted subject to such conditions as the Commission considers appropriate. This Code on Unit Trusts and Mutual Funds ("UT Code"), which forms part of the Handbook, establishes guidelines for the authorization of collective investment schemes in the nature of mutual fund corporations or unit trusts, and codifies practices established in relation to the former Code on Unit Trusts and Mutual Funds published pursuant to the SFO. Any change or amendment to this UT Code will be made known to the industry and transitional periods for compliance will be allowed where necessary.

(b) The Commission may review its authorization at any time and may modify, add to or withdraw such authorization as it deems fit.

(c) The issue of an advertisement or invitation to the public in Hong Kong to invest in an unauthorized collective investment scheme may amount to an offence under section 103 of the SFO.

(d) This UT Code is made under section 399 of the SFO.

(e) This UT Code does not have the force of law.

(f) The Commission may modify or relax the application of a requirement in this UT Code if it considers that, in particular circumstances, strict application of the requirement would operate in an unduly burdensome or unnecessarily restrictive manner.

Part I: General matters

Chapter 1: Authorization procedures

Schemes established in Hong Kong or elsewhere

1.1 Schemes to be established in Hong Kong or elsewhere are normally expected to comply with the applicable provisions of the Handbook, including without limitation, all of the applicable provisions of this UT Code in order to be authorized in Hong Kong by the SFC pursuant to section 104 of the SFO.

Applications for authorization which seek waivers of any of these provisions must give detailed reasons why waivers are sought.

Scheme established in recognized jurisdictions

1.2 This UT Code accepts that some schemes already comply with certain provisions of this UT Code by virtue of prior authorization in a regulated jurisdiction. It therefore recognizes the types of scheme in jurisdictions set out in the list of recognized jurisdictions published on the Commission’s website. Applications for authorization of recognized jurisdiction schemes will generally be reviewed on the basis that the scheme’s structural and operational requirements, and core investment restrictions, already comply in substance with this UT Code. Applicants should note however that the SFC expects a scheme to comply in all material respects with this UT Code and reserves the right to require such compliance as a condition of authorization.

Documents to be supplied to the Commission

1.3 An applicant for authorization of a scheme must submit a completed Application Form and an Information Checklist as set out on the Commission’s website. The application must also be accompanied by the following and such other documents as may be required by the Commission from time to time:

(a) the scheme’s offering and constitutive documents, including its Hong Kong Offering Document and Product KFS [see 3.6, 3.9 and 3.11B];

(b) the scheme’s latest audited report (if any) and if more recent, the latest unaudited report;[deleted]

(c) management company profile [if applicable - see Application Form];[deleted]

(d) the trustee/custodian’s latest audited report [if applicable - see Application Form];[deleted]

(e) letter of consent to the appointment from the trustee/custodian (not required for recognized jurisdiction schemes or schemes already in existence);[deleted]

(f) application fee in the form of a cheque payable to the "Securities & Futures Commission"; and

Note: The current fee schedule is available on the Commission’s website.
(g) the letter nominating an individual to be approved by the Commission as an approved person [see 1.5] containing the individual’s name, employer, position held and contact details, including, in so far as applicable, the address, telephone and facsimile numbers, and electronic mail address.

The current fee schedule is available on the Commission’s website.

In addition to the above, applicants for authorization of a non Hong Kong-based scheme must supply the following:

(h) A written undertaking from the Hong Kong Representative Agreement and Undertaking [see Chapter 9.7].

Applicants for authorization of a recognized jurisdiction scheme must also supply:-

(i) evidence of the scheme’s authorized status in that jurisdiction [deleted]

Amendments to documents

1.4 In cases where it may not be suitable to amend documentation to comply with a requirement of the Handbook or this UT Code, the Commission may accept a written undertaking from the relevant party that they will comply with the requirement, together with disclosure in the Hong Kong Offering Document regarding compliance.

Nomination of an individual as approved person

1.5 According to sections 104(2) and 105(2) of the SFO, an individual must be approved for the purposes of being served by the Commission with notices and decisions for, respectively, the scheme and the issue of any related advertisement, invitation or document. An applicant for authorization is, therefore, required to nominate an individual for approval by the Commission as an approved person.

1.6 An approved person should:

(a) have his/her ordinary residence in Hong Kong;

(b) inform the Commission of his/her current contact details, including, in so far as applicable, the address, telephone and facsimile numbers, and electronic mail address;

(c) be capable of being contacted by the Commission by post, telephone, facsimile and electronic mail during business hours;

(d) inform the Commission of any change in his/her contact details within 14 days after the change takes place; and

(e) comply with any other requirements as the Commission considers appropriate.

1.7 An individual approved by the Commission as an approved person for a scheme shall generally be approved also for the issue of any advertisement, invitation or document made in respect of that scheme.
Chapter 2: Products Advisory Committee

Product advisory committee

2.1 According to section 8 of the SFO, the Commission is empowered to set up committees, whether for advisory or other purposes. The Commission will establish a Products Advisory Committee for the purpose of consultation and advice on matters which may relate to collective investment schemes within the scope of this UT Code of the Handbook. The remit of the Products Advisory Committee and its membership will be set out in its Terms of Reference.

2.2 [deleted]

2.3 [deleted]

2.4 [deleted]

2.5 [deleted]

Data privacy

2.6 The information requested under this UT Code may result in the applicant providing the Commission with personal data as defined in the Personal Data (Privacy) Ordinance. The data supplied will only be used by the Commission to perform its functions, in the course of which it may match, compare, transfer or exchange personal data with data held or obtained by the Commission, government bodies, other regulatory authorities, corporations, organizations or individuals in Hong Kong or overseas for the purpose of verifying those data. Subject to the limits in section 378 of the SFO, the Commission may disclose personal data to other regulatory bodies. You may be entitled under the Personal Data (Privacy) Ordinance to request access to or to request the correction of any data supplied to the Commission, in the manner and subject to the limitations prescribed. All enquiries should be directed to the Data Privacy Officer at the SFC.
Chapter 3: Interpretation

Unless otherwise defined, words and expressions used in this UT Code are as defined in the SFO.

3.1A “Advertising Guidelines” means the Advertising Guidelines Applicable to Collective Investment Schemes Authorized under the Product Codes.

3.1B “Capital markets scheme” means a scheme, the primary objective of which is to invest in debt securities which have a remaining term to maturity of one year or more.[deleted]

3.2 “Collective investment scheme” or “scheme” means collective investment schemes commonly regarded as mutual funds (whether they appear in the legal forms of contractual model, companies with variable capital or otherwise) and unit trusts as are contemplated in this UT Code.

3.3 “Commission” or “SFC” means the Securities and Futures Commission referred to in section 3(1) of the SFO.

3.4 [deleted]

3.5 “Connected person” in relation to a company means:-

(a) any person or company beneficially owning, directly or indirectly, 20% or more of the ordinary share capital of that company or able to exercise directly or indirectly, 20% or more of the total votes in that company; or

(b) any person or company controlled by a person who or which meets one or both of the descriptions given in (a); or

(c) any member of the group of which that company forms part; or

(d) any director or officer of that company or of any of its connected persons as defined in (a), (b) or (c).

3.6 “Constitutive documents” means the principal documents governing the formation of the scheme, and includes the trust deed in the case of a unit trust and the Articles articles of Association association of a mutual fund corporation and all material agreements.

3.7 “Distribution function” refers generally to those functions described in 9.3 (a) to (d) of this UT Code.[deleted]

3.7A “Financial derivative instruments” refers to financial instruments which derive their value from the value and characteristics of one or more underlying assets.

3.8 “Holder” in relation to a unit or share in a scheme means the person who is entered in the register as the holder of that unit or share or the bearer of a bearer certificate representing that unit or share.

3.8A “Hong Kong Representative” or “Representative” means the Hong Kong representative appointed pursuant to 9.1 of this UT Code.
3.9 “Hong Kong Offering Document” means an offering document for distribution in Hong Kong containing the information required by Appendix C of this UT Code, and any other information necessary for investors to make an informed judgement about the scheme.

3.9A “Investment delegate” means an entity that has been delegated the investment management function of a scheme.

3.9B “Management company” means the entity appointed pursuant to 5.1 of this UT Code.

3.10 “Offering document” means that document, or documents issued together, containing information on a scheme to invite offers by the public to buy units/shares in the scheme.

3.10A “Reverse repurchase transactions” means transactions whereby a scheme purchases securities from a counterparty of sale and repurchase transactions and agrees to sell such securities back at an agreed price in the future.

3.10B “Sale and repurchase transactions” means transactions whereby a scheme sells its securities to a counterparty of reverse repurchase transactions and agrees to buy such securities back at an agreed price with a financing cost in the future.

3.10C “Securities financing transactions” has the meaning ascribed to it in 7.32 of this UT Code.

3.10D “Securities lending transactions” means transactions whereby a scheme lends its securities to a security-borrowing counterparty for an agreed fee.

3.11 “SFO” means the Securities and Futures Ordinance (Chapter 571 of the Laws of Hong Kong).

3.11A “Product Code” means any of the following codes administered by the Commission:

(a) Code on Unit Trusts and Mutual Funds
(b) Code on Investment-Linked Assurance Schemes
(c) Code on Pooled Retirement Funds
(d) SFC Code on MPF Products

3.11B “Product KFS” means the Product Key Facts Statement which is the statement required pursuant to 6.2A.

3.12 “Recognized jurisdiction scheme” means a scheme authorized pursuant to overseas laws as listed in the list of recognized jurisdiction schemes which is published on the Commission’s website as amended from time to time.

3.12A “Registered person” means a “registered institution” and, except where the context otherwise requires, includes a “relevant individual” as defined in section 20(10) of the Banking Ordinance (Chapter 155 of Laws of Hong Kong).

3.13 “Substantial financial institution” means an authorized institution as defined in section 2(1) of the Banking Ordinance (Chapter 155 of Laws of Hong Kong) or a financial institution which is on an ongoing basis subject to prudential regulation and supervision, with a minimum paid-up capital/net asset value of HK$450,000,000 or its equivalent in foreign currency.
3.14 “Trustee/custodian”, “trustee” or “custodian” means the entity appointed pursuant to 4.1 of this UT Code and, for the avoidance of doubt, refers to the trustee of a scheme in the case of a unit trust and the custodian of a scheme in the case of a mutual fund corporation.

3.15 “UCITS scheme” means a collective investment scheme which is already authorized under the relevant national legislation of a member state of the European Union implementing the “Council Directive 85/611/EC of 20 December 1985 on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities (UCITS)” (as amended). [deleted]
Part II: Authorization requirements

Chapter 4: Trustee/Custodian

Appointment of Trustee/Custodian

4.1 Every collective investment scheme for which authorization is requested must appoint a trustee (in the case of a unit trust) or a custodian (in the case of a mutual fund corporation) that is acceptable to the Commission and shall comply with this Chapter on an ongoing basis.

Notes (1): Schemes established under trust must have a trustee and mutual fund corporations must have a custodian. In this context, this chapter lists the general obligations of the applicable equally to both trustee and custodian, whichever is appointed. The constitutive documents [see Appendix D] of the scheme must conform in substance to the intended operative effect of the provisions in this Chapter 4. Trustees are expected to fulfill the duties imposed on them by the general law of trusts. In the case of a mutual fund corporation, the responsibilities of a custodian should under Chapter 4 may be reflected in a constitutive document such as a Custodian Agreement. [see Appendix D] the custodian agreement and/or the management agreement instead of the articles of association, where appropriate.

Notes (2): An acceptable trustee/custodian should either:

(i) on an ongoing basis, be subject to regulatory prudential regulation and supervision on an ongoing basis. Trustee/custodian shall appoint an independent auditor to periodically review its internal controls and systems on terms of reference agreed with the Commission in compliance with this UT Code [see Appendix G] and should file such report with the Commission, unless such trustee/custodian is prudentially regulated and supervised by an overseas supervisory authority acceptable to the Commission; or

(ii) appoint an independent auditor to periodically review its internal controls and systems on terms of reference agreed with the SFC and should file such report with the SFC. [see Appendix G - “Guidelines for Review of Internal Controls and Systems of Trustees/Custodians”]

4.2 A trustee/custodian must be:-

(a) a bank licensed under section 16 of the Banking Ordinance (Chapter 155 of Laws of Hong Kong); or

(b) a trust company registered under Part VIII of the Trustee Ordinance (Chapter 29 of Laws of Hong Kong) which is a subsidiary of such a bank or a banking institution falling under 4.2(d); or

Note: In determining the acceptability of a subsidiary of a banking institution falling under 4.2(d), the Commission will take into account factors
including the level of oversight and supervision from such banking institution.

(c) a trust company which is a trustee of any registered scheme as defined in section 2(1) registered under Part VIII of the Trustee Ordinance (Chapter 29 of Laws of Hong Kong) and approved by the Mandatory Provident Fund Schemes Authority pursuant to Section 20 of the Mandatory Provident Fund Schemes Ordinance (Chapter 485 of Laws of Hong Kong) (as may be amended from time to time); or

(d) a banking institution or trust company incorporated outside Hong Kong which is subject to prudential regulation and supervision on an ongoing basis, or an entity which is authorized to act as trustee/custodian of a scheme and prudentially regulated and supervised by an overseas supervisory authority and acceptable to the Commission.

4.3 A trustee/custodian must be independently audited and have minimum issued and paid-up share capital and non-distributable capital reserves of HK$10 million or its equivalent in foreign currency.

4.4 Notwithstanding 4.3 above, the trustee/custodian's paid-up share capital and non-distributable capital reserves may be less than HK$10 million if the trustee/custodian is a wholly-owned subsidiary of a substantial financial institution (the holding company); and

(a) the holding company issues a standing commitment to subscribe sufficient additional capital up to the required amount, if so required by the Commission; or

(b) the holding company undertakes that it would not let its wholly-owned subsidiary default and would not, without prior approval of the Commission, voluntarily dispose of, or permit the disposal or issue of any share capital of the trustee/custodian such that it ceases to be a wholly-owned subsidiary of the holding company.

**General obligations of trustee/custodian**

4.5 The trustee/custodian must:

(a)

(i) take into its custody or under its control all the property of the scheme and hold it in trust for the holders (in the case of a unit trust) or the scheme (in the case of a mutual fund corporation) in accordance with the provisions of the constitutive documents;

Note: With respect to property of the scheme which by nature cannot be held in custody, the trustee/custodian shall maintain a proper record of such property in its books under the name of the scheme.

(ii) register cash and registrable assets in the name of or to the order of the trustee/custodian; where borrowing is undertaken for the account of the scheme, such assets may be registered in the lender's name or in that of a nominee appointed by the lender; and
(iii) be liable for the acts and omissions of its nominees, agents, and delegates in relation to assets forming part of the property of the scheme;

Note: Any nominees, agents and delegates which are appointed for the custody and/or safekeeping of the property of the scheme shall be subject to prudential regulation and supervision, unless otherwise accepted by the Commission. The Commission must be satisfied with the overall custodial/safekeeping arrangement put in place to provide proper and adequate safeguards for the property of the scheme, having taken into account, among others, applicable local legal and regulatory requirements. Such nominees, agents and delegates which are not subject to prudential regulation and supervision, are required by the local laws to hold the relevant property of the scheme, and no other local entities being prudentially regulated and supervised are allowed to hold such property of the scheme.

(iv) segregate the property of the scheme from the property of:

(1) the management company, investment delegates and their respective connected persons;

(2) the trustee/custodian and any nominees, agents or delegates throughout the custody chain; and

(3) other clients of the trustee/custodian and nominees, agents or delegates throughout the custody chain, unless held in an omnibus account with adequate safeguards in line with international standards and best practices to ensure that the property of the scheme is properly recorded with frequent and appropriate reconciliations being performed; and

(v) put in place appropriate measures for the verification of ownership of the property of the scheme;

(b) take reasonable care to ensure that the sale, issue, repurchase, redemption and cancellation of units/shares effected by a scheme are carried out in accordance with the provisions of the constitutive documents;

(c) take reasonable care to ensure that the methods adopted by the management company in calculating the value of units/shares are adequate to ensure that the sale, issue, repurchase, redemption and cancellation prices are calculated in accordance with the provisions of the constitutive documents;

(d) carry out the instructions of the management company in respect of investments unless they are in conflict with the provisions of the offering or constitutive documents or this UT Code;

(e) take reasonable care to ensure that the investment and borrowing limitations set out in the constitutive documents and the conditions under which the scheme was authorized are complied with;
issue a report to the holders to be included in the annual report on whether in the trustee/custodian's opinion, the management company has in all material respects managed the scheme in accordance with the provisions of the constitutive documents; if the management company has not done so, the respects in which it has not done so and the steps which the trustee/custodian has taken in respect thereof; and

where applicable, take reasonable care to ensure that unit/share certificates are not issued until subscription moneys have been paid;

take reasonable care to ensure that the cash flows of the scheme are properly monitored, and in particular, that all the payments made by, or on behalf of, investors upon subscription of units/shares of the scheme have been received, and that all cash of the scheme has been booked in the cash accounts of the scheme;

Note: For the purpose of satisfying the obligations in 4.5(h), the trustee/custodian shall comply with the requirements set out in paragraph 8.A(c)(12) of Appendix G.

exercise reasonable care, skill and diligence in the selection, appointment and ongoing monitoring of nominees, agents and delegates appointed by the trustee/custodian as well as any nominees, agents and delegates which are appointed for the custody and/or safekeeping of scheme's property [see 4.5(a)(iii)]; and be satisfied that any the nominees, agents and delegates appointed for the functions or operations that are relevant in discharging the obligations and duties of a trustee/custodian retained remain suitably qualified and competent on an ongoing basis to provide the relevant services and/or perform the delegated duties [see Note to paragraph 1 of Appendix G];

fulfil such other duties and requirements imposed on it as set out in this UT Code; and exercise due skill, care and diligence in discharging its obligations and duties appropriate to the nature, scale and complexity of the scheme; and

Note: In discharging its obligations, trustee/custodian shall make reference to the minimum requirements on the terms of reference for the review of internal controls and systems of trustee/custodian as set out in Appendix G.

establish clear and comprehensive escalation mechanisms to deal with potential breaches detected in the course of discharging its obligations and report material breaches to the Commission in a timely manner.

Note: Among others, the trustee/custodian is expected to (i) update the management company and report to the Commission (either directly or via the management company) on any material issues or changes that may impact its eligibility/capacity to act as trustee/custodian of a scheme and (ii) inform the Commission promptly of any material breach of this UT Code and applicable provisions of the Handbook with respect to the scheme that has come to their reasonable knowledge, which has not been otherwise reported to the Commission by the management company.
Retirement of trustee/custodian

4.6 The trustee/custodian may not retire except upon the appointment of a new trustee/custodian and subject to the prior approval of the Commission [see 11.1]. The retirement of the trustee/custodian should take effect at the same time as the new trustee/custodian takes up office.

Independence of trustee/custodian and the management company

4.7 The trustee/custodian and the management company must be persons who are independent of each other.

4.8 Notwithstanding 4.7 above, if the trustee/custodian and the management company are both bodies corporate having the same ultimate holding company, whether incorporated in Hong Kong or outside Hong Kong, the trustee/custodian and the management company are deemed to be independent of each other if:

(a) they are both subsidiaries of a substantial financial institution;

(b) neither the trustee/custodian nor the management company is a subsidiary of the other;

(c) no person is a director of both the trustee/custodian and the management company; and

(d) both the trustee/custodian and the management company sign an undertaking that they will act independently of each other in their dealings with the scheme.

Note: Among other things, there should be systems and controls in place to ensure that the persons fulfilling the custodial function / the safekeeping of the scheme's assets are functionally independent from the persons fulfilling the scheme's management or administration functions, for example, with an independent board, separate governance structure / lines of reporting to the management of the trustee/custodian and separate operational teams within the same corporate group.

(b) the scheme is established in a jurisdiction where the trustee/custodian and the management company are required by law to act independently of one another.
Chapter 5: Management company and auditor

Appointment of the management company

5.1 Every collective investment scheme for which authorization is requested must appoint a management company acceptable to the Commission, except as provided for self-managed schemes below and shall comply with this Chapter on an ongoing basis.

Note: The investment management operations of a fund management company or those of the investment adviser (where the latter the investment delegate (who has been delegated the investment management function) of a scheme) should either be licensed or registered in Hong Kong [see 5.6] or based in a jurisdiction with an inspection regime acceptable to the Commission. A list of acceptable inspection regimes is published on the Commission’s website. The Commission will consider other jurisdictions on their merits and may accept an undertaking from the management company that the books and records in relation to its management of a scheme will be made available for inspection by the Commission on request.

5.2 A management company must:

(a) be engaged primarily in the business of fund management;
(b) have sufficient financial resources at its disposal to enable it to conduct its business effectively and meet its liabilities; in particular, it must have a minimum issued and paid-up share capital and non-distributable capital reserves of HK$10 million or its equivalent in foreign currency;
(c) not lend to a material extent; and
(d) maintain at all times a positive net asset position.

5.3 Indebtedness owed by the management company to its parent company will be considered as part of capital for the purpose of 5.2(b) in the following circumstances:

(a) the indebtedness must not be settled without the prior written consent of the Commission; and
(b) the indebtedness must be subordinated to all other liabilities of the management company, both in terms of its entitlement to income and its rights in a liquidation.

Qualifications of Directors

5.4 The directors of the management company must be of good repute and in the opinion of the Commission possess the necessary experience for the performance of their duties. In determining the acceptability of the management company, the Commission may consider the qualifications and experience of persons employed by the management company and any appointed investment adviser delegate.
Criteria for Acceptability of Management Company

5.5 The acceptability of the management company will be assessed on the following criteria:

(a) The key personnel of the management company or and those of the investment adviser (where the latter has been delegated the investment management function) are expected to possess at least five years investment experience in managing unit trusts or other public funds with reputable institutions. The expertise gained should be in the same or similar type of investments as those proposed for the funds seeking authorization.

Notes: (1) With respect to a management company and an investment delegate belonging to a well-established fund management group(s), the requirement for the key personnel to possess public funds experience may be satisfied if the management company or the investment delegate (as the case may be) on a group-wide basis is able to demonstrate that it possesses the requisite experience and resources as well as appropriate oversight, monitoring and supervision systems to administer public funds (i.e. a fund management group of at least five years of establishment in managing public funds and with good regulatory records). The Commission will take into account various factors in assessing the fund management group’s relevant overall experience, resources and capabilities, including, without limitations, the amount of assets under management attributable to public funds, the group-wide internal controls and risk management systems in place in connection with the management of public funds, and the jurisdiction(s) where the related investment management function(s) and operation(s) of the group is/are based in (with reference to the list of acceptable inspection regimes published on the Commission’s website [see Note to 5.1]). The Commission may require substantiation on the experience in managing public funds and the track record of the management company and its group companies, where applicable.

(2) For the avoidance of doubt, the key personnel are expected to possess at least five years investment experience notwithstanding Note(1) to 5.5(a).

(b) Key personnel must be dedicated full-time staff with shall have a demonstrable investment track record in the management of unit trusts or mutual funds public funds in accordance with 5.5(a) and must dedicate sufficient time, resources and attention in the management of a scheme. In assessing the qualifications of the personnel of the management company, the Commission may request resumes of the directors of the management company and its delegates (if any).

Notes: (1) In general, there must be at least two key personnel designated for each of the management company and investment delegate (if any) in managing the scheme seeking authorization. In any event, the management company should maintain proper up-to-date records regarding the key personnel of the scheme from time to time and such records must be made available to the Commission upon request.
(2) In the case of a multimanager scheme which is generally expected to have at least three sub-managers delegated with investment function in managing the scheme's assets under the active monitoring of the management company, the Commission may accept that the key personnel of such sub-managers have demonstrable investment experience in areas not limited to that relating to public funds on a case-by-case basis. The offering document of the scheme should clearly disclose, among others, the due diligence processes adopted by the management company in selecting and monitoring the sub-managers on an ongoing basis.

(c) Sufficient human and technical resources must be at the disposal of the management company, which should not rely solely on a single individual's expertise.

(d) The Commission must be satisfied with the overall integrity of the applicant management company. Reasonable assurance must be secured of the adequacy of internal controls and the existence of written procedures, which should be regularly monitored by its senior management for updatedness and compliance. Conflicts of interests must be properly addressed to safeguard investors' interests.

(e) Where the investment management functions are delegated to third parties, there should be ongoing supervision and regular monitoring of the competence of the delegates by the management company to ensure that the management company's accountability to investors is not diminished. Although the investment management role of the management company may be subcontracted to third parties, the responsibilities and obligations of the management company may not be delegated.

**Licensing Requirement**

5.6 The type of licence required depends on the functions performed by the management company in Hong Kong. A management company should be properly licensed or registered under Part V of the SFO to carry on its regulated activities.

**Self-managed Schemes**

5.7 Notwithstanding 5.1, a scheme could be managed by its own board of directors who perform the functions of a management company where the scheme’s investment management function is delegated at all times to a qualified investment delegate in compliance with this Chapter. In this case, references in this UT Code to the directors of a management company are deemed to be references to the directors of a self-managed scheme.

5.8 The directors of a self-managed scheme are prohibited from dealing with the scheme as principals.

5.9 The regulations of a self-managed scheme must contain the following provisions:-

(a) that holders could convene a meeting and, by way of an ordinary resolution, remove any of the directors considered no longer fit and proper to manage the scheme’s assets; and
that the directors' fees and remuneration should be fixed by the holders at a general meeting.

**General obligations of a management company**

5.10 A management company must:

(a) manage the scheme in accordance with the scheme's constitutive documents and in the best interests of the holders. It is also expected to fulfill the duties imposed on it by the general law;

(b) maintain or cause to be maintained the books and records of the scheme and prepare the scheme's accounts and financial reports. At least two reports must be published in respect of each financial year. These reports must be sent prepared and made available to all registered holders and filed with the Commission within the time frame specified in a manner in accordance with 11.6, 11.6A and 11.8; and

(c) ensure that the constitutive documents are made available for inspection by the public in Hong Kong, free of charge at all times during normal office hours at its place of business or that of its Hong Kong Representative and make copies of such documents available upon the payment of a reasonable fee;

(d) take all reasonable care steps to ensure that the trustee/custodian is properly qualified for the performance of its duties and functions and discharging its obligations in respect of custody of a scheme's property, having regard to the requirements as set out in Chapter 4;

Note: For the avoidance of doubt, the management company should:

(1) comply with all applicable legal and regulatory requirements in respect of custody of the scheme's property; and

(2) provide relevant information to the trustee/custodian to discharge its obligations pursuant to 4.5.

(e) at all times demonstrate that those representatives and agents (including for example, administrators, sub-custodians, brokers, valuation agents) appointed by it or engaged for the scheme possess sufficient know-how, expertise and experience in dealing with the underlying investments of the scheme;

(f) put in place proper risk management and control systems to effectively monitor and measure the risks of the positions of the scheme and their contribution to the overall risk profile of the scheme's portfolio; and

Note: Among others, the management company must:

(1) put in place suitable and adequate risk management and control systems to monitor, measure, and manage all the relevant risks (including risks associated with financial derivative investment activities) in relation to the scheme. The risk management and control systems must (i) be commensurate with the nature and scale
of the transactions and investment activities (including those related to financial derivative instruments) that are undertaken for the scheme, bearing in mind the retail nature and risk profile of the scheme and (ii) be able to deal with normal and exceptional circumstances including extreme market conditions. The management company must maintain at all times effective risk management and control systems;

(2) at all times be adequately and suitably resourced (including having sufficient human resources) in order to properly implement its risk management policy and procedures;

(3) maintain and implement effective liquidity risk management policies and procedures (including stress testing, where applicable) to monitor the liquidity risk of the scheme, taking into account factors including the investment strategy and objectives, investor base, liquidity profile, underlying obligations and redemption policy of the scheme;

(4) maintain and implement effective internal policies and procedures in assessing the credit risk of securities or instruments invested by the scheme. External ratings shall only be one of the factors to take into consideration in assessing the credit quality of an instrument. Mechanistic reliance on external ratings should be avoided; and

(5) comply with all applicable legal and regulatory requirements concerning the risk management of a scheme.

(g) ensure the scheme is designed fairly, and operated according to such product design on an ongoing basis, including, among others, managing the scheme in a cost-efficient manner taking into account the size of the scheme and the level of fees and expenses etc.

Retirement of a management company

5.11 The management company must be subject to removal by notice in writing from the trustee or the directors of a mutual fund corporation in any of the following events:-

(a) the management company goes into liquidation, becomes bankrupt or has a receiver appointed over its assets; or

(b) for good and sufficient reason, the trustee or the directors of a mutual fund corporation state in writing that a change in management company is desirable in the interests of the holders; or

(c) in the case of a unit trust, holders representing at least 50% in value of the units outstanding (excluding those held or deemed to be held by the management company), deliver to the trustee a written request to dismiss the management company.

5.12 In addition, the management company must retire:-

(a) in all other cases provided for in the constitutive documents; or
(b) when the Commission withdraws its approval of the management company.

5.13 The Commission must be informed by the trustee or the directors of a mutual fund corporation of any decision to remove the management company.

5.14 Upon the retirement or dismissal of the management company, the trustee or the directors of a mutual fund corporation must appoint a new management company as soon as possible, subject to the approval of the Commission.

**Appointment of the auditor**

5.15 The management company or the directors of a mutual fund corporation must, at the outset and upon any vacancy, appoint an auditor for the scheme.

5.16 The auditor must be independent of the management company, the trustee/custodian, and, in the case of a mutual fund corporation, the directors.

5.17 The management company must cause the scheme's annual report to be audited by the auditor, and such report should contain the information in Appendix E.
Chapter 6: Operational requirements

Scheme documentation

Matters to be disclosed in offering document

6.1 Authorized schemes must issue an up-to-date offering document, which should contain the information necessary for investors to be able to make an informed judgement of the investment proposed to them, and in particular should contain the information listed in Appendix C.

Note: Provided that the Commission is satisfied that the overall disclosure of required information is clear, a scheme may supplement an overseas offering document with a Hong Kong Covering Document. The Commission however specifically encourages the use of a short, clearly written Hong Kong Offering Document.

English and Chinese offering documents

6.2 Except as provided herein, the information required in Appendix C must be provided in the English and Chinese languages. The Commission may waive the requirement that the information be provided in both languages on a case by case basis where the management company satisfies the Commission that the scheme will only be offered to persons who are fully conversant in the language in which it is intended to publish the information.

Product KFS

6.2A An authorized scheme must issue a Product KFS. Such statement shall be deemed to form a part of the offering document and shall contain information that enables investors to comprehend the key features and risks of the scheme.

Notes: (1) The Commission may, on an exceptional basis, allow the Product KFS not to be deemed to form a part of the offering documents of certain foreign schemes, on the basis of overriding legal requirements of the home jurisdiction.

(2) Illustrative templates of the Product KFS are available on the Commission’s website.

Accompaniment to offering document

6.3 The offering document must be accompanied by the scheme’s most recent audited annual report and accounts together with its semi-annual interim report if published after the annual report.

Application form

6.4 No application form may be supplied provided to any person not a holder member of the public unless it is accompanied by the offering document, except that an advertisement or report containing all the requirements of Appendix C may be allowed to incorporate an application form.
Inclusion of performance data

6.5 If performance data or estimated yield is quoted, the Commission may require supporting documentation. No forecast of the scheme’s performance may be made. The publication of a prospective yield does not constitute a forecast of performance.

Contents of constitutive documents

6.6 The constitutive documents of a scheme should contain the information listed in Appendix D. Nothing in the constitutive documents may provide that the trustee/custodian, management company or directors of the scheme can be exempted from any liability to holders imposed under Hong Kong law or the law of the scheme’s place of domicile or breaches of trust through fraud or negligence, nor may they be indemnified against such liability by holders or at holders’ expense.

Changes to scheme documentation

6.7 The constitutive documents may be altered by the management company and trustee/custodian, without consulting holders, provided that the trustee/custodian certifies in writing that in its opinion the proposed alteration:-

(a) is necessary to make possible compliance with fiscal or other statutory, regulatory or official requirements; or

(b) does not materially prejudice holders’ interests, does not to any material extent release the trustee/custodian, management company or any other person from any liability to holders and does not increase the costs and charges payable from the scheme property; or

(c) is necessary to correct a manifest error.

In all other cases involving any material changes, no alteration may be made except by a special or extraordinary resolution of holders or the approval of the Commission.

Member register

6.8 The scheme, or in the case of a unit trust, the trustee or the person so appointed by the trustee must maintain a register of holders. The Commission must be advised on request of the address(es) where the register is kept.

Investment plans

6.9 If investment plans are offered: [deleted]

(a) before contracting for a plan, a prospective planholder must be given full details in writing of his rights and obligations, of all costs and charges levied on planholders and of the consequences of terminating his plan;

(b) unless he has requested to the contrary, each planholder must be advised at least once every quarter of the opening balance of units, latest transaction details and closing balance of units;
(c) the plan must include a direction to potential investors that they should refer to the offering document of the scheme to which they are considering linking their plan;

(d) an investment plan leaflet to be distributed in Hong Kong must not solicit investment in schemes which have not been authorized by the Commission; and

(e) in respect of any increase of initial fee of investment plans up to the maximum permitted level, no less than one month’s prior notice must be given to holders concerned.

Pricing, issue and redemption of units/shares

Initial offers

6.10 If an initial offer is made, no investment of subscription money can be made until the conclusion of the first issue of units/shares at the initial price.

Valuation and pricing

6.11 Offer and redemption prices should be calculated on the basis of the scheme’s net asset value divided by the number of units/shares outstanding. Such prices should fairly reflect the value of a scheme’s assets and may be adjusted by fees and charges, provided the amount or method of calculating such fees and charges is clearly disclosed in the offering document.

6.11A The management company should establish appropriate policies and procedures for independent valuation of each type of assets held by a scheme in consultation with the trustee/custodian. Such policies and procedures should seek to detect, prevent and correct pricing errors and be consistently applied. The management company should review the valuation policies and procedures on a periodic basis to ensure their continued appropriateness and effective implementation. The valuation policies, and procedures and the valuation process should be reviewed (at least annually) by a competent and functionally-independent party such as an independent third party or a person performing an independent audit function at least annually.

Notes:

(1) Where fair value adjustments are necessary in view that market value of a scheme’s assets is unavailable, or reasonably considered to be not reliable or reflective of an exit price upon current sale, the management company shall conduct such adjustments with due skill, care and diligence, and in good faith. The process and conduct of fair value adjustments should be done by the management company in consultation with the trustee/custodian.

(2) The management company must comply with all applicable legal and regulatory requirements in respect of the valuation of a scheme’s assets.

(3) For the purpose of satisfying the requirement on independent review of valuation policies, and procedures and the valuation process, the review should include testing the valuation procedures by which scheme assets are valued. The management company shall prepare the annual report of a scheme in a manner in accordance with 5.17, 11.6, 11.6A and
Appendix Exercise due skill, care and diligence in the selection of a competent and functionally-independent party.

6.11B Assets of a scheme should be valued on a regular basis and in any event, on the days that the scheme’s units/shares are offered or redeemed in accordance with the constitutive documents. Valuation frequency and the basis of valuation of a scheme’s assets should be clearly disclosed in the offering document.

6.11C Where a third party is engaged in the valuation of a scheme, the management company shall exercise reasonable care, skill and diligence in the selection, appointment and ongoing monitoring of such third party in ensuring such entity possesses the appropriate level of knowledge, experience and resources that commensurate with the appropriate valuation policies and procedures for each scheme. The valuation activities of such third party should be subject to ongoing supervision and periodic review by the management company.

**Valuation of unquoted securities**

6.12 The value of investments not listed or quoted on a recognized market should be determined on a regular basis by a professional person approved by the trustee/custodian as qualified to value such investments. Such professional person may, with the approval of the trustee/custodian, be the management company.

**Dealing**

6.13 There must be at least one regular dealing day per month except for a closed-ended fund authorized pursuant to 8.11 of this UT Code. Any offer price which the management company or the distribution company quotes or publishes must be the maximum price payable on purchase and any redemption price must be the net price receivable on redemption.

Notes: (1) The management company should ensure that it sets a dealing frequency for units/shares in the scheme which is appropriate for its investment objectives and approach, taking into account its liquidity risk management process that enables effective processing of redemptions and other payment obligations. The management company should give due consideration to the structure of the scheme and the appropriateness of the dealing frequency having regard to, among others, the investor base, investment objectives and strategy and also the nature and expected liquidity of the underlying assets of the scheme.

(2) Subscription or redemption of a scheme’s units/shares must be effected on the basis of an unknown/forward price to ensure incoming, existing and outgoing investors are treated fairly and equitably.

6.14 The maximum interval between the receipt of a properly documented request for redemption of units/shares and the payment of the redemption money to the holder may not exceed one calendar month unless the market(s) in which a substantial portion of investments is made is subject to legal or regulatory requirements (such as foreign currency controls) thus rendering the payment of the redemption money within the aforesaid time period not practicable. In such case, the extended time frame for the payment of redemption money shall reflect the additional time needed in light of the specific circumstances in the relevant market(s).
Meetings

6.15 A scheme should arrange to conduct general meetings of holders as follows:–

(a) Holders must be able to appoint proxies;

(b) Votes should be proportionate to the number of units/shares held or to the value of units/shares held where there are accumulation units/shares;

(c) The quorum for meetings at which a special or extraordinary resolution is to be considered should be the holders of 25% of the units or shares in issue and 10% if only an ordinary resolution is to be considered;

(d) If within half an hour from the time appointed for the meeting a quorum is not present, the meeting should be adjourned for not less than 15 days. The quorum at an adjourned meeting will be those holders present at the adjourned meeting in person or by proxy;

(e) If the possibility exists of a conflict of interest between different classes of holders there should be provision for class meetings;

(f) An Extraordinary General Meeting should be called for the following purposes:

(i) to modify, alter or add to the constitutive documents, except as provided in 6.7; or

(ii) to terminate the scheme (unless the means of termination of the scheme are set out in the constitutive documents, in which case termination must be effected as required) [see D17 of Appendix D];

(iii) to increase the maximum fees paid to the management company, trustee/custodian or directors of the scheme; or [deleted]

(iv) to impose other types of fees [deleted]

(g) Where bearer units are in issue, provision must be made for notification to bearer holders in Hong Kong of the timing and agenda of forthcoming meetings and voting arrangements; [deleted]

(h) The directors of the scheme, the trustee/custodian, the management company, investment adviser, delegate and any of their connected persons must be prohibited from voting their beneficially owned shares at, or counted in the quorum for, a meeting at which they have a material interest in the business to be contracted;

Note: For the purposes of 6.15(h), the management company and its connected persons are entitled to vote their beneficially owned units/shares on any resolution(s) to appoint or dismiss the management company and be counted for the purpose of passing such resolution(s) at the meeting.
An ordinary resolution may be passed by a simple majority of the votes of those present and entitled to vote in person or by proxy at a duly convened meeting; and

A special or extraordinary resolution may only be passed by 75% or more of the votes of those present and entitled to vote in person or by proxy at a duly convened meeting.

**Note:** For the avoidance of doubt, any general meeting at which a special resolution is to be proposed shall be convened on at least 21 days’ prior notice and that any general meeting at which an ordinary resolution is to be proposed shall be convened on at least 14 days’ prior notice.

### Fees

6.16 The level/basis of calculation of all costs and charges payable from the scheme’s property must be clearly stated, with percentages expressed on a per annum basis [see C14 of Appendix C]. The aggregate level of fees for investment management or advisory functions should also be disclosed.

**Note:** Percentage-based transaction fees payable to the management company or any of its connected persons may be disallowed as inconsistent with the management company’s fiduciary responsibility.

**Note:** Transaction fees payable to the management company or any of its connected persons may be disallowed as inconsistent with the management company’s fiduciary responsibility.

6.17 If a performance fee is levied, clear disclosure of the calculation methodology must be set out in the offering document. Performance fee should be calculated in a manner that is objective, verifiable and unambiguous to enable investors to obtain a fair and proportionate share of the investment return of scheme. the Performance fee can only be payable:-

(a) no more frequently than annually; and

(b) if the net asset value per unit/share exceeds the net asset value per unit/share on which the performance fee was last calculated and paid (i.e. on a "high-on-high" basis). The basis of calculation of net asset value per unit/share used for performance fee calculation should be consistently applied.

**Notes:**

1. Notwithstanding 6.17(b), the performance fee may also be calculated with reference to the performance of a benchmark or an asset class and the performance fee is only payable upon outperformance of the net asset value per unit/share (net of all other fees and expenses charged) vis-à-vis that of the benchmark or asset class.

2. Various methodologies may be used for the charging and accrual of performance fees based on the basic principle in 6.17. The Commission may require illustrative examples to be given in the offering document to demonstrate the charging method where it considers appropriate.
(3) Where a scheme intends to achieve equalisation for the calculation of performance fees, its offering document must disclose the mechanism adopted to achieve equalisation.

(4) Where a scheme does not intend to achieve equalisation of performance fees, its offering document must clearly disclose this fact and how the absence of equalisation may affect the amount of performance fees to be borne by investors.

6.18 The following fees, costs and charges must not be paid from the scheme's property:-

(a) commissions payable to sales agents arising out of any dealing in units/shares of the scheme;

(b) expenses arising out of any advertising or promotional activities in connection with the scheme;

(c) expenses which are not ordinarily paid from the property of schemes authorized in Hong Kong; and

(d) expenses which have not been disclosed in the constitutive documents as required by D10 of Appendix D.
Chapter 7: Investment: core requirements

This Chapter sets out the core requirements of the investment limitations and prohibitions of a collective investment scheme, other than a specialized scheme under Chapter 8 shall also comply with the core requirements in this Chapter subject to any modifications, exemptions or additions as set out in Chapter 8.

Investments held by a scheme shall be liquid which do not impair the scheme’s ability to satisfy its redemption and other payment obligations. As a general principle, investments of a scheme shall be readily converted into cash at limited cost in an adequately short timeframe taking into account these obligations.

Spread of Investments

7.1 The aggregate value of a scheme’s holding of securities issued by or exposure to any single issuer entity through the following may not exceed 10% of its total net asset value:

(a) investments in securities issued by that entity;

(b) exposure to that entity through underlying assets of financial derivative instruments [see 7.27]; and

(c) net counterparty exposure to that entity arising from transactions of over-the-counter financial derivative instruments [see 7.28(c)].

Notes:
(1) An issuer of investments based on an underlying security (such as an issuer of covered warrants) is treated separately from an issuer of the underlying security, provided that the 10% restriction applicable to any single issuer is not exceeded if and when any rights of convertibility are exercised.
(2) A waiver of this section can be considered on a case-by-case basis for a scheme whose sole objective is to track an index with constituent stocks exceeding 10%.
(3) For the avoidance of doubt, restrictions and limitations on counterparty as set out in 7.1, 7.1A and 7.28(c) will not apply to financial derivative instruments that are:

(a) transacted on an exchange where the clearing house performs a central counterparty role; and

(b) marked-to-market daily in the valuation of their financial derivative instrument positions and subject to margining requirements at least on a daily basis.

(4) 7.1 will also apply in the case of 7.36(e), 7.36(j) and Note to 7.39(a).

7.1A Subject to 7.1 and 7.28(c), the aggregate value of a scheme’s investments in, or exposure to, entities within the same group through the following may not exceed 20% of its total net asset value:
(a) investments in securities issued by those entities;

(b) exposure to those entities through underlying assets of financial derivative instruments [see 7.27]; and

(c) net counterparty exposure to those entities arising from transactions of over-the-counter financial derivative instruments [see 7.28(c)].

Notes: (1) For the purposes of 7.1A and 7.1B, entities which are included in the same group for the purposes of consolidated financial statements prepared in accordance with internationally recognized accounting standards are generally regarded as “entities within the same group”.

(2) 7.1A will also apply in the case of 7.36(e), 7.36(j) and Note to 7.39(a).

7.1B The value of a scheme’s cash deposits made with the same entity or entities within the same group [see Note(1) to 7.1A] may not exceed 20% of its total net asset value.

Notes: (1) For the purposes of 7.1B, cash deposits generally refer to those that are repayable on demand or have the right to be withdrawn by the scheme and not referable to provision of property or services.

(2) The cash deposits made with the same entity or entities within the same group may exceed the prescribed 20% limit in the following circumstances:

(a) cash held before the launch of a scheme and for a reasonable period thereafter prior to the initial subscription proceeds being fully invested; or

(b) cash proceeds from liquidation of investments prior to the merger or termination of a scheme, whereby the placing of cash deposits with various financial institutions would not be in the best interests of investors; or

(c) cash proceeds received from subscriptions pending investments and cash held for the settlement of redemption and other payment obligations, whereby the placing of cash deposits with various financial institutions be unduly burdensome and the cash deposits arrangement would not compromise investors’ interests.

7.2 A scheme may not hold more than 10% of any ordinary shares issued by any single issuer.

7.3 The value of a scheme’s holding of investments in securities and other financial products or instruments that cannot be readily converted into cash at limited cost in an adequately short timeframe thereby impairing the scheme’s ability in satisfying its redemption and other payment obligations (including securities that are neither listed, quoted nor dealt in on a market) may not exceed 15% of its total net asset value.

Note: Market means any stock exchange, over-the-counter market or other organized securities market that is open to the international public and on which such securities are regularly traded.
7.3A Notwithstanding 7.1, 7.1A, 7.2, and 7.3, where direct investment by a scheme in a market is not in the best interests of investors, a scheme may invest through a wholly-owned subsidiary company established solely for the purpose of making direct investments in such market. In this case:-

(a) the underlying investments of the subsidiary, together with the direct investments made by the scheme, must in aggregate comply with the requirements of this Chapter;

(b) any increase in the overall fees and charges directly or indirectly borne by the holders or the scheme as a result must be clearly disclosed in the offering document; and

(c) the scheme must produce the reports required by 5.10(b) in a consolidated form to include the assets (including investment portfolio) and liabilities of the subsidiary company as part of those of the scheme.

Government and other public securities

7.4 Notwithstanding 7.1, 7.1A and 7.2, up to 30% of a scheme's total net asset value may be invested in Government and other public securities of the same issue.

7.5 Subject to 7.4, a scheme may invest all of its assets in Government and other public securities in at least six different issues.

Notes: 
(1) “Government and other public securities” means any investment issued by, or the payment of principal and interest on, which is guaranteed by the government of any member state of the Organization for Economic Co-operation and Development (OECD) or any fixed interest investment issued in any OECD country by a public or local authority or nationalized industry of any OECD country or anywhere in the world by any other body which is, in the opinion of the trustee/custodian, of similar standing, or any fixed-interest investment issued by its public or local authorities or other multilateral agencies.

(2) Government and other public securities will be regarded as being of a different issue if, even though they are issued by the same person, they are issued on different terms whether as to repayment dates, interest rates, the identity of the guarantor, or otherwise.

Warrants and options

7.6 (a) A scheme may invest in options and warrants for hedging purposes.

(b) In addition to (a) above, the value of a scheme’s investment in warrants and options not held for hedging purposes in terms of the total amount of premium paid may not exceed 15% of its total net asset value.

7.7 The writing of uncovered options is prohibited.

7.8 The writing of call options on portfolio investments may not exceed 25% of a scheme's total net asset value in terms of exercise price.
Futures and commodities

Commodities

7.9 A scheme may enter into financial futures contracts for hedging purposes.[deleted]

7.10 In addition to 7.9, a scheme may enter into futures contracts on an unhedged basis provided that the net total aggregate value of contract prices, whether payable to or by the scheme under all outstanding futures contracts, together with the aggregate value of A scheme may not invest inholdings of physical commodities and commodity based investments may not exceed 20% of the total net asset value of the schemeunless otherwise approved by the Commission on a case-by-case basis taking into account the liquidity of the physical commodities concerned and availability of sufficient and appropriate additional safeguards where necessary.

Notes: (1) "physical commodities" includes gold, silver, platinum or other bullion.[deleted]

(2) "commodity based investments" does not include shares in companies engaged in producing, processing or trading in commodities.[deleted]

Investment in other schemes

The following provisions govern the spread of investments in other collective investment schemes. 7.1, 7.1A, 7.2 and 7.3, are not applicable to such investments, unless otherwise stated.

Note: For the avoidance of doubt, exchange traded funds that are:

(i) authorized by the Commission under 8.6 or 8.10 of this UT Code; or

(ii) listed and regularly traded on internationally recognized stock exchanges open to the public (nominal listing not accepted) and:

- the principal objective of which is to track, replicate or correspond to a financial index or benchmark, which complies with the applicable requirements under 8.6 of this UT Code; or

- the investment objective, policy, underlying investments and product features of which are substantially in line with or comparable with those set out under 8.10 of this UT Code,

may either be considered and treated as (a) listed securities for the purposes of and subject to the requirements in 7.1, 7.1A and 7.2; or (b) collective investment schemes for the purposes of and subject to the requirements in 7.11, 7.11A and 7.11B. However, the investments in exchange traded funds shall be subject to 7.3 and the relevant investment limits in exchange traded funds by a scheme should be consistently applied and clearly disclosed in the offering document of a scheme.

7.11 The value of a scheme's holding of investment in units or shares in other collective investment schemes (namely, "underlying schemes") which are non-recognized jurisdiction schemes and non-eligible schemes [see Note to 7.11A] and not authorized
by the Commission or not eligible schemes [see Note to 7.11A] may not in aggregate exceed 10% of its total net asset value.

7.11A A scheme may invest in one or more underlying schemes which are either recognized jurisdiction schemes or schemes authorized by the Commission or eligible schemes. The value of a scheme’s holding of investment in units or shares in each such underlying scheme may not exceed 30% of its total net asset value, unless the underlying scheme is authorized by the Commission, and the name and key investment information of the underlying scheme are disclosed in the offering document of the scheme.

Note: The Commission has set out the eligible schemes for investment pursuant to 7.11A in the list of recognized recognized jurisdictions those categories of recognized jurisdiction schemes that are eligible for investment pursuant to 7.11A.

7.11B In addition, each underlying scheme's objective may not be to invest primarily in any investment prohibited by this Chapter, and where such scheme's objective is to invest primarily in investments restricted by this Chapter, such holdings investments may not be in contravention of the relevant limitation.

Notes: (1) Where a scheme exclusively invests in underlying schemes, it shall comply with the provisions in 8.1.[deleted]

(2) The Commission generally does not require the management company to adopt a “see-through” approach in their investments in underlying schemes, except in the case where the underlying schemes are managed by the same management company as that of the scheme that invests in them, or by other companies within the same group that the management company belongs to, then 7.1, 7.1A, 7.2 and 7.3 are also applicable to investments of the underlying schemes.

(3) For the avoidance of doubt, a scheme may invest in scheme(s) authorized by the Commission under Chapter 8 (except for hedge funds under 8.7 of this UT Code), eligible scheme(s) [see 7.11A] of which the global exposure calculated under the commitment approach net derivative exposure [see Note to 7.26] relating to financial derivative instruments does not exceed 100% of its total net asset value, and exchange traded funds satisfying the requirements in the Note under “Investment in other schemes” of this Chapter in compliance with 7.11 and 7.11A.

(4) An underlying scheme’s objective may not be to invest primarily more than 10% of its total net asset value in other collective investment scheme(s), whether individually or on an aggregate basis.

Limitation on charges

7.11C Where a scheme invests in any underlying scheme(s) managed by the same management company or its connected persons, all initial charges and redemption charges on the underlying scheme(s) must be waived.

7.11D The management company of a scheme or any person acting on behalf of the scheme or the management company may not obtain a rebate on any fees or charges levied by
an underlying scheme or its management company, or any quantifiable monetary benefits in connection with investments in any underlying scheme.

**Feeder fund**

7.12 Notwithstanding 7.11A, a scheme may invest all of 90% or more of its total net assets value in a single collective investment scheme and will be authorized as a feeder fund. In this case:-

(a) the underlying scheme ("master fund") must be authorized by the Commission;

(b) the offering document must state that:
   
   (i) the scheme is a feeder fund into the underlying master fund;
   
   (ii) for the purpose of complying with the investment restrictions, the scheme feeder fund and its underlying master fund will be deemed a single entity;
   
   (iii) the scheme's feeder fund's annual report must include the investment portfolio of the underlying master fund as at the financial year end date; and
   
   (iv) the aggregate amount of all the fees and charges of the scheme feeder fund and its underlying master fund must be clearly disclosed;

(c) the borrowing of the feeder fund may not exceed 10% of its total net asset value and should be restricted to facilitating redemptions or defraying operating expenses; and

(d) no increase in the overall total of initial charges, redemption charges, management company's annual fee, or any other costs and charges payable to the management company or any of its connected persons borne by the holders or by the scheme feeder fund may result, if the scheme's master fund in which the scheme feeder fund invests are managed by the same management company or by a connected person of that company.

**Note:** The SFC may consider on a case-by-case basis allowing additional fees to be payable to the management company or its connected persons in respect of additional or different services and expertise provided by the management company or its connected persons for the benefit of the scheme.

(e) notwithstanding Note(4) to 7.11B, the master fund may invest in other collective investment scheme(s) subject to the investment restrictions as set out in 7.11, 7.11A and 7.11B.

7.13 [deleted]
Prohibition on real estate investments

7.14 A scheme may not invest in any type of real estate (including buildings) or interests in real estate (including options or rights, but excluding shares in real estate companies and interests in real estate investment trusts (REITs)).

Note: In the case of investments in such shares and REITs, they shall comply with the investment limits as set out in 7.1, 7.1A, 7.2, 7.3 and 7.11, where applicable. For the avoidance of doubt, where investments are made in listed REITs, 7.1, 7.1A and 7.2 apply and where investments are made in unlisted REITs, which are either companies or collective investment schemes, then 7.3 and 7.11 apply respectively.

Short selling limitations

7.15 No short sale may be made which will result in the scheme's liability to deliver securities exceeding 10% of its total net asset value.

Note: For the avoidance of doubt, a scheme is prohibited to carry out any naked or uncovered short sale of securities and short selling should be carried out in accordance with all applicable laws and regulations.

7.16 The security which is to be sold short must be actively traded on a market where short selling activity is permitted [see Note to 7.3].

Limitations on making loans

7.17 Subject to 7.3, A scheme may not lend, assume, guarantee, endorse or otherwise become directly or contingently liable for or in connection with any obligation or indebtedness of any person without the prior written consent of the trustee/custodian.

Note: For the avoidance of doubt, reverse repurchase transactions in compliance with the requirements as set out in 7.32 to 7.35 are not subject to the limitations in 7.17.

Unlimited liability

7.18 A scheme may not acquire any asset or engage in any transaction which involves the assumption of any liability which is unlimited.

Limited liability

7.18A The liability of holders must be limited to their investments in the scheme.

Limitations on securities in which directors/officers have interests

7.19 A scheme may not invest in any security of any class in any company or body if any director or officer of the management company individually owns more than 0.5% of the total nominal amount of all the issued securities of that class, or, collectively the directors and officers of the management company own more than 5% of those securities.
Limitations on nil-paid/partly paid securities

7.20 The portfolio of a scheme may not include any security where a call is to be made for any sum unpaid on that security unless that call could be met in full out of cash or near cash by the scheme's portfolio, the amount of which has not already been taken into account for the purposes of 7.8 whereby such amount of cash or near cash has not been segregated to cover a future or contingent commitment arising from transaction in financial derivative instruments for the purposes of 7.29 and 7.30.

Limitations on borrowing

7.21 The maximum borrowing of a scheme may not exceed 2510% of its total net asset value (except for a capital markets scheme which may not exceed 10%). For the purposes of this section of this UT Code 7.21, back-to-back loans do not count as borrowing.

Note: For the avoidance of doubt, securities lending transactions and sale and repurchase transactions in compliance with the requirements as set out in 7.32 to 7.35 are not subject to the limitations in 7.21.

Applicability of restrictions to umbrella funds

7.22 The provisions of this Chapter apply to each sub-fund of the umbrella fund as if each sub-fund were a single scheme, except for 7.2, where the total collective investment by the sub-funds in any ordinary shares issued by any single issuer may not exceed 10%.[restated in 7.40]

Breach of investment limits

7.23 If the investment limits in Chapter 7 and 8 are breached, the management company should take as a priority objective all steps as are necessary within a reasonable period of time to remedy the situation, taking due account of the interests of the holders.[restated in 7.41]

Name of scheme

7.24 If the name of the scheme indicates a particular objective, geographic region or market, the scheme should invest at least 70% of its non-cash assets in securities and other investments to reflect the particular objective or geographic region or market which the scheme represents.[amended and restated in 7.42]

Financial derivative instruments

7.25 A scheme may acquire financial derivative instruments for hedging purposes.

Notes: (1) For the purposes of 7.25, financial derivative instruments are generally considered as being acquired for hedging purposes if they meet all the following criteria:

(a) they are not aimed at generating any investment return;

(b) they are solely intended for the purpose of limiting, offsetting or eliminating the probability of loss or risks arising from the investments being hedged;
Appendix A - 33

(c) although they may not necessarily reference to the same underlying assets, they should relate to the same asset class with high correlation in terms of risks and return, and involve taking opposite positions, in respect of the investments being hedged; and

(d) they exhibit price movements with high negative correlation with the investments being hedged under normal market conditions.

(2) Hedging arrangement should be adjusted or re-positioned, where necessary and with due consideration on the fees, expenses and costs, to enable the scheme to meet its hedging objective in stressed or extreme market conditions.

7.26 A scheme may also acquire financial derivative instruments for non-hedging purposes (“investment purposes”) subject to the limit that the scheme’s global net exposure relating to these financial derivative instruments (“net derivative exposure”) does not exceed 50% of its total net asset value.

Notes: (1) For the purpose of calculating global net derivative exposure, the commitment approach shall be used, whereby the positions of financial derivative instruments acquired by a scheme for investment purposes are converted into the equivalent position in the underlying assets of the financial derivative instruments, taking into account the prevailing market value of the underlying assets, the counterparty risk, future market movements and the time available to liquidate the positions.

(2) The net derivative exposure should be calculated in accordance with the requirements and guidance issued by the Commission which may be updated from time to time.

(3) For the avoidance of doubt, financial derivative instruments acquired for hedging purposes under 7.25 will not be counted towards the 50% limit referred to in 7.26 so long as there is no residual global derivative exposure calculated under the commitment approach arising from such hedging arrangement.

7.27 Subject to 7.26 and 7.28, a scheme may invest in financial derivative instruments provided that the exposure to the underlying assets of the financial derivative instruments, together with the other investments of the scheme, may not in aggregate exceed the corresponding investment restrictions or limitations applicable to such underlying assets and investments as set out in 7.1, 7.1A, 7.1B, 7.4, 7.5, 7.11, 7.11A, 7.11B and 7.14.

7.28 The financial derivative instruments invested by a scheme should be either listed/quoted on a stock exchange or dealt in over-the-counter market and comply with the following provisions, provided that:

(a) the underlying assets consist solely of shares in companies, debt securities, money market instruments, units/shares of collective investment schemes, deposits with substantial financial institutions, government and other public securities, highly-liquid physical commodities, financial indices, interest
rates, foreign exchange rates, currencies, or other asset classes acceptable to
the Commission, in which the scheme may invest according to its investment
objectives and policies;

Notes: (1) “Highly-liquid physical commodities” includes gold, silver, platinum
and crude oil.

(2) Where a scheme invests in index-based financial derivative
instruments, the underlying assets of such financial derivative
instruments are not required to be aggregated for the purposes of the
investment restrictions or limitations set out in 7.1, 7.1A, and 7.1B
and 7.4 provided that the index is in compliance with 8.6(e) of this UT
Code.

(b) the counterparties to transactions of over-the-counter financial derivative
instruments or their guarantors are substantial financial institutions;

Note: The Commission may consider to accept other entity falling outside the
definition of “substantial financial institution” on a case-by-case basis
taking into account factors such as the regulatory status of the entity or
the group to which it belongs and the net asset value of the entity.

(c) subject to 7.1 and 7.1A, the scheme’s net counterparty exposure to a single
counterparty entity arising from transactions of over-the-counter financial
derivative instruments may not exceed 10% of the net asset value of the scheme
[see 7.36]; and

Note: Exposure to a counterparty of over-the-counter financial derivative
instruments should be measured based on the maximum potential loss
that may be incurred by the scheme may be lowered by the collateral
received (if applicable) and should be calculated with reference to the
value of collateral and positive mark to market value of the over-the-
counter financial derivative instruments with that counterparty, if
applicable. Such exposure may be lowered by the collateral received by
the scheme in respect of transactions on the over-the-counter financial
derivative instruments entered between the scheme and such
counterparty.

(d) the valuation of the financial derivative instruments is marked-to-market daily,
subject to regular, reliable and verifiable valuation conducted by the management
company or the trustee/custodian or their nominee(s), agent(s) or delegate(s)
independent of the issuer of the financial derivative instruments through
measures such as the establishment of a valuation committee or engagement of
third party services. The financial derivative instruments can be sold, liquidated
or closed by an offsetting transaction at any time at their fair value at the
scheme’s initiative. Further, calculation agent/fund administrator should be
adequately equipped with the necessary resources to conduct independent
marked-to-market valuation and to verify the valuation of the financial derivative
instruments on a regular basis.
Cover

7.29 A scheme should at all times be capable of meeting all its payment and delivery obligations incurred under transactions in financial derivative instruments (whether for hedging or for investment purposes). The management company should, as part of its risk management process, monitor to ensure that the transactions in financial derivative instruments are adequately covered on an ongoing basis.

Note: For the purposes of 7.29, assets that are used to cover the scheme’s payment and delivery obligations incurred under transactions in financial derivative instruments should be free from any liens and encumbrances, exclude any cash or near cash for the purpose of meeting a call on any sum unpaid on a security [see 7.20], and cannot be applied for any other purposes.

7.30 Subject to 7.29, a transaction in financial derivative instruments which gives rise to a future commitment or contingent commitment of a scheme should be covered as follows:

(a) in the case of financial derivative instruments transactions which will, or may at the scheme’s discretion, be cash settled, the scheme should at all times hold sufficient assets that can be liquidated within a short timeframe to meet the payment obligation; and

(b) in the case of financial derivative instruments transactions which will, or may at the counterparty’s discretion, require physical delivery of the underlying assets, the scheme should hold the underlying assets in sufficient quantity at all times to meet the delivery obligation. If the management company considers the underlying assets to be liquid and tradable, the scheme may hold other alternative assets in sufficient quantity as cover, provided that such assets may be readily converted into the underlying assets at any time to meet the delivery obligation.

Note: In the case of holding alternative assets as cover, the scheme should apply safeguard measures such as to apply haircut where appropriate to ensure that such alternative assets held are sufficient to meet its future obligations.

Embedded financial derivatives

7.31 Where a financial instrument embeds a financial derivative, 7.25 to 7.30 will also apply to the embedded financial derivative.

Note: An embedded financial derivative is a financial derivative instrument that is embedded in another security, namely the host contract.

Securities financing transactions

7.32 A scheme may engage in securities lending, sale and repurchase and reverse repurchase transactions (collectively, “securities financing transactions”), provided that they are in the best interests of holders to do so and the associated risks have been properly mitigated and addressed.

Note: The counterparties to securities financing transactions should be subject to the same requirement for the counterparties to over-the-counter financial derivative
7.33 A scheme should have at least 100% collateralization in respect of the securities financing transaction(s) into which it enters to ensure there is no uncollateralized counterparty risk exposure arising from these transactions [see 7.36].

7.34 All the revenues arising from securities financing transactions, net of direct and indirect expenses as reasonable and normal compensation for the services rendered in the context of the securities financing transactions, should be returned to the scheme.

7.35 A scheme should ensure that:

(a) it is able at any time to recall the securities or the full amount of cash (as the case may be) subject to the securities financing transaction(s) or terminate the securities financing transaction(s) into which it has entered; and.

(b) indemnification is provided by securities lending agents to protect the scheme against counterparty default.

Collateral

The following provisions apply to the collateral held by a scheme.

Note: For the avoidance of doubt, the invested assets under an unfunded swap structure should be treated as collateral and subject to the requirements in 7.36 to 7.38.

7.36 To limit the exposure to each counterparty as set out in 7.28(c) and 7.33, a scheme may receive collateral from such counterparty, provided that the collateral complies with the requirements set out below:

(a) Liquidity – collateral must be sufficiently liquid and tradable in order that it can be sold quickly at a robust price that is close to pre-sale valuation. Collateral should normally trade in a deep and liquid marketplace with transparent pricing;

(b) Valuation – collateral should be marked-to-market daily by using independent pricing source;

(c) Credit quality – asset used as collateral must be of high credit quality and should be replaced immediately as soon as the credit quality of the collateral or the issuer of the asset being used as collateral has deteriorated to such a degree that it would undermine the effectiveness of the collateral;

(d) Haircut – collateral should be subject to prudent haircut policy;

Note: Haircuts should be based on the market risks of the assets used as collateral in order to cover potential maximum expected decline in collateral values during liquidation before a transaction can be closed out with due consideration on stress period and volatile markets. The price volatility of the asset used as collateral should be taken into account when devising the haircut policy. Other specific characteristics of the collateral, including, among others, asset types, issuer creditworthiness, residual maturity, price
sensitivity, optionality, expected liquidity in stressed period, impact from foreign exchange, and correlation between securities accepted as collateral and the securities involved in the transactions, should also be considered where appropriate.

(e) Diversification – collateral must be appropriately diversified so as to avoid concentrated exposure to any single entity and/or entities within the same group. The scheme’s exposure to the issuer(s) of the collateral should be taken into account in compliance with the investment restrictions and limitations set out in 7.1, 7.1A, 7.1B, 7.4, 7.5, 7.11, 7.11A, 7.11B and 7.14;

Note: By way of illustration, the value of collateral and the scheme’s other investments in, or exposure to, any single entity or entities within the same group may not exceed 10% or 20% of the scheme’s net asset value respectively [see 7.1 and 7.1A]. Where the collateral is in the form of (i) cash; (ii) Government and other public securities; (iii) collective investment schemes [see 7.36(l)]; and (iv) REITs, the applicable investment limitations and restrictions under (i) 7.1B; (ii) 7.4 and 7.5; (iii) 7.11, 7.11A and 7.11B; and (iv) 7.14 apply respectively, together with the scheme’s other investments or exposure.

(f) Correlation – the value of the collateral should not have any significant correlation with the creditworthiness of the counterparty or the issuer of the financial derivative instruments, or the counterparty of securities financing transactions in such a way that would undermine the effectiveness of the collateral. As such, securities issued by the counterparty or the issuer of the financial derivative instruments, or the counterparty of securities financing transactions or any of their related entities should not be used as collateral;

(g) Management of operational and legal risks – the management company must have appropriate systems, operational capabilities and legal expertise for proper collateral management;

(h) Independent custody – collateral must be held by the trustee/custodian of the scheme;

(i) Enforceability – collateral must be readily accessible / enforceable by the trustee/custodian of the scheme without further recourse to the issuer of the financial derivative instruments, or the counterparty of the securities financing transactions;

(j) Re-investment of collateral – cash collateral received may only be reinvested in short-term deposits, high quality money market instruments and money market funds authorized under 8.2 of this UT Code or regulated in a manner generally comparable with the requirements of the Commission and acceptable to the Commission, and subject to corresponding investment restrictions or limitations applicable to such investments or exposure as set out in this Chapter [see 7.36(e)]. Non-cash collateral received may not be sold, re-invested or pledged;

Notes: (1) Money market instruments refer to securities normally dealt in on the money markets, for example, government bills, certificates of deposit, commercial papers, short-term notes and bankers’ acceptances, etc. In assessing whether a money market instrument
is of high quality, at a minimum, the credit quality and the liquidity profile of the money market instruments must be taken into account.

(2) The portfolio of assets from re-investment of cash collateral shall comply with the requirements as set out in 8.2(f) and 8.2(n).

(3) Cash collateral received is not allowed to be further engaged in any securities financing transactions.

(4) When the cash collateral received is reinvested into other investment(s), such investment(s) is/are not allowed to be engaged in any securities financing transactions.

(k) Collateral should be free of prior encumbrances; and

(l) Collateral generally should not include (i) structured products whose payouts rely on embedded financial derivatives or synthetic instruments; (ii) securities issued by special purpose vehicles, special investment vehicles or similar entities; (iii) securitized products; or (iv) unlisted collective investment schemes.

7.37 A scheme should disclose the information relating to its collateral policy as required under Appendix C.

7.38 A scheme shall disclose in the scheme’s interim and annual reports a description of collateral holdings as required under Appendix E.

Guaranteed features

7.39 The following requirements apply to a scheme which contains a structure whereby a guaranteed amount will be paid to investors who invest in units/shares in the scheme at a specified date in the future (with or without conditions):

(a) The guarantor must be:

(i) a substantial financial institution; or

(ii) an authorized insurer authorized under the Insurance Ordinance (Chapter 41 of Laws of Hong Kong).

Note: A scheme’s net single counterparty exposure to the guarantor should be taken into account in compliance with the limits on single entity and/or entities within the same group under 7.1 and 7.1A respectively. In addition, the scheme’s net single counterparty exposure to the guarantor may not exceed 10% of its net asset value at all times.

(b) Apart from the standard contents requirements in Appendix C, the offering document of the scheme must contain:

(i) Information about the guarantor

(1) its name;

(2) nature of its business; and
(iii) A detailed description of the nature of the underlying investments, including:

(1) the proposed percentage, or an estimate thereof, of the scheme to be invested in fixed-interest securities and that in other investments at the time of publication of the offering document;

(2) the issuers/counterparties of the underlying investments, or the criteria for the selection of such parties;

(3) the valuation methodology of the underlying investments;

(4) the liquidation mechanism of the underlying investments to meet redemption requests; and

(5) where relevant, the participation rate or an estimate thereof at the time of publication of the offering document. It should be stated that the actual participation rate may be different from the indicative rate. An analysis of the factors that will impact on the final determination of such rate should also be given.

Note: Where applicable, it should be stated when the actual participation rate will be determined and how such information will be communicated to investors.

(iv) Risk warnings, which should include, but not limited to:

(ii) Information about the guarantee

(1) the terms of the guarantee, including the scope and validity of the guarantee and the circumstances under which the guarantee may be terminated; and

Note: The offering document should contain a summary of the key terms and features of the guarantee.

(2) an illustration or description to clearly demonstrate the guarantee mechanism and how potential returns in excess of the guaranteed amount are calculated.

Notes: (1) Where an indicative participation rate is shown, the illustration should use the quoted indicative rate as the basis for calculation.

(2) Assumptions used in the illustration should be clearly stated. It should be stated that the rates of return shown are for illustrative purpose only and that the actual return may be different.

(3) information on its financial position, including paid-up share capital, total net assets or shareholders’ funds, and where applicable, credit rating and any other relevant information.
(1) a statement to the effect that due to the guarantee structure, there will be a dilution of performance;

(2) a statement to the effect that potential returns in excess of the guaranteed amount are subject to investment risk and are not guaranteed;

(3) a statement to the effect that the scheme is subject to the credit risk of the guarantor and the issuers of the underlying investments;

(4) a statement to the effect that the scheme is subject to the liquidity risk of the underlying investments;

(5) risks, if any, associated with conflicts of interest that may arise amongst different operating parties;

(6) a warning statement that the scope or validity of the guarantee may be affected under certain circumstances including, where relevant, the condition that the guarantee only applies to investors who hold their investments until the date specified in the guarantee and that dealings before such date are fully exposed to fluctuations in the value of the scheme's assets; and

(7) where applicable, the mechanism of any up-front charging fee structure and the cost implications to investors.

(c) Nothing in the deed of guarantee may exclude the jurisdiction of the courts of Hong Kong to entertain an action concerning the scheme or the guarantee.

(d) The name of the scheme should accurately reflect the nature of the guarantee.

(e) The management company of the scheme should report to the Commission as soon as practicable if it becomes aware of any events which may affect the guarantee or undermine the ability of the guarantor to act as such.

Note: Where the guarantor of a scheme is neither a licensed banking institution authorized under the Banking Ordinance (Chapter 155 of Laws of Hong Kong) nor an authorized insurer authorized under the Insurance Ordinance (Chapter 41 of Laws of Hong Kong), the management company of the scheme must notify the Commission on an annual basis the regulatory status of the guarantor.

(f) Any advertisement or marketing material must contain the following:

(i) the name of the guarantor;

(ii) where relevant, a statement that certain fees are charged up-front and the aggregate amount thereof;

(iii) where an indicative participation rate is quoted, the date of reference should be stated and there should be a warning that the actual participation rate may be different from the indicative rate;
(iv) the statement in 7.39(b)(iv)(6); and

(v) a statement directing investors to read the offering document for further details of the guarantee.

**Applicability of restrictions to umbrella funds**

7.40 The provisions of this Chapter apply to each sub-fund of the umbrella fund as if each sub-fund were a single scheme, except for 7.2, where the total collective investment by the sub-funds in any ordinary shares issued by any single entity may not exceed 10%.

**Breach of investment limits**

7.41 If the investment limits in Chapter 7 and 8 are breached, the management company should take as a priority objective all steps as are necessary within a reasonable period of time to remedy the situation, taking due account of the interests of the holders.

**Name of scheme**

7.42 If the name of the scheme indicates a particular objective, investment strategy, geographic region or market, the scheme should, under normal market circumstances, invest at least 70% of its total net asset value in securities and other investments to reflect the particular objective, investment strategy or geographic region or market which the scheme represents.
Chapter 8: Specialized schemes

This chapter sets out the requirements for various types of specialized schemes. A specialized scheme means any scheme whose primary objective is not investment in equities and/or bonds, any scheme falling under the categories in this Chapter, or which otherwise does not meet the relevant requirements of Chapter 7 associated with any particular or special feature(s) of the scheme.

For any scheme that has features falling within the scope of one or more specialized scheme(s) under this Chapter, the scheme shall comply with the relevant requirements under this Chapter where applicable, in addition to the requirements under Chapter 7 with modifications, exemptions or additions as set out in this Chapter. For example, where a guaranteed fund or index fund that seeks to achieve its investment objective through investment in, or use of, financial derivative instruments, the requirements regarding (i) collateral as set out in 8.8(e) of this UT Code and (ii) exposure to counterparty risk as set out in 8.8(d) of this UT Code must be complied with, in addition to requirements set out in 8.5 or 8.6 of this UT Code.

In addition to the specialized schemes mentioned in this Chapter, application may be made for other specialized schemes pursuant to this Chapter. Each such scheme will be considered by the Commission on a case-by-case basis, taking into account the applicable requirements set out in this Chapter and Chapter 7, or pending the issue, if appropriate, of further guidelines.

8.1 Unit portfolio management funds[deleted]

(a) A scheme that invests all of its assets in other collective investment schemes may be authorized as a unit portfolio management fund (UPMF). A UPMF may hold cash for ancillary purposes and enter into financial futures contracts for hedging purposes.

Investment and borrowing limitations

(b) Subject to 8.1(a), a UPMF may only invest in units/shares of schemes authorized by the Commission or in recognized jurisdiction schemes (whether authorized or not), except that not more than 10% of the UPMF’s total net asset value may be invested in non-recognized jurisdiction schemes not authorized by the Commission.

(c) Notwithstanding 8.1(b), no investment may be made in any scheme whose objective is to invest primarily in any investment prohibited by Chapter 7 of this UT Code. In the case of investments limited by Chapter 7, such holdings may not be in contravention of the relevant limitation.

(d) A UPMF, except with the approval of the Commission, must invest in at least five schemes, and not more than 30% of its total net asset value may be invested in any one scheme.

(e) A UPMF may not invest in another UPMF.
(f) A UPMF may borrow up to 10% of its total net asset value but only on a temporary basis for the purpose for meeting redemption requests or defraying operating expenses.

(g) A UPMF may not invest more than 10% of its total net asset value in warrant funds, and futures and options funds unless its primary objective is to invest in warrant, or futures and options funds, in which case the provisions applicable to such specialized funds in this Chapter will be extended to such UPMF, as appropriate.

**Limitation on charges**

(h) Where a UPMF invests in schemes managed by the same management company or its connected persons, all initial charges on the underlying schemes must be waived.

(i) The management company of a UPMF may not obtain a rebate on any fees or charges levied by an underlying scheme or its management company.

### 8.2 Money market / cash management funds

(a) A money market / cash management fund means a collective investment scheme which invests in short-term and high quality money market investments and seeks to offer returns in line with money market rates, the sole objective of which is to invest in short-term deposits and debt securities.

*Note: Collective investment schemes which present the characteristics of a money market fund or which are presented to investors or potential investors as having similar investment objectives (e.g. funds named as "liquid funds" or "cash funds") should also be subject to the requirements under 8.2 of this UT Code, notwithstanding that such schemes are not marketed as "money market fund".*

**Offering document**

(b) The offering document must clearly highlight that the purchase of a unit/share in a scheme is not the same as placing funds on deposit with a bank or deposit-taking company, that the management company has no obligation to redeem units/shares at the offer value and that the scheme is not subject to the supervision of the Hong Kong Monetary Authority.

**Name of scheme**

(c) In addition to 7.42, the scheme’s name must not appear to draw a parallel between the scheme and the placement of cash on deposit.

**Filing requirement**

(d) The scheme must file with the Commission within seven days from the last working day of each month details of the total funds subscribed to the scheme that month, and details of the total funds under management at the end of that month.
**Investment limitations**

The core requirements on investments as set out in Chapter 7 will apply with the following modifications, exemptions or additional requirements:

(e) Subject to the provisions below, a scheme may only invest in short-term deposits and debt securities, high quality money market instruments [see Note(1) to 7.36(j)], and money market funds that are authorized by the Commission under 8.2 of this UT Code or regulated in a manner generally comparable with the requirements of the Commission and acceptable to the Commission.

*Note: Subject to 8.2(j), money market instruments may include asset-backed securities such as asset-backed commercial papers.*

(f) A scheme must maintain an a portfolio with weighted average portfolio maturity not exceeding 90/60 days and a weighted average life not exceeding 120 days and must not purchase an instrument with a remaining maturity of more than 397 days, or two years in the case of Government and other public securities [see 7.5 Notes(1) & (2) to 7.5].

*Notes: (1) Weighted average maturity is a measure of the average length of time to maturity of all the underlying securities in the scheme weighted to reflect the relative holdings in each instrument; and is used to measure the sensitivity of a scheme to changing money market interest rates.*

* (2) Weighted average life is the weighted average of the remaining life of each security held in a scheme; and is used to measure the credit risk, as well as the liquidity risk.*

* (3) The use of interest rate resets in variable-notes or variable-rate notes generally should not be permitted to shorten the maturity of a security for the purpose of calculating weighted average life, but may be permitted for the purpose of calculating weighted average maturity.*

(g) Notwithstanding 7.1 and 7.1B, the aggregate value of a scheme's holding of instruments and deposits issued by a single issuer entity may not exceed 10% of the total net asset value of the scheme except:

(i) where the issuer entity is a substantial financial institution and the total amount does not exceed 10% of the issuer's entity's issued share capital and published non-distributable capital reserves, the limit may be increased to 25%; or

(ii) in the case of Government and other public securities, up to 30% may be invested in the same issue; or

(iii) in respect of any deposit of less than US$ 1,000,000 or its equivalent in the base currency of the scheme, where a scheme cannot otherwise diversify as a result of its size.
(g)(a) Notwithstanding 7.1A and 7.1B, the aggregate value of a scheme’s investments in entities within the same group [see Note(1) to 7.1A] through instruments and deposits may not exceed 20% of its total net asset value.

Notes: (1) 8.2(g)(a) will not apply in respect of cash deposit of less than US$1,000,000 or its equivalent in the base currency of the scheme, where a scheme cannot otherwise diversify as a result of its size.
(2) where the entity is a substantial financial institution and the total amount does not exceed 10% of the entity’s share capital and non-distributable capital reserves, the limit may be increased to 25%.

Limitations on borrowing

(h) Notwithstanding 7.21, the scheme may borrow up to 10% of its total net asset value but only on a temporary basis for the purpose of meeting redemption requests or defraying operating expenses.

Underlying assets requirements

(i) The value of a scheme’s holding of money market funds that are authorized by the Commission under 8.2 of this UT Code or regulated in a manner generally comparable with the requirements of the Commission and acceptable to the Commission may not in aggregate exceed 10% of its total net asset value.

(j) The value of a scheme’s holding of investments in the form of asset-backed securities may not exceed 15% of its total net asset value.

(k) Subject to 7.32 to 7.38, a scheme may engage in sale and repurchase, and reverse repurchase transactions in compliance with the following additional requirements:

(i) the amount of cash received by a scheme under sale and repurchase transactions may not in aggregate exceed 10% of its total net asset value;

(ii) the aggregate amount of cash provided to the same counterparty in reverse repurchase agreements may not exceed 15% of the net asset value of the scheme;

(iii) collateral received may only be short-term depositscash, or high quality money market instruments [see Note(1) to 7.36(i)] and may also include, in the case of reverse repurchase transactions, government securities receiving a favourable assessment on credit quality [see Note (4) to 5.10(f)]; and

(iv) the holding of collateral, together with other investments of the scheme, must not contravene the investment limitations and requirements set out in 8.2 of this UT Code.

(l) The scheme may use financial derivative instruments for hedging purposes only [see Notes(1) and (2) to 7.25].
(m) The currency risk of a scheme should be appropriately managed. In particular, any material currency risk should be appropriately hedged where a scheme invests in assets that are not denominated in the base currency of the scheme.

(n) The scheme must hold at least 107.5% of its total net asset value in daily liquid assets and at least 3015% of its total net asset value in weekly liquid assets.

Notes: (1) Daily liquid assets refers to (i) cash; (ii) instruments or securities convertible into cash (whether by maturity or through exercise of a demand feature) within one working day; and (iii) amount receivable and due unconditionally within one working day on pending sales of portfolio securities.

(2) Weekly liquid assets refers to (i) cash; (ii) instruments or securities convertible into cash (whether by maturity or through exercise of a demand feature) within five working days; and (iii) amount receivable and due unconditionally within five working days on pending sales of portfolio securities.

(3) In addition, it is expected that periodic stress testing to be carried out by the management company in monitoring the scheme’s liquidity.

(o) A scheme that offers a stable or constant net asset value or which adopts an amortized cost accounting for valuation of its assets may only be considered by the Commission on a case-by-case basis.

Note: Among others, the Commission must be satisfied with the overall measures and safeguards put in place by the scheme to properly address relevant risks associated with these features, having taken into account applicable international regulatory standards and requirements. Non-exhaustive examples of safeguards may include setting out clear and reasonable criteria for the types of instruments and the circumstances under which a scheme may use amortized cost accounting, ongoing monitoring of the difference between the amortized cost of an instrument and its market value or the difference between the constant net asset value of the scheme and its marked-to-market net asset value (as the case may be), procedures in place to ensure appropriate actions are to be taken promptly in the interests of the investors when such difference exceeds a pre-determined threshold, enhanced measures to satisfy redemption requests including holding higher level(s) of daily and/or weekly liquid assets.

8.3 Warrant funds[deleted]

The following criteria apply to collective investment schemes, the principal objective of which is investment in warrants.

(a) The core requirements in Chapter 7 will apply except for 7.2, 7.3, 7.6(b), 7.10, and 7.21.

(b) The value of a scheme’s holding of warrants issued by any single issuer may not exceed 10% of its total net asset value.
The following additional provisions will apply:-

Investment limitations

(c) Not less than 90% of warrants held by the scheme must carry the right to acquire securities listed on a market [see Note to 7.3].

(d) Investment in forward currency contracts and financial futures contracts is permissible for hedging purposes only.

(e) Investment in physical commodities, including bullion, options on commodities and commodity-based investments is prohibited [see Note(2) to 7.10].

Limitations on borrowing

(f) The scheme may borrow up to 10% of its total net asset value but only on a temporary basis for the purpose of meeting redemption requests or defraying operating expenses.

Offering document

(g) The offering document must explain the nature of warrants as an investment and contain a detailed description of the risks inherent in investment in warrants.

(h) The offering document and any advertising material must contain the following warning:-

"Prices of warrants may fall just as fast as they may rise, therefore this scheme carries a significant risk of loss of capital. It is suitable only for those investors who can afford the risk involved."

Name of scheme

(i) The word "Warrant" must appear in the name of the scheme.

8.4 [deleted]

8.4A Futures and options funds [deleted]

The following criteria apply to collective investment schemes, the principal objective of which is investment in future contracts (including commodities and financial futures) and/or in options.

Investment restrictions

(a) The scheme may only enter into futures and options contracts dealt with on a futures, commodities or options exchange or any over-the-counter derivative approved by the trustee/custodian.

(b) At least 30% of the net asset value of the scheme must be held on deposit or invested in liquid short term debt instruments and may not be used for margin requirements. Not more than 70% of the net asset value of the scheme may be
committed as margin for futures or options contracts, and/or premium paid for options purchased (including put and/or call options).

(c) The scheme may not invest in commodity contracts other than commodity futures contracts. However, the scheme may acquire precious metals which are negotiable on an organized market.

(d) Premiums paid to acquire options outstanding with identical characteristics may not exceed 5% of the net asset value of the scheme.

(e) The scheme may not hold open contract positions in any futures contract month or option series for which the combined margin requirement represents 5% or more of the net asset value of the scheme.

(f) The scheme may not hold open positions in futures or options contracts concerning a single commodity or a single underlying financial instrument for which the combined margin requirement represents 20% or more of the net asset value of the scheme.

Limitations on borrowing

(g) The scheme may borrow up to 10% of its total net asset value but only on a temporary basis for the purpose of meeting redemption requests or defraying operating expenses.

Limited liability

(h) The liability of holders must be limited to their investment in the scheme.

Specialist expertise

(i) The applicant management company (and, if applicable, the investment adviser) must satisfy the Commission that it has specific experience in the field of futures and options. In determining the acceptability of the management company, the Commission may also consider the qualifications and experience of persons employed by the management company or the investment adviser. An applicant must provide details of the performance of all futures funds under its management or the management of the employees responsible for the applicant scheme for the preceding five years.

Certification by trustee/custodian

(j) The trustee/custodian must certify to the Commission that suitable control procedures are in place for monitoring the investment restrictions of the scheme. The trustee/custodian must demonstrate that they have the relevant experience in this respect.

Disclosure

(k) The offering document must:
(i) provide a detailed explanation of the type(s) of futures contracts (and, if appropriate, options) that the scheme will invest in, the risks inherent in such investment and the trading strategy to be adopted;

(ii) disclose in one place all management, advisory and brokerage fees payable by the scheme; and

(iii) clearly disclose the nature and size of transaction costs that are expected to be incurred by the scheme and the implications of expected greater number of transactions on the amount of these costs.

(l) The offering document and any advertising material must contain a warning statement appropriate to the degree of risk inherent in the scheme. The warning statement must be prominently displayed on the front cover of the offering document.

(m) The words "leveraged", "futures" and/or "options" must appear in the name of the scheme.

(n) The annual financial statements of the scheme must disclose the total transaction costs incurred.

(o) Any advertisement must contain a statement that investors should refer to the risk factors set out in the offering document of the scheme.

Acknowledgement

(p) The application form must, in a prominent place, contain an acknowledgement to be signed by the investor at the time of subscription confirming that he has read the offering document of the scheme and is fully aware of the nature of the scheme and the risks associated with it.

8.5 Guaranteed funds[deleted]

The following criteria apply to collective investment schemes which contain a structure whereby a guaranteed amount will be paid to investors who hold units/shares in the scheme at a specified date in the future.

(a) The core requirements in Chapter 7 and relevant provisions in Chapter 8 should apply to the scheme where appropriate, depending on the nature and the underlying investments of the scheme.

Guarantor

(b) The guarantor must be:

   (i) a licensed banking institution authorized under the Banking Ordinance; or

   (ii) an authorized insurer authorized under the Insurance Companies Ordinance.

Note: The Commission may consider other substantial financial institutions to act as guarantor on a case-by-case basis. The Commission must be
satisfied that the institution is, on an on-going basis, subject to regulatory supervision and of acceptable financial standing.

Disclosure in the offering document

Apart from the standard contents requirements in Appendix C, the offering document of the scheme must contain:

(c) Information about the guarantor

(i) its name;

(ii) nature of its business; and

(iii) information on its financial position, including paid-up share capital, total net assets or shareholders' funds, and where applicable, credit rating and any other relevant information.

(d) Information about the guarantee

(i) the terms of the guarantee, including the scope and validity of the guarantee and the circumstances under which the guarantee may be terminated;

Note: The deed of guarantee must form part of the offering document.

(ii) an illustration or description to clearly demonstrate the guarantee mechanism and how potential returns in excess of the guaranteed amount are calculated;

Notes: (1) Where an indicative participation rate is shown, the illustration should use the quoted indicative rate as the basis for calculation.

(2) Assumptions used in the illustration should be clearly stated. It should be stated that the rates of return shown are for illustrative purpose only and that the actual return may be different.

(e) A detailed description of the nature of the underlying investments, including:

(i) the proposed percentage, or an estimate thereof, of the scheme to be invested in fixed-interest securities and that in other investments at the time of publication of the offering document;

(ii) the issuers/counter-parties of the underlying investments, or the criteria for the selection of such parties;

(iii) the valuation methodology of the underlying investments;

(iv) the liquidation mechanism of the underlying investments to meet redemption requests; and
(v) Where relevant, the participation rate or an estimate thereof at the time of publication of the offering document. It should be stated that the actual participation rate may be different from the indicative rate. An analysis of the factors that will impact on the final determination of such rate should also be given.

Note: Where applicable, it should be stated when the actual participation rate will be determined and how such information will be communicated to investors.

(f) Risk warnings

These should include, but not limited to:

(i) A statement to the effect that due to the guarantee structure, there will be a dilution of performance;

(ii) A statement to the effect that potential returns in excess of the guaranteed amount are subject to investment risk and are not guaranteed;

(iii) A statement to the effect that the scheme is subject to the credit risk of the guarantor and the issuers of the underlying investments;

(iv) A statement to the effect that the scheme is subject to the liquidity risk of the underlying investments;

(v) Risks, if any, associated with conflicts of interest that may arise amongst different operating parties;

(vi) A warning statement that the scope or validity of the guarantee may be affected under certain circumstances, including, where relevant, the condition that the guarantee only applies to investors who hold their investments until the date specified in the guarantee and that dealings before such date are fully exposed to fluctuations in the value of the scheme’s assets; and

(vii) Where applicable, the mechanism of any up-front charging fee structure and the cost implications to investors.

Jurisdiction

(g) Nothing in the deed of guarantee may exclude the jurisdiction of the courts of Hong Kong to entertain an action concerning the scheme or the guarantee.

Name of scheme

(h) The name of the scheme should accurately reflect the nature of the guarantee.

Reporting Requirement

(i) The management company of the scheme should report to the Commission as soon as practicable if it becomes aware of any events which may affect the guarantee or undermine the ability of the guarantor to act as such.
Note: Where the guarantor of a scheme is neither a licensed banking institution nor an authorized insurer as described in 8.5(b)(i) and (b)(ii) respectively, the manager of the scheme must notify the Commission on an annual basis the regulatory status of the guarantor.

Advertisements

(j) Any advertisement or marketing material must contain the following:

(i) the name of the guarantor;

(ii) where relevant, a statement that certain fees are charged up-front and the aggregate amount thereof;

(iii) where an indicative participation rate is quoted, the date of reference should be stated and there should be a warning that the actual participation rate may be different from the indicative rate;

(iv) the statement in 8.5(f)(vi) above; and

(v) a statement directing investors to read the offering document for further details of the guarantee.

8.6 Unlisted index-index funds and index tracking exchange traded funds

The following criteria apply to index funds.

General

(a) An “unlisted index fund” is a collective investment scheme, the principal objective of which is to track, replicate or correspond to a financial index or benchmark, with an aim of providing or achieving investment results or returns that closely match or correspond to the performance of the index. Such unlisted index fund authorized by the Commission will be referred to as “index fund” in this UT Code.

(a)(a) An index tracking exchange traded fund means an index fund as defined in 8.6(a) the units/shares of which are listed and traded on a securities exchange. Such index tracking exchange traded fund authorized by the Commission will be referred to as “passive ETF” in this UT Code.

(a)(b) The term “index” used in 8.6 of this UT Code shall mean an index or a benchmark as the context requires.

(a)(c) Subject to consultation with the SFC, a scheme under 8.6 of this UT Code may have unlisted and/or listed unit/share classes. The unlisted class and listed class shall comply with the requirements on index fund and passive ETF in 8.6 of this UT Code respectively.

Index funds

The criteria provisions set out in 8.6(b) to 8.6(m) apply to index funds.
(b) An index fund may seek to track an index by one or a combination of the following strategies:

(i) full replication by investing all or substantially all of its assets in the constituents of the underlying index, broadly in proportion to the respective weightings of the constituents;

(ii) a representative sampling by investing in a portfolio featuring a high correlation with the underlying index; and

Note: The use of sampling where certain securities in the portfolio are not the constituent securities of the index is acceptable if the portfolio matches the characteristics of the index.

(iii) Synthetic replication through the use of financial derivative instruments to replicate the index performance.

(c) In achieving its investment objective, the scheme an index fund may invest in other appropriate investment instruments, such as derivatives financial derivative instruments permitted under this UT Code or otherwise accepted by the Commission, in accordance with the scheme's disclosed investment strategies and restrictions.

(c)(a) Where the management company of the index fund adopts a synthetic replication strategy, must also comply with the requirements set out under in 8.8 of this UT Code regarding structured funds are also applicable if the index fund's global net derivative exposure relating to financial derivative instruments for investment purposes [see Note to 7.26] exceeds 50% of its total net asset value.

(d) In general, the Commission will consider authorizing an index fund only if the underlying index is acceptable to the Commission. Such acceptance does not imply official approval or endorsement of the index. The Commission reserves the right to withdraw the authorization if the index is no longer considered acceptable.

Note: The management company should immediately consult the Commission if for any reasons the index might likely cease or has ceased to be acceptable. The management company should as a priority objective propose remedial actions or alternatives that are acceptable to the Commission.

Acceptable Indices

(e) The acceptability of an index will be assessed on the following criteria:

(i) The index should have a clearly defined objective and/or the market or sector it aims to represent should be clear.

Notes: (1) The Commission must be satisfied that the index appropriately reflects the characteristics of the market or sector. The index should be able to, where applicable, reflect the price movements in its underlying constituents and change the composition and weightings of these constituents to reflect
changes in the underlying market or sector. The Commission may, where relevant, request information on the market capitalisation of the constituent securities in relation to the total value of the market or sector that an index purports to represent.

(2) Where the index relates to a single commodity or interest rate for money market, it should be well-recognized and representative of the relevant market or sector.

(ii) The index should in general be broadly based;

Note: An index with a single constituent security weighing more than 40% or with its top five 20% (or 35% where that proves to be justified by exceptional conditions in markets where certain securities are highly dominant and provided that each remaining constituent security weighing more than 75% security does not exceed 20%) or having few constituent securities would generally be considered too concentrated. Exceptions may be made on a case by case basis, particularly where the constituent securities are Government or other public securities, or the index relates to a single commodity or interest rate for money market.

(iii) The index should be investible, where applicable;

Note: The Commission expects that the constituent securities should be sufficiently liquid (taking into account their respective weightings and trading volume), and may be readily acquired or disposed of under normal market circumstances and in the absence of trading restrictions.

(iv) The index should be transparent and published in an appropriate manner; and

Notes: (1) The latest last closing index level and other important news should be either published in Hong Kong daily newspapers or conveniently accessible by investors (for example, by enquiring of the Hong Kong Representative or through relevant websites). The Commission may also consider whether the index is easily accessible through market data vendors.

(2) The Commission expects that the index constituents together with their respective weightings should be easily accessible, free of charge, by investors (for example, via the internet). This information should be published after each index rebalancing on a retrospective basis and in advance of the next rebalancing.

(v) The index should be objectively calculated and rules-based. The index provider is expected to possess the necessary expertise and technical resources to construct, maintain and review the methodology/rules of the
index. The methodology/rules should be well documented, consistent and transparent.

Notes: (1) The Commission may request the submission of the methodology/rules of the index.

(2) Where the index provider is the management company of the index fund (or its connected persons), effective arrangements for management of conflicts of interests should be put in place.

Reporting requirements

(f) The Commission should be consulted on any events that may affect the acceptability of the index. Significant events relating to the index should be notified to the holders as soon as practicable. These may include a change in the methodology/rules for compiling or calculating the index, or a change in the objective or characteristics of the index.

Investment restrictions

(g) The core requirements in Chapter 7 will apply with the modifications or exceptions as set out in the following (h) and (i) and paragraph 11 of Appendix I of this UT Code – Guidelines for Regulating Index Tracking Exchange Traded Funds 8.6(h) to 8.6(i).

(h) Notwithstanding 7.1, more than 10% of the net asset value of an index fund may be invested in constituent securities issued by a single issuer entity provided that:

(i) it is limited to any constituent securities that each accounts for more than 10% of the weighting of the index; and

(ii) the scheme’s index fund’s holding of any such constituent securities may not exceed their respective weightings in the index, except where weightings are exceeded as a result of changes in the composition of the index and the excess is only transitional and temporary in nature.

Note: A waiver of (h)(ii) may be granted on a case-by-case basis, after considering factors including whether the waiver is necessary for the scheme to achieve its objective to track the index.

(h)(a) Investment restrictions in 8.6(h)(i) and (ii) do not apply if:

(i) an index fund adopts a representative sampling strategy which does not involve the full replication of the constituent securities of the underlying index in the exact weightings of such index;

(ii) the strategy is clearly disclosed in the offering document of the index fund;

(iii) the excess of the weightings of the constituent securities held by the index fund over the weightings in the index is caused by the implementation of the representative sampling strategy;
(iv) any excess weightings of the index fund’s holdings over the weightings in the index must be subject to a maximum limit reasonably determined by the index fund after consultation with the Commission. In determining this limit, the index fund must consider the characteristics of the underlying constituent securities, their weightings and the investment objectives of the index and any other suitable factors;

(v) limits laid down by the index fund pursuant to 8.6(h)(a)(iv) must be disclosed in the offering document; and

(vi) disclosure must be made in the index fund’s interim and annual reports as to whether the limits imposed by the index fund itself pursuant to 8.6(h)(a)(iv) have been complied with in full. If there is non-compliance with the said limits during the relevant reporting period, this must be reported to the Commission on a timely basis and an account for such non-compliance should be stated in the report relating to the period in which the non-compliance occurs or otherwise notified to investors.

(h)(b) Due to its index tracking nature, the Commission may, upon sufficient justification, consider not requiring index fund to strictly comply with the investment restrictions in 7.1A and 7.1B on a case-by-case basis.

(i) Subject to 8.6 (g) and (h) above, Subject to the approval of the Commission, the 30% limit in 7.4 may be exceeded, and an index fund may invest all of its assets in Government and other public securities in any number of different issues despite 7.5.

Disclosure

(j) In addition to the requirements under Appendix C, the offering document of an index fund must make the following disclosure and warnings:

(i) a description of the market or sector the index aims to represent;

(ii) the characteristics and general composition of the index and, where applicable, concentration in any economic sectors and/or issuers;

(iii) the weightings of the top 10 largest constituent securities of the index as of a date within a month of the date of the offering document and a publicly accessible website where the latest top 10 largest constituents securities of the index together with their respective weightings are published;

(iv) where necessary, a statement to the effect that the investment of the scheme index fund may be concentrated in the securities of a single issuer or several issuers;

(v) a warning of lack of discretion to adapt to market changes due to the inherent investment nature of index funds and that falls in the index are expected to result in corresponding falls in the value of the scheme index fund;
(vi) a statement to the effect that there is no guarantee or assurance of exact or identical replication at any time of the performance of the index;

(vii) circumstances that may lead to tracking errors and the related risks, and strategies employed in minimising such errors;

(viii) a brief description of the index methodology/rules and/or the means by which investors may obtain such information (for example, by providing the website address of the index provider);

(ix) the means by which investors may obtain the latest index information and other important news of the index;

(x) a warning that index composition may change and securities may be delisted;

(xi) any circumstances that may affect the accuracy and completeness in the calculation of the index;

(xii) a warning in relation to any licensing conditions (including indemnity given to the index provider, if any) for using the index, and the contingency plan in the event of cessation of the availability of the index;

(xiii) a statement on whether the index provider and the management company of the scheme index fund (or its connected persons) are independent of each other. If not, the means by which possible conflicts of interests may be addressed;

(xiv) the Commission reserves the right to withdraw the authorization of the scheme index fund if the index is no longer considered acceptable; and

(xv) any other information which is relevant and material for investors to make an informed investment decision.

Replacement of the underlying index

(k) Following the authorization of the scheme index fund, a replacement of the underlying index may only be made in accordance with the provisions of its offering and constitutive documents and with the prior approval of the Commission.

Note: A replacement of the underlying index may be necessary under circumstances including where the index is no longer available or considered acceptable.

Financial statements

(l) The interim and annual financial statements of the scheme must disclose a list of those constituent securities, if any, that each accounts for more than 10% of the weighting of the index as at the end of the relevant period and their respective weightings. The statements must also provide a comparison of the scheme performance and the actual index performance over the relevant period. [deleted]
Name of scheme-index fund

(m) The name of the scheme-index fund must reflect the nature of an index fund.

Note: Except with the approval of the Commission, the words “index”, “tracking” and/or “tracker” are expected to appear in the name of the scheme-index fund.

Passive ETFs

The criteria provisions set out in 8.6(n) to 8.6(y) apply to passive ETFs:

(n) Passive ETFs must comply with the requirements in this UT Code not otherwise modified below. In particular, the requirements on index funds in 8.6 of this UT Code are broadly applicable to passive ETFs.

(o) It is a condition for authorizing a passive ETF that it must be listed and traded on The Stock Exchange of Hong Kong Limited (the “SEHK”).

(p) The management company of a passive ETF is generally expected to use its best endeavours to put in place arrangements so that there is at least one market maker for the units/shares (traded in each counter) of the passive ETF and at least one market maker for (each counter of) the passive ETF will give not less than three months' notice prior to terminating the market making arrangement. The appointed market maker shall observe the applicable requirements concerning market making activities issued by the SEHK.

(q) The management company of a passive ETF shall inform the Commission and holders by way of public announcement, in the manner as may be required by the Commission, and publish as soon as reasonably practicable any information or transaction concerning the passive ETF which:

(i) is necessary to enable holders to appraise the position of the passive ETF; or

(ii) is necessary to avoid a false market in the units/shares of the passive ETF; or

(iii) might be reasonably expected to materially affect market activity in the passive ETF or affect the price of the units/shares of the passive ETF.

(r) Name of a passive ETF under note to 8.6(m) – The note to 8.6(m) is amended to the effect that except with the approval of the Commission, the words “index”, “tracking”, “tracker” and/or “ETF” are expected to appear in the name of a passive ETF.

(s) The notification requirements under 10.7 and 11.1A are modified to the following extent:

(i) Suspension of dealing in 10.7 – The management company must immediately notify the Commission as soon as practicable if dealing in units/shares on the SEHK ceases or is suspended.
(ii) Increase in fees and charges in 11.1A – Any increase in fees and charges from the current level up to the permitted maximum level as disclosed in the Hong Kong Offering Document is subject to at least one week’s prior notice to holders.

(iii) All notices and public announcements made by passive ETFs in accordance with this UT Code must be prepared in both English and Chinese.

Note: For avoidance of doubt, nothing in 8.6(s) shall exempt a passive ETF from compliance with 11.1, 11.4 and 11.5.

(t) Where a passive ETF ceases trading on the SEHK as a result of proposed termination and/or deauthorization and delisting, the requirements in 6.1, 8.6(u)(i) and (ii), 10.7 and 11.1B may be modified and/or not be applicable depending on the specific circumstances of each case and subject to such conditions and requirements as may be imposed by the Commission.

(u) In addition to information commonly available for stocks during the trading hours of the SEHK (e.g. bid/ask prices and queuing displays), a passive ETF must, except with the approval of the Commission, provide the following trading information to the public through the passive ETF’s own website or such other channels as the Commission considers appropriate:

(i) real time or near-real time indicative net asset value per unit/share (updated at least every 15 seconds during trading hours);

(ii) last closing net asset value per unit/share and last closing net asset value of the passive ETF (updated on a daily basis); and

(iii) full holdings of the passive ETF (updated on a monthly basis within one month of the end of each month).

Notes: (1) Indicative net asset value per unit/share means a measure of the intraday value of the net asset value per unit/share of a passive ETF based on the most up-to-date information.

(2) For a passive ETF with multiple trading counters, the relevant information shall be provided for each counter.

(3) The offering document shall disclose the policy regarding disclosure of holdings of the passive ETF.

(4) The offering document shall direct investors to the website or other channels where the above information is published.

(5) Where the full holdings of the passive ETF is provided to the public on a more frequent basis (e.g. daily), the passive ETF is not required to comply with 8.6(u)(iii).

(v) If a passive ETF’s global net derivative exposure relating to financial derivative instruments for investment purposes [see Note to 7.26] exceeds 50% of its total net asset value, the passive ETF shall make available, through the passive ETF’s
own website or other acceptable channels, the information on financial derivative instruments acquired by the passive ETF (such as counterparty exposure and collateral information) to investors on an ongoing basis. The offering document should direct investors to the website or other channels where this information is published.

(w) Where securities financing transactions undertaken by a passive ETF exceed 50% of its total net asset value, the passive ETF should make available, through the passive ETF’s own website or other acceptable channels, the information on securities financing transactions undertaken by the passive ETF (such as counterparty exposure and collateral information) to investors on an ongoing basis. The offering document should direct investors to the website or other channels where this information is published.

(x) A passive ETF must ensure that the following documents are made readily available to Hong Kong investors through any of the passive ETF’s own website or such other channels as the Commission considers appropriate:

(i) offering document (including Product KFS);
(ii) latest version of the interim and annual reports of the passive ETF; and
(iii) all notices and public announcements (including notices for suspension and resumption of trading) issued by the passive ETF in Hong Kong.

Note: Where a passive ETF is listed and traded on the SEHK, it may, but is not required to, make available the abovementioned documents to investors in Hong Kong by way of hyperlinks to the HKEx website of Hong Kong Exchanges and Clearing Limited.

(y) The Commission may enter into any mutual recognition arrangements with other jurisdictions from time to time to facilitate cross-listing and offering of exchange traded funds in each other’s market. Please refer to the relevant circulars published on the Commission’s website at www.sfc.hk for the specific relief granted to overseas exchange traded funds under the relevant mutual recognition arrangements.

8.7 Hedge funds

Foreword

The following criteria apply to collective investment schemes that are commonly known as hedge funds (or alternative investment funds or absolute return funds). Hedge funds are generally regarded as non-traditional funds that possess different characteristics and utilize different investment strategies from traditional funds. In considering an application for authorization, the Commission will, among other things, consider the following:

(i) the choice of asset class; and
(ii) the use of alternative investment strategies such as long/short exposures, leverage, and/or hedging and arbitrage techniques.
Due to the wide array of schemes that may fall under this category, the Commission will exercise its discretion in imposing additional conditions to each scheme on a case-by-case basis as appropriate.

Where a scheme invests all its non-cash assets in other hedge funds, it may be authorized as a fund of hedge funds (FoHFs).

Where a scheme has a capital guarantee feature, it may be authorized as a capital guaranteed hedge fund. In this case, provisions of 8.5 and 8.7 may apply to the scheme where relevant, depending on the nature of the scheme.

Unless otherwise specified, the provisions in other Chapters of this UT Code shall apply. Where the provisions refer to the scheme, this means the applicant scheme.

The management company

(a) The management company of a scheme must satisfy the requirements set out in Chapter 5 unless otherwise specified in this Chapter. For the avoidance of doubt, the Commission will consider, among others, the following factors when assessing the acceptability of the management company:

(i) The management company must have the requisite competence, expertise and appropriate risk management and internal controls systems. It must also be adequately and suitably staffed in order to properly manage the risks and operational issues in connection with its hedge funds business;

(ii) the experience of the key investment personnel of the management company and those of the investment adviser delegate (where the latter has been delegated the investment management function) in managing hedge funds;

Note: The key personnel of the management company of either a single hedge fund or a FoHFs must be dedicated full-time staff with a demonstrable track record in the management of hedge funds.

The Commission will take into account various factors in assessing the acceptability of the key personnel for a scheme. These factors may vary from a single hedge fund to a FoHFs having regard to the different strategies and operational differences of these funds.

There must be at least two key personnel in the management company each having at least five years’ relevant experience. The management company must demonstrate that out of these five years’ relevant experience, the two key personnel must each have at least two years’ specific experience:

(a) In the case of a single hedge fund manager, the Commission will normally consider it acceptable if each of the two key personnel has at least two years’ specific experience.

1 “Single hedge fund” in the context of 8.7 means hedge funds that are not in the form of FoHFs.
investment management experience in the same strategy as that of the scheme.

(b) In the case of a FoHFs manager, the Commission will normally consider it acceptable if each of the two key personnel has at least two years’ specific investment management experience as a FoHFs manager.

A key personnel may satisfy this five years’ relevant experience by a combination of both his specific experience mentioned above and general experience relating to hedge funds. With respect to general experience, the Commission will normally consider the following types of experience acceptable:

(1) proprietary trading experience in securities, financial derivatives instruments or other investment instruments which are of a similar nature to those contemplated by the scheme; or

(2) carrying out investment strategies in the context of investment management or securities dealing business in similar nature to the one contemplated for the scheme; or

(3) prior experience in evaluating or selecting hedge funds for investment purposes.

General experience acquired through academic research, sales or marketing or back-office administration of hedge funds is unlikely to be considered acceptable for meeting the requirement in 8.7(a).

For the avoidance of doubt, to the extent that 5.5(a) requires the key personnel to possess specific public funds experience, this requirement may be satisfied if the management company on a firm-wide basis is able to demonstrate that it possesses the requisite experience and resources to administer public funds.

The Commission may require independent substantiation of the management experience and track record of the key personnel, the management company and the group companies (where appropriate).

The experience requirement of the investment personnel of the underlying funds of a FoHFs is set out in the “Fund of Hedge Funds” section below.

(iii) amount of assets under management;

Note: The Commission would generally expect at least US$100 million for the total amount of assets under management that follow hedge fund strategies. While assets under management may include proprietary funds, the Commission will generally look for experience in managing third-party funds.

(iv) the risk management profile and internal control systems of the management company; and
Note: The management company must have in place suitable internal controls and risk management systems commensurate with the company’s business and risk profile, including a clear risk management policy and written control procedures.

It must continuously deploy such necessary resources and be vigilant to ensure that all the relevant risks in connection with the management of the scheme are properly monitored and controlled in accordance with the investment strategy of the scheme.

The management company must demonstrate that those representatives and agents (including for example, administrators, custodian, brokers, valuation agents) appointed by it possess sufficient know-how and experience in dealing with hedge funds.

In the case of the management of a FoHFs, the management company must:

(a) have in place a due diligence process for the selection of the underlying funds and ongoing monitoring of their activities;

(b) demonstrate its ability to assess and monitor the performance of the managers of the underlying funds, and the ability to replace the underlying funds whenever necessary to protect the interests of holders; and

(c) submit a plan to explain its due diligence and ongoing monitoring processes (containing, among others, the frequency of reporting and evaluation of the underlying funds, and measures adopted by the management company to ensure investment and operational risks of the underlying funds are analysed and controlled) and include a summary of the plan in the offering document of the scheme.

The management company must ensure that its risk management process is able to deal with normal and exceptional circumstances including extreme market conditions.

The management company must take all reasonable care in the selection of its distribution agents engaged in the selling of hedge funds and provide all necessary information and training to these agents for the purpose of selling the scheme.

(v) the investment management operations of the scheme must be based in a jurisdiction with an inspection regime acceptable to the Commission.

Note: Whilst reference would be made to the list of acceptable inspection regimes published on the Commission’s website, it is noted that the regulation of offshore hedge funds vs. onshore funds may be different in some jurisdictions. The acceptability of an inspection regime in the context of a scheme that is subject to
such regime and is seeking SFC authorization may need to be considered on a case-by-case basis.

Prime broker

(b) Where a scheme appoints a prime broker, the following shall apply:

(i) the prime broker must be a substantial financial institution subject to prudential regulatory supervision;

(ii) where assets of the scheme are charged to the prime broker for financing purpose, such assets must not, at any time, exceed the level of the scheme’s indebtedness to the prime broker;

Note: Where assets of the scheme may be used as collateral or security for financing to be provided by the prime broker, disclosure must be made in the offering document of the risks associated with the collateralisation, for example, foreclosure or re-hypothecation of these assets by the prime broker and any consequential impact to the scheme and its investors.

(iii) the assets charged to the prime broker must remain in a segregated custody account, in the name or held to the order of the trustee/custodian; and

(iv) the scheme’s offering document must disclose the profile of the prime broker and its relationship with the scheme.

Note: Before a prime broker is appointed by the scheme, the scheme or the management company (as the case may be) must conduct due diligence on the prime broker and be reasonably satisfied with the prime broker’s suitability and competence.

Apart from disclosing the profile of the prime broker, the offering document must disclose the role(s) of the prime broker in relation to the hedge fund, whether the prime broker is subject to any prudential regulatory supervision, and if so, a brief description of its licensing status in the relevant jurisdiction. Where appropriate, disclosure of the risks relating to any conflicts of interest between the prime broker and the scheme has to be made in the offering document.

Minimum subscription

(c) The minimum level of initial subscription by each investor in a scheme must not be less than US$50,000*, except for FoHFs, where the minimum initial subscription must not be less than US$10,000*. No minimum subscription level will apply to a scheme which provides at least 100% capital guarantee.

(*) or the currency equivalent
Limited liability

(d) The liability of holders must be limited to their investment in the scheme and this must be clearly stated in the offering document.

(e) Where the scheme is a sub-fund of an umbrella fund, the scheme will be required to demonstrate to the Commission that there are legally enforceable provisions to ring-fence the scheme assets from the liabilities of other sub-funds. A brief description of such ring-fencing arrangement must be made in the offering document.

Note: The Commission may require an independent legal opinion or regulatory confirmation regarding the enforceability of the ring-fencing provisions.

Investment and borrowing restrictions

(f) The scheme must have a set of clearly defined investment and borrowing parameters in its constitutive and offering documents. The offering document must clearly explain the types of financial instruments in which the scheme will invest; the extent of diversification or concentration of investments or strategies; the extent and basis of leverage (including the maximum level of leverage); and the related risk implications of the investment and borrowing parameters.

(g) The core requirements in Chapter 7 will not apply except for 7.12(a), (b), (c) and (d), 7.14, 7.17, 7.18, 7.227.40 and 7.237.41.

Name of scheme

(h) If the name of the scheme indicates a particular objective, investment strategy, geographic region or market, the scheme must, under normal market circumstances, utilize at least 70% of its non-cash asset total net asset value for the purposes of pursuing the particular objective, investment strategy or geographic region or market which the scheme represents.

Performance fees

(i) If a performance fee is levied, the scheme must comply with 6.17. Full and clear disclosure of the calculation methodology must be set out in its offering document.

6.17 does not apply to the underlying funds of a FoHFs. For FoHFs, the offering document of the scheme must disclose whether a performance fee is levied at both the scheme level and the underlying funds level. It must also summarize the bases of how performance fees are calculated and paid by the underlying funds. Appropriate warnings must be made in the offering document about the possibility of charging performance fees at various levels within a FoHFs and the implications to investors.

Note: The Commission notes that various methodologies may be used for the charging and accrual of performance fees based on the basic principle in 6.17.
The Commission may require illustrative examples to be given in the offering document to demonstrate the charging method where it considers appropriate.

Where a scheme intends to achieve equalisation for the calculation of performance fees, its offering document must disclose the mechanisms adopted to achieve equalisation.

Where the scheme does not intend to achieve equalisation of performance fees, its offering document must clearly disclose this fact and how the absence of equalisation may affect the amount of performance fees to be borne by investors.

Fund of hedge funds

The following provisions apply to FoHFs in lieu of the provisions of 8.1.

(j) The FoHFs must comply with the following:

(i) a FoHFs must invest in at least five underlying funds, and not more than 30% of its total net asset value may be invested in any one underlying fund; and

Note: One of the underlying assumptions of a FoHFs is that it can achieve diversification through investing in a range of funds that employ different investment strategies and/or utilise the skills of different fund managers.

Any scheme applying for authorisation as a FoHFs should clearly explain its diversification strategy in the offering document.

A FoHFs authorised pursuant to this UT Code is expected to achieve investment return through the performance of its underlying funds rather than direct investments in securities, futures, options, financial derivatives instruments, currency or other investments through proprietary trading or “managed accounts”. It is therefore generally not acceptable for a FoHF to carry out proprietary trading directly or through the use of “managed accounts”.

(ii) a FoHF may not invest in another FoHF.

(k) The management company of the FoHFs must ensure that:

(i) each of the key personnel of the management company of an underlying fund possesses at least two years’ experience in the relevant hedge fund investment strategy, provided however that up to 10% of the net asset value of the FoHFs may comprise of underlying funds managed by investment personnel with less experience;
(ii) there is an independent trustee/custodian to safe keep the assets of the underlying funds;

(iii) where a FoHFs invests in underlying funds managed by the same management company or its connected persons, all initial charges and redemption charges on such underlying funds are waived;

(iv) neither the management company of the FoHFs nor its connected persons retain a rebate (whether in cash or in kind) on any fees or charges levied by such underlying funds, their management company or any of their connected persons;

(v) the offering document of the FoHFs clearly discloses the aggregate amount or give an indicative range of all the fees and charges of the FoHFs and each of its underlying funds; and

(vi) where the FoHFs invests in hedge funds not authorized by the SFC, such fact is disclosed in the offering document of the FoHFs. A warning must be included to the effect that some or all of the underlying funds of the FoHFs and their fund managers are not subject to the regulation of the Commission and that such funds may not be subject to rules similar to those of the Commission that are designed to protect investors.

**Dealing**

(l) There must be at least one regular dealing day per month except for a closed-ended fund authorized pursuant to 8.11 of this UT Code.

(m) The maximum interval between the lodgement of a properly documented redemption request for redemption of units/shares (whether a notice period is required or not) and the payment of redemption money to the holder may not exceed 90 calendar days.

*Note: A scheme may only effect redemption in specie with the prior consent of individual redeeming holder. The offering document must disclose the possibility of redemption in specie and the need to obtain prior consent from an individual holder for making such redemption.*

A scheme may not effect compulsory redemption except where the management company is reasonably satisfied that it is in the overall benefit of the scheme to do so. Examples where the management may effect compulsory redemption include the circumstances where the continuous holding of the scheme’s interest by a particular holder will cause the scheme to be in breach of any laws or regulations governing the scheme, or result in adverse financial consequences to the scheme such as tax penalties.

*Subject to the foregoing, the offering document must disclose the circumstances under which compulsory redemption may be effected and the length of notice for such redemption.*

(n) The offering document of the scheme must include a warning to the effect that the redemption price may be affected by the fluctuations in value of the
underlying investments during the period between the lodgement of the redemption request and the date when the redemption price is calculated.

Valuation

(o) The investments of the scheme must be independently and fairly valued on a regular basis. Where appropriate, generally accepted internationally recognized accounting principles standards and industry’s best practices should be applied on a consistent basis.

Note: It is incumbent upon the management company to demonstrate that the scheme’s investments will be independently and fairly valued.

In considering whether the management company is able to demonstrate that a scheme’s investments are independently valued, the Commission may take into account a number of factors including the following:

a) The duties and functions of the party carrying out the valuation (the “valuation agent”) is expected to be segregated from those of the party carrying out the investment management function for the scheme e.g. the appointment of an independent administrator. Disclosure of how the segregation is achieved must be made in the offering document;

b) There should be checks and balances to ensure that the valuation process and policy is consistently followed;

c) The pricing data should be gathered from reliable sources;

d) Where necessary, safeguarding measures should be implemented for the valuation to be carried out independently; and

e) The selection of the valuation agent by the management company is based on due process.

Disclosure must be made of (1) the selection criteria of the valuation agent and the relationship between the management company, its group of companies and the valuation agent; and (2) any limitations and constraints of the valuation policies and methodologies.

The above factors are not exhaustive and the Commission may take into account other relevant factors in assessing the compliance with the independence requirement.

(p) Full particulars of the valuation frequency, the valuation methods of the scheme’s investments, the identity and qualifications of the valuation agent(s), the experience of the valuation agent(s) in evaluating hedge fund assets and the relationship of the agent(s) with the scheme’s management company or its group of companies and, where applicable, with the prime broker must be disclosed in the offering document.

(q) The offering document of the scheme must include a warning to the effect that some of the underlying investments of the scheme may not be actively traded and there may be uncertainties involved in the valuation of such investments. Potential investors must be warned that under such circumstances, the net asset value of the scheme may be adversely affected.
Disclosure

(r) The front cover of the offering document must display prominently the following warning statements:

(i) the scheme uses alternative investment strategies and the risks inherent in the scheme are not typically encountered in traditional funds;

(ii) the scheme undertakes special risks which may lead to substantial or total loss of investment and is not suitable for investors who cannot afford to take on such risks;

(iii) investors are advised to consider their own financial circumstances and the suitability of the scheme as part of their investment portfolio; and

(iv) investors are advised to read this offering document and should obtain professional advice before subscribing to the scheme.

Note: The text of the warning statements may be varied but the message must be clear and not disguised.

(s) For the purpose of 6.1, the offering document must disclose all relevant matters relating to the investment operations and risk management aspects of the scheme and give lucid explanations of the investment strategy of the scheme and the risks inherent in the scheme.

Note: For example, explanations should be given on the nature of the scheme; the markets covered; the instruments used; the risk and reward characteristics of the strategy; the circumstances under which the scheme would work best and the circumstances hostile to the performance of the scheme; the risk management and internal control mechanism, including the setting of investment and borrowing parameters to control the risks; the terms of the offering; the on-going ongoing monitoring of the scheme's investment and asset allocation process and the performance of the scheme; the on-going ongoing monitoring of the standards of the services provided by key service providers, for example, prime brokers and administrators and the replacement process of these service providers and the responsibilities of each of the relevant parties.

The offering document should be written in plain language. The Commission specifically encourages the use of a glossary to explain technical terms.

Details of unauthorized funds must not be shown in the offering document. Where names of such funds are mentioned, these must be clearly marked as unauthorized and not available to the public in Hong Kong residents.

(t) The management company must disclose the measures and safeguards put in place for the management of conflicts of interest in relation to the operation of the scheme.
(u) All advertisements must prominently display the warning statements referred to in 8.7(r) above.

Application form

(v) All application forms of the scheme must state prominently that the scheme is a hedge fund and there are special risks involved with investment in the scheme, and direct investors to read the offering document.

Financial reports

(w) The management company must issue regular reports to holders on the scheme activities at least on a quarterly basis. Reports must be prepared and distributed in accordance with the Guidelines on Hedge Funds Reporting Requirements [see Appendix H].

8.8 Structured funds

The following general criteria shall apply to a collective investment scheme, known as structured fund, which seeks to achieve its investment objective primarily through investing substantially in financial derivative instruments, for example futures, swap or market access products or similar arrangements. A structured fund is passively managed and usually tracks the performance of an index [see 8.6(e)] and/or offers structured pay-outs when certain pre-determined conditions are met and its global exposure relating to financial derivative instruments for investment purposes net derivative exposure [see Note to 7.26] exceeds 50% of its total net asset value. The provisions in other Chapters of this UT Code shall apply where appropriate. The core requirements in Chapter 7 will apply with the modifications, exemptions or additional requirements as set out under 8.8 of this UT Code.

Notes: (1) The requirements under 8.9 of this UT Code are intended to apply to actively managed funds schemes that invest in financial derivative instruments to gain exposure by investing in different derivatives financial derivative instruments and therefore are not applicable to structured funds other than those under 8.9(f) of this UT Code.

(2) An unlisted index fund or a passive ETF must also comply with the requirements in 8.8 of this UT Code if the unlisted index fund’s or the passive ETF’s global exposure relating to financial derivative instruments for investment purposes net derivative exposure [see Note to 7.26] exceeds 50% of its total net asset value.

(a) The management company of a structured fund and the issuer of financial derivative instruments shall be independent of each other.

Notes: (1) The management company cannot also act as the issuer of financial derivative instruments.

(2) The index adopted by the scheme shall be objectively calculated, measurable and transparent to the public, for instance, the index is rules-based with minimal or no discretion exercisable by the issuer of the financial derivative instruments, and the index level or its...
calculation formula is accessible by the public. Where such index is provided for the use of the structured fund only, this would raise questions as to the propriety of the fund seeking exposure to such index.

(b) Where the scheme is a mutual fund company, the majority of the board of directors of the scheme shall be independent directors (for example, persons who are not employees or officers of the financial derivative instruments counterparty).

(c) The valuation of the financial derivative instruments has to be marked-to-market daily. There shall be regular, reliable and verifiable valuation conducted by the manager or trustee or their delegate independent of the issuer of financial derivative instruments, through measures such as the establishment of a valuation committee or engagement of third-party services. Further, the calculation agent/fund administrator should be adequately equipped with the necessary resources to conduct independent marked-to-market valuation and to verify the valuation of the financial derivative instruments on a regular basis must meet the requirements set out in 7.28(d);

(d) Collateral has to be provided to limit the exposure of the scheme to the counterparty risk of the issuer of financial derivative instruments to no more than 10% of the net asset value of the scheme. Notwithstanding 7.28(c), a structured fund should maintain full collateralization and there should be no net exposure to any single counterparty of over-the-counter financial derivative instruments [see Note to 7.28(c)].

Note: The management company shall demonstrate, where appropriate, with proper legal opinion in support, the collateral is held by the trustee/custodian of the fund scheme and must be readily accessible/enforceable by it without further recourse to the issuer of the financial derivative instruments.

(e) Collateral must meet the following requirements: The collateral requirements in 7.36 shall also be complied with by a scheme falling under 8.8 of this UT Code.

(i) Liquidity - sufficiently liquid in order that it can be sold quickly at a robust price that is close to pre-sale valuation. Collateral should normally trade in a deep and liquid marketplace with transparent pricing;

(ii) Valuation - mark to market daily;

(iii) Issuer credit quality - of high credit quality; collateral on assets that exhibit high price volatility may be accepted only if suitably conservative haircuts are in place;

(iv) Diversification - must be appropriately diversified so as to avoid concentrated exposure to any single issuer. The counterparty or other investment limit/exposure of the collateral as a percentage of a scheme’s net asset value must not contravene the investment restrictions or limitations set out in Chapter 7;
Note: By way of illustration, the value of collateral and the scheme’s investment, if any, issued by any single issuer may not exceed 10% of the scheme’s net asset value. Where the collateral is in the form of government and other public securities, 7.4 and 7.5 apply.

(v) Correlation – correlation between the issuer of the financial derivative instruments and the collateral received must be avoided;

(vi) Management of operational and legal risks – there must be in existence appropriate systems, operational capabilities and legal expertise for proper collateral management;

(vii) Independent custody – must be held by the trustee or custodian of the scheme;

(viii) Enforceability – must be readily accessible / enforceable by the trustee/custodian of the scheme without further recourse to the issuer of the financial derivative instruments; and

(ix) Not available for secondary recourse – collateral cannot be applied for any purpose except for the purpose of being used as collateral.

Note: Structured products whose payouts rely on embedded derivatives or synthetic instruments or securities issued by special purpose vehicles, special investment vehicles or similar entities, shall not be invested by the fund or held as collateral to cover or reduce the counterparty exposure.

(f) The management company has to put in place detailed contingency plans regarding credit events like significant downgrading of credit rating and the collapse of the issuer of financial derivative instruments.

(g) Where the aggregate value of all collateral held by a scheme represents 30% or more of its net assets value, it shall disclose in the scheme’s annual and interim reports a description of collateral holdings as required under Appendix E. The collateral disclosure requirements in 7.37 and 7.38 shall also be complied with by a scheme falling under 8.8 of this UT Code.

Disclosure

(h) In addition to the information in Appendix C, the offering document must contain the following:

(i) disclosure of the structure of the scheme, in plain language and supplemented by visual aids and diagrams (where appropriate);

(ii) description of any potential conflicts of interest and the related risks arising from the same entity or entities within the same group acting in different capacities in relation to the scheme; and

(iii) description of any other relevant risks (legal or otherwise) arising from the structure of the scheme.
(iv) clear disclosure of the costs of entering into the swap or market access products or similar arrangements with the counterparty, and the maximum amount of redemption fee;

(v) in respect of the asset portfolio of a scheme investing in unfunded swap, the selection criteria and nature of the asset portfolio [see C2A of Appendix C]; and

(vi) in respect of the valuation of financial derivative instruments, the entity responsible for valuation and frequency of such valuation, the entity responsible for verification of valuation and frequency of such verification and any costs embedded in the valuation of the financial derivative instruments.

8.9 Funds that invest extensively in financial derivative instruments

The following general criteria shall apply to an actively managed non-UCITS scheme, the principal objective of which is investment in financial derivative instruments, or which seeks to acquire financial derivative instruments extensively for investment purposes, but does not meet the specific criteria set out in respect of other scheme types in this chapter or relevant provisions in Chapter 7. For the avoidance of doubt, the scheme shall also comply with provisions in Chapter 7 subject to the modifications, exemptions or additional requirements as set out in 8.9 of this UT Code other than those in respect of financial derivative instruments which are aggregated and covered under 8.9.

UCITS schemes that use financial derivative instruments for investment purposes have already complied with the relevant UCITS requirements and thus are not required to comply with 8.9 except for the disclosure requirements set out in 8.9(j) and (k).

Financial Derivative Instruments Investments and Related Operational Requirements

(a) Notwithstanding 7.26, a scheme may acquire financial derivative instruments for investment purposes subject to the limit that the scheme’s global exposure relating to these financial derivative instruments for investment purposes net derivative exposure [see Note to 7.26] does not exceed 100% of the total net asset value of the scheme.

(b) For the purpose of calculating global exposure, the commitment approach shall be used, whereby the derivative positions of a scheme are converted into the equivalent position in the underlying assets embedded in those derivatives, taking into account the prevailing value of the underlying assets, the counterparty risk, future market movements and the time available to liquidate the positions.

(c) Before undertaking any investment within this category, the management company must have in place suitable and adequate risk management and control systems to monitor, measure, and manage all the relevant risks in relation to the scheme. The risk management and control systems must (i) be commensurate with the nature and scale of the financial derivative investment activities that it undertakes for the scheme, bearing in mind the retail nature and risk profile of the scheme and (ii) be able to deal with normal and exceptional
circumstances including extreme market conditions. The management company must maintain at all times such risk management and control systems.

(d) The management company must at all times be adequately and suitably staffed in order to properly implement its risk management policy and procedures.

(e) The management company must at all times demonstrate that those representatives and agents (including for example, administrators, custodian, brokers, valuation agents) appointed by it possess sufficient know-how, expertise and experience in dealing with the underlying investments of the scheme.

(f) The financial derivative instruments invested by a scheme may be either listed/quoted on a stock exchange or dealt in over-the-counter, provided that: The requirements on financial derivative instruments in 7.28(a), (b) and (d) shall also be complied with by a scheme falling under 8.9 of this UT Code.

(i) the underlying consists solely of shares in companies, debt securities, money market instruments, units/shares of collective investment schemes, deposits with substantial financial institutions, government and other public securities and physical commodities (primarily precious metals such as gold, silver, platinum or other bullion), financial indices, interest rates, foreign exchange rates or currencies, in which the scheme may invest according to its investment objectives and policies;
(ii) the counterparties to over-the-counter derivative transactions or their guarantors are substantial financial institutions; and
(iii) the valuation of the over-the-counter derivatives is marked-to-market daily, subject to regular, reliable and verifiable valuation and can be sold, liquidated or closed by an offsetting transaction at any time at their fair value at the scheme’s initiative. [see also 8.8(c)]

(g) The risk exposure to a counterparty of a scheme in an over-the-counter derivative transaction may not exceed 10% of its net asset value. The limitation on counterparty exposure in 7.28(c) shall also be complied by a scheme falling under 8.9 of this UT Code.

(h) To limit the exposure to each counterparty as set out in (g) above, the scheme may receive collateral from such issuer, provided that the collateral complies with the requirements set out in 8.8(e). The collateral requirements in 7.36 shall also be complied with by a scheme falling under 8.9 of this UT Code.

(i) For the avoidance of doubt, financial derivative instruments acquired for hedging purposes will not be counted towards the 100% limit referred to in 8.9(a) above.

Disclosure

(j) The offering document shall contain information in plain language to facilitate investors’ understanding of the scheme’s investment strategy and risk profile, including:
(i) additional risk disclosures including the risks associated with investments in financial derivative instruments;
(ii) a statement indicating how and where information regarding the risk management and control policy, procedures and methods employed by the scheme will be made available to Hong Kong investors upon request; and
(iii) a summary of the risk management policy and methods employed by the scheme to effectively measure and manage the risks associated with the investments in financial derivative instruments.

(k) The collateral disclosure requirements in 8.8(g) above 7.37 and 7.38 shall also be complied with by a scheme falling under 8.9 of this UT Code.

8.10 Listed open-ended funds (also known as active ETFs)

(a) A listed open-ended fund/active ETF is a scheme that is listed and traded on the SEHK other than passive ETFs and closed-ended funds under 8.6 and 8.11 of this UT Code respectively.

(b) A listed open-ended fund shall also comply with provisions in Chapter 7 unless otherwise modified below.

(c) Subject to consultation with the SFC, a scheme under Chapter 7 or 8.10 of this UT Code may have unlisted and/or listed unit/share classes. An unlisted fund may set up a listed share class for the purpose of listing on the SEHK and such unlisted class and listed share class should comply with the requirements in Chapter 7 and 8.10 of this UT Code respectively.

(d) A listed open-ended fund, or a listed share class shall comply with the provisions as set out in 8.6(o) to (q), (s) to (u), (w) and (x).

(e) Where the performance of a listed open-ended fund makes reference to a benchmark, the relevant benchmark shall be disclosed in its offering document.

8.11 Closed-ended funds

The following criteria shall apply to a scheme which is commonly regarded as a closed-ended fund. A closed-ended fund seeking an authorization shall also comply with other applicable provisions in this UT Code including the relevant investment restrictions under Chapter 7 and/or Chapter 8.

Notes: (1) Closed-ended funds are generally subject to redemption restrictions.

(2) For the avoidance of doubt, 8.11 of this UT Code does not apply to a scheme falling within 8.6 and/or 8.10 of this UT Code notwithstanding its units/shares are traded on the SEHK.

(3) Some flexibility from strict compliance of the relevant investment restrictions in Chapter 7 and/or Chapter 8 (for example, the requirements regarding holding of illiquid investments securities) may be allowed where appropriate taking into account the fund’s closed-ended nature and investment strategy. An applicant should consult the SFC at the earliest possible time on any flexibility to be sought.
Listing and dealing

(a) The units/shares in the scheme must be listed and traded on the SEHK.

(b) The scheme must have procedure(s) and mechanism(s) in place to ensure that the scheme is for it to be widely held.

Note: The scheme is expected to have a broad base of holders having regard to the requirements under the Listing Rules including having adequate shareholder spread requirement for listings of investment companies under the Listing Rules.

(c) The scheme must have in place measure(s) and mechanism(s) which are fair and equitable to holders to address any prolonged significant discount of its secondary trading price on the SEHK to its net asset value.

Note: This may include, for example, providing specified redemption window(s) to allow holders to redeem their units/shares at net asset value in a manner which is compliant with 8.11(i).

(d) The maximum interval between the lodgement of a properly documented redemption request for any redemption of units/shares (whether a notice period is required or not) and the payment of redemption money to holders may not exceed 90 calendar days, unless the market(s) in which a substantial portion of investments is made is subject to legal or regulatory requirements (such as foreign currency controls) thus rendering the payment of the redemption money within the aforesaid time period not practicable. In such case, the extended time frame for the payment of redemption money shall reflect the additional time needed in light of the specific circumstances in the relevant market(s).

Matters requiring holders’ approval

(e) Holders’ prior approval will be required for the following matters:

(i) retirement or removal of the management company and appointment of the replacement management company;
(ii) material changes in investment objective, policy or restrictions of the scheme;
(iii) new issue of units/shares following listing at a price below net asset value per unit; and
(iv) request for delisting or de-authorization.

Disclosure

(f) The scheme’s last closing net asset value must be published on the scheme’s website daily or at such times and in such manner as may be acceptable to the Commission taking into account the nature of the investments of the scheme.

(g) The potential risk factors regarding the closed-ended nature of the scheme must be fully and prominently disclosed to investors.
(h) The scheme must disclose in its offering document the measures and mechanism referred in 8.11(c), and make appropriate disclosures by way of announcement(s) or notice(s) prior to and after each occasion where any such measures and mechanism are conducted.

Redemptions, takeovers and mergers

(i) Where a scheme proposes any form of redemption, takeover, merger, amalgamation or restructuring, the scheme’s management company and the trustee/custodian shall as soon as practicable consult with the Commission on the manner in which such activities could be carried out so that it is fair and equitable to all holders.

Note: The management company and the trustee/custodian should seek to ensure there is fair and equality of treatment of holders; timely and adequate disclosure of information to enable holders to make an informed decision as to the merits of the transaction; and there is a fair and informed market in the units/shares of the schemes affected by such activities.
Chapter 9: Additional requirements for Non-Hong Kong based schemes

Appointment of representative

9.1 A scheme will be required to appoint a Representative in Hong Kong if its management company is not incorporated and does not have a place of business in Hong Kong.

9.2 If a Representative is appointed, the scheme has to maintain the Representative throughout the period it is authorized in Hong Kong.

Functions of a representative

9.3 The Representative is not required to take responsibility for the acts and omissions of the management company or, in the case of the scheme being a company mutual fund corporation, the directors of the scheme. It must, however, be authorized on behalf of the scheme and the management company to:

(a) receive applications and money for units/shares from persons in Hong Kong;
(b) issue receipts in respect of the application moneys received in accordance with 9.3(a);
(c) issue contract notes to the applicants in accordance with the terms of the scheme;
(d) receive redemption notices, transfer instructions and conversion notices from holders for immediate transmission to the management company or the scheme;
(e) accept any notices or correspondence, including service of process, which holders may wish to serve on the scheme, trustee/custodian or the management company;
(f) notify the Commission immediately if redemption of units/shares ceases, or is suspended [see 10.7];
(g) make available for public inspection in Hong Kong, free of charge, and offer for sale at a reasonable price copies of all constitutive documents of the scheme;
(h) provide holders with information on the scheme including the scheme's financial reports and sales literature, offering document, and relevant circulars, notices and announcements where applicable [see 11.7A];
(i) deliver to the Commission, if it requests, all accounts and records relating to the sale and redemption of units/shares of the scheme in Hong Kong; and
(j) represent the scheme and the management company in relation to all matters in which any holder normally resident in Hong Kong has a pecuniary interest or which relate to units/shares sold in Hong Kong.
Criteria for appointment

9.4 The management company is encouraged to appoint a Representative within the management group. The Representative must:-

(a) be licensed or registered under the SFO; or

(b) be a trust company registered under Part VIII of the Trustee Ordinance (Chapter 29 of the laws of Hong Kong) and such company is an affiliate of an authorized financial institution defined under the SFO and is acceptable to the Commission.

9.5 [deleted]

9.6 The Representative must be properly appointed to represent the scheme and the management company.

Written undertaking

9.7 The Representative must provide the Commission with a written undertaking that it will perform the duties required of a Representative under this UT Code.

Retirement and replacement of the representative

9.8 Should the Representative retire or be dismissed, it must be replaced as soon as possible, by another Representative whose appointment is subject to the approval of the Commission [see 11.1(b)].

Hong Kong representative agreement

9.9 Details of all contracts between the Representative, the scheme and/or the management company must be supplied to the Commission. Any subsequent amendments of these contracts must be notified to the Commission.[deleted]

Jurisdiction

9.10 Nothing in the constitutive documents may exclude the jurisdiction of the courts of Hong Kong to entertain an action concerning the scheme.
Part III: Post-authorization requirements

Chapter 10: Operational matters

Valuation and pricing

10.1 A scheme must be valued and priced in accordance with the provisions of its offering and constitutive documents and the provisions of Chapter 6.

Pricing errors

10.2 If an error is made in the pricing of units/shares, the error should be corrected as soon as possible and any necessary action should be taken to avoid further error. Trustee/custodian should be informed of any error in the pricing of units/shares in a timely manner.

10.2A If the error results in an incorrect price of 0.5% or more of a scheme’s net asset value per unit/share, the trustee/custodian and the Commission must be informed immediately.

Note: For the avoidance of doubt, any error that accounts for less than 0.5% of the scheme’s net asset value per unit/share or net asset value individually but amounts to 0.5% of the scheme’s net asset value per unit/share or net asset value or more in aggregate for incidences that occur in a simultaneous or successive recurring manner, such errors should be reported to the Commission immediately.

10.2B For any error in the pricing of units/shares of a scheme referred to in 10.2A (and the Note), the affected investors (including former holders) and/or the scheme itself should be compensated for the loss incurred. In such a case, the affected investors and/or the scheme should be compensated as follows, unless determined otherwise by the trustee/custodian with justification to the Commission:

(a) where total loss to individual investors (either purchasing or redeeming) is more than HK$100 or such lesser amount as the management company may decide, investors should be compensated in such manner as the management company should determine with the approval of the trustee/custodian; and

(b) where the loss is to the management company, no compensation should be paid; and

(c) where the loss is to the scheme, the scheme should be compensated in all circumstances referred to in 10.2A.

Note: In the event that the management company is to compensate one or more affected investors for errors not falling under 10.2A, compensation to all other affected investors should be made on the same basis.

Changes to dealing

10.3 Where a scheme deals at a known price, and based on information available, the price exceeds or falls short of the current value of the underlying assets by more than 5%,
A management company should defer dealing and calculate a new price as soon as possible.

10.4 A permanent change in the method of dealing may only be made after one month's notice to holders.

10.5 A temporary change may only be made:

(a) in exceptional circumstances, having regard to the interests of holders;

(b) if the possibility of a change and the circumstances in which it can be made have been fully disclosed in the offering document; and

(c) with the approval of the trustee/custodian.

Suspension and deferral of dealings

10.6 Suspension of dealings may be provided for only in exceptional circumstances by the management company in consultation with the trustee/custodian, having regard to the best interests of holders. The management company must regularly review any prolonged suspension of dealings and take all necessary steps to resume normal operations as soon as practicable.

10.7 The management company or the Representative [see 9.3(f)] must immediately notify the SFC if dealing in units/shares ceases or is suspended. The fact that dealing is suspended must be published immediately following such decision and at least once a month during the period of suspension in an appropriate manner.

10.8 Where redemption requests on any one dealing day exceed 10% of the total net asset value or total number of units/shares in issue, redemption requests in excess of 10% may be deferred to the next dealing day.

Note: The Commission may on a case-by-case basis accept a higher or lower threshold to trigger deferral of dealing as reasonably determined by the management company, taking into account the specific circumstances of the scheme, provided that such threshold is clearly disclosed in the offering document.

Transactions with connected persons

10.9 No person may be allowed to enter on behalf of the scheme into underwriting or sub-underwriting contracts without the prior consent of the trustee/custodian and unless the scheme or the management company provides in writing that all commissions and fees payable to the management company under such contracts, and all investments acquired pursuant to such contracts, will form part of the scheme's assets.

10.10 If cash forming part of the scheme's assets is deposited with the trustee/custodian, the management company, the investment adviser/delegate or with any of their connected persons of these companies (being an institution licensed to accept deposits), such cash deposit shall be maintained in a manner that is in the best interests of the holders, having regard to interest must be received on the deposit at a rate not lower than the prevailing commercial rate for a deposit of that similar type, size and term negotiated at arm's length in accordance with ordinary and normal course of business.
10.11 All transactions carried out by or on behalf of the scheme must be executed at arm’s length and in the best interests of the holders. In particular, any transactions between the scheme and the management company, investment adviser/delegate, the directors of the scheme or any of their connected person(s) as principal may only be made with the prior written consent of the trustee/custodian. All such transactions must be disclosed in the scheme’s annual report [see item 2 under Notes to the Financial Reports in Appendix E].

10.12 Neither the management company, investment delegate nor any of its their connected persons may retain cash or other rebates from a broker or dealer in consideration of directing transactions in scheme property to the broker or dealer save that goods and services (soft dollars) may be retained if:-

(a) the goods or services are of demonstrable benefit to the holders;

(b) transaction execution is consistent with best execution standards and brokerage rates are not in excess of customary institutional full-service brokerage rates;

(c) adequate prior disclosure is made in the scheme’s offering document the terms of which the holder has consented to [see C15 of Appendix C]; and

(d) periodic disclosure is made in the scheme’s annual report in the form of a statement describing the manager’s soft dollar policies and practices of the management company or investment delegate, including a description of the goods and services received by the manager [see item 3 under Notes to the Financial Reports in Appendix E]; and

(e) the availability of soft dollar arrangements is not the sole or primary purpose to perform or arrange transaction with such broker or dealer.

Note: Goods and services falling within 10.12(a) above may include: research and advisory services; economic and political analysis; portfolio analysis, including valuation and performance measurement; market analysis, data and quotation services; computer hardware and software incidental to the above goods and services; clearing and custodian services and investment-related publications. Such goods and services may not include travel, accommodation, entertainment, general administrative goods or services, general office equipment or premises, membership fees, employee salaries, or direct money payments.

10.13 In transacting with brokers or dealers connected to the management company, investment adviser/delegate, directors of the scheme, trustee/custodian or any of their connected persons, the management company must ensure that it complies with the following obligations:

(a) such transactions should be on arm’s length terms;

(b) it must use due care in the selection of brokers or dealers and ensure that they are suitably qualified in the circumstances;

(c) transaction execution must be consistent with applicable best execution standards;
(d) the fee or commission paid to any such broker or dealer in respect of a transaction must not be greater than that which is payable at the prevailing market rate for a transaction of that size and nature;

(e) the management company must monitor such transactions to ensure compliance with its obligations; and

(f) the nature of such transactions and the total commissions and other quantifiable benefits received by such broker or dealer shall be disclosed in the scheme’s annual report.
Chapter 11: Documentation

Scheme changes, notifications and ongoing disclosures

11.1 The proposed changes to a scheme in respect of the following must be submitted to the Commission for prior approval:

(a) changes to constitutive documents (other than changes that have been certified by the trustee/custodian as provided under 6.7 or approved by holders or changes which do not require prior approval from the Commission);

(b) changes of key operators (including the trustee / custodian, management company, and its investment delegates and Hong Kong representative, and their regulatory status and controlling shareholder);

(c) (i) material changes in investment objectives, policies and restrictions of the scheme (including expansion in the purpose or extent of use of financial derivatives instruments for investment purposes [see 7.26]);

(ii) fee structure, introduction of new fees and charges, or increase in fees and charges payable out of the property of the scheme or by the investors (other than an increase within the permitted maximum level as disclosed in the Hong Kong Offering Document [see Note(3) to 11.1A]); and

(iii) material changes in dealing arrangements, and pricing arrangements or distribution policy of the scheme; and

(d) any other changes that may materially prejudice have a material adverse impact on holders’ rights or interests (including changes that may limit holders’ ability in exercising their rights).

11.1A For changes to a scheme that require the Commission’s prior approval pursuant to 11.1, the Commission will determine whether holders should be notified and the period of notice (if any) that should be applied before the changes are to take effect as provided in 11.2. The revised Hong Kong Offering Document as a result of such changes should be submitted to the Commission for prior authorization.

Notes:  (1) Normally, the Commission will expect that one month’s prior written notice (or such longer period as required under applicable laws and regulations or the provisions as set out in the offering or constitutive documents) should be provided to holders in respect of the changes. However, the Commission may permit a shorter period of notice if the change is not significant or may require a longer period of notice (up to three months) in exceptional circumstances. [see also 6.7][deleted]

(2) For the purposes of 11.1A, significant changes would include, for example, changes in investment objectives or major investment policies, and fee structure.[deleted]
(3) For any increase in fees and charges from the current level as stated in the Hong Kong Offering Document up to the permitted maximum level permitted by the constitutive documents as disclosed in the Hong Kong Offering Document, prior approval from the Commission is not required, but no less than one month’s prior notice must be given to holders.

11.1B For changes to a scheme that do not require the Commission’s prior approval pursuant to 11.1, unless there is a specified minimum prior notice period in this UT Code, the management company should provide holders with reasonable prior notice, or inform holders as soon as reasonably practicable of any information concerning the scheme which is necessary to enable holders to appraise the position of the scheme as provided in 11.2. The Hong Kong Offering Document may be updated to incorporate such changes and reissued without further authorization provided that the content and format of such document remains fundamentally the same as the version previously authorized. The revised Hong Kong Offering Document must be filed with the Commission, together with a marked-up version against the previously filed version, within one week from the date of issuance.

Note: The management company should inform holders as soon as reasonably practicable of any material adverse change in the financial conditions or business of the key counterparties to a scheme that it is aware of. ‘Key counterparties’ include the management company, guarantor (where relevant), trustee/custodian and swap major counterparty of the fund for over-the-counter financial derivative instruments or securities financing transactions.

Notices to holders

11.2 Notification to holders must be made in the language(s) in which the scheme is offered to investors in respect of any changes or proposed changes to the offering or constitutive documents as determined by the Commission pursuant to 11.1A. Reasonable notice period(s) should be provided to the holders in order to enable them to appraise the position of the scheme and to make an informed judgement of their investments in the scheme, where applicable.

Notes: In determining the notice period for changes to a scheme falling under 11.1 or 11.1B, the following shall apply:

(1) normally, one month’s prior written notice (or such longer period as required under applicable laws and regulations or the provisions as set out in the offering or constitutive documents) is expected to be provided to holders unless as provided under Notes(2) or (3) to 11.2 or otherwise agreed by the Commission;

(2) a shorter prior notice period may be permitted where the proposed changes to the scheme are of demonstrable benefit to holders;

(3) unless otherwise specified by the Commission, holders should be informed as soon as reasonably practicable for changes to the scheme which are to provide clarification or relate to administrative matters; and

(4) in the case of schemes domiciled outside Hong Kong, notwithstanding the notice provisions of a scheme’s home jurisdiction, the Commission may require additional notice to ensure that Hong Kong investors have
sufficient time to consider and respond to the documentation. For example, any general meeting at which a special resolution is to be proposed shall be convened on at least 21 days’ prior notice and that any general meeting at which an ordinary resolution is to be proposed shall be convened on at least 14 days’ prior notice.

The management company is encouraged to consult the Commission in case of doubt.

11.2A Subject to 11.4 and 11.5 below, notices to holders need not be approved by the Commission prior to issuance, but are required to be filed with the Commission within one week from the date of issuance of the notice. The Commission, however, retains its power to require issuers to submit draft notices for review where the Commission considers it appropriate. For the avoidance of doubt, matters relating to 11.1 should be approved by the Commission prior to the distribution of the relevant notices to holders.

11.2B The management company has the responsibility to ensure that notices to holders are not misleading and contain accurate and adequate information to keep investors informed. All notices should contain a Hong Kong contact number for investors to make enquiries.

Note: Notices should not include any reference to a specific date or timetable in respect of any changes falling under 11.1 and consequential changes made to the offering or constitutive documents where such date or timetable has not been agreed in advance with the Commission.

11.3 (Repealed)

Withdrawal of authorization

11.4 Following the authorization of a scheme, its management company an application for withdrawal of authorization of the scheme must be submitted to the Commission for prior approval should, Subject to 11.5 below, give at least three months’ notice should be provided to holders of any intention not to maintain such authorization. Such notice should be submitted to the Commission for prior approval and contain information which is necessary to enable holders to make an informed judgement of the proposed withdrawal of authorization by the management company (including the reasons for the withdrawal of authorization, consequences of the withdrawal, any proposed changes in the operation of the scheme and their effects on existing investors, the alternatives available to investors (including, if possible, a right to switch without charge into another authorized scheme) and, where applicable, an estimate of any relevant expenses and who is expected to bear them).

Notes: (1) Subject to the scheme having served notice period for merger or termination under 11.5, the management company may apply for withdrawal of authorization of the scheme with immediate effect following the completion of the merger or termination (as the case may be).

(2) For an application for withdrawal of authorization in cases other than in connection with a merger or termination of a scheme, the management company must demonstrate to the satisfaction of the Commission that proper measures have been put in place to ensure that the interests of holders who may remain to be invested in the scheme will be
safeguarded (e.g. for a scheme domiciled outside Hong Kong, the scheme will continue to be regulated or supervised in a jurisdiction acceptable to the Commission).

Merger or termination

11.5 If a scheme is to be merged or terminated, in addition to the management company should following any the procedures as set out in the scheme's constitutive documents or governing law, notice must be given to investors as determined by the Commission. Such notice should be submitted to the Commission for prior approval and contain information necessary to enable holders to make an informed judgement of the proposed merger or termination by the management company (including the reasons for the merger or termination, the relevant provisions under the constitutive documents that enable such merger or termination, the consequences of the merger or termination and their effects on existing investors, the alternatives available to investors (including, if possible, a right to switch without charge into another authorized scheme), the estimated costs of the merger or termination and who is expected to bear them).

Notes: (1) Normally, the Commission will expect that at least one month's prior written notice (or such longer period as required under applicable laws and regulations or the provisions as set out in the offering or constitutive documents) to be provided to holders.

(2) In effecting a merger or termination, the management company must put in place proper measures to minimize the opportunity of any holders to benefit from more favourable or advantageous conditions of the scheme, taking due account of the interests of the holders.

Reporting requirements

Reporting Financial reports to holders

11.6 At least two reports Financial reports of a scheme must be published in respect of each its financial year. Annual reports and accounts containing the information provided in Appendix E must be published and distributed to holders within four months of the end of the scheme's financial year and interim reports containing information required in Appendix E must be published and distributed to holders within two months of the end of the period they cover.

As an alternative to the distribution of printed financial reports, holders may be notified of where such reports, in printed and electronic forms, can be obtained within the relevant time frame.

Notes: (1) Where a scheme does not issue bilingual annual and interim reports, the offering document of the scheme shall clearly disclose that annual and interim reports are available in English or Chinese language only, as the case may be.

(2) The Commission may accept the annual reports and interim reports to cover an extended reporting period in cases when the scheme is first launched or upon its termination.
11.6A The annual reports must be prepared in compliance with internationally recognized accounting standards and the interim reports must apply the same accounting policies and method of computation as are applied in the annual reports of the scheme.

Note: For the purposes of 11.6A, internationally recognized accounting standards may include Hong Kong Financial Reporting Standards (HKFRS) or International Financial Reporting Standards (IFRS) or such other accounting standards acceptable to the Commission.

Publication of prices of a scheme

11.7 The scheme's latest available offer and redemption prices or net asset value must be calculated and made public free of charge on every dealing day in an appropriate manner. If dealing is suspended, this must be published in accordance with 10.7.

Note: Means of dissemination may include newspapers, telephone hotlines and websites.

Maintenance of a website

11.7A A scheme should, as a matter of best practice, maintain a website for publication of its offering document, circulars, notices, announcements, financial reports and the latest available offer and redemption prices or net asset value of the scheme.

Reporting to Commission

11.8 Subsequent to the authorization of the scheme, all financial reports produced by or for the scheme, its management company and trustee/custodian must be filed with the Commission within the time frame specified in 11.6.

11.9 The management company or the Representative must supply to the Commission, upon request, all information relevant to the scheme's financial reports and accounts.

11.10 The management company or the Representative should notify the Commission as soon as possible of any change to the data in the application form.

Advertising materials

11.11 Advertisements and other invitations to invest in a scheme, including but not limited to those issued by licensed or registered persons acting as the distributors of the scheme, must comply with the Advertising Guidelines. All advertisements must be submitted to the Commission for authorization prior to their issue or publication in Hong Kong, unless exempted under section 103 of the SFO. For the avoidance of doubt, even if an advertisement is exempted from obtaining authorization from the Commission under the SFO, the issuer must still ensure that the advertisement or invitation complies with the Advertising Guidelines.

11.12 Where authorization by the Commission is required, it is recommended that the issuer of advertisements nominate one person, such as the Approved Person, the Hong Kong Representative or any other persons acceptable to the Commission, based in Hong Kong to liaise with the Commission. Authorization may be varied or withdrawn by the Commission as it deems fit. Once authorized, the advertisement may be used in any distribution media and reissued without further authorization with updated performance.
information of schemes and general market commentary provided that the content and format of such advertisement remain fundamentally the same as the version previously authorized and the advertisement, when reissued, is in compliance with the Advertising Guidelines.

Note: For radio, television, cinema or other time-limiting advertisements / broadcasts that require authorization by the Commission, the script of any verbal statements in such advertisements should be submitted for the Commission’s advance clearance, followed by the demo of the broadcast (e.g. digital files) for formal authorization.

11.13 Issuers must keep adequate records of the advertisements issued, either in actual form or by way of a copy of the final proof, and the relevant supporting documents for substantiation of information presented thereon. Such records must be retained for at least 3 years from the latest date of publication / distribution of an advertisement and made available to the Commission upon request.

Mention of SFC authorization

11.14 Where a scheme is described as having been authorized by the Commission it must be stated that authorization does not imply official recommendation by adding a prominent note in the following terms to the offering document and advertisements and other invitations to invest in the scheme:

SFC authorization is not a recommendation or endorsement of a scheme nor does it guarantee the commercial merits of a scheme or its performance. It does not mean the scheme is suitable for all investors nor is it an endorsement of its suitability for any particular investor or class of investors.

Information to be disclosed in the offering document

This list is not intended to be exhaustive. The directors of the scheme (in the case of a mutual fund corporation) or the management company are obliged to disclose any information which may be necessary for investors to make an informed judgement. For the avoidance of doubt, the offering document should contain all applicable disclosure as required by this UT Code.

Constitution of the scheme

C1 Name, registered address and place and date of creation of the scheme, with an indication of its duration if limited.

Investment objectives and restrictions

C2 Details of investment objectives and policy, including a summary of investment and borrowing restrictions [see Chapter 7 and Chapter 8 (for specialized schemes) of this UT Code]. If the nature of the investment policy so dictates (such as schemes falling in the case of hedge funds under 8.7 of this UT Code, or a scheme for which its investment objective is achieved primarily through investments in financial derivative instruments or extensive use of financial derivative instruments for investment purposes, as in the case of UCITS schemes with expanded investment powers and schemes under 8.7, 8.8 and 8.9 of this UT Code), a warning that investment in the scheme is subject to special abnormal risks, a description of the risks involved, and where appropriate, the risk management policy in place.

If applicable, details of securities financing transactions of the scheme including, at a minimum, the following:

(a) general description of the use of these transactions;

(b) treatment of all revenue generated from such transactions and all the direct and indirect expenses to be incurred. In particular, details and basis of the direct and indirect expenses to be borne by the scheme and paid to any operating party;

(c) criteria for selecting the counterparties, including legal and regulatory status, country of origin and minimum credit rating;

(d) form and nature of the collateral to be received by the scheme, including cash and non-cash assets;

(e) maximum and expected level of the scheme’s assets available for these transactions expressed as proportion of the net asset value of the scheme, and the type of assets that can be subject to these transactions;

(f) involvement of any connected person(s) of the management company, investment delegate, or trustee/custodian in these transactions and details of the arrangement (such as securities lending agent);

(g) custody / safekeeping arrangement of assets subject to these transactions (such as with the trustee/custodian of the scheme); and
(h) **risks** associated with these transactions, such as operational, liquidity, counterparty, custody and legal risks.

**Collateral policy and criteria**

**C2A** Selection criteria, nature and policy of the collateral held by the scheme and description of the holdings of collateral, including:

(a) the nature and quality of the collateral, including asset type (e.g. cash, cash equivalents and money markets; government or corporate (whether investment grade / non-investment grade); and others), issuer, maturity and liquidity;

(b) identity of counterparty providing the collateral, criteria for selecting counterparties, including legal and regulatory status, country of origin and minimum credit rating;

(c) the source and basis of valuation of collateral, including marked-to-market arrangements;

(d) circumstances under which the collateral may be enforced and whether it will be subject to any net-off or set-off;

(e) description of haircut policy (if any);

(f) description of collateral diversification requirements and correlation policies (if any); and

(g) value of the scheme (by percentage) secured/covered by collateral with breakdown by asset class/ nature and credit ratings.

(h) policies on re-investment of cash collateral, including the maximum amount available for cash collateral re-investment;

(i) (applicable to hedge funds) maximum amount available for collateral re-use or re-hypothecation;

(j) custody / safekeeping arrangement (such as with the trustee/custodian of the scheme) of collateral received and provided; and

(k) risks associated with collateral management and, if applicable, re-investment of cash collateral.

**Valuation of property and pricing**

**C2B** A summary of the valuation policies and procedures of the scheme, including the basis and frequency of valuation for the assets to be held by the scheme, and the circumstances under which fair value adjustments may be employed and the relevant procedures to be undertaken (including consultation with trustee/custodian of the scheme) and the pricing policies, including the methods of pricing, methods of calculating the scheme’s net asset value and issue and redemption prices and the circumstances under which they can change.
Liquidity risk management

C2C Details of liquidity risk management of the scheme, including:

(a) description of liquidity risks and the associated impact on the scheme and holders;

(b) summary of the liquidity risk management policy and process; and

(c) description of liquidity risk management tools that may be employed, including the circumstances in which the tools may be activated and the impact on the scheme and holders upon activation [see C11 of this Appendix].

Operators and principals

C3 The names and registered addresses of the following parties (where applicable):

(a) the directors of the scheme/ (in the case of mutual fund corporation), and the management company and its board of directors;
(b) the trustee/custodian;
(c) the investment adviser/ delegate;
(d) the Hong Kong Representative;
(e) the Hong Kong distribution company, if different from C3(d) above of this Appendix;
(f) the auditors; and
(g) the registrar.

Characteristics of units/shares

C4 Minimum investment and subsequent holding (if any).

C5 A description of the different types of units/shares, including their currency of denomination.

C6 Form of certification.

C7 Frequency of valuation and dealing, including dealing days.

Application and redemption procedures

C8 Dedicated channel(s) for dissemination of price information [see 11.7 of this UT Code].

C9 Procedure for subscribing/redeeming units/shares, and in the case of umbrella funds, conversion of units/shares.

C10 The maximum interval between the request for redemption and the despatch of the redemption proceeds [see 6.14 of this UT Code and D9 (b) of Appendix D].

C11 A summary of the circumstances in which dealing in units/shares may be deferred or suspended.

C12 Statement that no money should be paid to any intermediary in Hong Kong who is not licensed or registered to carry on Type 1 regulated activity under Part V of the SFO.
Distribution policy

C13 The distribution policy and the approximate dates on which dividends (if any) will be paid (if applicable).

Fees and charges

C14
(a) the level of all fees and charges payable by an investor [see 6.16 to 6.18 of this UT Code], including all charges levied on subscription, redemption and conversion (in the case of umbrella funds);
(b) the level of all fees and charges payable by the scheme, including management fees, performance fees (where applicable), trustee/custodian fees and start-up expenses; and
(c) the notice period for fee increases [see 11.1A, 11.1B and 11.2 of this UT Code].

Notes: (1) In the case of indeterminable fees and charges, the basis of calculation or the estimated ranges should be disclosed.
(2) Where performance fee is levied, the calculation methodology together with illustrative examples to demonstrate the charging method and the impact of the absence of equalization arrangement should be disclosed.

C15 Where a connected person of the management company, or the investment adviser/delegate, or any of their connected persons receives goods or services from a broker or dealer [see 10.12 of this UT Code], a summary of the terms under which such goods or services are received describing the presence of such policies and practices, the types of goods and services that may be acquired through soft dollar policies and practices, and the measures taken to manage and minimize conflict of interest should be disclosed. In addition, a nil statement regarding retention of cash rebates by any of these persons.

Taxation

C16 Details of Hong Kong and principal taxes levied on the scheme's income and capital, including tax, if any, deducted on distribution to holders.

Financial Reports and accounts

C17 The date of the scheme's financial year.

C18 Particulars of what reports will be sent or made available to registered holders and when [see 11.6 of this UT Code]. If there are bearer units in issue, information must be given on where in Hong Kong reports can be obtained.

C18A A statement whether the annual and interim reports would be published in English and/or Chinese.
Warnings

C19  Statements/warnings must be prominently displayed in the offering document as follows:-

(a)  “Important - if you are in any doubt about the contents of this offering document, you should seek independent professional financial advice”.

(b)  other warnings as required by this UT Code.

Product KFS

C19A  A Product KFS which is deemed to form a part of the offering document [see notes Notes to 6.2A of this UT Code].

General information

C20  A list of constitutive documents and an address in Hong Kong where they can be inspected free of charge or purchased at a reasonable price.

C21  The date of publication of the offering document.

C22  A statement that the management company or and the directors of the scheme (in the case of a mutual fund corporation) accept full responsibility for the accuracy of the information contained in the offering document and confirm, having made all reasonable enquiries, that to the best of their knowledge and belief there are no other facts the omission of which would make any statement misleading.

C22A  If available, website address of the scheme which contains publication of its offering document, circulars, notices, announcements, financial reports and the latest available offer and redemption prices or net asset value. A statement that such website has not been reviewed by the Commission, if applicable.

C23  Details of unauthorized schemes must not be shown in the offering document. Where names of such schemes are mentioned, these must be clearly marked as unauthorized and not available to the public in Hong Kong-residents.

Termination of scheme

C24  A summary of the circumstances in which the scheme can be terminated.

C25  A summary of the arrangements in handling unclaimed proceeds of holders during the termination process, including the minimum period of which such proceeds must be maintained prior to any reallocation, and the procedures to be adopted upon the lapse of such minimum period.

Custody arrangements

C26  A summary of the custody arrangements in respect of the scheme’s assets and the material risks associated with such arrangements (if any).
# Appendix D

## Contents of the constitutive documents

This Appendix intends to set out the core requirements with respect to the contents of the constitutive documents. For the avoidance of doubt, the constitutive documents, among others, must conform in substance to the intended operative effect of the provisions in Chapter 4 of this UT Code.

<table>
<thead>
<tr>
<th>Appendix D</th>
<th>Description</th>
</tr>

(a) A declaration that the property of the scheme is held by the custodian on trust for the scheme.  
(b) A statement to list the obligations of the custodian as set out in 4.5 of this UT Code.  
(c) A statement that the custodian should retire in the manner as set out in 4.6 of this UT Code. |
D6 Management company

(a) A statement to list the obligations of the management company as set out in 5.10 of this UT Code.

(b) A statement that the management company should retire as set out in 5.11 of this UT Code.

Note: See Note(1) to 4.1 of this UT Code.

D7 Investment and borrowing restrictions

A statement to list the restrictions on the investment of the deposited property and the maximum borrowing limit of the scheme. [see Chapter 7 and Chapter 8 (for specialized funds schemes) of this UT Code]

D8 Valuation of property and pricing

The following rules on valuation of property and pricing must be stipulated:-

(a) the method of determining the value of the assets and liabilities of the property of the scheme and the net asset value accordingly;

(b) the method of calculating the issue and redemption prices; and

(c) the method of pricing and the circumstances under which it can change.

D9 Suspension and deferral of dealing

The following must be stated:-

(a) the circumstances under which the dealing of units/shares can be deferred or suspended; and

(b) the maximum interval between the receipt of a properly documented request for redemption of units/shares and the payment of the redemption money to the holder, which may not exceed one calendar month.

D10 Fees & charges

A statement to list out the fees and charges payable out of the property of the scheme. The following must be stated:-

(a) the maximum percentage of the initial charge payable to the management company out of the issue price of a unit/share;[deleted]

(b) the maximum fee payable to the management company out of the property of the scheme, expressed as an annual percentage;[deleted]

(c) fee payable to trustee/custodian;[deleted]

(d) preliminary expenses to be amortized against the property of the scheme; and[deleted]
(e) all other material fees and charges payable out of the property of the scheme.

D11 Meetings

Provisions on the manner in which meetings are conducted in accordance with 6.15 of this UT Code.

D12 Transactions with connected persons

The following must be stated:

(a) cash forming part of the property of the scheme may be placed as deposits with the trustee/custodian, management company, the investment adviser/delegate or with any of their connected persons of these companies (being an institution licensed to accept deposits), so long as such cash deposit shall be maintained in a manner that is in the best interests of holders, having regard to the prevailing so long as that institution pays interest thereon at no lower rate than is, in accordance with normal banking practice, the commercial rate for a deposits of similar type, the size of the deposit in question and term negotiated at arm's length in accordance with ordinary and normal course of business;

(b) money can be borrowed from the trustee/custodian, management company, the investment adviser/delegate or any of their connected persons (being a bank) so long as that bank charges interest at no higher rate, and any fee for arranging or terminating the loan is of no greater amount than is in accordance with its normal banking practice, the commercial rate for a loan of the size and nature of the loan in question negotiated at arm's length;

(c) any transactions between the scheme and the management company, the investment adviser/delegate, directors of the scheme or any of their connected persons as principal may only be made with the prior written consent of the trustee/custodian; and

(d) all transactions carried out by or on behalf of the scheme must be at arm's length and executed on the best available terms.

D13 Distribution policy and date

Distribution policy and approximate date when income will be distributed (if applicable).

D14 Annual accounting period Financial year

Calendar year date on which the annual accounting period financial year ends. In the case of an umbrella fund, the accounting period financial year should be the same for all constituent funds.

D15 Base currency

A statement of the base currency of the scheme.
D16  Modification of the constitutive documents

A statement of the means by which modifications to the constitutive documents can be effected [see 6.7 of this UT Code].

D17  Termination of scheme

A statement of the circumstances in which the scheme can be terminated.
Appendix E

Contents of financial reports

Introduction

Pursuant to 11.6 of this UT Code, financial reports of a scheme must be prepared and published in respect of its financial year.

Annual reports must be prepared in compliance with internationally recognized accounting standards pursuant to 11.6A of this UT Code, and contain all the information required in this Appendix and a report issued by the trustee/custodian to holders as required by 4.5(f) of this UT Code.

Interim reports must apply the same accounting policies and methods of computation as are applied in the annual reports of the scheme pursuant to 11.6A of this UT Code and disclose a statement to such effect or include a description of the nature and effect of any change in these policies and methods. Interim reports must at least contain the information/items listed under the Statement of Assets and Liabilities, Revenue Statement, Statement of Movement in Capital Account, and the Investment Portfolio and Holdings of Collateral. For the avoidance of doubt, if no annual report has been prepared and published pursuant to 11.6 of this UT Code for the relevant reporting period immediately preceding the publication of an interim report (e.g. in the case of a newly launched scheme), such interim report must disclose the accounting policies and methods of computation that are significant for holders to appraise the financial position and performance of a scheme. Where the scheme has paid or proposes to pay an interim dividend, the amount of dividend should be disclosed.

All financial reports must contain comparative figures for the previous period except for the Investment Portfolio and Holdings of Collateral.

The mention of any unauthorized schemes (including underlying schemes) in the financial reports must be indicated as “Not authorized in Hong Kong and not available to Hong Kong Residents/the public in Hong Kong”.

For all financial reports, the items listed under the Statement of Assets and Liabilities, Revenue Statement, Distribution Statement, Statement of Movements in Capital Account and the Notes to the Accounts, where applicable, must be disclosed separately. It is however, not mandatory to adopt the format as shown or to disclose the items in the same order and a scheme may use different titles for these statements.

While the SFC recognizes that financial reports of recognized jurisdiction schemes [see 1.2 of this UT Code] will vary in content, financial reports are expected to offer investors comparable disclosure as set out in this Appendix. Although financial reports of recognized jurisdiction schemes will generally be reviewed on the basis that they already comply in substance with this Appendix, disclosure must be made of transactions with connected persons and soft commission dollar arrangements [see items 2 and 3(a) under Notes to the Accounts, Financial Reports in this Appendix(2) and (3)]. The SFC reserves the right to require additional disclosure.

Statement of assets Assets and liabilities Liabilities

The following must be separately disclosed, where applicable:-

Appendix A - 102
1. Total value of investments
2. Bank balances
3. Formation costs [deleted]
4. Dividends and other receivables
5. Amounts receivable on subscription
6. Bank loans and overdrafts or other forms of borrowings
7. Amounts payable on redemption
8. Distributions payable
9. Total value of all assets
10. Total value of all liabilities
11. Net asset value
12. Number of units/shares in issue [deleted]
13. Net asset value per unit/share [deleted]

Revenue statement

1. Total investment income net of withholding tax, broken down by category
2. Total other income, broken down by category
3. Equalization on issue and cancellation of units/shares [deleted]
4. An itemized list of various costs which have been debited to the scheme including, where applicable:
   (a) fees paid to the management company (e.g. management fee and performance fee)
   (b) remuneration of the trustee/custodian
   (c) fees paid to investment adviser (if any) delegate
   (d) other respective amounts paid to any connected persons of the management company, investment delegate, directors of the scheme or trustee/custodian
   (e) amortization of formation costs
   (f) directors’ fee and remuneration
   (g) safe custody and bank charges
   (h) auditors’ remuneration
   (i) interest on borrowings
   (j) legal and other professional fees
   (k) any other expenses borne by the scheme
   (l) transaction costs
   (m) any other expenses borne by the scheme

5. Taxes (including withholding tax)
6. Amounts transferred to and from the capital account

7. Net income to be carried forward for distribution

**Distribution statement**

1. Amount brought forward at the beginning of the period
2. Net income for the period
3. Interim distribution per unit/share and date of distribution
4. Final distribution per unit/share and date of distribution
5. Undistributed income carried forward

**Statement of movements in capital account**

1. Number of units/shares in issue and Value of the scheme as at the beginning of the period
2. Number of units/shares issued and the amounts received upon such issuance (after equalization if applicable)
3. Number of units/shares redeemed and the amount paid on redemption (after equalization if applicable)
4. Any items resulting in an increase/decrease in value of the scheme not recognized in the Revenue Statement, including:
   (a) surplus/loss on sale of investments
   (b) exchange gain/loss
   (c) unrealized appreciation/diminution in value of investments
   (d) net income for the period less distribution
5. Amounts transferred to and from the revenue account

6. Number of units/shares in issue and Value of the scheme as at the end of the period

**Notes to the accounts**

The following matters should be set out in the notes to the financial reports, where applicable:

1. Principal accounting policies

   State the principal accounting policies in preparing the financial reports for reporting the financial position and performance of a scheme, including the following:

   (a) the basis of valuation of the assets of the scheme including the basis of valuation of unquoted and unlisted securities

   (b) the revenue recognition policy regarding dividend income and other income
(c) foreign currency translation

(d) the basis of valuation of forward foreign exchange and futures contracts, financial derivative instruments

(e) the basis of amortization of formation costs [deleted]

(f) taxation

(g) any other accounting policy adopted to deal with items which are judged material or critical in determining the transactions and in stating the disposition of the scheme

Any changes to the above accounting policies and their financial effects upon the accounts should also be disclosed.

2. Transactions with connected persons

The following should be disclosed:-

(a) a description of the nature and the amounts of any transactions entered into during the period between the scheme and the management company, investment adviser/delegate, the directors of the scheme, trustee/custodian or any entity in which these parties or any of their connected persons have a material interest, together with a statement confirming that these transactions have been entered into in the ordinary course of business and on normal commercial terms;

(b) the total aggregate value of the transactions of the scheme effected through a broker who is a connected person of the management company, investment adviser/delegate, the directors of the scheme, trustee/custodian or any entity in which these parties or any of their connected persons have a material interest, together with a statement confirming that these transactions have been entered into in the ordinary course of business and on normal commercial terms;

(i) the percentage of such transactions in value to the total transactions in value of the scheme during the year;

(ii) the total brokerage commission paid to such broker in relation to transactions effected through it; and

(iii) the average rate of commission effected through such broker;

(c) details of all transactions, including the nature and amounts, which are outside the ordinary course of business or not on normal commercial terms entered into during the period between the scheme and the management company, investment adviser/delegate, the directors of the scheme, trustee/custodian or any entity in which these parties or any of their connected persons have a material interest;

(d) name of the management company, investment delegate, the directors of the scheme, trustee/custodian or any of their connected persons of such company or director if any of them becomes entitled to profits from transactions in units/shares or from management of the scheme, and the amount of profits to
which each of them becomes entitled;

(e) where the scheme does not have any transactions with the management company, investment delegate, directors of the scheme, trustee/custodian or any of their connected persons during the period, a nil statement to that effect; and

(f) the basis of the fee charged for the management of the fund and the name of the management company and investment delegate. In addition, where a performance fee is charged to the scheme, the basis of calculation and amount of performance fee charged should be separately disclosed. For Futures and Options Funds [see 8.4A], the total transactions costs must also be disclosed.

3. Soft dollar arrangements

(a) Details of any soft commission dollar arrangements relating to dealings in the property of the scheme, including the amounts of transactions executed; the related commissions that have been paid for the transactions; and description of goods and services received by the management company or investment delegate, or a nil statement if no such arrangements exist during the period; and

(b) General description on soft dollar arrangements relating to dealings in the property of the scheme, including the amounts of transactions executed; the related commissions that have been paid for the transactions; and description of goods and services received by the management company or investment delegate.

4. Borrowings

State whether the borrowings are secured or unsecured and the duration of the borrowings.

5. Contingent liabilities and commitments

Details of any contingent liabilities and commitments of the scheme.

6. If the free negotiability of any asset is restricted by statutory or contractual requirements, this must be stated.

7. Formation costs

Accounting treatment of formation costs and the basis of amortization, including the amounts unamortized and the remaining amortization period.

8. Distribution

Details of any distribution, including the following:

(a) Amount brought forward at the beginning of the period;

(b) Net income for the period;

(c) Interim distribution per unit/share and date of distribution;
Appendix A

1. Number or quantity of each holding together with the description and market value. Distinguish between listed and unlisted and categorize by asset class (such as equities, bonds and collective investment schemes etc.) and country. For investments in schemes by a UPMF, the place of incorporation of the schemes should be disclosed.

2. The total investment stated at cost.

3. The value of each holding as a percentage of net asset value.

4. Statement of movements in portfolio holdings since the end of the preceding accounting period.

Notes: (1) The management company is expected to choose the most appropriate illustration of movement in the portfolio holdings taking into account the objective and nature of the fund a scheme. Any one of the following methods may be considered acceptable to the Commission:

(a) detailed holdings in individual securities; or
(b) holdings in different sectors of a particular market; or
(c) holdings in different countries (in the case of, for example, a global equity fund); or
(d) holdings in various kinds of securities such as equities, bonds, warrants and options etc. (in the case of a diversified fund).

(2) Except for (a) above, Note(1)(a) of item 4 under Investment Portfolio in this Appendix, movements in portfolio holdings can be expressed in percentages.

5. Details in respect of financial derivative instruments:

(a) the underlying assets of financial derivative instruments; and
(b) the identity of the issuer(s)/counterparty(ies) of these financial derivative instruments.

6. Details in respect of securities financing transactions and securities borrowing transactions:

(a) the securities involved in each type of securities financing transactions and securities borrowing transactions;
(b) global data:

(i) amount of securities on loan as a proportion of the scheme’s total lendable assets and of the scheme’s total net asset value; and
(ii) respective absolute amounts of each type of securities financing transactions and as a proportion of the scheme’s total net asset value;
(c) concentration data:

(i) top 10 largest collateral issuers across all securities financial transactions with details on the amounts of collateral received by the scheme; and
(ii) top 10 counterparties of each type of securities financing transactions, including name of counterparty and gross amounts of outstanding transactions;
(d) aggregate transaction data for each type of securities financing transactions and securities borrowing transactions:

(i) the amount (including the currency denomination);
(ii) maturity tenor, including open transactions;
(iii) identity and country of the counterparty(ies);
(iv) settlement and clearing means (e.g. tri-party, central counterparty, bilateral); and
(v) collateral received by the scheme to limit counterparty exposure with details required under items 1(a) and 1(e) of Holdings of Collateral in this Appendix;
(e) amount of revenue, and the direct and indirect expenses incurred relating to each type of securities financing transactions (e.g. the amount of revenue retained by the scheme and the amount of direct and indirect expenses borne by the scheme and paid to the management company, investment delegate, trustee/custodian or any of their connected persons or other parties);

(f) (i) details on re-investment of cash collateral required under item 1(f) of the Holdings of Collateral in this Appendix; and

(ii) (applicable to hedge funds) details on re-use or re-hypothecation of collateral required under item 1(g) of the Holdings of Collateral in this Appendix; and

(g) details on custody / safe-keeping arrangement of collateral under item 1(h) of the Holdings of Collateral in this Appendix.

7. For money market funds:

(a) the weighted average maturity and the weighted average life of the portfolio of the scheme; and

(b) amounts of daily liquid assets and weekly liquid assets and as a percentage of the scheme’s total net asset value.

Holdings of Collateral

1. For schemes holding collateral of more than 30% of the net asset value of the schemes, description of holdings of collateral, including:

(a) nature of the collateral, including asset types (e.g. cash, cash equivalents and money markets; government or corporate (whether investment grade / non-investment grade); and others) and currency denomination;

(b) identity of counterparty providing the collateral;

(c) value of the scheme (by percentage) secured/covered by collateral, with breakdown by asset class/nature and credit rating (if applicable); and

(d) credit rating of the collateral (if applicable);

(e) maturity tenor of the collateral, including open transactions;

(f) data on re-investment of cash collateral:

(i) share of cash collateral received that is re-invested, compared to the maximum amount specified in the offering document; and

(ii) returns from re-investment of cash collateral;

(g) (applicable to hedge funds) data on re-use or re-hypothecation of collateral:

(i) share of collateral received that is re-used or re-hypothecated, compared to the maximum amount specified in the offering document; and
(ii) information on any restrictions on type of collateral received; and

(h) custody / safe-keeping arrangement, including:

(i) number and names of custodians and the amount of collateral received / held by each of the custodians for the scheme; and

(ii) the proportion of collateral posted by the scheme which are held in segregated accounts, pooled accounts, or in any other accounts.

Performance table

1. A comparative table covering the last 3 financial years and including, for each financial year, at the end of the financial year:-

   (a) the total net asset value; and

   (b) the net asset value per unit/share.

2. A performance record over the last 10 financial years; or if the scheme has not been in existence during the whole of that period, over the whole period in which it has been in existence, showing the highest issue price and the lowest redemption price of the units/shares during each of those years.

Information on leverage exposure arising from financial derivative instruments

1. The lowest, highest and average leverage exposure arising from the use of financial derivative instruments during the period in respect of the following:

   (a) Gross amounts of leverage exposure arising from the use of financial derivative instruments for any purposes, with reference to equivalent market value of the underlying assets of the financial derivative instruments, as a proportion to the scheme’s total net asset value; and

   (b) Amounts of leverage arising from the use of financial derivative instruments for investment purposes under the commitment approachNet derivative exposure [see Note to 7.26 of this UT Code] as a proportion to the scheme’s total net asset value.
Appendix F

Appendix G

Guidelines for review of internal controls and systems of trustees/-custodians

Introduction

1. Pursuant to 4.1 of this UT Code, trustees/custodians, a trustee/custodian of a collective investment scheme are required to be approved by the SFC. An acceptable trustee/custodian should either: appoint an independent auditor to periodically review its internal controls and systems ("internal control review") on terms of reference agreed in compliance with the Commission and file such report ("review report") with the Commission, unless the trustees/custodians are prudentially regulated and supervised by an overseas supervisory authority acceptable to the Commission. A report of the internal control review ("review report") must be filed with the Commission. Trustees/custodians should ensure that adequate policies and procedures of the internal controls and systems are maintained to ensure compliance with the requirements of Chapter 4 of this UT Code.

   (a) on an ongoing basis, be subject to regulatory supervision; or

   (b) appoint an independent auditor to periodically review its internal controls and systems on terms of reference agreed with the SFC and should file such report with the SFC.

Note: Where third parties nominees, agents or delegates of a trustee/custodian, or, if applicable, other service providers, are engaged to carry out functions or operations that are relevant in discharging the responsibilities and obligations of the trustee/custodian, there should be ongoing supervision (in the case of appointment by the trustee/custodian) and regular monitoring on these parties by the trustee/custodian to ensure the accountability of the trustee/custodian to the scheme and investors is not diminished and its obligations of the trustee/custodian as set out in Chapter 44.5 of this UT Code are duly discharged. Although a third party may be engaged to assume the operations and functions of a trustee/custodian, the responsibilities and obligations of the trustee/custodian may not be delegated and shall remain with the trustee/custodian of the scheme.

2. As a general guide, in determining the acceptability of an overseas supervisory authority, the SFC will have to be satisfied that either the overseas regulatory authority or its delegate carries out regular inspection of trustees/custodians within its jurisdiction or the latter is subject to regular review in a manner generally consistent with the SFC requirement. In the latter case, the auditor's report should be filed with the SFC.

Purpose of the Guidelines

3. These Guidelines provide further guidance to trustees and /custodians of scheme regarding compliance with the periodic internal control review requirement of this UT Code. These Guidelines set out the minimum best practice requirements for trustees/custodians and auditors of scheme in order to facilitate the agreement of the scope of an internal control review on terms which will be acceptable to the SFC. These Guidelines have been developed in consultation with the Hong Kong Trustees Association and the Hong Kong Society of Accountants.
controls and systems can be adopted to achieve the same internal control objectives. Trustees/custodians should exercise professional judgement in deciding the appropriate policies and procedures of their internal controls and systems in a given circumstance.

4. For the purposes of these Guidelines this Appendix, the term “auditors” refers to the independent reporting professional accountants who are engaged in reporting on reviewing to conduct the internal control review and systems of the trustee/custodian of a scheme and issuing the required auditor’s report (included in the review report) provided herein.

Scope of review

5. The objective of the internal control review should be conducted with the objective is to assess and evaluate whether the internal controls and systems of a trustee/custodian are adequate and sufficient for the compliance with the requirements of Chapter 4 to comply with 4.5 of this UT Code. The internal control review should involve all material procedural and control elements that are relevant and necessary to discharge the responsibilities and obligations of trustees/custodians in relation to schemes.

Notes:  
(1) In determining whether the control objectives as set out under paragraph 8A of this Appendix have been achieved, the scope of internal control review should cover the internal controls and systems of the trustee/custodian in monitoring the performance of any third party (such as sub-custodian, administrator, transfer agent and registrar) who is appointed/engaged to carry out certain functions and operations that are relevant for the trustee/custodian in discharging its responsibilities and obligations. In this case, the relevant third party is expected to establish policies and procedures in its internal controls and systems in support of the trustee/custodian to discharge its responsibilities and obligations.

(2) For the purposes of Note(1) to paragraph 5 of this Appendix, the trustee/custodian should establish policies and procedures in its internal controls and systems to ensure the related functions and operations are properly carried out, implemented and monitored irrespective of the parties designated to perform or handle these functions and operations [see Note to paragraph 1 of this Appendix].

5A. In selecting samples for the internal control review, the auditor should include, where available, different types of scheme(s) authorized by the SFC of which the entity concerned is acting as trustee/custodian. As part of the internal control review, the auditor should also review whether different classes of investors of a scheme are treated fairly under the control framework of the trustee/custodian.

5B. The internal control review should be conducted to provide reasonable assurance in accordance with generally internationally acceptable international auditing review standards.

6. The engagement letter between the trustee/custodian and the auditor should incorporate or refer to the following terms of reference (“Terms of Reference”) under paragraph 8 of this Appendix which sets out, as at a minimum, the scope of review for compliance with the requirements of this UT Code. The trustee/custodian may engage the auditor to expand

---

1 For example: Practice Note 960.2 issued by the Hong Kong Society of Accountants; or Technical Release AUDIT 4/97 issued by the Institute of Chartered Accountants in England and Wales (ICAEW) in the UK.
the scope of the internal control review, and it is important that this is agreed with the auditor before the commencement of the internal control review.

7. Where the trustee/custodian or an associated company carries on part of its responsibilities outside Hong Kong in a jurisdiction in which the SFC considers that there is inadequate regulatory supervision or review (as described in paragraph 2), then the scope of the review should include those functions undertaken outside Hong Kong in a way which satisfies the auditor issuing the report. Notwithstanding that an offshore company may be appointed trustee/custodian, if the trustee/custodian confirms that all relevant functions are carried out by it or its delegates in Hong Kong, the scope of the review can be so limited.[deleted]

Terms of reference

8. The precise terms of the internal control review engagement will be as agreed between the trustee/custodian and the auditor in each particular case. Terms of Reference for the review should be incorporated in the review engagement letter and should, The review report should as at a minimum, include the following Terms of Reference:

A. Report by the management of the trustee/custodian

The management of the trustee/custodian must issue a report (“trustee/custodian’s report”) to describe the control objectives, policies and procedures of its internal controls and systems that are designed to ensure compliance with the requirements of Chapter 44.5 of this UT Code and the control objectives as set out in this Appendix. At a minimum, the internal control policies and procedures are expected to cover the control objectives (“Control Objective(s)”) and the key control attributes (“Key Control Attributes”) should include the following under each of the areas (namely, (a) maintenance of a control environment, (b) compliance with applicable legal and regulatory requirements, (c) compliance with control policies and procedures, (d) safekeeping of assets against loss, (e) handling of different classes of investors fairly and (f) sound information technology control processes) described in this paragraph 8.A below:

Note: For the purposes of paragraph 8.A of this Appendix, “nominees, agents and delegates” refers to parties appointed by the trustee/custodian whereas “service providers” refers to parties appointed/engaged (irrespective of whether they are appointed by the trustee/custodian) to carry out certain functions and operations that are relevant for the trustee/custodian in discharging its responsibilities and obligations as set out in Chapter 4.

Note: In the case where the trustee/custodian is required to take reasonable care in discharging its obligations provided under 4.5 of this UT Code, the trustee/custodian should ensure its obligations (e.g. oversight functions) as set out in this UT Code are duly discharged notwithstanding that third parties may be engaged to carry out the relevant functions or operations.

Control Objective

(a) Maintenance of a control environment

Key Control Attributes

(1) General
(i) Possession of relevant knowledge, skills, qualifications, experiences, resources and operational capabilities commensurate with the nature, scale and complexity of the scheme.

(ii) Devise and tailor appropriate and specific procedures (subject to regular and frequent review and update) for acting as the trustee/custodian of the scheme concerned, including ongoing monitoring on third parties engaged, nominee(s), agent(s), delegate(s) and service provider(s).

(iii) Establish clear and comprehensive escalation mechanism to deal with potential breaches detected in the course of discharging its obligations and report to the SFC on material breaches in a timely manner.

(2) Corporate governance

(i) Establishment of a corporate governance framework, including, where applicable, the oversight from the licensed bank on the trustee/custodian for the business and operation or its subsidiary acting as trustee/custodian.

(ii) Actions taken by the management company are in the best interests of holders.

(iii) Timely reporting and involvement of senior management of the trustee/custodian and the management company on matters and issues that may lead to breach of relevant laws and regulations or applicable legal and regulatory requirements.

(iv) Escalation of issues identified to senior management of the trustee/custodian and the management company and ongoing assessment, monitoring of the progress and development.

(3) Risk management framework

(i) Establishment of a risk management framework.

(ii) Identification, monitoring and controlling of relevant risks for acting as the trustee/custodian of a scheme, including but not limited to, operational risks and regulatory risks.

(iii) Supervision from senior management of the trustee/custodian and ongoing communication with the management company.

(4) Business continuity plan

(i) Establishment of a business continuity plan.

(ii) Regular testing on the effectiveness of the business continuity plan which is subject to review and revision on an ongoing basis.

(iii) Exception Timely reporting on material exceptions to senior management of the trustee/custodian and the management company.
Control Objective

- (b) Compliance with applicable legal and regulatory requirements

Key Control Attributes

(5) Compliance function and review (including but not limited to capital adequacy and independence requirements)

(i) Formation and documentation of a compliance programme approved by the management of the trustee/custodian for the obligations under Chapter 44.5 of this UT Code as well as addressing any compliance / breach issues.

(ii) Development and maintenance of a compliance policy to provide specific guidance (e.g. ongoing communication, training, etc.) to its staff and third parties engaged nominee(s), agent(s), delegate(s) and service provider(s) in discharging its obligations as trustee/custodian.

(iii) Sufficient and adequate compliance resources, including human resources, for monitoring and supervision of the compliance programme.

(iv) Possession of relevant knowledge, skills, qualifications and experience for staff to effectively execute their duties.

(v) Periodic review on the monitoring and reporting procedures of third parties engaged nominee(s), agent(s), delegate(s) and service provider(s).

(vi) Communication and training to directors, staff and nominee(s), agent(s), delegate(s) and service provider(s) on compliance programme.

(vii)(vi) Compliance of regulatory reporting requirements.

(viii)(vii) Regular reporting to senior management of the trustee/custodian and communication with the management company.

(ix)(viii) Establishment of Procedures for dealing with complaints.

(6) Breach reporting [see 4.5(k) of this UT Code]

(i) Establishment of Procedures and mechanisms to identify breaches in the course of discharging the obligations of the trustee/custodian.

(ii) Formation and monitoring of rectification plans and remedial actions, including relevant involvement and coordination with the management company.

(iii) Reporting to senior management of the trustee/custodian and the management company and recording of breaches.

(iv) Notification mechanism to relevant regulatory bodies (including the SFC) on material breaches in accordance with 4.5(k) of this UT Code.
Control Objective

•(c) Compliance with control policies and procedures

Key Control Attributes

(7) Oversight of management company's performance in managing the scheme in accordance with the provisions of the constitutive documents and applicable legal and regulatory requirements

(i) Verification of instructions given by the management company with appropriate reconciliation procedures (such as ex-post controls and verification of processes and procedures).

(ii) Escalation and communication with the management company on breaches identified in the course of discharging the obligations of the trustee/custodian.

(8) Appointment of and oversight on third parties nominee(s), agent(s) and delegate(s) and oversight on service provider(s) that are relevant for the trustee/custodian in discharging its obligations as set out in Chapter 44.5 of this UT Code

(i) Selection and due diligence of third parties engaged nominee(s), agent(s) and delegate(s), including an assessment on their competency, regulatory and financial status, and capabilities in discharging their delegated function(s) / operation(s) and their internal controls and systems, covering the respective control objectives provided in this Appendix with respect to the relevant delegated function(s) / operations(s) by the trustee/custodian.

(ii) Ongoing monitoring and review (on-site and off-site) of third parties engaged nominee(s), agent(s), delegate(s) and service provider(s) to ensure the delegated function(s) / operation(s) are performed in compliance with relevant legal and regulatory requirements.

(iii) Oversight on third parties engaged nominee(s), agent(s), delegate(s) and service provider(s) that all the necessary internal controls and systems are established and maintained effectively, in carrying out the delegated function(s) / operation(s).

(iv) Documented procedures for the appointment and monitoring of nominee(s), agent(s) and delegate(s) and in the case of service provider(s), monitoring of such parties in respect of matters in (8)(i) to (8)(iii) above.

(v) Contingency plan on third parties engaged nominee(s), agent(s), delegate(s) and service provider(s), including actions and measures to be taken on breaches and solvency matters / issues relating to the third parties engaged nominee(s), agent(s), delegate(s) and service provider(s).

(vi) Policies and measures to address conflicts of interests.
(9) Subscription and redemption monitoring [see 4.5(b) of this UT Code]

(i) Subscription and redemption orders are carried out in accordance with the provisions of the constitutive documents and applicable legal and regulatory requirements.

(ii) Transactions controls and recording systems are in place.

(iii) Timely issuance and cancellation of units/share certificate.

(iv) Reconciliation and verification on subscription and redemption on a regular basis, such as reconciling the subscription/redemption orders with the proceeds received/paid and the number of units issues/cancelled.

(v) Frequency of reconciliation and verification consistent with the flow of subscriptions and redemptions.

(vi) Timely settlement of the subscription and redemptions transactions and follow-up actions on exceptions, including communication with senior management of the trustee/custodian and the management company on the exceptions identified.

(vii) Proper documentation and records of the considerations taken with respect to suspension of dealing of units/shares of the scheme, including the consultation process and communication between the trustee/custodian and the management company.

(10) Valuation / price / net asset value calculation monitoring [see 4.5(c) of this UT Code]

(i) Methodology adopted in calculating net asset value per unit/share is in accordance with the provisions of the constitutive documents and applicable legal and regulatory requirements.

(ii) Accuracy of net asset value calculation, including interest income, dividend and fee calculation.

(iii) Valuation methodology is in place Establishment of policies and procedures in monitoring the valuation methodology adopted by the scheme/management company for each type of investments held by the scheme, including illiquid or hard-to-value assets.

(iv) Establishment of policies and procedures in relation to monitoring the use of the fair value adjustments considered by the management company for valuing different types of assets of a scheme, including the circumstances that trigger the use of fair value adjustments, and the governance structure and review process for fair value adjustments and consultation with the trustee/custodian where appropriate.

(v) Periodic review of valuation monitoring policies and procedures, including effectiveness, appropriateness and consistency of their application.

(vi) Proper documentation and records on the considerations taken with respect to the suspension of calculation of valuation / price/ net asset
value of the scheme, including the consultation process and communication between the trustee/custodian and the management company.

(vii) Establish clear and comprehensive escalation mechanism to deal with errors or exceptions in the pricing of the units/shares of the scheme that has come to the attention of the trustee/custodian in the course of discharging its obligations, including proper documentation of the mechanism, compensation arrangements to the scheme and/or holders, communication between the trustee/custodian and the management company and timely reporting to the SFC on the pricing errors in accordance with 10.2A of this UT Code.

(viii) Proper recording of interest income, dividend income and other corporate actions.

(11) Distribution payment monitoring

(i) Calculation of distribution is carried out in accordance with the provisions of the constitutive documents and applicable legal and regulatory requirements.

(ii) Ensure completeness and accuracy of distribution payment.

(iii) Establish clear and comprehensive escalation mechanism to deal with exceptions detected in the course of discharging the obligations of the trustee/custodian, including proper documentation of the mechanism, communication between the trustee/custodian and the management company and reporting to the SFC on material exceptions in a timely manner.

(12) Cash flow monitoring [see 4.5(h) of this UT Code]

(i) Oversight of the safeguards and measures adopted by the scheme/management company to ensure proper cash account opening; obtain proper prior written consent has been obtained from the trustee/custodian in the case where cash is placed with the management company, investment delegates, directors of the scheme or any of their connected persons.

(ii) Oversight of the safeguards and measures, including oversight on the cash management policy of adopted by the management company, in addressing conflicts of interests where cash is placed with the entities under 10.10 and ensure the arrangement is in the best interests of the investors of this UT Code, including oversight on the relevant cash management policy of the management company.

(iii) Ensure proper and effective monitoring on the receipt of subscription proceeds and payment of redemption proceeds.

(iv) Execution and verification of management company’s instructions.

(v) Accuracy of cash record and cash reconciliation against third party, such as reconciliation of its own records with records of the management company.
(vi) Transactions controls and recording systems are in place.

(vii) Timely settlement of transactions and follow-up on exceptions detected.

(viii)(iv) Identification of unusual significant cash flow and cash flows which could be inconsistent with the operations of the scheme.

(ix)(v) Periodic review of cash flow monitoring policy of the trustee/custodian.

(x)(vi) Escalation procedures with senior management of the trustee/custodian and the management company when material exception is detected in the course of carrying out its duties and the follow-up actions taken.

(13) Investment monitoring [see 4.5(e) of this UT Code]

(i) Carry out proper execution and verification of instructions of the management company with ex-post verifications in relation to investment limitations and restrictions to ensure compliance with the provisions of the offering and constitutive documents and this UT Code.

(ii) Monitoring investment and borrowing limits.

(iii) Accuracy of investment record and investment reconciliation against third party.

(iv) Transactions controls and recording systems are in place.

(v) Timely settlement of transactions and exceptions detection and follow-up actions taken.

(vi) Establishment of system of recording and reporting pertaining to securities financing transactions.

(vii) Possession of relevant knowledge for staff who are responsible for monitoring and recording securities financing transactions.

(viii) Formulation and regular update Proper monitoring of the authorized list of eligible counterparties.

(ix) Development and maintenance of proper documentation Proper monitoring on the margin requirement for different types of investment.

(x) Verification of daily mark to market value on collateral and reconciliation of reports provided by counterparties.

(14) Accounting system and record keeping

(i) Establishment of proper and appropriate accounting recording systems and record keeping requirements for each scheme.
(ii) Adoption of consistent accounting treatment in accordance with the constitutive documents and relevant accounting standards.

(iii) Timely issuance and distribution of financial reports.

(15) Connected party transactions

(i) Oversight of the safeguards and measures, including oversight on adopted by the scheme/the management company, ensuring that transactions are executed at arm’s length and in the best interests of holders, addressing conflicts of interests on transactions with the management company, investment delegate, directors of the scheme and any of their connected persons.

(ii) To ensure proper prior written consent has been obtained from the trustee/custodian on transactions between the scheme and the entities under 10.11 of this UT Code and proper documentation on justifications in approval of these transactions.

(iii) Ensure that conflicts of interests identified are properly disclosed.

Control Objective

• Safekeeping of assets against loss

Key Control Attributes

(16) Custody and safeguarding of assets

(i) Segregation of assets of the scheme from the assets of:

(I) the management company, investment delegate and their respective connected persons;

(II) the trustee/custodian and any nominees, agents or delegates throughout the custody chain; and

(III) other clients of the trustee/custodian and nominees, agents or delegates throughout the custody chain, unless held in an omnibus account with adequate safeguards in line with international standards and best practices to ensure that the assets of the scheme is properly recorded with frequent reconciliations.

(ii) Segregation of duties in trustee/custodian’s operations.

(iii) Safeguard of physical assets of the scheme.

(iv) Payment and asset transfer on behalf of the scheme.

(v) Reconciliation of assets against third party records on a regular basis.

(vi) Obtain sufficient and reliable information to conduct Regular verification of ownership (including reconciliation between records of the trustee/custodian and the management company) and maintenance of proper comprehensive, up-to-date and accurate
records for assets of the scheme that cannot be held in custody.

(vii) Proper registration of the scheme’s assets.

(viii) Assess and monitor custody risk with adequate organizational arrangement to minimize risk of loss.

(ix) Escalation and rectification procedures on issues and exceptions identified.

(x) All cash of the scheme has been booked in the cash accounts of the scheme.

(xi) Accuracy of cash record and cash reconciliation against third party, such as reconciliation of its own records with records of the management company on a daily basis.

Control Objective

(e) Handling of different classes of investors fairly

Key Control Attributes

(17) Whether different classes of investors are treated fairly under the trustee/custodians’ control framework, such as control procedures in ensuring accuracy in the calculation of net asset value of a scheme with multiple classes.

Control Objective

(f) Sound information technology (IT) control processes

Key Control Attributes

(18) IT controls on the IT systems involved in the trustee/custodians’ businesses, including logical and physical access controls; system application controls; system change management controls and testing; IT operations; system resilience and disaster recovery planning; incident management; and technology service providers management.

(19) Risk assessment performed by the trustee/custodian on the IT-related risks of the trustee/custodians’ businesses/operations relating to schemes authorized by the SFC and adequacy of the IT controls to address the IT-related risks identified in the risk assessment.

Note: Please note that the above control objectives are not meant to be exhaustive.

Please note that the above Control Objectives are not meant to be exhaustive.

The controls designed to meet the above objectives may vary from firm to firm. The SFC does not mandate specific controls to meet the objectives. It is the responsibility of the management of the trustee/custodian to design suitable controls and ensure that these are adequate.
effective and properly implemented for the purpose of achieving the control objectives so identified.

In addition, the report should describe the internal control policies and procedures designed for achieving the control objectives.

B. Objective of the review engagement

The objective of the engagement is to review the control objectives and procedures as described in the report issued by the trustee/custodian’s report and to report on the findings of the review to the management of the trustee/custodian.

(1) Auditor’s work should be planned and conducted so as to have a reasonable expectation of assurance that:

   (i) confirming whether the control procedures as described by the trustee/custodian’s management are suitably designed and adequate to ensure meeting the stated control objectives and compliance with Chapter 44.5 of this UT Code during the period under review;

   (ii) confirming whether the trustee/custodian’s report in paragraph 8.A of this Appendix describes fairly the control procedures in place during the period under review;

   (iii) confirming whether the specific control procedures tested (with details described) operated effectively, in all material respects, during the period under review; and

   (iv) detecting material internal control weakness or failure in the internal controls or failure in control systems (whether by design or implementation) during the period under review are identified and providing recommendations for improvement are made.

(2) In assessing whether a control is suitably designed and adequate, the auditor should:

   (i) assess whether the control individually or in combination with other controls would, when complied satisfactorily, provide reasonable assurance that the control objectives stated in the description of its internal controls and systems by the management of the trustee/custodian are achieved; and

   (ii) take into account the nature of business and size of the operation of the trustee/custodian.

C. Report by the auditor

The auditor should issue a report (“auditor’s report”), addressed to the management of the trustee/custodian, detailing the scope of the review work carried out relating to the report by management and the conclusions reached. The auditor’s report should state, as a minimum:

   (i) a summary of the terms of engagement containing the Terms of Reference (or attach a copy of the letter of engagement);
(ii) the respective responsibilities of the management of the trustee/custodian and the auditor;

(iii) the basis of the auditor’s opinion (detailing the scope of work); and

(iv) the auditor’s opinion (see Part D of this Appendix); and

(v) where applicable, a description of material weakness and/or failure in the internal controls and systems identified and recommendations made to management of the trustee/custodian (or attach a copy of the letter or memorandum) (see Part E of this Appendix).

D. Auditor’s opinion

As a minimum requirement, the auditor’s opinion should state whether:

(i) whether the accompanying report by the management of the trustee/ custodian describes fairly the control procedures in place the control procedures as described by the trustee/custodian’s management were suitably designed and adequate to ensure meeting the stated control objectives and compliance with Chapter 44.5 of this UT Code during the period under review; and

(ii) whether the specific control procedures tested (with details described) operated as described during were properly implemented by the trustee/custodian throughout the trustee/custodian’s report fairly described the control procedures in place during the period under review; and

(iii) the controls tested, which were those necessary to provide reasonable assurance that the control objectives stated in the trustee/custodian’s description of its control objectives and procedures were achieved, operated effectively through during the period under review; and

(iv) the trustee/custodian has complied with Chapter 4 during the period under review; and

(v) where applicable, the licensed bank’s corporate governance was adequate to ensure that the licensed bank exercises adequate oversight from its senior management over the trustee/custodian business during the period under review.

Where applicable, the auditor should state the limitations to the tests performed and whether such limitations have any material impact on the auditor’s opinion.

E. Recommendation for internal controls and systems

Upon detecting any material control weakness or failure in the internal controls and systems or areas for improvement, the auditor’s report should contain:

(a) if any material weakness in internal controls or failure in internal controls and systems has been identified during the auditor’s review, the auditor is required to issue a letter/memorandum issued by the auditor to management of the trustee/custodian, and provide a copy of such letter/memorandum to the SFC. The letter/memorandum should include (i) a description of the material internal control weakness or failure in the internal controls and systems together with
(ii) auditor’s recommendation for improvement and response from the management of trustee/custodian; or

(b) in cases where no material internal control weakness or failure in the internal controls and systems has been identified, and if the auditor has made certain recommendations for improvement to trustee/custodian’s internal controls and systems, the auditor should issue a letter/memorandum issued by the auditor to management of the trustee/custodian setting out the relevant recommendations for improvement, and provide a copy of the letter/memorandum to the SFC.

Period under Review

9. The period under review should be for a period of at least twelve months and should coincide with the financial year of the trustee/custodian unless otherwise agreed with the SFC.

Notes: For a trustee/custodian which is not currently acting as trustee/custodian for schemes authorized by the SFC (“new trustee/custodian”):

(i) where the review represents the first internal control review of the new trustee/custodian which is conducted in accordance with this Appendix, the SFC may consider accepting a shorter review period (e.g. covering a period of six months) which may not coincide with the financial year end of the new trustee/custodian. In any event, the auditor should issue the auditor’s report on the internal control review of the trustee/custodian within four six months from the end of the review period and submit the review report to the SFC at the time of submission of the application of the relevant scheme seeking SFC’s authorization or the scheme change application in relation to 11.1(b) of this UT Code in support of such application(s); and

(ii) in the case where the new trustee/custodian has yet to come into operations, the SFC may consider on a case-by-case basis to accept separate review reports which opine on the design suitability and operating effectiveness of its internal controls and systems respectively. The internal control review report which opine on the operating effectiveness may not need to be submitted at the time of application. However, the new trustee/custodian should consult and agree with the SFC in advance regarding the timeframe for submission of such report.

Filing of Reports with the SFC

10. The management of the trustee/custodian should file the review report, which comprises of a copy of the auditor’s report and the trustee/custodian’s report (as described in paragraph 8) with the SFC within four six months from the end of the period under review. Where applicable, management response to the auditor’s report should also be attached. The reports should be sent to:

Investment Products Division
Securities & Futures Commission
35/F, Cheung Kong Center
2 Queen’s Road Central
Hong Kong
Frequency of Review

11. The review of internal controls and systems of trustees/custodians of scheme should be conducted on an annual basis. The SFC reserves the right to demand more frequent reviews of a trustee or custodian should this be deemed necessary.
Appendix H

Guidelines on hedge funds reporting requirements

Introduction

The Commission has published the Guidelines on Hedge Funds Reporting Requirements (the Guidelines). The Guidelines sets out the minimum amount of information that is required to be disclosed in regular reporting to holders. The Commission advocates additional information to be disclosed if it is deemed to be appropriate and informative to holders, taking into account the objective and strategy of the scheme.

1. Pursuant to 5.17 and 11.6 of this UT Code, financial reports of authorized schemes are required to be published at least two reports in respect of each financial year, of which the annual report must be audited by the auditor for the scheme. Pursuant to 8.7(w) of this UT Code, authorized hedge funds are also required to publish quarterly reports for holders. The following scheme reports should be distributed to holders and filed with the Commission within the stipulated timeframe:

<table>
<thead>
<tr>
<th>Nature of reports</th>
<th>No. of reports for each scheme financial year</th>
<th>Timeframe for filing and distribution to holders</th>
</tr>
</thead>
<tbody>
<tr>
<td>Annual report</td>
<td>One</td>
<td>Within four months of the end of the relevant financial year, except for funds of hedge funds (FoHFs) where the timeframe for filing and distribution to holders is within six months of the end of the relevant financial year.</td>
</tr>
<tr>
<td>Semi-annual interim report</td>
<td>One</td>
<td>Within two months of the end of the relevant period.</td>
</tr>
<tr>
<td>Quarterly reports</td>
<td>Four</td>
<td>Within one month of the end of the relevant period, except for FoHFs where the timeframe for filing and distribution to holders is within six weeks of the end of the relevant period.</td>
</tr>
</tbody>
</table>

Note: Where the management company wishes to report to holders via monthly reports, there is no need to prepare quarterly reports provided that the same requirements for quarterly reports are complied with in the monthly reports.

2. These Guidelines aims to provide further guidance to management companies regarding the ongoing reporting requirements of authorized hedge funds. The Commission reserves the right to require additional disclosure to be made.

3. For the ease of understanding by holders, where technical terms are used in the scheme reports, the management company is specifically encouraged to include a glossary to explain their meaning and their implications to investors. Where
financial terms are used in the scheme reports, the management company must provide their calculation bases, definitions, and any underlying assumptions.

4. Where the provisions refer to the scheme in this Appendix, this means the authorized hedge fund.

A. Contents of financial reports

Requirements applicable to both annual and semi-annual reports

5. Annual and semi-annual reports of the scheme must contain the information as required by Appendix E of this UT Code of this UT Code, with the exceptions as provided in paragraph 6 of this Appendix.

6. The Commission encourages full disclosure of individual holdings of the scheme. Where the management company is satisfied that full disclosure of such information may be unduly burdensome, it may adopt alternative disclosures in lieu of the disclosure as required in the Investment Portfolio subsection of Appendix E of this UT Code of this UT Code. In that case, the management company must choose the most appropriate and informative illustration of the scheme's holdings/exposures at the end of the relevant period, taking into account the objective and strategy of the scheme.

Note: The following will be regarded as minimum disclosures acceptable to the Commission. The Commission reserves the right to require disclosure of the full position of the scheme for the purposes of carrying out its regulatory functions. Such disclosures to the Commission will be subject to the Commission's preservation of secrecy provisions.

With respect to any scheme that is a FoHFs, the management company should disclose:

   a. Exposures (including cash and cash equivalent holdings*) for the scheme at the scheme level as of the reporting date (expressed in percentage terms of net asset value of the scheme) categorized by geographical region, industry, strategy, or some other basis that the management company considers the most appropriate, taking into account the objective and strategy of the scheme;

   b. The names and percentage values (based on net asset value of the scheme) of the top five underlying funds held by the scheme as of the reporting date;

   c. The number of underlying funds and the number of underlying fund managers included in the scheme as of the reporting date; and

   d. (Where the scheme is a multi-strategy FoHFs) disclosure of the number of underlying funds and underlying fund managers under each hedge fund strategy.

With respect to other schemes, the management company should disclose:
a. Exposures (including cash and cash equivalent holdings*) for the scheme as of the reporting date (expressed in percentage terms of net asset value of the scheme) categorized by asset class, geographical region, industry, strategy, or some other basis that the management company considers the most appropriate, taking into account the objective and strategy of the scheme;

b. The names and amounts of the top five long positions and top five short positions held by the scheme as of the reporting date; and

c. The aggregated gross long and short positions held by the scheme as of the reporting date (expressed in percentage terms of the net asset value of the scheme);

* “Cash equivalent holdings” are defined as those assets with a maturity of less than one year and which are readily transactable in an arm’s length transaction between willing and knowledgeable parties.

Requirements specific to annual reports

7. Where performance fees were borne by the scheme during the financial year, the annual reports of the scheme must contain the amount of such performance fees payable at the scheme level expressed as a percentage of average net asset value of the scheme as at the end of the financial year and the calculation basis.

   Note (1): A nil statement is required if no performance fees were borne by the scheme during the financial year.

   (2): Where the scheme is a FoHFs, only performance fees at the FoHFs’ level need to be disclosed.

B. Quarterly reports

Distribution of quarterly reports

8. The Commission requires that quarterly reports be distributed to holders to keep them informed of the scheme activities on a timely basis.

9. Quarterly reports are required to be filed with the SFC and distributed to holders within the stipulated timeframe under paragraph 1 of these Guidelines.

   Note: Given the newness of these Guidelines to the market, measures would be taken to familiarise the management company with the reporting requirements and the disclosure standard expected of these reports. The first quarterly report of each scheme must obtain a “no objection” letter from the Commission before it is issued to persons in Hong Kong. In order to facilitate the vetting procedures, upon request from the management company, Commission staff may review and provide comments on the format of the first quarterly report of each scheme before its contents are ready.

10. Quarterly reports may not be distributed to non-holders unless accompanied by the offering document of the scheme.
Contents of quarterly reports

11. Quarterly reports must be provided in the English and Chinese languages, and must contain the following information regarding the scheme.

Management commentary

12. A statement to the effect that the directors of the scheme and/or the management company accept responsibility for the information contained in the quarterly reports as being accurate as at the date of publication.

(a) Performance review

A commentary by the management company that describes and explains the key factors impacting upon the scheme’s financial performance and any style drifts in the scheme during the reporting period.

Note: Where the scheme is a FoHFs, the management company is expected to explain what has driven performance in terms of different strategies.

(b) Market outlook

A discussion of the management company’s expectation of the primary risk factors to which the scheme is exposed to, and the outlook of the development of these factors as they relate to the scheme.

(c) Changes in key investment personnel

A discussion on the changes in composition of the key investment personnel (if any) at the scheme level and their impact on the scheme’s overall strategy, risk profile or future performance.

(d) Lawsuits

Details of any lawsuits that may have a financial impact on the scheme during the reporting period.

Portfolio review

(e) Fund size and NAV-net asset value per unit/share

The scheme’s total net asset value, net asset value per unit/share as at the end of the reporting period, and the percentage change in net asset value per unit/share since the last reporting period.

(f) Cash borrowings and other sources of leverage

The amount of cash borrowings and other sources of leverage at the scheme level and a summary of how leverage is calculated as at the end of the reporting period.

Note: The management company is expected to choose the most appropriate and informative illustration of the scheme’s leverage,
consistent with disclosures in the scheme’s offering document, taking into account the objective and strategy of the scheme. Where the scheme is a FoHFs, disclosure is only required at the FoHFs’ level.

(g) Performance and risk measures

Disclosure of performance and risk measures of the scheme in tabular form. A sample format with the required parameters and time frames is set out in the Appendix - Annex to these Guidelines.

The management company is encouraged to disclose other appropriate performance and risk measures, taking into account the objective and strategy of the scheme (e.g. Value at Risk (VaR), Alpha, Sortino ratio, additional Sharpe ratios using alternative risk free rates other than zero, aggregated risk/return statistics, full position disclosure of financial derivatives instruments and their basis of calculation, time to recovery periods, % of down months, % of up months, delta equivalent of option positions etc.).

The management company must provide the calculation basis, definition and any underlying assumptions of each performance and risk measure either alongside the performance and risk measure or in a separate glossary.

(h) Amount of seed money

Disclosure of the amount of seed money expressed in percentage terms of the net asset value of the scheme contributed by the management company or its connected persons as at the end of the reporting period.

(i) Illiquid holdings

With respect to any scheme that is a FoHFs, the management company must disclose:

(i) The name(s) of any underlying fund(s) suspended during the reporting period;
(ii) The acquisition cost of such underlying funds; and
(iii) The latest status of such underlying funds as at the end of the reporting period.

With respect to other schemes, the management company must disclose the name(s) and acquisition costs of all illiquid holdings* held by the scheme as at the end of the reporting period, categorized by:

(i) financial derivatives instruments; and
(ii) Non-financial derivatives instruments.

* "Illiquid holdings" are defined as assets for which there are no readily available market values to be transacted between knowledgeable and willing parties in an arm’s length transaction, or with no registered turnover in the last 30 days prior to and including the reporting date.

(j) Concentrated exposures

With respect to any scheme that is a FoHFs, the management company should disclose:
(i) Exposures (including cash and cash equivalent holdings) for the scheme at the scheme level as of the reporting date (expressed in percentage terms of net asset value of the scheme) categorized by geographical region, industry, strategy, or some other basis that the management company considers the most appropriate, taking into account the objective and strategy of the scheme;

(ii) The number of underlying funds and the number of underlying fund managers included in the scheme as of the reporting date; and

(iii) (Where the scheme is a multi-strategy FoHF’s) disclosure of the number of underlying funds and underlying fund managers under each hedge fund strategy.

With respect to other schemes, the management company should disclose:

(i) Exposures (including cash and cash equivalent holdings) for the scheme as of the reporting date (expressed in percentage terms of net asset value of the scheme) categorized by asset class, geographical region, industry, strategy, or some other basis that the management company considers the most appropriate, taking into account the objective and strategy of the scheme; and

(ii) The aggregated gross long and short positions held by the scheme as of the reporting date (expressed in percentage terms of the net asset value of the scheme).

Note (1): “Cash equivalent holdings” are defined as those assets with a maturity of less than one year and which are readily transactable in an arm’s length transaction between willing and knowledgeable parties.

(2): The Commission reserves the right to require disclosure of the full position of the scheme for the purposes of carrying out its regulatory functions. Such disclosures to the Commission will be subject to the Commission’s preservation of secrecy provisions.

[Display prominent warning statements to the effect that: “Investment involves risk, please see the offering document for further details. Past performance figures shown are not indicative of future performance.”]

Notes:
1. Calculations must be net of all fees and charges borne by the scheme, with the calculation basis clearly stated.
2. As per paragraph 3 of the Guidelines, the management company should include a glossary of technical terms to explain their meaning and implications to investors (e.g. the higher the number, the riskier the scheme etc.).
3. “Year T” denotes the current scheme financial year.
4. Statistics since launch can only be shown if the scheme has been in existence for one year or longer.
(5) “Annualized standard deviation” is defined as the square root of the squared deviations of the actual returns from the simple average return based on the dealing days of the scheme, divided by the number of observations, shown on an annualised basis.

(6) “Sharpe ratio” is defined as annual return divided by the annualised standard deviation.

   Note: For the sake of simplicity, a zero risk free rate is adopted in the calculation for “Sharpe Ratio”

(7) “Maximum drawdown” is the maximum amount of loss from an equity high until a new equity high, expressed as a percentage of the previous equity high.
Appendix I

Guidelines for regulating index tracking exchange traded funds
(deleted)

Introduction

1. These guidelines apply to passively managed index tracking exchange traded funds (which will be referred to as “Exchange Traded Funds” or “ETFs” throughout these guidelines) authorized pursuant to this UT Code. These guidelines form part of 8.6 of this UT Code and are to be read in conjunction with this UT Code for an overall view of the regulatory framework for ETFs. In case of doubt, an applicant should consult the SFC at the earliest possible time on the application of these guidelines to an Exchange Traded Fund seeking authorization under this UT Code.

2. These guidelines are devised on the basis that ETFs, whether established in Hong Kong or overseas, should comply with common principles for safeguarding investors’ interests if they seek to be authorized by the SFC. Local and overseas ETFs may seek to rely on the general relief granted in these guidelines from strict compliance with certain UT Code requirements including investment restrictions and prescribed risk warnings.

3. Overseas ETFs that meet the core requirements for authorized schemes under this UT Code and are governed by a regulatory framework considered acceptable in these guidelines may seek the SFC authorization by way of a streamlined process. Depending on the specific product type and the way they are governed in their home jurisdictions, overseas ETFs may be deemed to have complied with some or all of the requirements in 8.6 of this UT Code in relation to investment restrictions and strategies, index acceptability and the documentation requirements such as constitutive documents, product disclosure documents and financial reports in other parts of this UT Code.

4. These guidelines also require ETFs that are primarily listed on the local exchange of Hong Kong to adopt an enhanced disclosure regime for real time or near-real time trading information. Overseas ETFs that are primarily listed on overseas exchanges are recommended but are not obliged to comply with this enhanced disclosure regime for real-time or near-real-time overseas trading information.

* An “index tracking ETF” means an index fund (as defined in Chapter 8.6) and whose units/shares are traded on a securities exchange. For avoidance of doubt, the term “ETF” used in these guidelines does not cover actively managed non-index tracking funds.
Basic requirements for ETFs

5. ETFs, whether local or overseas, must comply with the structural, operational and core investment requirements under this UT Code. They must also abide by the on-going compliance and reporting requirements under this UT Code subject to the applicable relief laid down in these guidelines if they seek authorization from the SFC.  

6. ETFs that do not conduct initial public offerings or any forms of public sales or subscriptions are not obliged to produce a Hong Kong Offering Document as stated in 6.1 of this UT Code. Instead, they must prepare a Product Description Document in both English and Chinese. The term “offering document” shall be replaced by the term “Product Description Document” wherever the former appears in this UT Code (see Paragraph 10 below) in relation to this type of ETFs.

7. Given ETF are index funds, the requirements set out in 8.6 (a) to (e) of the UT Code are broadly applicable to ETFs, unless otherwise stated in this appendix.

   Note: ETFs holding physical commodities of precious metals may be considered on a case-by-case basis.

7A. Where an ETF adopts the strategy of investing in financial derivative instruments or synthetic replication for the purpose of achieving its investment objective, the requirements set out in 8.8 of this UT Code must also be complied with.

8. It is a condition for authorizing an ETF that intends to be primarily traded in Hong Kong and authorized under this UT Code (referred to as “Local ETFs” in these guidelines), that it must be either listed or traded on the Stock Exchange of Hong Kong Limited (the “SEHK”).

Streamlined regulatory regime for ETFs

9. ETFs must comply with this UT Code requirements not otherwise modified or waived by these guidelines.

10. Except as provided in paragraph 24(e) below, an ETF that is not conducting initial public offerings, or any forms of public sales or subscriptions in Hong Kong need not prepare a Hong Kong Offering Document in accordance with 6.1 of this UT Code. This ETF must prepare a Product Description Document in both English and Chinese that meets the content requirements in Appendix C of this UT Code (as modified by these guidelines) which is more particularly set out in Annex (I) to these guidelines.

General relief from 8.6

Unless otherwise stated in these guidelines, ETFs, whether local or overseas, must comply with all the applicable provisions governing index funds in 8.6 of this UT Code.

---

4 For avoidance of doubt, the term “ETFs” in these guidelines shall, where the context applies, mean ETFs authorized under the Code.
11. **Relief from 8.6(h):** Investment restrictions in 8.6(h)(i) and (ii) do not apply if:

(a) an ETF adopts a representative sampling strategy which does not involve the full replication of the constituent securities of the underlying index in the exact weightings of such index;

(b) the strategy is clearly disclosed in the Product Description Document/Hong Kong Offering Document of the ETF (as the case may be);

(c) the excess of the weightings of the constituent securities held by the ETF over the weightings in the index is caused by the implementation of the representative sampling strategy;

(d) any excess weightings of the ETF holdings over the weightings in the index must be subject to a maximum limit reasonably determined by the ETF after consultation with the SFC. In determining this limit, the ETF must consider the characteristics of the underlying constituent securities, their weightings and the investment objectives of the index and any other suitable factors;

(e) limits laid down by the ETF pursuant to paragraph 11(d) above must be disclosed in the Product Description Document/Hong Kong Offering Document (as the case may be);

(f) disclosure must be made in the ETF’s semi-annual and annual reports as to whether the limits imposed by the ETF itself pursuant to paragraph 11(d) have been complied with in full. If there is non-compliance with the said limits during the relevant reporting period, this must be reported to the SFC on a timely basis and an account for such non-compliance should be stated in the report relating to the period in which the non-compliance occurs or otherwise notified to investors; and

(g) nothing in paragraphs 11(d), (e) and (f) above applies to an overseas ETF governed by an Acceptable ETF Regime or by the relevant overseas jurisdiction (see the Note to paragraph (d) in Annex (III) to these guidelines).

12. **Disclosure of Risk Warnings under 8.6(j):** Provisions relating to disclosure of index funds information in 8.6(j) do not apply where Annex (I) does not require the same. In particular, where proper risk warnings are disclosed, provisions relating to disclosure of risk warnings in 8.6(j)(iv), (v), (vi), (vii), (x), (xi), (xii) and (xiv) need not be strictly adhered to.

13. **Name of the ETF under 8.6(m):** 8.6(m) does not apply if the name adopted is not misleading or deceptive as to the nature of the ETF and its investment objectives and strategy.

14. **Modified post-authorization notification and approval procedures**

The notification and approval requirements under 11.1A and 10.7 of this UT Code are modified or supplemented to the following extent:
(a) **Increase in Fees and Charges in 11.1A:** The prior notice requirements under 11.1A
does not apply to adjustments in management fees if:

(i) the proposed adjustments in management fees do not require holders'
approval; and

(ii) either a notice for the fee adjustments is published as stated in paragraph
14(c) or where the ETF is governed by an Acceptable ETF Regime or in the
relevant overseas jurisdiction (see the Note to paragraph (d) in Annex (III)),
there is no notification requirement for this type of fee adjustments in that
jurisdiction;

(b) **Suspension of Dealing in 10.7:** The management company must immediately notify
the SFC as soon as practicable if dealing in units/shares on the SEHK ceases or is
suspended.

(c) Unless otherwise waived or provided for in paragraph 24(g) below, all notices and
public announcements made by ETFs in accordance with this UT Code and these
guidelines must be prepared in both English and Chinese.

**Note:** for avoidance of doubt, nothing in paragraph 14 shall exempt an ETF from
compliance with 11.1, 11.4 and 11.5 of this UT Code.

15. [deleted]

16. [deleted]

**Dissemination of trading information by ETFs**

**Local ETFs**

17. In addition to information commonly available for stocks during the trading hours of the
SEHK (e.g. bid/ask prices and queuing displays), local ETFs must provide the following
trading information to the public on a real time or near-real time basis unless otherwise
waived, via any suitable channels in paragraph 18 below:

(a) Estimated NAV or R.U.P.V.\(^3\)
(b) Last closing NAV;
(c) Notices for suspension and resumption of trading; and
(d) Composition of constituent securities (where practicable).

17A. Where an ETF adopts synthetic replication through the use of financial derivative
instruments to replicate the index performance, the ETF should also publish the gross

---

\(^3\) R.U.P.V. as used on the information pages of information vendors in relation to ETFs listed on the SEHK stands for “Reference Underlying Portfolio Value” which is updated at 15-second intervals during trading hours and is equivalent to the aggregate of the total value of the Index Basket Shares per Creation Unit (which is calculated by multiplying the nominal price of the Index Basket Share by the number of the respective Index Basket Shares) and the prior day estimated total cash component per Creation Unit divided by the number of Units in a Creation Unit.
and net exposure to each counterparty and the value, nature and composition of collateral received (as a percentage of the ETF’s NAV), where applicable.

18. Information in paragraphs 17(a) to (d) above may, where applicable, be made available to investors in Hong Kong through one or more of the following means:

(a) ETF’s own website; or
(b) A hyperlink of (a) to the website of Hong Kong Exchange and Clearing Limited (“HKEx”); or
(c) Information pages of information vendors which disseminate trading information of ETFs in their ordinary course of business and whose information is accessible by retail brokers in Hong Kong (whether as paid services or not); or
(d) Any other channels that the SFC considers acceptable.

Overseas ETFs that have cross-listing or cross-trading status on the SEHK

19. Overseas ETFs authorized by the SFC that are cross-listed or cross-traded on the SEHK must provide local trading information in relation to their trading on the SEHK. Local trading information includes notices for suspension and resumption of trading on the SEHK. It is a recommended best practice for such overseas ETFs to provide their overseas markets’ trading information that is of the same nature as described in paragraphs 17(a) to (d) above where trading hours of the relevant overseas market and those of the SEHK overlap.

20. Information provided to investors according to paragraph 19 may be made available via any of the channels stated in paragraph 18 or via the website of overseas exchanges on which such ETFs are traded.

Prior disclosure in the product description document/Hong Kong offering document

21. ETFs, whether local or overseas, must make prior disclosure of the types of trading information and channels through which such information is made available to investors in their Product Description Document/Hong Kong Offering Document (as the case may be). An ETF should also disclose the type of trading information (falling within the recommended best practices in these guidelines) that is not made available to investors in its Product Description Document/Hong Kong Offering Document (as the case may be).

21A. An ETF (whether local or overseas) should disclose the estimated total expense ratio of the scheme in the Product Description Document or Offering Document, where applicable.

Publication of ETFs’ materials in Hong Kong

22. An ETF, whether local or overseas, must ensure that the following documents are made readily available to Hong Kong investors through any of the ETF’s own website or such other channels as the SFC considers appropriate:

(a) Product Description Document/Hong Kong Offering Document (as the case may be);
(b) The ETF’s offering document or prospectus (as the case may be) prepared in accordance with the regulations of the Acceptable ETF Regime or the relevant
overseas jurisdiction (see the Note to paragraph (d) in Annex (III)) (“ETF’s Overseas Offering Document”) (where applicable);
(c) Product KFS (where applicable);
(d) Latest version of the semi-annual and annual financial reports of the ETF; and
(e) All notices and public announcements issued by the ETF in either the Acceptable ETF regime or the relevant overseas jurisdiction (see the Note to paragraph (d) in Annex (III)) and in Hong Kong.

Note: Where an ETF is listed or traded on the SEHK, it may, but is not required to, make available the abovementioned documents to investors in Hong Kong by way of hyperlinks to the HKEx website.

Streamlined recognition process for overseas ETFs listed in an acceptable ETF regime

23. An overseas ETF that meets the core structural and operational requirements in this UT Code and is regulated in an Acceptable ETF Regime, may be authorized through a streamlined recognition process. The specific relief in paragraph 24 applies to this type of overseas ETF such that they will be deemed to have complied with certain UT Code requirements including constitutive documentation requirements, index acceptability and the prescribed contents for financial reports.

Note: In determining whether a regime is an Acceptable ETF Regime, the regulatory principles set out in Annex (III) would be considered.

24. An overseas ETF that complies with the conditions set out in Annex (IV) may rely on the following specific relief for a streamlined process for authorization in addition to the general relief in paragraphs 11 to 14.

(a) Acceptability of Index in 8.6(e): The index that such an overseas ETF tracks will be deemed to have complied with 8.6(e)(i) to (v) except where such index or its methodology contradicts the fundamental principles of a representative, diversified, investible and transparent index.

(b) Reporting Requirements in 8.6(f): 8.6(f) only applies to (i) any significant events relating to the index that might affect the authorization or listing status of an overseas ETF in an Acceptable ETF Regime; and (ii) any other events in relation to the index that the Acceptable ETF Regime would require notification to investors. Notification of these events must be published in Hong Kong in both English and Chinese and notified to the SFC on a timely basis.

(c) Replacement of Index in 8.6(k): Subject to paragraphs 24(a) and 24(g) of these guidelines, 8.6(k) does not apply to the replacement of index. Any replacement of index must be notified to investors and the SFC on a timely basis.

(d) Disclosure in Financial Reports in 8.6(l) and Appendix E: ETFs that have prepared their semi-annual and annual financial reports in accordance with their own governing overseas regulations, which reports are not qualified by their auditors, will be relieved from full compliance with the content requirements of 8.6(l) and Appendix E.
(e) **Product Description Document:** Notwithstanding paragraph 10 above, the Product Description Document for an ETF from an Acceptable ETF Regime does not have to set out all the details of the information stated in Annex (I) to these guidelines if:

(i) The Product Description Document takes the form of a summary of the salient features of the ETF including appropriate risk warnings as to the level of disclosure contained in it. This Product Description Document has to be prepared in both English and Chinese;

(ii) The ETF’s Overseas Offering Document is available to investors in Hong Kong via the ETF’s own website, the website of the overseas exchange on which it is primary listed or the HKEx website (if applicable); and

(iii) The ETF’s Overseasing Document mentioned in paragraph 24(e)(ii) may be made available in either English or Chinese.

(f) **Constitutive Documents:** The constitutive documents will be deemed to have complied with Appendix D of this UT Code in so far as these are related to the structural and operational aspects of the ETF.

*Note:* ETFs fall within the categories of Specialized Schemes under Chapter 8 of this UT Code and the concept of Recognized Jurisdiction Schemes is not directly applicable. However, in considering whether the constitutive documents of an ETF from an Acceptable ETF Regime is in compliance with this UT Code requirements, for example, Appendix D, the SFC would consider whether the home regulations in the Acceptable ETF Regime share similar principles in providing structural safeguards for investor protection. Accordingly, strict compliance with Appendix D and other operational requirements may not be required.

(g) **Notification and Language Requirement in respect of Notices under 11.1 to 11.2B:** Notices in relation to ongoing disclosures that require the SFC’s prior approval pursuant to 11.1 of an ETF that is primarily regulated in an overseas jurisdiction have to be published or made generally available to investors in Hong Kong. Unless otherwise waived, these notices must be in both English and Chinese, and be published on a timely basis and in such manner as the ETF considers appropriate.

24A. The SFC may enter into any mutual recognition arrangement with other jurisdictions from time to time to facilitate cross-listing and offering of ETFs in each other’s market. Please refer to the relevant circular published on the SFC’s website at www.sfc.hk for the specific relief granted to overseas ETFs under the relevant mutual recognition arrangement.

**Miscellaneous**

25. These guidelines do not apply retrospectively to index tracking exchange traded funds already authorized on or before 24 October 2003.

26. With respect to ETFs that have been submitted to the SFC for approval pursuant to this UT Code but have not been authorized before 24 October 2003, they may elect to comply with this UT Code as amended by these guidelines.
27. These guidelines do not preclude the right of the SFC to impose any conditions for the authorization of an ETF as may be reasonable in the circumstances.
### Annex (I)

**Information to be disclosed in the product description document**

This list is not intended to be exhaustive. The SFC may require further information to be disclosed which may be necessary for investors to make an informed investment decision.

Annex (II)

[deleted]
General principles for an acceptable ETF regime

In determining whether a regime is an Acceptable ETF Regime, the following regulatory principles would be considered:

(a) The availability of a mutual co-operation and assistance agreement for fund management activities between the principal securities regulator of the Acceptable ETF Regime and the SFC;

(b) The similarity or comparability of the overall securities regulatory framework provided by the overseas jurisdiction where there is substantial interest in the ETF and in which it is primarily listed. The SFC will consider the extent to which these overseas jurisdictions’ structural and operational requirements and disclosure standards on ETFs are comparable or equivalent to the principles adopted by the SFC for regulating collective investment schemes;

(c) The overall and combined effect of the rules and regulations, the regulatory infrastructure of an Acceptable ETF Regime where the ETF is primarily listed and in which there is substantial interest and the effectiveness of the administration of these rules and regulations, should be able to afford comparable investor protection to that provided under the Hong Kong regulatory framework; and

(d) The overseas stock exchange on which primary listing of the ETF takes place should provide a system for efficient public dissemination of trading and other information relevant to the trading of ETFs. Information about the index which the ETF tracks is either published generally or otherwise made readily available to the public in electronic or other means.

Note: It is acknowledged that the regulatory framework for ETFs in some overseas jurisdictions may meet substantially but not all of the above principles in Annex (III) for recognition as an Acceptable ETF Regime. In these circumstances, the SFC would consider on a case-by-case basis the extent to which these ETFs may be granted partial relief under these guidelines and if any corresponding or alternative safeguards for investor protection should be imposed in consideration of the relief being granted.

Once it is established that an overseas ETF is regulated in an Acceptable ETF Regime, such ETF must also comply with the conditions in Annex (IV) in order to be eligible for the specific relief in paragraphs 23 and 24 of the guidelines.
Compliance conditions for overseas ETFs

An overseas ETF that seeks to rely on the specific relief in paragraphs 23 and 24 of the guidelines must comply with the following conditions:

(a) Compliance with the applicable laws and regulations of the relevant Acceptable ETF Regime;

(b) Compliance with the applicable listing rules and trading rules of the overseas exchange on which the ETF is primarily listed;

(c) There are no changes in the laws and regulations of the Acceptable ETF Regime and the relevant overseas listing rules governing the offering and the listing of the ETF that would materially affect the Acceptable ETF Regime’s comparability with that of Hong Kong. Where any material changes would be made to the securities regulations or the applicable listing rules of the Acceptable ETF Regimes thereby affecting their comparability with those of Hong Kong, the ETF or its management company must inform the SFC as soon as practicable; and

(d) The ETF complies in full with the applicable provisions in the guidelines.
Appendix B

Application of the UT Code on UCITS funds
Application of the UT Code on UCITS funds

The SFC has been adopting a streamlined approach to the authorisation of UCITS funds from specified jurisdictions. Having considered the local laws and regulations governing UCITS funds and arrangements for cross-border cooperation and exchange of information, UCITS funds from specified jurisdictions are deemed to have generally complied in substance with the relevant provisions of the UT Code.

To provide further guidance to the industry, the SFC sets out below the relevant provisions in the UT Code that are applicable to UCITS funds for better transparency and clarity.

Notwithstanding the streamlined approach, management companies are reminded that the SFC may impose or vary the requirements and/or conditions in respect of specific funds or types of funds as it may deem fit at any time before granting authorisation or allowing the authorisation to remain in force.

The application of the UT Code on UCITS funds is subject to review and update by the SFC from time to time in view of the legal, regulatory and other development in each relevant jurisdiction, as well as the level of regulatory oversight, supervision, co-operation and assistance of the relevant home regulator and reciprocity accorded to the SFC with respect to the funds it regulates.

The following are applicable to those UCITS funds not falling or authorised under the applicable mutual recognition of funds arrangements with relevant jurisdictions:

Appendix C

Final form of the consequential amendments to the MPF Code
Final form of the consequential amendments to the MPF Code

The highlighted parts indicate revisions to the MPF Code which differ from the proposed amendments set out in the consultation paper

Chapter 1: Authorization Matters

1.3 Applications of MPF schemes and pooled investment funds should be made to both authorities concurrently under separate cover. Under the current arrangement, an application will first be reviewed by the MPFA. Upon clearance by the MPFA, the Commission will proceed to review the application in accordance with the provisions of this Code.

Chapter 3: Interpretation

3.12 “Delegate of the investment manager” means the person to whom the investment manager has delegated its investment management functions.

3.14A “Investment manager” means the entity appointed pursuant to 6.1 of this Code.

3.18B “SFO” means the Securities and Futures Ordinance (Chapter 571 of Laws of Hong Kong).

3.22 “UF-driven changes” means changes to a constituent fund or pooled investment fund falling within 8.2 of this Code that solely reflect changes made to the corresponding underlying SFC-authorized fund and such underlying fund changes have been approved, or are not required to be approved by the Commission pursuant to the UT Code or this Code.

3.223 “UT Code” means the Code on Unit Trusts and Mutual Funds.

Chapter 4: Application Procedures

Documents to be supplied to the Commission

4.5 Each application must contain a copy of the completed Application Form as prescribed by the MPFA set out on the Commission’s website, and The Application Form must also be accompanied by the following and such other documents as may be required by the Commission from time to time:

(e) checklist of compliance (see Appendix B). This checklist is available for download from the Commission’s website http://www.hksfc.org.hk;

(i) application fee in the form of a cheque payable to the “Securities & Futures Commission”; and

Note: The current fee schedule is available on the Commission’s website.
Chapter 6: Investment Manager

Appointment of Investment Manager

6.1 An investment manager appointed for an MPF scheme or pooled investment fund must comply with the following requirements on an ongoing basis.

6.2 An investment manager must:

(e) have sufficient financial resources at its disposal to enable it to conduct its business effectively and meet its liabilities; in particular, it must have a minimum paid-up share capital and non-distributable capital reserves of HK$10 million;

Criteria for Acceptability of Investment Manager

6.6 The acceptability of the investment manager will be assessed on the following criteria: set out in 5.5 of the UT Code. Applicants should refer to 6.8 to 6.9 for requirements on the delegation of investment management functions to third parties.

(a) The key personnel of the investment manager or its delegate (if any) are expected to possess at least five years investment experience managing pooled retirement funds or other public funds with reputable institutions. The expertise gained should be in the same type of investments as those proposed for the pooled investment fund or constituent fund(s) of the MPF scheme seeking authorization.

(b) Key personnel must be dedicated full-time staff with a demonstrable track record in the management of pooled retirement funds, unit trusts or mutual funds. In assessing the qualifications of the personnel of the investment manager, the Commission may request resumes of the directors of the investment manager and its delegates (if any). (see 2.5)

(c) Sufficient human and technical resources must be at the disposal of the investment manager, which should not rely solely on a single individual's expertise.

(d) The Commission must be satisfied with the overall integrity of the investment manager. Reasonable assurance must be given of the adequacy of internal controls and the existence of written procedures, which should be regularly monitored by its senior management for updatedness and compliance. Conflicts of interests must be properly addressed to safeguard interests of scheme participants or fund holders.

(e) Applicants should refer to 6.8 to 6.9 for requirements on the delegation of investment management functions to third parties.
Delegation of Investment Management Functions

6.8 Where the investment management functions are delegated to third parties, there should be on-going supervision and regular monitoring of the competence of the delegates by the investment manager to ensure that investor protection and the investment manager’s accountability to scheme participants or fund holders is not diminished. Although the investment management role of the investment manager may be sub-contracted to third parties, the responsibilities and obligations of the investment manager may not be delegated.

Note: The investment management operations of an investment manager’s delegate(s) should be based in a jurisdiction with an inspection regime acceptable to the Commission. A list of acceptable inspection regimes is set out in Appendix C. The Commission will consider other jurisdictions on their merits. The delegate (who has been delegated the investment management function of an MPF scheme or pooled investment fund) should either be licensed or registered in Hong Kong or based in a jurisdiction with an inspection regime acceptable to the Commission. A list of acceptable inspection regimes is published on the Commission’s website. The Commission will consider other jurisdictions on their merits and may accept an undertaking from the delegate that the books and records in relation to its management of an MPF scheme or pooled investment fund will be made available for inspection by the Commission on request.

General Obligations of an Investment Manager

6.10 An investment manager must manage the MPF scheme or pooled investment fund in accordance with its constitutive documents and in the exclusive interests of the scheme participants or fund holders. It is also expected to fulfill the duties imposed on it by the general law.

Chapter 7: Operational Requirements

Name of Constituent Fund and Pooled Investment Fund

7.5 If the name of the constituent fund or pooled investment fund indicates a particular objective, investment strategy, geographic region or market, the constituent fund or pooled investment fund should invest at least 70% of its non-cash total net asset value in securities and other investments to reflect the particular objective, investment strategy or geographic region or market which the constituent fund or pooled investment fund represents.
Chapter 8: Post-Authorization Requirements

Scheme Changes

8.2 The proposed changes to the offering document of an MPF scheme or pooled investment fund (other than UF-driven changes) as a result of the following must be submitted to the Commission for prior approval:

(a) changes to constitutive documents (other than changes which do not require prior approval from the Commission);

Note: Where the change in the offering document results from changes in the constitutive documents, the revised offering document should be submitted to the Commission and be accompanied by a copy of the approval notice for the change in constitutive documents issued by the MPFA.

(b) changes of key operators (including the applicant, the trustee / custodian and investment manager and its delegates) and their regulatory status and controlling shareholder;

(c) 11.1(c) of the UT Code applies; and changes in investment objectives, policies and restrictions (including the purpose or extent of use of derivatives), fee structure and dealing and pricing arrangements; and

(d) 11.1(d) of the UT Code applies; - any other changes that may materially prejudice rights or interests of scheme participants or fund holders.

8.2A For changes to the offering document of an MPF scheme or pooled investment fund that require the Commission’s prior approval pursuant to 8.2, the Commission will determine whether the scheme participants or fund holders should be notified and the period of notice (if any) that should be applied before the changes are to take effect (as provided in 8.3).

Notes: (1) Normally, the Commission will expect that one month’s prior written notice (or such longer period as required under applicable laws and regulations or the provisions as set out in the offering or constitutive documents) should be provided to scheme participants or fund holders in respect of the changes. However, the Commission may permit a shorter period of notice if the change is not significant or may require a longer period of notice (up to three months) in exceptional circumstances.

(2) For the purposes of 8.2A, significant changes would include, for example, changes in investment objectives or major investment policies, and fee structure.

(3) Note (3) in 11.1A of the UT Code applies. For any increase in fees and charges from the current level as stated in the offering document, prior approval from the Commission is not required, but no less than one month’s prior notice must be given to scheme participants or fund holders.
8.2B For changes to the offering document of an MPF scheme or pooled investment fund that do not require the Commission's prior approval pursuant to 8.2, unless there is a specified minimum prior notice period in this Code, the applicant should provide scheme participants or fund holders with reasonable prior notice, or inform scheme participants or fund holders as soon as reasonably practicable of any information concerning the MPF scheme or pooled investment fund which is necessary to enable scheme participants or fund holders to appraise the position of the MPF scheme or pooled investment fund (as provided in 8.3). The offering document may be updated to incorporate such changes and reissued without further authorization provided that the content and format of such document remains fundamentally the same as the version previously authorized. The revised offering document must be filed with the Commission, together with a marked-up version against the previously filed version, within two weeks from the date of issuance.

Note: The Note in 11.1B of the UT Code applies and references therein to “management company” shall mean “applicant” for the purposes of this Code.

Notices to Scheme Participants and Fund Holders

8.3 11.2 of the UT Code applies, except where a waiver is granted under 5.1 of this Code, notification to participants of an MPF scheme or holders of a pooled investment fund must be made in both the English and Chinese languages in respect of any changes or proposed changes to the offering documents of the MPF scheme or pooled investment fund.

8.3B 11.2B of the UT Code applies and references therein to “management company” shall mean “applicant” for the purposes of this Code. The applicant has the responsibility to ensure that notices to scheme participants or fund holders are not misleading and contain accurate and adequate information to keep investors informed. All notices should contain a Hong Kong contact number for investors to make enquiries.

Note: Notices should not include any reference to a specific date or timetable in respect of the changes made to the offering or constitutive documents where such date or timetable has not been agreed in advance with the Commission.
Withdrawal of Authorization

8.5 11.4 of the UT Code applies and references therein to “management company” shall mean “applicant” for the purposes of this Code. Following the authorization of an MPF scheme or pooled investment fund, the applicant should, subject to 8.5A below, give at least three months’ prior notice to scheme participants or fund holders of any intention not to maintain such authorization. Such notice should be submitted to the Commission for prior approval and contain the reasons for the withdrawal of authorization, consequences of the withdrawal, any proposed changes in the operation of the MPF scheme or pooled investment fund and their effects on existing scheme participants or fund holders, the alternatives available to scheme participants or fund holders (including, if possible, a right to switch without charge into another authorized MPF scheme or pooled investment fund) and, where appropriate, an estimate of any relevant expenses and who is expected to bear them.

Merger or Termination

8.5A 11.5 of the UT Code applies and references therein to “management company” shall mean “applicant” for the purposes of this Code. If an MPF scheme or pooled investment fund is to be merged or terminated, in addition to following any procedures set out in the scheme’s constitutive documents or governing law, notice must be given to investors as determined by the Commission. Such notice should be submitted to the Commission for prior approval and contain the reasons for the merger or termination, the relevant provisions under the constitutive documents that enable such merger or termination, the consequences of the merger or termination and their effects on existing scheme participants or fund holders, the alternatives available to scheme participants or fund holders (including, if possible, a right to switch without charge into another authorized MPF scheme or pooled investment fund), the estimated costs of the merger or termination and who is expected to bear them.

Mention of SFC Authorization

8.9 Where an MPF scheme or pooled investment fund is described as having been authorized by the Commission, it must be stated that authorization does not imply official recommendation, by adding a prominent note in the following terms to the offering document and advertisements and other invitations to invest in the MPF scheme or pooled investment fund:

*SFC authorization is not a recommendation or endorsement of an MPF scheme or pooled investment fund nor does it guarantee the commercial merits of an MPF scheme or pooled investment fund or its performance. It does not mean the MPF scheme or pooled investment fund is suitable for all scheme participants or fund holders nor is it an endorsement of its suitability for any particular scheme participant or fund holder.*

Final form of the consequential amendments to the PRF Code
Final form of the consequential amendments to the PRF Code

The highlighted parts indicate revisions to the PRF Code which differ from the proposed amendments set out in the consultation paper

Chapter 1: Authorization Procedures

Documents to be supplied to the Commission

1.6 An applicant application for authorization of a pooled retirement fund should lodge with the Commission must contain a completed Application Form as set out on the Commission’s website and be accompanied by the following and such other documents as may be required by the Commission from time to time:

(c) All other sales literature, proposed advertisements and printed material intended to be issued in Hong Kong to prospective investors, where applicable;

(d) A checklist of compliance with the Code (see Appendix C);

(f) The application fee in the form of a cheque payable to the “Securities & Futures Commission”. The current fee schedule is available on request from the Commission; and

Note: The current fee schedule is available on the Commission’s website.

(g) The letter nominating an individual to be approved by the Commission as an approved person containing the individual’s name, employer, position held and contact details, including, in so far as applicable, the address, telephone and facsimile numbers, and electronic mail address; and

(h) A written undertaking from the Hong Kong Representative, where applicable (see 7.3).

Offer of pooled retirement funds and investment portfolios

1.7 Pooled retirement funds and investment portfolios shall only be available to ORSO schemes, employers and/or members of ORSO schemes.

Chapter 3: Interpretation

Unless otherwise defined, words and expressions used in this Code are as defined in the SFO.

3.6A “Hong Kong representative” or “representative” means the Hong Kong representative appointed pursuant to 7.1 of this Code.
Chapter 5: Management Company

Appointment of Management Company

5.1 Every pooled retirement fund must have a management company acceptable to the Commission and shall comply with this Chapter on an ongoing basis, unless the fund is the subject of or regulated by an insurance arrangement (see 5.11 below).

Note: The investment delegate (who has been delegated the investment management function of a pooled retirement fund) should either be
licenced or registered in Hong Kong (see 5.6 below) or based in a jurisdiction with an inspection regime acceptable to the Commission. A list of acceptable inspection regimes is published on the Commission’s website. The Commission will consider other jurisdictions on their merits and may accept an undertaking from the investment delegate that the books and records in relation to its management of a pooled retirement fund will be made available for inspection by the Commission on request.

5.2 5.2 of the UT Code applies. A management company must:

(a) be engaged primarily in the business of fund management;

(b) have sufficient financial resources at its disposal to enable it to conduct its business effectively and meet its liabilities; in particular, it must have a minimum issued and paid-up capital and capital reserves of HK$1 million or its equivalent in foreign currency;

(c) not lend to a material extent;

(d) maintain at all times a positive net asset position.

Qualifications of Directors

5.4 The directors of the management company must be of good repute and in the opinion of the Commission possess the necessary experience for the performance of their duties. In determining the acceptability of the management company, the Commission may consider the qualifications and experience of persons employed by the management company and any appointed investment adviser delegate.

Criteria for Acceptability of Management Company

5.5 5.5 of the UT Code applies. The acceptability of the management company will be assessed on the following criteria:

(a) The key personnel of the management company or those of the investment adviser (where the latter has been delegated the investment management function) are expected to possess at least five years investment experience managing pooled retirement funds or other public funds with reputable institutions. The expertise gained should be in the same type of investments as those proposed for the funds seeking authorization.

(b) Key personnel must be dedicated full-time staff with a demonstrable track record in the management of pooled retirement funds or other public funds. In assessing the qualifications of the personnel of the management company, the Commission may request resumes of the directors of the management company and its delegates (if any) (see 2.2).
Appendix D

(e) Sufficient human and technical resources must be at the disposal of the management company, which should not rely solely on a single individual’s expertise. (c) (deleted)

(d) The Commission must be satisfied with the overall integrity of the management company. Reasonable assurance must be secured of the adequacy of internal controls and the existence of written procedures, which should be regularly monitored by its senior management for updatedness and compliance. Conflicts of interests must be properly addressed to safeguard investors’ interests. (d) (deleted)

(e) Where the investment management functions are delegated to third parties, there should be on-going supervision and regular monitoring of the competence of the delegates by the management company to ensure that the management company’s accountability to investors is not diminished. Although the investment management role of the management company may be subcontracted to third parties, the responsibilities and obligations of the management company may not be delegated. (e) (deleted)

Chapter 6: Trustee

Appointment of Trustee

6.1 Every pooled retirement fund must be governed by a trust with a trustee that is acceptable to the Commission and shall comply with this Chapter on an ongoing basis, unless the fund is the subject of or regulated by an insurance arrangement.

Note: An acceptable trustee should either:

(i) on an ongoing basis, be subject to regulatory supervision, be subject to prudential regulation and supervision on an on-going basis. Trustee shall appoint an independent auditor to periodically review its internal controls and systems on terms of reference agreed in compliance with the Commission’s Code (see Appendix E) and should file such report with the Commission, unless such trustee is a trust company which is a trustee of any registered scheme as defined in section 2(1) registered under Part VIII of the Trustee Ordinance (Chapter 29 of Laws of Hong Kong) approved by the Mandatory Provident Fund Schemes Authority pursuant to Section 20 of the Mandatory Provident Fund Schemes Ordinance (Chapter 485 of Laws of Hong Kong) (as may be amended from time to time); or

(ii) appoint an independent auditor to periodically review its internal controls and systems on terms of reference agreed with the SFC and should file such report with the SFC (See Appendix E).
6.2 A trustee must be:

(a) 4.2(a) of the UT Code applies a bank licensed under section 16 of the Banking Ordinance;

(b) a trust company registered under Part VIII of the Trustee Ordinance (Chapter 29 of Laws of Hong Kong) which is a subsidiary of such a bank or a banking institution falling under 6.2(d) or of an insurance company authorized in Hong Kong;

Note: In determining the acceptability of a subsidiary of a banking institution falling under 6.2(d), the Commission will take into account factors including the level of oversight and supervision from such banking institution.

(c) 4.2(c) of the UT Code applies a trust company registered under Part VIII of the Trustee Ordinance; or

(d) 4.2(d) of the UT Code applies a banking institution or trust company incorporated outside Hong Kong which is acceptable to the Commission.

6.3 4.3 of the UT Code applies A trustee must be independently audited and have minimum issued and paid-up capital and non-distributable capital reserves of HK$10 million or its equivalent in foreign currency.

6.4 Notwithstanding 6.3 above, the trustee’s paid-up share capital and non-distributable capital reserves may be less than HK$10 million if the trustee is a wholly-owned subsidiary of a bank or an insurance company (the holding company); and

(a) 4.4(a) of the UT Code applies the holding company issues a standing commitment to subscribe sufficient additional capital up to the required amount, if so required by the Commission, or

(b) 4.4(b) of the UT Code applies the holding company undertakes that it would not let its wholly-owned subsidiary default and would not, without prior approval of the Commission, voluntarily dispose of, or permit the disposal or issue of any share capital of the trustee such that it ceases to be a wholly-owned subsidiary of the holding company.

Retirement of Trustee

6.4A 4.6 of the UT Code applies.
Independence of Trustee and Management Company

6.6 4.8 of the UT Code applies. Notwithstanding 6.5 above, if the trustee and the management company are both bodies corporate having the same ultimate holding company, whether incorporated in Hong Kong or outside Hong Kong, the trustee and the management company are deemed to be independent of each other if:

(a) they are both subsidiaries of a bank, an insurance company or a holding company of a bank or insurance company; (a) (deleted)

(b) neither the trustee nor the management company is a subsidiary of the other; (b) (deleted)

(c) no person is a director of both the trustee and the management company; and (c) (deleted)

(d) both the trustee and the management company sign an undertaking that they will act independently of each other in their dealings with the pooled retirement fund. (d) (deleted)

Chapter 7: Hong Kong Representative

Retirement or Dismissal of Representative

7.4 Should the representative retire or be dismissed, it must be replaced as soon as possible by another representative whose appointment is subject to the approval of the Commission (see 10.1(b)).

Hong Kong Representative Agreement

7.5 [(deleted)]

Chapter 8: Operational Requirements

Pooled Retirement Fund Documentation

Application Form

8.3 Subject to 1.7, no pooled retirement fund application form may be provided to any member of the public unless it is accompanied by the principal brochure. To that end the application form should include a statement to the effect that it should only be issued in conjunction with the principal brochure.

Fees and Charges

8.8 The level/basis of calculation of all costs and charges payable must be clearly stated, with percentages expressed on a per annum basis, where applicable. The aggregate level of fees for investment management or advisory functions should also be disclosed.

Chapter 9: Guaranteed Funds
Guarantor

9.1 If the guarantor is an entity other than the insurance company which issues the policy, it must be a substantial financial institution acceptable to the Commission.

Chapter 10: Post-authorization Requirements

Scheme Changes

10.1 The proposed changes to a scheme (other than UF-driven changes) in respect of the following must be submitted to the Commission for prior approval:

(a) changes to constitutive documents (other than changes that have been certified by the trustee as provided under 10.2 of this Code or changes which do not require prior approval from the Commission);

(b) 11.1(b) of the UT Code applies (and includes changes to the applicant company); changes of key operators (including the applicant company, trustee / custodian, management company and its delegates and Hong Kong representative) and their regulatory status and controlling shareholder;

(c) 11.1(c) of the UT Code applies; and changes in investment objectives, policies and restrictions (including the purpose or extent of use of derivatives), fee structure and dealing and pricing arrangements; and

(d) 11.1(d) of the UT Code applies any other changes that may materially prejudice investors’ rights or interests.

10.1A 11.1A of the UT Code applies. For changes to a scheme that require the Commission’s prior approval pursuant to 10.1, the Commission will determine whether investors should be notified and the period of notice (if any) that should be applied before the changes are to take effect. The revised principal brochure as a result of such changes should be submitted to the Commission for prior authorization.

Notes: (1) Normally, the Commission will expect that one month’s prior written notice (or such longer period as required under applicable laws and regulations or the provisions as set out in the principal brochure or constitutive documents) should be provided to investors in respect of the changes. However, the Commission may permit a shorter period of notice if the change is not significant or may require a longer period of notice (up to three months) in exceptional circumstances.

(2) For the purposes of 10.1A, significant changes would include, for example, changes in investment objectives or major investment policies, and fee structure.

(3) For any increase in fees and charges from the current level as stated in the principal brochure up to the maximum level.
permitted by the constitutive documents, prior approval from the Commission is not required, but no less than one month’s prior notice must be given to investors.

10.1B 11.1B of the UT Code applies and references therein to “management company” shall mean “applicant company” for the purposes of this Code. For changes to a scheme that do not require the Commission’s prior approval pursuant to 10.1, unless there is a specified minimum prior notice period in this Code, the applicant company should inform investors as soon as reasonably practicable of any information concerning the scheme which is necessary to enable investors to appraise the position of the scheme. The principal brochure may be updated to incorporate such changes and reissued without further authorization provided that the content and format of such document remains fundamentally the same as the version previously authorized, except that the revised principal brochure must be filed with the Commission, together with a marked-up version against the previously filed version, within two weeks from the date of issuance.

10.2 The constitutive documents may be altered by the trustee and management company without consulting investors, provided that the trustee certifies in writing that in its opinion the proposed alteration:

(a) is necessary to make possible compliance with fiscal or other statutory, regulatory or official requirements; or

(b) does not materially prejudice investors’ interests, does not to any extent release the parties from any liability to investors and does not increase the costs and charges payable under the pooled retirement fund; or

(c) is necessary to correct a manifest error.

In all other cases involving any material changes, no alteration may be made except with the approval of the Commission.

Withdrawal of Authorization

10.5 11.4 of the UT Code applies and references therein to “management company” shall mean “applicant company” for the purposes of this Code. Following the authorization of a pooled retirement fund, the applicant company should, subject to 10.6 below, give at least three months notice to investors of any intention not to maintain such authorization. Such notice should be submitted to the Commission for prior approval and contain reasons for the withdrawal of authorization, consequences of the withdrawal, any proposed changes in the operation of the pooled retirement fund and their effects on existing investors, the alternatives available to investors (including, if possible, a right to switch without charge into another authorized pooled retirement fund) and, where applicable, an estimate of any relevant expenses and who is expected to bear them.

Merger or Termination

10.6 11.5 of the UT Code applies and references therein to “management company” shall mean “applicant company” for the purposes of this Code. When a pooled
Appendix D

A retirement fund or any of its fund options is to be merged or terminated and there are investors remaining in the fund, in addition to following any procedures set out in the constitutive documents or governing law, notice shall be given to those investors. Such notice should be submitted to the Commission for prior approval and shall contain the reasons for the merger or termination, the relevant provisions under the constitutive documents that enable such merger or termination, the alternatives available to investors (including, if possible, a right to switch without charge into another authorized pooled retirement fund or fund option), the estimated costs of the merger or termination and who is expected to bear them.

Rebates

10.10 10.12 of the UT Code applies (except for 10.12(d)). Neither the applicant/management company nor any of its connected persons may retain cash or other rebates from a broker or dealer in consideration of directing transactions in the investments of the pooled retirement fund to the broker or dealer save that goods and services (soft dollars) may be retained if:

(a) the goods or services are of demonstrable benefit to the investors;

(b) transaction execution is consistent with best execution standards and brokerage rates are not in excess of customary institutional full-service brokerage rates;

(c) adequate prior disclosure is made in the pooled retirement fund’s principal brochure.

Note: Goods and services falling with (a) above may include: research and advisory services; economic and political analysis; portfolio analysis, including valuation and performance measurement; market analysis, data and quotation services; computer hardware and software incidental to the above goods and services; clearing and custodian services and investment-related publications. Such goods and services may not include travel, accommodation, entertainment, general administrative goods or services, general office equipment or premises, membership fees, employee salaries, or direct money payments.

Notices to Investors

10.11 11.2 of the UT Code applies. Notification to investors must be made in the language(s) in which the pooled retirement fund is offered to investors in respect of any changes or proposed changes to the principal brochure or constitutive documents as determined by the Commission pursuant to 10.1A.

10.13 11.2B of the UT Code applies and references therein to “management company” shall mean “applicant company” for the purposes of this Code. The applicant company has the responsibility to ensure that the notices to investors are not misleading and contain accurate and adequate information to keep them informed. All notices should contain a Hong Kong contact number for investors to make enquiries.

Note: Notices should not include any reference to a specific date or timetable in respect of the changes made to the principal brochure or constitutive
documents where such date or timetable has not been agreed in advance with the Commission.

**Mention of SFC Authorization**

10.14 Where a pooled retirement fund is described as having been authorized by the Commission, it must be stated that authorization does not imply official recommendation by adding a prominent note in the following terms to the principal brochure and advertisements and other invitations to invest in the pooled retirement fund:

*SFC authorization is not a recommendation or endorsement of a scheme nor does it guarantee the commercial merits of a scheme or its performance. It does not mean the scheme is suitable for all investors nor is it an endorsement of its suitability for any particular investor or class of investors.*

**Appendix A**

**Information to be disclosed in the Principal Brochure**

(b) **Parties Involved**

The names and registered addresses of all parties involved in the operation of the pooled retirement fund with a brief description of the applicant company.

(Deleted)
Appendix E

Guidelines for Review of Internal Controls and Systems of Trustees/Custodians

INTRODUCTION

1. Pursuant to Chapter 6.1 of this Code, trustees/custodians of collective investment schemes are required to be approved by the SFC. An acceptable trustee/custodian should either: be subject to prudential regulation and supervision on an ongoing basis. Trustee shall appoint an independent auditor to periodically review its internal controls and systems on terms of reference agreed with the Commission in compliance with this Appendix and should file such report with the Commission, unless such trustee is a trust company which is a trustee of any registered scheme as defined in section 2(1) registered under Part VIII of the Trustee Ordinance (Chapter 29 of Laws of Hong Kong) approved by the Mandatory Provident Fund Schemes Authority pursuant to Section 20 of the Mandatory Provident Fund Schemes Ordinance (Chapter 485 of Laws of Hong Kong) (as may be amended from time to time). A report of the internal control review must be filed with the Commission.

(a) on an ongoing basis, be subject to regulatory supervision; or

(b) appoint an independent auditor to periodically review its internal controls and systems on terms of reference agreed with the SFC and should file such report with the SFC.

SCOPE OF REVIEW

5. The internal control review should involve all material procedural and control elements relevant and necessary to discharge the responsibilities and obligations of trustees/custodians in relation to a scheme. The review should be conducted to provide reasonable assurance in accordance with generally internationally acceptable international auditing practices review standards.
Appendix E

Final form of the consequential amendments to the ILAS Code
Final form of the consequential amendments to the ILAS Code

The highlighted parts indicate revisions to the ILAS Code which differ from the proposed amendments set out in the consultation paper.

Chapter 1: Authorization procedures

General

1.2 Authorized Insurers are under the prudential regulation of the Insurance Authority. Therefore, issues such as how the Authorized Insurers operate, their financial conditions or their business conduct are not within the Commission’s regulatory ambit. Insurance agents and brokers selling investment-linked assurance schemes, including insurance agents and brokers, are also subject to a self-regulatory system through self-regulatory organisations of the insurance industry. These organisations are also subject to the oversight of the Insurance Authority in accordance with the Insurance Ordinance. Therefore, issues such as how the Authorized Insurers operate, their financial conditions or their business conduct are not within the Commission’s regulatory ambit.

Note: The Insurance Authority regulates insurance intermediaries through overseeing self-regulatory organisations. At the final stage of the implementation of the Insurance Companies (Amendment) Ordinance 2015, the Insurance Authority will take over the regulation of insurance intermediaries from the self-regulatory organisations and administer a statutory licensing regime.

Documents to be supplied to the Commission

1.7 An applicant for authorization of a scheme must submit a completed Application Form and an Information Checklist as set out on the Commission’s website. The application must also be accompanied by the following and such other documents as may be required by the Commission from time to time:

Note: The Application Form is available on the Commission’s website.

(b) [deleted] Information Checklist;

Note: The Information Checklist is available on the Commission’s website.

(c) [deleted] such other documents as may be required by the SFC from time to time;

(d) application fee in the form of a cheque payable to the “Securities & Futures Commission”; and

Note: The current fee schedule is available on the Commission’s website.
Authorized Insurer

1.8 Insurers are required to obtain authorization to carry on Class C of Long Term Business under the Insurance Companies Ordinance (Chapter 41 of the Laws of Hong Kong) before applying for authorization of its investment-linked assurance schemes.

Chapter 2: Administrative arrangements

Administrative arrangements Product Advisory Committee

Chapter 3: Interpretation

3.4 “Authorized Insurer” means an insurance company authorized under the Insurance Companies Ordinance to carry on a relevant class of insurance business in Hong Kong.

3.8A “investment delegate” means an entity that has been delegated the investment management function of a scheme.

3.9 “investment-linked assurance scheme” means an insurance policy of the “linked long-term” class as defined in Part 2 of Schedule 1 to the Insurance Companies Ordinance, other than a policy of which the predominant purpose is life assurance and not investment.

3.17 “substantial financial institution” means an authorized institution as defined in section 2(1) of the Banking Ordinance (Chapter 155 of the Laws of Hong Kong), or a financial institution which is on an ongoing basis subject to prudential regulation and supervision, with a minimum paid-up capital/net asset value of HK$2 billion or its equivalent in foreign currency.

3.18 “UF-driven changes” means changes to an investment option falling within 7.1 of this ILAS Code that solely reflect changes made to the corresponding underlying SFC-authorized fund and such underlying fund changes have been approved, or are not required to be approved by the Commission pursuant to the Code on Unit Trusts and Mutual Funds.

Chapter 4: Applicant company

Regulatory status of applicant company

4.1 No investment-linked assurance scheme will be authorized pursuant to this ILAS Code unless the applicant company is an Authorized Insurer. If the applicant company ceases to be authorized by the Insurance Authority, any existing authorization of the scheme will normally lapse.

Responsibilities of applicant company

4.4 If a scheme contains a guaranteed investment option, such guarantee should be provided either by the applicant company or a substantial financial institution acceptable to the Commission.
4.6 The applicant company must ensure the scheme is designed fairly and operated according to such product design on an ongoing basis, including among others, managing the scheme in a cost-efficient manner taking into account the size of the scheme and the level of fees and expenses etc.

Chapter 5: Operational requirements

Scheme documentation

5.5 The entitlement of the scheme participant to the cooling-off period must be prominently displayed at the bottom of the application form immediately above the space for signature. The language for the cooling-off period should comply with the prevailing cooling off initiative applicable to an investment-linked assurance scheme issued by Hong Kong Federation of Insurers from time to time.

Cooling-off period

5.12 A scheme must allow a scheme participant to withdraw unconditionally within the cooling-off period, subject to a market value adjustment ("MVA") in accordance with the prevailing cooling off initiative applicable to an investment-linked assurance scheme issued by Hong Kong Federation of Insurers from time to time.

Fees and charges

5.15 The level/basis of calculation of all costs and charges payable from the scheme’s property must be clearly stated, with percentages expressed on a per annum basis, where applicable. The aggregate level of fees for investment management or advisory functions should also be disclosed.

Chapter 6: Guarantee and with-profits or similar features

Guarantor

6.1 If the guarantor is an entity other than the Authorized Insurer which issues the policy, it must be a substantial financial institution acceptable to the Commission.

Chapter 7: Post-authorization requirements

Scheme changes

7.1 The proposed changes to a scheme (other than UF-driven changes) in respect of the following must be submitted to the Commission for prior approval:

(a) changes to constitutive documents (other than changes that have been certified by the Authorized Insurer as provided under 7.4 or changes which do not require prior approval from the Commission);

(b) changes of key operators (including the applicant company / management company and investment its delegates), and their regulatory status and controlling shareholder;
Appendix E - 4

(c) (i) **material changes in investment objectives, policies and restrictions of the scheme** (including expansion in the purpose or extent of use of **financial derivatives instruments for investment purposes**);

(ii) **introduction of new fees and charges, or increase in fees and charges** (other than an increase within the permitted maximum level as disclosed in the offering document's fee structure); and

(iii) **material changes in dealing arrangements, and pricing arrangements or distribution policy of the scheme**; and

(d) any other changes that may **have a material adverse impact on materially prejudice scheme participants' rights or interests** (including changes that may limit scheme participants' ability in exercising their rights).

7.2 For changes to a scheme that require the Commission's prior approval pursuant to 7.1, the Commission will determine whether scheme participants should be notified and the period of notice (if any) that should be applied before the changes are to take effect as provided under 7.11. The revised offering document as a result of such changes should be submitted to the Commission for prior authorization.

Notes: (1) [deleted] Normally, the Commission will expect that one-month’s prior written notice (or such longer period as required under applicable laws and regulations or the provisions as set out in the offering document or constitutive documents) should be provided to scheme participants in respect of the changes. However, the Commission may permit a shorter period of notice if the change is not significant or if it is not practicable for the applicant to do so due to circumstances beyond its control. The Commission may also require a longer period of notice (up to three months) in exceptional circumstances.

(2) [deleted] For the purposes of 7.2, significant changes would include, for example, changes in investment objectives or major investment policies, and fee structure.

(3) For any increase in fees and charges from the current level as stated in the principal brochure up to the permitted maximum level permitted by the constitutive documents as disclosed in the offering document, prior approval from the Commission is not required, but no less than one month’s prior notice must be given to scheme participants. However, the Commission may permit a shorter period of notice may be permitted if the change is not significant or if it is not practicable for the applicant to do so due to circumstances beyond its control.

7.3 For changes to a scheme that do not require the Commission’s prior approval pursuant to 7.1, unless there is a specified minimum prior notice period in this ILAS Code, the applicant company should provide scheme participants with reasonable prior notice, or inform scheme participants as soon as reasonably practicable of any information concerning the scheme which is necessary to enable scheme participants to appraise the position
of the scheme as provided under 7.11. The offering document may be updated to incorporate such changes and reissued without further authorization provided that the content and format of such document remains fundamentally the same as the version previously authorized. The revised offering document must be filed with the Commission, together with a marked-up version against the previously filed version, within one week from the date of issuance.

7.4 The constitutive documents may be altered by the Authorized Insurer without consulting scheme participants provided that the Authorized Insurer certifies in writing that in its opinion the proposed alteration:

(a) is necessary to make possible compliance with fiscal or other statutory, regulatory or official requirements; or

(b) does not materially prejudice scheme participants' interest, does not to any extent release the parties from any liability to participants and does not increase the costs and charges payable under the scheme; or-

(c) is necessary to correct a manifest error.

In all other cases involving any material changes, no alteration may be made except by the approval of the Commission.

Withdrawal of authorization

7.6 Following the authorization of a scheme, an application for withdrawal of authorization of the scheme must be submitted to the Commission for prior approval. The applicant company should, subject to 7.7 below, at least give three months’ notice, or any shorter notice period as may be permitted by the Commission if it is not practicable for the applicant company to do so due to circumstance beyond its control, should be provided to scheme participants of any intention not to maintain such authorization. Such notice should be submitted to the Commission for prior approval and contain information necessary to enable scheme participants to make an informed judgement of the proposed withdrawal of authorization by the applicant company (including the reasons for the withdrawal of authorization, consequences of the withdrawal, any proposed changes in the operation of the scheme and their effects on existing scheme participants, the alternatives available to scheme participants (including, if possible, a right to switch without charge into another authorized scheme) and, where applicable, an estimate of any relevant expenses and who is expected to bear them).

Note: Subject to the scheme having served notice period for merger or termination under 7.7, the applicant company may apply for withdrawal of authorization of the scheme with immediate effect following the completion of the merger or termination (as the case may be).
Merger or termination

7.7 Where a scheme or an investment option linked to the scheme is to be merged or terminated, the applicant company should in addition to following any other procedures as set out in the constitutive documents or governing law, give notice to the scheme participants. Notice shall be given to the scheme participants. Such notice should be submitted to the Commission for prior approval and shall contain information necessary to enable scheme participants to make an informed judgement of the proposed merger or termination by the applicant company (including the reasons for the merger or termination, the relevant provisions under the constitutive documents that enable such merger or termination, the consequences of the merger or termination and their effects on existing scheme participants, the alternatives available to scheme participants (including, if possible, a right to switch without charge into another authorized scheme or investment option), the estimated costs of the merger or termination and who is expected to bear them).

Notes: (1) Normally, the Commission will expect that at least one month’s prior written notice (or such longer period as required under applicable laws and regulations or the provisions as set out in the offering or constitutive documents) to be provided to scheme participants. However, a shorter period may be permitted if it is not practicable for the applicant company to do so due to circumstances beyond its control.

(2) In effecting a merger or termination, the applicant company must put in place proper measures to minimize the opportunity of any scheme participants to benefit from more favourable or advantageous conditions of the scheme, taking due account of the interests of the scheme participants.

Notices to scheme participants

7.11 Notification to scheme participants must be made in the language(s) in which the scheme is offered to them in respect of any changes or proposed changes to the scheme, the offering document or constitutive documents as determined by the Commission pursuant to 7.2. Reasonable notice period(s) should be provided to the scheme participants in order to enable them to appraise the position of the scheme and to make an informed judgement of their investments in the scheme, where applicable.

Notes: In determining the notice period for changes to a scheme falling under 7.1 or 7.3, the following shall apply:

(1) normally, one month’s prior written notice (or such longer period as required under applicable laws and regulations or the provisions as set out in the offering or constitutive documents) is expected to be provided to scheme participants unless as provided under Notes (2) or (3) to 7.11 or otherwise agreed by the Commission;

(2) a shorter prior notice period may be permitted where the proposed changes to the scheme are of demonstrable benefit to scheme participants or if it is not practicable for the
applicant company to do so due to circumstances beyond its control; and

(3) unless otherwise specified by the Commission, scheme participants should be informed as soon as reasonably practicable for changes to the scheme which are to provide clarification or relate to administrative matters.

The applicant company is encouraged to consult the Commission in case of doubt.

7.13 Note: Notices should not include any reference to a specific date or timetable in respect of any changes falling under 7.1 and consequential changes made to the principal brochure or constitutive documents where such date or timetable has not been agreed in advance with the Commission.

Reporting to the Commission and the Insurance Authority

7.14 The Authorized Insurer should promptly report to the Commission and the Insurance Authority immediately any material breach, infringement of or non-compliance with the Handbook (including this ILAS Code).
