## CHAIRMAN'S STATEMENT

Dear Shareholders,

On behalf of the board (the "Board") of directors (the "Directors") of Rimbaco Group Global Limited (the "Company") and its subsidiaries (the "Group"), I am pleased to present the annual report and our audited financial statements of the Group for the year ended 31 October 2025 ("FY2025").

FY2025 continue to be challenging for the construction sector despite a gradual revival of our business operation.

For FY2025, the Group recorded a revenue of approximately RM260.0 million for FY2025 as compared to approximately RM289.2 million in FY2024, a decrease of approximately RM29.2 million or approximately 10.0%. Gross profit margin increases to approximately 5.1% for FY2025 as compared to approximately 1.4% for FY2024. As the result, the Group recorded a loss for the year attributable to owners of the Company of approximately RM3.8 million for FY2025 as compared to loss for the year attributable to owners of approximately RM1.6 million in FY2024 representing an increase of approximately RM2.2 million. A more detailed elaboration on the Group financial performance is set out in the Management Discussion and Analysis section of this report.

In addition, on 24 September 2025, the Group distributed special dividends to reward our shareholders for their support to the Group.

### OUTLOOK AND PROSPECTS

Global economic growth in 2026 is projected to remain moderate at approximately 3.1%, underpinned by sustained activity in key emerging markets and stable inflationary trends. Malaysia's economy is expected to grow between 4.0% and 4.3%, representing a slight moderation from 2025 levels, largely attributable to external factors, including trade tensions and tariff pressures. Inflation is anticipated to increase moderately, reflecting the impact of planned subsidy reforms, notably the removal of fuel subsidies.

Given the uncertain global economic environment, marked by formidable geoeconomic and geopolitical headwinds, the Group expects a challenging operating environment in the coming financial year.

The Group continues to encounter challenges in securing new projects, driven by a limited pipeline as many projects are deferred amid investor caution, intensified competition leading to reduced market share, and unrealistic pricing expectations from project owners.

In response, the Group remains committed to its strategic pricing framework and the efficient deployment of resources. It will proactively pursue new project opportunities to replenish the order book, while carefully navigating global uncertainties and emerging market challenges, thereby positioning itself for sustainable growth in the year ahead.

### APPRECIATION

On behalf of the Board, I would like to express my sincere gratitude to our valued customers, business partners, shareholders, subcontractors, and suppliers for their continued support. I also wish to extend my heartfelt appreciation to the management team and all employees of the Group for their hard work, dedication, and unwavering commitment to achieving the Group's objectives.

## MANAGEMENT DISCUSSION AND ANALYSIS

The Board hereby announces the audited annual consolidated results of the Group for FY2025, together with the comparative audited figures for the year ended 31 October 2024 ("FY2024"). All amounts set out in this report are presented in Malaysian Ringgit ("RM") unless otherwise indicated.

### BUSINESS REVIEW

The Group is mainly involved in the building construction industry in Malaysia through its wholly-owned subsidiary, Rimbaco Sdn Bhd. ("Rimbaco"). Rimbaco is a Malaysia-based building construction contractor focusing on the provision of building construction services for (i) factories, including low-rise processing facilities and manufacturing plants; (ii) institutional, commercial and/or residential buildings such as private hospitals, hotels, shopping malls, high-rise residential buildings and commercial/residential complex; and (iii) infrastructure works. Rimbaco also undertakes small-scale ancillary construction works, including but not limited to renovation works, repair works and electrical works.

During FY2025, the Group completed 1 factory project with an aggregate contract sum of approximately RM83.1 million.

The following table sets out details of the project completed by the Group during FY2025:

No.	Name	Description of Works	Completion Date	Original/ Revised Contract Sum (RM'000)
1	construction of one block 2-storey logistics building	Factory	30 April 2025	83,067

## MANAGEMENT DISCUSSION AND ANALYSIS

As at 31 October 2025, the Group had 5 building construction projects in progress with an aggregate contract sum of approximately RM587.9 million of which 1 was factory project, 1 was institutional project and 3 was infrastructure project.

The following table sets out of building construction projects which remained ongoing as at 31 October 2025:

No.	Description of Works	Approximate Contract Sum (RM'000)
1	Infrastructure: pipeline & reservoir works	250,864
2	Institutional: addition to the existing 4-storey hospital building and addition of 1 block of new 7-storey hospital building	115,808
3	Factory: construction of 4-storey factory building	186,221
4	Infrastructure: construction & completion of tertiary irrigation system & ancillary work at block HCD 3, 4, 5	18,640
5	Infrastructure: construction & completion of tertiary irrigation system & ancillary work at block ALBD 5	16,320
		587,853

During FY2025, the Group submitted 4 tenders for factory projects, 1 tender for commercial project, 1 tender for institutional project and 2 tenders for infrastructure projects. The Group was awarded 1 factory and 2 infrastructure contracts with an aggregate contract sum of approximately RM186.2 million and RM35.0 million respectively.

## MANAGEMENT DISCUSSION AND ANALYSIS

### FINANCIAL REVIEW

#### Revenue

The Group's revenue decreased by approximately RM29.2 million, or 10.1%, from approximately RM289.2 million for FY2024 to approximately RM260.0 million for FY2025. The decrease was primarily attributable to the to completion of a major factory project in FY2025.

	Year ended 31 October			
	2025		2024	
	Revenue (RM'000)	% of total revenue	Revenue (RM'000)	% of total revenue
Factory projects	141,519	54.4	155,152	53.7
Institutional, commercial and/or residential projects	40,169	15.5	48,084	16.6
Infrastructure projects	72,396	27.9	84,170	29.1
Others	5,848	2.2	1,778	0.6
	<b>259,932</b>	<b>100.0</b>	<b>289,184</b>	<b>100.0</b>

During FY2025, the revenue attributable to factories, institutional, commercial and/or residential buildings and infrastructure projects amounted to approximately RM141.5 million, RM40.2 million and RM72.4 million respectively (FY2024: approximately RM155.2 million, RM48.1 million and RM84.2 million respectively), representing approximately 54.4%, 15.5% and 27.9% (FY2024: approximately 53.7%, 16.6% and 29.1%), of the total revenue of the Group.

As at 31 October 2025, the Group had an outstanding order book of approximately RM260.6 million (31 October 2024: approximately RM278.9 million).

#### Gross Profit and Gross Profit Margin

The Group's gross profit increased by approximately RM9.1 million, from approximately RM4.0 million for FY2024 to approximately RM13.1 million for FY2025. The increase in gross profit margin of approximately 1.4% in FY2024 to approximately 5.1% in FY2025 was mainly contributed by completed a factory project in 1H2025 and a new factory project awarded during FY2025.

#### Other Income, Gain and Loss

The Group's other income, gain and loss decreased from approximately RM4.4 million for FY2024 to approximately RM3.5 million for FY2025 which was mainly due to decrease in fixed deposit interest rate and decrease in the administrative charges received on material purchase on behalf of subcontractor.

## MANAGEMENT DISCUSSION AND ANALYSIS

### *Administrative and Other Expenses*

The Group's administrative and other expenses increased by approximately RM1.3 million or 15.7% from approximately RM8.3 million for FY2024 to approximately RM9.6 million for FY2025, which was mainly due to (i) professional fee incurred during the year for disposal of investment properties, (ii) approximately RM0.6 million penalty imposed for prior year tax which has not been charged or undercharged and (iii) increase in administrative staff cost due to salary increment.

### *Finance Costs*

The Group's finance costs decreased by approximately RM7,000 from approximately RM21,000 for FY2024 to approximately RM14,000 for FY2025 which was mainly due to decrease in lease liabilities interest.

### *Income Tax Expense*

The Group's income tax expense increased from approximately RM0.8 million for FY2024 to approximately RM8.3 million for FY2025 which was mainly due to (i) profit before tax for FY2025 as compared to loss for FY2024; (ii) prior year tax which has not been charged or has been undercharged on the Company for the years of assessment 2019 to 2023 amounting to approximately RM5.9 million; (iii) provisional subcontractor cost of approximately RM7.0 million has been added back for FY2025 tax computation resulting in an additional tax of approximately RM1.68 million, this amount of tax will be reversed in year of assessment 2026.

### *Loss Attributable to the Owners of the Company*

As a result of the foregoing, the Group reported loss attributable to owners of the Company of approximately RM1.5 million for FY2025 (FY2024: loss of approximately RM1.6 million), representing a decrease of approximately RM0.1 million or 6.3% as compared with FY2024.

## FUTURE PROSPECTS

The construction industry in Malaysia is expected to remain stable but challenging over the near to medium term. While government-led infrastructure projects, essential public facilities, and urban development initiatives are anticipated to provide a consistent level of demand, the overall operating environment is characterised by rising material costs, labour constraints, regulatory compliance requirements, and intense competition. These factors may place pressure on profit margins and project timelines, requiring careful planning and operational discipline.

In light of these conditions, the Group will continue to adopt a prudent and conservative approach. This includes selective project engagement, stringent cost management, risk mitigation measures, and strong financial oversight to ensure that operations remain sustainable and resilient. The Group will also prioritise long-term client relationships and repeat business, which provide more predictable cash flows and reduce exposure to market volatility.

Overall, the Group remains committed to maintaining financial stability, operational discipline, and long-term resilience in a competitive and evolving market. By carefully balancing risk and opportunity, the Group is positioned to navigate the challenges of the Malaysian construction industry while sustaining its operations and supporting steady, measured growth over time.

## MANAGEMENT DISCUSSION AND ANALYSIS

### LIQUIDITY AND FINANCIAL RESOURCES

Gearing ratio of the Group (calculated by dividing the total debts (lease liabilities) by total equity and multiplied by 100%) remain the same at nil as at 31 October 2024 and 31 October 2025.

During FY2025, the Group maintained a healthy liquidity position with working capital being financed through cash generated from financing activities. As at 31 October 2025, the Group's bank balances and cash was approximately RM40.2 million (31 October 2024: approximately RM62.8 million) and the Group's restricted bank deposits was approximately RM20.2 million (31 October 2024: approximately RM11.4 million). The Directors consider the level of cash balances to be reasonable, which would enable the Company to maintain its liquidity position in settling the progress payments on time to subcontractors and enhance its position as main contractor's competitiveness during this challenging time.

As at 31 October 2025, the current ratio of the Group was approximately 1.8 times (31 October 2024: approximately 1.9 times).

The Group's principal use of cash is mainly for payments to suppliers, subcontractors and working capital needs.

#### *Capital Structure*

As at 31 October 2025, the capital structure of the Group consisted of equity of approximately RM124.6 million (31 October 2024: approximately RM151.4 million) and bank borrowings of Nil (31 October 2024: Nil) as more particularly described in the paragraph headed "Borrowings" below.

#### *Borrowings*

As at 31 October 2025, the Group did not have any outstanding bank borrowings. The unutilised facility for bank overdraft amounted to approximately RM500,000 (31 October 2024: approximately RM500,000).

The Directors confirmed that the Group had neither experienced any difficulties in obtaining or repaying its bank borrowings, nor breached any major covenant or restriction of the Group's facilities up to the date of this report. There are no material covenants related to the Group's outstanding debts that would materially limit its ability to undertake additional debt or equity financing.

#### *Net Current Assets*

The Group's net current assets decreased by approximately RM34.4 million, or 28.4%, from approximately RM121.1 million as at 31 October 2024 to approximately RM86.7 million as at 31 October 2025, which was a combined effect of the decrease in trade and other receivables of approximately RM43.7 million, increase in contract assets of approximately RM3.0 million, decrease in tax recoverable of approximately RM4.1 million, increase in restricted bank deposits of approximately RM8.8 million, decrease in bank balances and cash of approximately RM22.6 million, decrease in trade, bills and other payables of approximately RM47.4 million, increase in contract liabilities of approximately RM20.9 million and decrease in lease liabilities of approximately RM0.1 million. The Board regularly reviews the maturity analysis of the Group's contractual liabilities and concludes that there is no liquidity issue that may cast significant doubt on the Company's ability to continue as a going concern.

## MANAGEMENT DISCUSSION AND ANALYSIS

### *Capital Expenditures*

The Group's capital expenditures principally consisted of expenditures on acquisitions of property, plant and equipment related to operations, which were funded by the Group's internal resources and finance lease arrangement.

During FY2025, the Group made a material capital expenditures of approximately RM0.77 million to acquire 1 unit Terrain Crane and the Group expects to fund its planned capital expenditures principally through net proceeds from listing.

### **MATERIAL ACQUISITIONS OR DISPOSALS OF SUBSIDIARIES, ASSOCIATES AND JOINT VENTURES, AND FUTURE PLANS FOR MATERIAL INVESTMENTS OR CAPITAL ASSETS**

There was no acquisition or disposal of subsidiaries, associates or joint ventures during FY2025. There was no future plan for material investments or capital assets as at 31 October 2025.

### **SIGNIFICANT EVENTS DURING FY2025**

The Group did not have any significant event during FY2025.

### **SIGNIFICANT INVESTMENT HELD**

The Group did not hold any significant investment (except for its subsidiaries) during FY2025.

### **CONTINGENT LIABILITY**

Save as disclosed in note 16 to the consolidated financial statements of this report, the Group had no contingent liabilities as at 31 October 2025.

### **CREDIT RISK**

#### *Trade receivables and contract assets*

The Group's credit risk is primarily attributable to trade receivables and contract assets. The Group's exposure to credit risk is influenced mainly by the characteristics of each and every individual customer, therefore significant concentrations of the credit risk primarily arise when the Group had significant exposure to individual customers. As at 31 October 2025, approximately 22.6% (31 October 2024: 24.8%) of the total gross trade receivables and contract assets was due from the Group's largest customer and approximately 65.1% (31 October 2024: 73.9%) of the total gross trade receivables and contract assets were due from the Group's top five customers.

Individual credit evaluations are based on the provision of the matrix and taking into account the monthly aging in the past 3 years, in which loss rate is determined by the probability of default, loss given rate, forward-looking factor and existing market conditions.

In general, the Group also considered the past settlement trend of the customer and assessed the customer's financial ability to pay and external credit rating, where applicable.

## MANAGEMENT DISCUSSION AND ANALYSIS

### PLEDGE OF ASSETS

As at 31 October 2025, restricted bank deposits of approximately RM20.2 million (31 October 2024: approximately RM11.4 million) have been pledged to banks as security for banking facilities granted to the Group with approximately RM26.2 million (31 October 2024: approximately RM16.8 million) related to Group's performance bond.

For contracts awarded, the Group's customers may require performance bonds, the amounts of which are generally 5% of the original contract sum, in favour of them to guarantee the completion of work and such performance bonds are generally released after the issuance of Certificate of Practical Completion or completion of the defect liability period.

### CAPITAL COMMITMENTS

As at 31 October 2025, the Group did not have any capital commitments (31 October 2024: Nil).

### FOREIGN EXCHANGE EXPOSURE

The functional currency of the Group's operation, asset and liabilities are denominated in RM. Therefore, the Group is not exposed to significant foreign exchange risk and has not employed any financial instrument for hedging.

### TREASURY POLICIES

The Group's financing and treasury activities are centrally managed and controlled at the corporate level. Bank borrowing of the Group are all denominated in RM and have been arranged on a floating-rate basis. It is the Group's policy not to enter into derivative transactions for speculative purposes.

### EMPLOYEES AND REMUNERATION POLICIES

As at 31 October 2025, the Group's workforce stood at 111 employees, 90 were Malaysian workers and 21 were foreign workers. As at 31 October 2024, the Group had 122 employees, 96 were Malaysian workers and 26 were foreign workers.

Total staff costs (excluded directors' emoluments) decreased by approximately RM0.5 million from approximately RM11.8 million during FY2024 to approximately RM11.3 million during FY2025 which was mainly due to reduce in workforce.

The Group believes that on-going and continuous development of its employees is critical to its success. The Group provides its employees with tailored training programmes that are designed to upgrade their skills and knowledge and to prepare them for the next step in their career path within our Group. The Group entered into separate labour contracts with each of its employees in accordance with the applicable labour laws of Malaysia. The remuneration offered to employees generally includes salaries and bonuses. In general, the Group determines salaries of its employees based on each employee's qualification, position and performance.

The Group has adopted a share option scheme which became effective on 28 April 2020 to enable the Board to grant share options to eligible participants giving them an opportunity to have a personal stake in the Company. No share options were granted, exercised, cancelled or lapsed by the Group under the share option scheme since its adoption.

## MANAGEMENT DISCUSSION AND ANALYSIS

### USE OF PROCEEDS FROM LISTING AND CHANGE IN USE OF PROCEEDS

On 28 April 2020, the issued shares of the Company were listed on the Main Board of the Stock Exchange. A total of 315,000,000 ordinary shares were issued to the public at a price of HK\$0.40 per share for net proceeds of approximately HK\$73.5 million (approximately RM38.7 million) (Note 1) after the deduction of related listing expenses. These proceeds were utilised in accordance with the proposed allocation set out in the prospectus of the Company dated 14 April 2020 (the "Prospectus"). As disclosed in the Company's supplemental announcement dated 31 March 2023 (the "Announcement"), after due and careful consideration of the business environment and development needs of the Group at that time, the Board had resolved to change the proposed use of the unutilised net proceeds. As at the end of FY2025, the amount of the net proceeds have been fully utilised.

After COVID-19 pandemic, the Group's original business plan to set up branch office in Kuala Lumpur to expand our geographic coverage in West Malaysia cannot be implemented due to (i) fewer projects available in the central region and (ii) the Group's strategy to concentrate in the northern region whereby the Group's reputation has been well-established.

To enable the Group to better utilise its financial resources, the Board has resolved to further change the use of the unutilised proceeds in the amount of approximately HK\$1.4 million to strengthening capital base for potential building projects. The Board considers that the change in the use of proceeds and the treatment of unutilised proceeds are fair and reasonable, and would meet the business strategy of the Group more efficiently and enhance the flexibility in financial management of the Company. The Board is of the view that the reallocation is in line with the business plan of the Group and will not adversely affect the operation and business of the Group and is in the best interests of the Company and the shareholders of the Company as a whole. Based on feasibility study and the current market condition, the Board is of the view that reallocating the unutilised net proceeds to strengthening capital base for potential building projects will allow the Group to deploy its financial resources more efficiently and to make better use of this fund. After reallocation, the net proceeds to strengthening capital base for potential building projects will be utilised on or before 31 October 2025.

Note 1: The net proceeds allocated for each specific use have been adjusted proportionally in the manner as stated in the Prospectus due to the difference between the estimated net proceeds and the actual net proceeds received.

## MANAGEMENT DISCUSSION AND ANALYSIS

# CORPORATE GOVERNANCE REPORT

## CORPORATE GOVERNANCE REPORT

### *Corporate Governance Practices*

The Board recognises the importance of good corporate governance in management and internal procedures so as to achieve effective accountability and to protect and enhance shareholders' value. Committed to upholding good corporate standards and procedures in the best interests of its shareholders, the Company has adopted the code provisions set out in the Corporate Governance Code to the Appendix C1 (the "CG Code") to the Rules Governing the Listing of Securities on the Stock Exchange (the "Listing Rules"). The Company has complied with all CG Code provisions during FY2025.

### *Chairman and Chief Executive Officer*

Code provision C.2.1 of the CG Code specifies that the roles of chairman and chief executive officer (chief executive for the CG Code) should be separate and should not be performed by the same individual. The division of responsibilities between the chairman and chief executive officer (chief executive for the CG Code) should be clearly established and set out in writing. During FY2025, the roles of the chairman and chief executive officer of the Company are separate and exercised by Mr. Low Seah Sun and Mr. Low Wui Linn, respectively.

### *Code of Conduct Regarding Securities Transactions by Directors*

The Company has adopted a code of conduct regarding securities transactions by Directors on terms no less exacting than the required standard of dealings set out in the Model Code for Securities Transactions by Directors of Listed Issuers as set out in Appendix C3 to the Listing Rules (the "Model Code"). Having made specific enquiry of all Directors, the Company was not aware of any non-compliance with such required standard of dealings and its code of conduct regarding securities transactions by Directors throughout FY2025.

Yeo Chew Yen Mary

## CORPORATE GOVERNANCE REPORT

### *Responsibilities of the Board*

The Board is responsible for the Group's corporate policy formulation, business strategies planning, business development, risk management, major acquisitions, disposals and capital transactions, and other significant operational and financial matters. Major corporate matters that are specifically delegated by the Board to the management include the preparation of annual and interim accounts for Board approval before public reporting, execution of business strategies and initiatives adopted by the Board, implementation of adequate systems of internal controls and risk management procedures, and compliance with relevant statutory requirements and rules and regulations.

All Directors have full and timely access to all relevant information as well as the advice and services of the company secretary of the Company, with a view to ensuring that Board procedures and all applicable laws and regulations are followed. Each Director is normally able to seek independent professional advice in appropriate circumstances at the Company's expense, upon making request to the Board.

### *Executive Directors, Non-executive Director and Independent Non-executive Directors*

Each of the Directors' biographical information is set out on pages 14 to 17 of this report. All executive Directors have given sufficient time and attention to the affairs of the Group and each of them has sufficient experience to hold the position so as to carry out his duties effectively and efficiently. Save as disclosed under the heading "DIRECTORS AND SENIOR MANAGEMENT", there is no other relationship among the members of the Board.

The Company has reappointed Mr. Tong Kai Tak a non-executive Director, who has signed a letter of reappointment with the Company for a period of one year commencing from 1 March 2025 and expiring on 28 February 2026.

During FY2025, the Board has at all times complied with rules 3.10(1), 3.10(2) and 3.10A of the Listing Rules.

The Company has appointed three independent non-executive Directors who have appropriate and sufficient experience and qualification to carry out their duties so as to protect the interests of shareholders. At least one of the independent non-executive Directors has appropriate professional qualifications, or accounting or related financial management expertise. Each of them, namely Mr. Ng Kok Seng, Mr. Wong Chi Wai and Ms. Yeo Chew Yen Mary, has signed a letter of appointment with the Company for a term of three years commencing from 28 April 2023 and expiring on 27 April 2026.

The roles of the independent non-executive Directors are to provide independent and unbiased opinions to the Board and give adequate control and balances for the Group to protect the overall interests of the shareholders and the Group. The independent non-executive Directors are of sufficient caliber and free of any business or other relationship which could interfere in any material manner with the exercise of their independent judgment. They are able to provide impartial and professional advice to protect the interests of the minority shareholders of the Company.

Pursuant to the requirements of the Rule 3.13 of the Listing Rules, the Company has received from each of the independent non-executive Directors the written confirmation of his/her independence. Based on such confirmations of independence, the Company considers all of the independent non-executive Directors to be independent.

## CORPORATE GOVERNANCE REPORT

### *Appointment and Re-election of Directors*

Pursuant to article 108(a) of the articles of association of the Company (the “Articles of Association”), at each annual general meeting one-third of the Directors for the time being, or, if their number is not three or a multiple of three, then the number nearest to but not less than one-third, shall retire from office by rotation provided that every Director (including those appointed for a specific term) shall be subject to retirement by rotation at least once every three years. A retiring Director shall be eligible for re-election. In accordance with article 108(a) of the Articles of Association, Ms. Seah Peet Hwah, Mr. Cheang Wye Keong and Mr. Ng Kok Seng will retire from office as Directors by rotation at the forthcoming annual general meeting of the Company (the “AGM”), and being eligible, offer themselves for re-election at the AGM.

### *Board Meetings*

Pursuant to code provisions of the CG Code, meetings of the Board should be held at least four times a year at approximately quarterly intervals and notice of at least 14 days should be given for a regular board meeting. Agendas and accompanying papers shall be sent not less than 3 days before the date of Board meeting to ensure that the Directors are given sufficient time to review the documents.

The Board met 4 times as meetings and 1 general meeting was held during FY2025.

Details of the attendance of the meetings of the Board are as follows:

Details of the remuneration payable to each Director for FY2025 are set out in note 10 to the consolidated financial statements.

Pursuant to the code provision E.1.5 of the CG Code, the remuneration of the senior management by band for FY2025 was set out below:

Within the band of	Number of individuals
Nil to RM1,000,000	3

### Remuneration Policy

The remuneration policy was adopted by the Board and became effective on 31 March 2020 (the "Remuneration Policy").

## CORPORATE GOVERNANCE REPORT

The payroll is calculated by human resources department using excel spreadsheet detailing the basis salary, allowance, bonus, no-pay leave, leave pay, employees' provident fund and Socso employee contribution as well as PCB deduction. Executive Directors will review and approve the payroll calculation by email.

The payroll is distributed through autopay on the last working day of every month. The disbursement is based on the monthly payroll excel printout mentioned above. Upon the approval of executive Director, human resources department will input the pay sum of each employee into human resources system and generate the payroll report to executive Director for his/her approval. Upon approval, human resources department will submit the payroll list to the bank for autopay process through human resources system.

Having completed the autopay process, the accounts department will check the autopay amount on the bank statement to the payroll summary and relevant supporting materials from the human resources department. Finance manager will review the bank auto pay summary input. Then, the account executive will prepare payroll payment voucher together with the monthly bank statement for proper auto pay of salary, employees' provident fund, Socso employee contribution and PCB payments. The finance manager will review and approve the voucher. Any discrepancies will be reconciled monthly.

The finance manager will test check the monthly management accounts with the accounting vouchers and the attached corresponding supporting materials to ensure transactions are recorded on a timely basis and are properly supported.

The management has established a formal written salary range for each position for determination of salary. Such document is reviewed and approved by management periodically to ensure salary ranges are aligned with the market. If there are any deviations from the approved salary range, justifications must be documented and approved by management to ensure validity.

## CORPORATE GOVERNANCE REPORT

### Nomination Committee

The Company established a nomination committee (the “Nomination Committee”) on 31 March 2020 with the latest written terms of reference adopted on 26 June 2025 in compliance with code provision B.3.1 of the CG Code. As at the date of this report, the Nomination Committee is chaired by Mr. Low, and has two other members, namely Mr. Ng and Ms. Yeo.

The latest terms of reference of the Nomination Committee are posted on the websites of the Stock Exchange and the Company.

The primary duties of the Nomination Committee include, but are not limited to, the following: (i) reviewing the structure, size and composition of the Board (including the skills, knowledge, experience and diversity representation); (ii) assessing the independence of independent non-executive Directors; (iii) making recommendations to the Board on matters relating to the appointment of Director; and (iv) reviewing the board diversity policy (the “Board Diversity Policy”).

In designing the Board’s composition, Board diversity has been considered from a number of aspects, including but not limited to gender, age, cultural and educational background, ethnicity, professional experience, skills, knowledge, length of service and any other factors that the Board may consider relevant and applicable from time to time.

The Nomination Committee reviews the composition of the Board from diversified angles up to the date of this report and summarised as follows:

		No. of Directors
Gender:	Male	7
	Female	2
Ethnicity:	Chinese	2
	Malaysian	7
Age Group:	31–40	1
	41–50	2
	51–60	–
	61–70	4
	≥71	2
Length of Service (year):	1–10	9

For the purpose of implementation of the Board Diversity Policy, the following measurable objectives were adopted:

1. The Company should comply with the requirements on board composition in the Listing Rules from time to time.
2. The number of independent non-executive Directors should be not less than three and one-third of the Board.
3. At least one of the independent non-executive Directors must have appropriate professional qualifications or accounting or related financial management expertise.
4. At least one Director should be the professional or have intensive experience of the industry on which the business of the Group is.

The Board has achieved the measurable objectives under the Board Diversity Policy for FY2025.

## CORPORATE GOVERNANCE REPORT

As at the date of this report, the Board comprises seven male Directors and two female Directors. The Nomination Committee considered that the Board had achieved gender diversity and possessed skill and expertise and a diverse mix appropriate for the business of the Company and will review the composition and diversity of the Board annually to ensure its continued effectiveness.

Measures to develop a pipeline of potential successors to achieve gender diversity:

- The Board will identify potential successors internally, having regard to the industry expertise, leadership skills, decision making capabilities, communication skills and professional qualification of the staff.
- The Board will also consider outside sources such as head hunter and referral.

The details of workforce composition were disclosed under Environmental, Social and Governance Report in this report.

The Board is not aware of any factors or circumstances which make achieving gender diversity across the workforce (including senior management) of the Group more challenging or less relevant.

### *Director's Nomination Policy*

The Nomination Committee shall assist the Company in nominating suitable candidates to the Board. The Board shall make recommendations to the Company's shareholders on the appointment of Directors and succession planning for Directors.

The director's nomination policy of the Company (the "Nomination Policy") sets out the key selection criteria, procedures and principles adopted by the Nomination Committee in making any such recommendations.

### *Selection Criteria*

The Nomination Committee shall consider the following factors when assessing the suitability of a proposed candidate:

- (a) reputation for integrity;
- (b) accomplishment and experience in the business and industry;
- (c) commitment of the candidate to devote sufficient time and interest to carry out his/her duties;
- (d) diversity in all aspects, including but not limited to gender, age, cultural and educational background, ethnicity, professional experience, skills, knowledge and length of service;
- (e) meet the "independence" criteria as set out in the Listing Rules and the composition of the Board is in conformity with the provisions of the Listing Rules from time to time (where applicable);
- (f) for a proposed re-appointment of a Director, the number of years he/she has served the Company; and
- (g) other relevant factors considered by the Nomination Committee or the Board as appropriate.

## CORPORATE GOVERNANCE REPORT

### *Nomination Procedures*

The Nomination Committee utilizes various methods for identifying director candidates, including recommendations from Board members, management, and headhunters. The Nomination Committee may also put forward director candidates who are not nominated by Board members. In addition, the Nomination Committee will consider director candidates properly submitted by the shareholders through formal procedures set out in the Company's Procedures for shareholders to propose a person for election as a Director.

For filling a casual vacancy, the Nomination Committee shall make recommendations for the Board's consideration and approval. For proposing director candidates to stand for election at a general meeting, the Nomination Committee shall make nominations to the Board for its consideration and recommendation.

All director candidates, including incumbents and candidates nominated by shareholders are evaluated by the Nomination Committee based upon the director's qualifications. While director candidates will be evaluated on the same criteria, the Nomination Committee retains the discretion to establish the relative weighting of such criteria, which may vary based on the composition, skill sets, and experiences of the collective Board rather than on the individual candidate.

The Board shall have the final decision on all matters relating to the recommendation of director candidates by the Nomination Committee to stand for election at any general meeting. The Board will take such recommendations under advisement and is responsible for designating the director candidates to be elected at the annual general meeting of the Company and electing directors to fill Board vacancies.

### *Re-election of Director at General Meeting*

The Nomination Committee shall review the overall contribution and service to the Company of the retiring director including his attendance of Board meetings and, where applicable, general meetings, and the level of participation and performance on the Board.

The Nomination Committee shall also review and determine whether the retiring director continues to meet the criteria as set out above.

The Nomination Committee and/or the Board shall then make recommendation to shareholders in respect of the proposed re-election of director at the general meeting.

The Nomination Committee held 2 meetings during FY2025 to review the structure, size and composition of the Board, assess the independence of independent non-executive Directors, make recommendations to the Board relating to the renewal services of independent non-executive Directors and to review the Board Diversity Policy. Details of the attendance of the meetings of the Nomination Committee are as follows:

## CORPORATE GOVERNANCE REPORT

### *Respective Responsibilities of Directors and Auditor*

The Directors acknowledge their responsibility for the preparation of the financial statements of the Group. In preparing the financial statements, the generally accepted accounting standards in Hong Kong have been adopted, appropriate accounting policies have been used and applied consistently, and reasonable and prudent judgements and estimates have been made. The Board is not aware of any material uncertainties relating to events or conditions which may cast significant doubt over the Group's ability to continue as a going concern. Accordingly, the Board has continued to adopt the going concern basis in preparing the financial statements. The auditor's responsibilities are set out in the Independent Auditor's Report.

### *Corporate Governance Functions*

According to code provision A.2 of the CG Code, the Board is responsible for performing the corporate governance duties of the Company. The Board has the following duties and responsibilities for performing the corporate governance duties of the Company:

- to develop and review the Group's policies and practices on corporate governance;
- to review and monitor the training and continuous professional development of Directors and senior management;
- to review and monitor the Group's policies and practices on compliance with legal and regulatory requirements;

## CORPORATE GOVERNANCE REPORT

### RISK MANAGEMENT AND INTERNAL CONTROL

The Group has established a risk register documented with the identified risks, relevant risk rating, mitigation plans/actions and the relevant key person in-charged (the "Risk Register"). Risk Register shall be reviewed and updated periodically to ensure that it remains relevant to the Group's ever-changing business environment.

Employees are required to comply with the SOPs to ensure proper execution of the internal control system. Internal control system should be reviewed annually to ensure its effectiveness.

The Group has engaged an independent professional advisor (the "Internal Control Advisor") to carry out the internal audit functions by performing an independent appraisal of the adequacy and effectiveness of the Group's risk management and internal control systems.

The Internal Control Advisor is independent of the Group's daily operation and carries out appraisal of the risk management and internal control systems by conducting interviews, walkthroughs and tests of operational effectiveness of the procedures, systems and controls established by the Group including various operational cycles of the Group such as the revenue and receipts, purchase and payments, project management, fixed assets and capital expenditure management, financial reporting, industrial safety and environmental protection, payroll and human resource management.

The Board, with assistance from the Audit Committee, continuously monitors and reviews the effectiveness of the risk management and internal control systems at least once a year.

The Board, through its annual review and the review made by internal audit function and Audit Committee for the financial year, concluded that the risk management and the internal control systems were effective and adequate during FY2025. Such systems, however, are designed to manage rather than eliminate the risk of failure to achieve business objectives, and can only provide reasonable and not absolute assurance against material misstatement or loss.

### PRINCIPAL RISKS AND UNCERTAINTIES

### *Shareholder privacy*

The Company recognizes the importance of shareholders’ privacy and will not disclose shareholders’ information without their consent, unless required by law to do so.

### *Review*

The Board shall maintain an ongoing dialogue with shareholders and the investment community, and will regularly review the Shareholders’ Communication Policy to ensure its effectiveness.

The Board has reviewed the Shareholders’ Communication Policy and its effectiveness for the FY2025. The Company has provided appropriate communication channels to the shareholders in accordance with the Shareholders’ Communication Policy and therefore the existing Shareholders’ Communication Policy is appropriate to the Company.

## **INDEPENDENT VIEW POLICY**

The independent view policy was adopted by the Board and became effective on 1 November 2022 (the “Independent View Policy”).

The Independent View Policy is established to ensure independent views and input are available to the Board.

The Company adopted the Nomination Policy. The nomination process of Directors, including Independent Non-executive Directors, is included in the Nomination Policy.

The Board should include at least three Independent Non-executive Directors. At least one of the Independent Non-executive Directors has served less than 9 years on the Board. At least one of the Independent Non-executive Directors must have appropriate professional qualifications or accounting or related financial management expertise. The Company must appoint Independent Non-executive Directors representing at least one-third of the Board. The Company shall appoint a sufficient number of Independent Non-executive Directors to meet the minimum number required above within three months after failing to meet the requirement(s).

## CORPORATE GOVERNANCE REPORT

The Board committees should comprise a majority of Independent Non-executive Directors.

Directors should disclose to the Company at the time of their appointments, and in a timely manner for any changes, the number and nature of offices held in public companies or organisations and other significant commitments. The identity of the public companies or organisations and an indication of the time involved should also be disclosed.

When selecting Independent Non-executive Directors, the candidates' availability should be considered as sitting on a Board involves a significant time commitment. Independent Non-executive Directors must dedicate time to reading materials prior to Board meetings in order to make the hours spent in meetings effective. They also have to learn to understand the Company's complex business and operational details, market forces and future perspectives.

The Nomination Committee should be aware of the factors which may affect an individual's time commitment to the Company.

Upon reasonable request, Directors may seek independent professional advice in appropriate circumstances, at the Company's expense. All Directors should have access to the advice and services of the company secretary to ensure that Board procedures, and all applicable law, rules and regulations, are followed.

The Board shall review the Independent View Policy annually to ensure its continued effectiveness. Any revisions to the Independent View Policy shall be considered and approved by the Board.

The Board was satisfied with the implementation and effectiveness of the Independent View Policy for the FY2025.

### DIVIDEND POLICY

The dividend policy of the Company (the "Dividend Policy") was adopted by the Board and became effective on 20 November 2020.

The Dividend Policy is to ensure that the Board maintains an appropriate procedure on declaring and recommending the dividend payment of the Company. The Board endeavors to strike a balance between the shareholders' interests and prudent capital management with a sustainable dividend policy.

In considering the payment of dividends, there shall be a balance between retaining adequate reserves for the Group's future growth and rewarding the Company's shareholders. In deciding whether to propose a dividend and in determining the dividend amount, the Board shall take into account the following factors before declaring or recommending dividends:

- (a) The Group's actual and expected financial performance;
- (b) Retained earnings and distributable reserves of the Group;
- (c) The level of the Group's debts to equity ratio, return on equity and the relevant financial covenants;
- (d) Any restrictions on payment of dividends that may be imposed by the Group's contracting parties;

## CORPORATE GOVERNANCE REPORT

- (e) The Group's expected working capital requirements and future expansion plans;
- (f) General economic conditions, business cycle of the Group's business and other internal or external factors that may have an impact on the business or financial performance and position of the Group; and
- (g) Any other factors that the Board may deem appropriate.

The Company does not have any pre-determined dividend distribution proportion or distribution ratio. The declaration, payment and amount of dividends will be subject to the Board's discretion and subject to compliance with applicable laws and regulations including the laws of the Cayman Islands and the Articles of Association. The Dividend Policy shall in no way constitute a legally binding commitment by the Company in respect of its future dividend and/or in no way obligate the Company to declare a dividend at any time or from time to time.

The Board will continually review the Dividend Policy from time to time and reserves the right in its sole and absolute discretion to update, amend and modify the Dividend Policy at any time. There can be no assurance that dividends will be paid in any particular amount for any given period.

## DIRECTORS' REPORT

### SHARE OPTION SCHEME

The Company has adopted the share option scheme on 31 March 2020 (the "Adoption Date") (the "Share Option Scheme") to attract and retain the best available personnel, to provide additional incentive to employees (full-time and part-time), directors, consultants, advisers, distributors, contractors, suppliers, agents, customers, business partners and service providers of the Group and to promote the success of the business of the Group. As at 31 October 2025, there were no outstanding share options. No share options were granted, exercised or cancelled or lapsed during FY2025.

#### **(a) Purpose of the Share Option Scheme**

The purpose of the Share Option Scheme is to attract and retain the best available personnel, to provide additional incentive to employees (full-time and part-time), directors, consultants, advisers, distributors, contractors, suppliers, agents, customers, business partners and service providers of our Group and to promote the success of the business of the Group.

#### **(b) Participants of the Share Option Scheme**

The Board may, at its absolute discretion and on such terms as it may think fit, grant any employee (full-time or part-time), director, consultant or adviser of the Group, or any substantial shareholder of the Group, or any distributor, contractor, supplier, agent, customer, business partner or service provider of the Group, options to subscribe at a price calculated in accordance with paragraph (iii) below for such number of Shares as it may determine in accordance with the terms of the Share Option Scheme. The basis of eligibility of any participant to the grant of any option shall be determined by the Board (or, as the case may be, the independent non-executive Directors) from time to time on the basis of his/her contribution or potential contribution to the development and growth of the Group.

#### **(c) Total Number of Shares Available for Issue Under the Share Option Scheme**

The maximum number of Shares available for issue under the share options which may be granted under the Share Option Scheme and any other share option scheme of the Company must not, exceed 10% of the Shares in issue on the Adoption Date (excluding, for this purpose, Shares issuable upon exercise of options which have been granted but which have lapsed in accordance with the terms of the Share Option Scheme or any other share option schemes of the Company), unless shareholders' approval has been obtained.

During FY2025 and up to the date of this report, the total number of Shares available for issue under the Share Option Scheme is 126,000,000 Shares, representing 10% of the total number of issued Shares. Since the adoption of the Share Option Scheme, no share option has been granted by the Company.

#### **(d) The Maximum Entitlement of Each Participant Under the Share Option Scheme**

The total number of Shares issued and to be issued upon exercise of options granted to any participant (including both exercised and outstanding options) under the Share Option Scheme, in any 12-month period up to the date of grant shall not exceed 1% of the Shares in issue. Any further grant of options in excess of such limit must be separately approved by shareholders in general meeting with such grantee and his/her close associates abstaining from voting. In such event, the Company must send a circular to the shareholders containing the identity of the grantee, the number and terms of the options to be granted (and options previously granted to such grantee), and all other information required under the Listing Rules. The number and terms (including the subscription price) of the options to be granted must be fixed before the approval of the shareholders and the date of the Board meeting proposing such further grant should be taken as the date of grant for the purpose of calculating the subscription price.

### **(e) Time of Exercise of Option**

An option may be exercised in accordance with the terms of the Share Option Scheme at any time during a period as the Board may determine which shall not exceed ten years from the date of grant subject to the provisions of early termination thereof.

### **(f) Grant of Options and Acceptance of Offers**

An offer for the grant of options must be accepted within seven days inclusive of the day on which such offer was made. The amount payable by the grantee of an option to our Company on acceptance of the offer for the grant of an option is HK\$1.

### **(g) Price of Shares**

The subscription price of a Share in respect of any particular option granted under the Share Option Scheme shall be a price solely determined by the Board and notified to a participant and shall be at least the higher of: (i) the closing price of the Shares as stated in the Stock Exchange's daily quotations sheet on the date of grant of the option, which must be a business day; (ii) the average closing prices of the Shares as stated in the Stock Exchange's daily quotations sheets for the five business days immediately preceding the date of grant of the option; and (iii) the nominal value of a Share on the date of grant of the option. For the purpose of calculating the subscription price, where the Company has been listed on the Stock Exchange for less than five business days, the new issue price shall be used as the closing price for any business day that falls within the period before listing.

### **(h) Period of the Share Option Scheme**

The Share Option Scheme will remain in force for a period of ten years commencing on the date on the Adoption Date and shall expire at the close of business on the business day immediately preceding the tenth anniversary thereof unless terminated earlier by the shareholders in general meeting.

### **(i) Grant of Options to Certain Connected Persons**

(aa) Any grant of an option to a Director, chief executive or substantial shareholder (or any of their respective close associates) must be approved by the independent non-executive Directors (excluding any independent non-executive Director who is the grantee of the option).

(bb) Where any grant of options to a substantial shareholder or an independent non-executive Director (or any of their respective close associates) will result in the total number of Shares issued and to be issued upon exercise of all options already granted and to be granted to such person under the Share Option Scheme and any other share option schemes of our Company (including options exercised, cancelled and outstanding) in any 12-month period up to and including the date of grant:

(a) representing in aggregate over 0.1% of the Shares in issue; and

(b) having an aggregate value, based on the closing price of the Shares at the date of each grant, in excess of HK\$5,000,000,

such further grant of options is required to be approved by shareholders at a general meeting of the Company, with voting to be taken by way of poll. The Company shall send a circular to the shareholders containing all information as required under the Listing Rules in this regard. All core connected persons of the Company shall abstain from voting (except where any core connected person intends to vote against the proposed grant). Any change in the terms of an option granted to a substantial shareholder or an independent non-executive Director or any of their respective close associates is also required to be approved by shareholders in the aforesaid manner.

## DIRECTORS' REPORT

Remarks:

1. Pursuant to Rule 17.03A of the Listing Rules, the participants of a scheme shall only comprise directors and employees of the issuer or any of its subsidiaries and the persons who provide services to the issuer group on a continuing or recurring basis in its ordinary and usual course of business which are in the interests of the long term growth of the issuer group.
2. Pursuant to Rule 17.03F of the Listing Rules, the vesting period for options shall not be less than 12 months.
3. Pursuant to Rule 17.04(3) of the Listing Rules, where any grant of options or awards to an independent non-executive director or a substantial shareholder of the listed issuer, or any of their respective associates, would result in the shares issued and to be issued in respect of all options and awards granted (excluding any options and awards lapsed in accordance with the terms of the scheme) to such person in the 12-month period up to and including the date of such grant representing in aggregate over 0.1% of the relevant class of shares in issue, such further grant of options or awards must be approved by shareholders of the listed issuer in general meeting in the manner set out in Rule 17.04(4) of the Listing Rules. Pursuant to Rule 17.04(4) of the Listing Rules, the listed issuer must send a circular to the shareholders. The grantee, his/her associates and all core connected persons of the listed issuer must abstain from voting in favour at such general meeting. The listed issuer must comply with the requirements under Rules 13.40, 13.41 and 13.42 of the Listing Rules.

### DIRECTOR'S RIGHTS TO ACQUIRE SHARES OR DEBENTURES

At no time during FY2025 were rights to acquire benefits by means of the acquisition of Shares in or debentures of the Company or of any other body corporate granted to any Directors or their respective spouse or children under 18 years of age, or were any such rights exercised by them; or was the Company, its holding company or any of its subsidiaries a party to any arrangements to enable the Directors, their respective spouse or children under 18 years of age to acquire such rights in the Company or any other body corporate.

### PERMITTED INDEMNITY PROVISIONS

Pursuant to the memorandum and Articles of Association, the Directors, auditors, secretary and other officers, for the time being, acting in relation to the affairs of the Company, shall be indemnified out of the assets of the Company against all actions, costs, charges, losses, damages and expenses which they or any of them shall or may incur or sustain by or by reason of any act done, concurred in or omitted in or about the exertion of their duty. The permitted indemnity provision is currently in force for the benefit of the Directors as defined and required by Section 470 of Hong Kong Companies Ordinance and has been in force throughout FY2025.

### EQUITY-LINKED AGREEMENTS

Save as disclosed in this report relating to the Share Option Scheme, the Company did not enter into any equity-linked agreements that (i) will or may result in the Company issuing Shares or (ii) require the Company to enter into any agreements that will or may result in the Company issuing Shares during FY2025 or had subsisted at the end of FY2025.

## DIRECTORS' REPORT

### PURCHASE, REDEMPTION OR SALE OF THE LISTED SECURITIES OF THE COMPANY

Save as disclosed in this report, neither the Company, nor any of its subsidiaries has purchased, redeemed or sold any of the Company's listed shares during FY2025.

### INVESTMENT IN SUBSIDIARIES

The principal activities of the Company's subsidiaries are set out in note 31 to the consolidated financial statements.

### CORPORATE GOVERNANCE

The Company maintains a high standard of corporate governance practices. Details of the corporate governance practices adopted by the Company are set out in the Corporate Governance Report on pages 19 to 37. The Directors believe the long term financial performance as opposed to short term rewards is a corporate governance objective. The Board would not take undue risks to make short term gains at the expense of the long term objectives.

### MANAGEMENT CONTRACTS

No contracts concerning the management and administration of the whole or any substantial part of the business of the Company were entered into or existed during FY2025.

### SUFFICIENCY OF PUBLIC FLOAT

As far as the information publicly available to the Company is concerned and to the best knowledge of the Directors, at least 25% of the Company's issued shares were held by members of the public as at the date of this report.

### DIRECTORS' INTERESTS IN COMPETING INTERESTS

As at the date of this report, none of the Directors had any interest in a business which causes or may cause a significant competition with the business of the Group and any other conflicts of interest which any such person has or may have with the Group.

### DEED OF NON-COMPETITION

Mr. Low Seah Sun, Ms. Seah Peet Hwah, Mr. Cheang Wye Keong, Mr. Lau Ah Cheng and RBC Venture Limited, each being the controlling shareholder (as defined under the Listing Rules) of the Company (the "Controlling Shareholder(s)"), have entered into a deed of non-competition dated 31 March 2020 in favour of the Company (the "Deed of Non-Competition"). Details of the Deed of Non-Competition was set out in the section headed "RELATIONSHIP WITH THE CONTROLLING SHAREHOLDERS" of the Prospectus. The Company has received confirmations from Mr. Low Seah Sun, Ms. Seah Peet Hwah, Mr. Cheang Wye Keong, Mr. Lau Ah Cheng and RBC Venture Limited of their compliance with the terms of the Deed of Non-Competition. Mr. Low Seah Sun, Ms. Seah Peet Hwah, Mr. Cheang Wye Keong, Mr. Lau Ah Cheng and RBC Venture Limited declared that they have fully complied with the Deed of Non-Competition for FY2025.

The independent non-executive Directors have reviewed the confirmations from the Controlling Shareholders and confirmed that up to the date of this report, all the undertakings under the Deed of Non-Competition have been complied with by Mr. Low Seah Sun, Ms. Seah Peet Hwah, Mr. Cheang Wye Keong, Mr. Lau Ah Cheng and RBC Venture Limited.

## DIRECTORS' REPORT

During FY2025, none of the Controlling Shareholders and their respective close associates had any interests in a business, apart from the business of the Group, which competes or may compete with the business of the Group or has any other conflict of interest with the Group which would be required to be disclosed under Rule 8.10 of the Listing Rules.

### RELATED PARTY/CONNECTED TRANSACTIONS

The Directors consider that those material related party transactions disclosed in note 28 to the consolidated financial statements did not fall under the definition of “connected transactions” or “continuing connected transactions” (as the case may be) in Chapter 14A of the Listing Rules which are required to comply with any of the reporting, announcement or independent shareholders’ approval requirements under the Listing Rules. The Directors confirmed that the Company has complied with the disclosure requirements in accordance with Chapter 14A of the Listing Rules. During FY2025, there were no connected transactions or continuing connected transactions of the Company as defined under Chapter 14A of the Listing Rules, which are required to comply with any of the reporting, announcement or independent shareholders’ approval requirements under the Listing Rules. None of the related party transactions constituted a connected transaction or continuing connected transaction which should be disclosed pursuant to the Listing Rules.

### PRE-EMPTIVE RIGHTS

There are no provisions for pre-emptive rights under the Articles of Association, or the laws of the Cayman Islands, which would oblige the Company to offer new Shares on a pro rata basis to existing shareholders.

### AUDITOR

The consolidated financial statements of the Group for the year ended 31 October 2025 have been audited by SHINEWING (HK) CPA Limited, who will retire and, being eligible, offer itself for re-appointment. A resolution for the re-appointment of SHINEWING (HK) CPA Limited as the auditor of the Company is to be proposed at the AGM.

# ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

## INTRODUCTION AND SUSTAINABILITY APPROACH

Rimbaco Group Global Limited (the “Company”, together with its subsidiaries, the “Group” or “we”) is mainly involved in the building construction industry in Malaysia through its wholly owned subsidiary, Rimbaco Sdn Bhd. (“Rimbaco”). Rimbaco is a Malaysia-based building construction contractor focusing on the provision of building construction services for (i) factories, including low-rise processing facilities and manufacturing plants; (ii) institutional, commercial and/or residential buildings such as private hospitals, hotels, shopping malls, high-rise residential buildings and commercial/residential complexes; and (iii) infrastructure works. Rimbaco also undertakes small-scale ancillary construction works, including but not limited to renovation works, repair works and electrical works.

We are pleased to present our Environmental, Social and Governance Report (the “ESG Report”) for the year ended 31 October 2025 (the “Reporting Period” or “FY2025”). This ESG Report summarises the Group’s environmental, social and governance (“ESG”) initiatives, plans and performance transparently, specifies comparative data for the year ended 31 October 2024 (“FY2024”) and demonstrates its ongoing commitment towards sustainable development.

We believe sustainability is the key to achieving continued success and have integrated this concept into our business strategy. We constantly monitor our business risks and explore potential opportunities. To strike a balance between business needs, social demands and environmental impacts, we are committed to continuously monitoring the risks and opportunities that exist in our daily operations and embracing a transparent corporate culture to ensure our sustainability strategies are well communicated to our stakeholders.

## THE ESG GOVERNANCE STRUCTURE

As a responsible corporate citizen, the Group views ESG commitments as part of its responsibilities and is committed to incorporating ESG considerations into its business strategy and decision-making process. To achieve this goal, the Group has developed a framework to ensure its ESG governance is aligned with its strategic growth while advocating for the integration of ESG into its business operations. The ESG governance structure mainly comprised the board of directors (the “Board”), the ESG Working Group and designated personnel from various departments.

The Board has ultimate and collective accountability for the Group’s ESG strategy, management, performance and reporting, with the support of the ESG Working Group. The members of the Board possess the appropriate skills, experience, knowledge and perspectives necessary to oversee the Group’s ESG matters. The Board holds at least one meeting each year to establish the overall ESG approach, oversee and assess the potential impacts and risks of the ESG issues related to the Group’s operation, review the Group’s performance against ESG-related targets and the materiality of the ESG issues, ensure the effectiveness of the Group’s risk management and internal control systems and approve disclosures in ESG reports.

## ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Chaired by the executive director of the Company, the ESG Working Group is delegated by the Board with the following duties and responsibilities to support the fulfilment of the Group's ESG objectives as stipulated in the Terms of Reference, including but not limited to the following:

- To identify, evaluate, prioritise and manage the Group's material ESG-related issues;
- To make recommendations to the Board for approval on the ESG-related goals and targets and report the progress to the Board;
- To develop and implement the ESG-related strategies, frameworks and policies of the Group and regularly report to the Board on the progress and effectiveness of the development and implementation; and
- To prepare the ESG reports of the Group in accordance with all applicable laws, rules and regulations.

The implementation of the sustainability approach of the Group relies on the support of the designated personnel from various departments who are responsible for executing ESG-related policies and assisting in data collection. The membership of the ESG Working Group shall be reviewed by the Board each year. The ESG Working Group shall hold a meeting with the Board at least once a year, and any additional meetings shall be convened at the request of the Chairman to discharge its responsibilities. Moreover, the ESG Working Group may invite external professional advisors at the Company's expense to attend its meetings with approval from the Chairman, while the Group should provide sufficient resources and adequate information to the ESG Working Group in a timely manner to support the fulfilment of its ESG objectives.

### REPORTING SCOPE

The Group identifies the reporting scope based on the materiality principle and considers its core business, main revenue source and whether it has direct operation control. As at 31 October 2025, the Group had operated as the main contractor for 2 construction projects in Malaysia, 0 of which had been completed. These 2 projects are under our direct control and management, and we have the responsibility for overall site supervision and ultimate liability for the entirety of the works under contract. Accordingly, this ESG Report covers these 2 construction projects as well as the headquarters in Malaysia. The Group will continue to assess the major ESG aspects of its businesses and extend the scope of disclosure when and where applicable.

# ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

## REPORTING FRAMEWORK

This ESG Report has been prepared in accordance with the Environmental, Social and Governance Reporting Guide (the “ESG Reporting Guide”) as set out in Appendix C2 of the Rules Governing the Listing of Securities on the Main Board of The Stock Exchange of Hong Kong Limited (the “Stock Exchange”). A complete index is inserted in the last chapter of this ESG Report for reference. Information relating to the Group’s corporate governance practices has been set out in the Corporate Governance Report, which is included in this annual report.

### *Reporting Principles*

The content of this ESG Report follows the reporting principles of the ESG Reporting Guide.

**Materiality:** This ESG Report is structured based on the materiality of respective issues, determined by a materiality assessment. The result of the materiality assessment was reviewed and confirmed by the Board and senior management. For further details, please refer to the sections headed “Stakeholder Engagement” and “Materiality Assessment”.

**Quantitative:** This ESG Report is prepared in accordance with the ESG Reporting Guide and discloses key performance indicators (“KPIs”) in a quantitative manner. Information regarding the standards, methodologies, assumptions, calculation references and sources of key conversion factors used for KPIs is stated wherever appropriate.

**Balance:** This ESG Report is based on an objective and impartial manner to ensure that the information disclosed faithfully reflects the overall performance of the Group in ESG aspects.

**Consistency:** Unless otherwise stated, the Group’s disclosure and statistical methods are consistent with the previous financial year for a meaningful comparison. If there is any change that may affect comparison with previous reports, the Group will add explanatory notes to the corresponding sections.

The Group has established internal controls and a formal review process to ensure that any information presented in this ESG Report is as accurate and reliable as possible. This ESG report has been approved by the ESG Working Group and the Board.

## REPORTING PERIOD

The ESG Report specifies the ESG activities, challenges and measures being taken during the Reporting Period.

# ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

## CHAIRMAN'S STATEMENT

Dear Shareholders,

On behalf of the Board of the Group, I am pleased to present the ESG Report of Rimbaco Group Global Limited for FY2025, which provides an annual update on the ESG performance of the Group.

The Group is committed to establishing a rigorous and conscientious governance structure that is equipped to adapt to an ever-changing operating environment and to strengthen compliance. To achieve this, the Group has adopted an effective ESG governance structure where the Board bears ultimate and collective responsibility for the Group's ESG strategy, management, performance and reporting. The Group has also established an ESG Working Group to assist the Board in overseeing the Group's ESG issues and strengthening the Group's sustainability governance practices.

With many countries and governments ramping up their efforts to tackle climate change in recent years, as a responsible corporate citizen, the Group has implemented a group-wide Climate Change Policy to proactively identify, assess and manage climate-related issues. We will continue to accord a high priority to climate change on our business agenda and integrate climate-related risks into our risk management framework.

In order to identify and assess the material concerns of our stakeholders, we have conducted materiality assessment surveys. The assessment helps us determine the factors that have material impacts on our sustainable growth and incorporate them in the development of our ESG strategies and targets. Our focus on ESG includes climate action and energy conservation, along with managing our resources and waste effectively. Recognising the urgent need for decisive action to mitigate climate change, we have set targets to reduce greenhouse gas ("GHG") emissions, electricity usage, water consumption and waste disposed of in landfills. The environmental targets were approved by the Board, and the progress will be reviewed annually by the ESG Working Group. The Group believes setting ESG-related targets can enhance the Group's commitment to corporate social responsibility and allow the Group's stakeholders to have a clearer understanding of the ESG performance of the Group.

Finally, we would like to express our heartfelt gratitude to all our shareholders, valued customers and business partners for their unwavering efforts and commitment towards the continued success and growth of the Group. To our management team and staff, we sincerely thank you for your unwavering dedication and hard work in working towards sustainable development throughout FY2025.

## MATERIALITY ASSESSMENT

The Group’s management and staff in major functions are involved in the preparation of this ESG Report.

To better understand stakeholders’ expectations of the Group’s ESG performance, we have conducted a materiality assessment to identify stakeholders’ key concerns. The following illustrates the steps of the materiality assessment process:

1. Identified a list of material topics based on the Group’s previous material topics and benchmarked against policies, industry standards and corporate development strategies.
2. Conducted a materiality assessment survey and invited stakeholders such as employees, customers and subcontractors to assess the importance of each topic to the Group’s business and to their own assessments and decisions. Stakeholders were also given the opportunity to express their views on the Group’s ESG performance through open-ended questions.
3. The material topics were analysed and prioritised based on the survey results. Stakeholders’ opinions and the materiality assessment results were reviewed and discussed with the ESG Working Group and management, thus determining the focus of disclosure and the direction for improving ESG performance in the future.
4. The materiality assessment of all ESG issues was approved by the Board.

The following matrix is a summary of the Group’s material ESG issues.

## CLIMATE-RELATED DISCLOSURES

### *Governance*

The Board is responsible for overseeing the Group's climate-related risks and opportunities, and the ESG Working Group is delegated by the Board to fulfil the Group's ESG objectives. Further information can be found in the section headed "The ESG Governance Structure".

### *Strategy*

Climate change is one of the most crucial issues of the past decade. In response to the community's growing concern about climate change and related issues, the Group has formulated the Climate Change Policy, which outlines the Group's management on climate-related issues and commitment to climate risk mitigation, adaptation and resilience across its operations and along the value chain. Meanwhile, the Group took initiative to mitigate its carbon footprint, such as by setting a GHG emission reduction target and implementing energy conservation policies at construction sites and the office.

During the Reporting Period, a climate risk assessment exercise was conducted to identify and assess the potential risks and opportunities in our operations, thereby facilitating the formulation of our climate risk mitigation measures.

Through the above method, the Group identified the potential impacts on the Group's business arising from the following risks:

### *Physical Risks*

Changes in weather patterns, such as the level of precipitation and temperature, as well as a higher frequency and severity of extreme weather events, may have adverse impacts on the Group's projects. For instance, concreting activities may become more difficult in hot and dry weather. More frequent and severe precipitation and storms will also cause mould growth problems in the finished structures. Therefore, the Group has taken related factors into consideration during the planning and pre-construction stages of physical development projects. Floods in Malaysia are also expected to impede construction plans.

Taking into account the risk of business interruption related to extreme weather events, we evaluate the possible weather conditions that may suspend business operations. As part of its contingency policies, the Group also instructs its employees on how to deal with situations in which necessary work equipment or services are unavailable due to severe weather events. Moreover, we maintain comprehensive insurance coverage for assets that are susceptible to damage from extreme weather conditions, minimising the potential maintenance and repair costs required.

## ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

### Transition Risks

As the Malaysian government commits to achieving carbon neutrality by 2050, it will likely implement more stringent policies and initiatives to meet its carbon emission reduction targets and net-zero ambitions, and thus higher operating costs are expected due to the replacement of equipment with higher-efficiency models to ensure future compliance with the regulations. In an attempt to reduce carbon emissions, we have adopted locally and globally recognised standards for building construction and procured energy-saving equipment across our operations. In addition, the Group regularly monitors existing and emerging trends, policies and regulations relevant to climate and is prepared to alert the top management when necessary to avoid cost increments, noncompliance fines or reputational risks due to delayed responses.

As at the end of the Reporting Period, the current financial effects of climate-related risks and opportunities were not separately identifiable. The Group is also currently developing its capability to estimate and quantify the financial effects of climate-related risks and opportunities in the future.

### Risk Management

The Group's management is currently developing a process to assess potential climate-related risks and opportunities that may arise from its business operations according to their likelihood and financial impact, as well as the effort required to adapt to and recover from these risks. There is ongoing dialogue within the Group regarding current and emerging risks, as well as their plausible impact and mitigation measures. The Group has set decarbonisation targets and implemented the corresponding decarbonisation measures to mitigate potential climate-related physical and transition risks. The related targets and measures can be found in the sections headed "Metrics and Targets" and "Strategy" respectively.

### Metrics and Targets

The principal sources of the Group's GHG emissions were petrol and diesel consumption by vehicles and machinery at construction sites (Scope 1) and purchased electricity (Scope 2). To minimise GHG emissions, the Group has set a target in the year ended 31 October 2022 ("FY2022") to reduce the GHG emission intensity (tCO<sub>2</sub>e/million revenue) by the year ended 31 October 2030 ("FY2030"), using FY2022 as the baseline year. To achieve this target, we embrace green driving practices and have adopted the following measures in our operations:

- Utilise teleconferences or video meetings to prevent non-essential business travel;
- Actively adopt fleet management practices, which are described in the section headed "Air Emissions" in this aspect; and
- Actively adopt environmental protection, energy conservation and water conservation measures, which are described in the sections headed "Energy Management" and "Water Management" under aspect A2.

Besides, the Group propagates environmental protection messages to employees by posting notices and environmental posters in office areas to raise their awareness and promote best practices in environmental management.

## ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

During the Reporting Period, the Group's GHG emission intensity (tCO<sub>2</sub>e/million revenue) decreased by approximately 70.25% due to the differences in project nature thus emission and is approximately 68.87% less the 1.51 tCO<sub>2</sub>e/million revenue in FY2022, thus the Group is in the process of achieving its aforementioned goal. The Group will continue to monitor its GHG emissions data closely and raise employees' awareness of GHG emission reduction.

During the Reporting Period, the Group's GHG emissions performance was as follows:

Indicators <sup>1</sup>	Unit	FY2025	FY2024
<b>Scope 1 – Direct GHG emissions</b>	tCO <sub>2</sub> e	<b>60.01</b>	<b>72.53</b>
Fuel consumed by vehicles and machinery	tCO <sub>2</sub> e	60.01	72.53
<b>Scope 2 – Energy indirect GHG emissions</b>	tCO <sub>2</sub> e	<b>61.82</b>	<b>384.05</b>
Purchased electricity	tCO <sub>2</sub> e	61.82	384.05
<b>Scope 3 – Other indirect GHG emissions</b>	tCO <sub>2</sub> e	<b>0.00</b>	<b>0.18</b>
Category 6: Business Travel <sup>2, 3</sup>	tCO <sub>2</sub> e	0.00	0.18
<b>Total GHG emissions</b>	tCO <sub>2</sub> e	<b>121.83</b>	<b>456.76</b>
<b>GHG emission intensity<sup>4</sup></b>	tCO <sub>2</sub> e/million revenue	<b>0.47</b>	<b>1.58</b>

Note(s):

- GHG emissions data is presented in terms of carbon dioxide equivalent and is based on, but not limited to, "The Greenhouse Gas Protocol: A Corporate Accounting and Reporting Standards" issued by the World Resources Institute and the World Business Council for Sustainable Development, "How to prepare an ESG Report – Appendix II: Reporting Guidance on Environmental KPIs" issued by the Stock Exchange, the "Global Warming Potential Values" from the IPCC Sixth Assessment Report (AR6), and the Sustainability Report 2024 published by Tenaga Nasional.
- Category 6 – Business Travel only includes emissions from business air travel.
- There are no business travel recorded in FY2025.
- For FY2025, the Group recorded a revenue of approximately RM259.9 million (FY2024: approximately RM289.2 million). The data is also used for calculating other intensity data.

# ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

## A. ENVIRONMENTAL

### A1. Emissions

Environmental protection and sustainable development rely on collective efforts from all industries and society. Rooted in Malaysia's construction industry, we strive to integrate environmental sustainability into our business operations and we are committed to reducing our environmental footprint.

Due to our business nature, we recognise that our day-to-day operations can impact the environment, both directly and indirectly. Therefore, we have formulated the Environmental Policy to protect and improve the environment and promote sustainability within our business. We constantly uphold the principles of emission reduction and resource efficiency in our environmental management approaches by implementing measures and adopting best practices that promote energy efficiency, waste reduction and other green initiatives. The Group is also committed to educating its employees about environmental protection and complying with relevant environmental laws and regulations.

During the Reporting Period, the Board was not aware of any material non-compliance with environmentally-related laws and regulations that would have a significant impact on the Group, including but not limited to the Environmental Quality Act 1974 of Malaysia.

#### Emissions Control

##### Air Emissions

The principal sources of air emissions from the Group's operations were petrol and diesel consumed by vehicles and machinery at construction sites. Due to our business nature and industry limitations, the use of vehicles and machinery is inevitable. Therefore, we have adopted the following preventive and corrective measures to control air emissions from such sources:

- Conduct regular vehicle inspections and maintenance to enhance vehicle efficiency;
- Eliminate substandard vehicles and regularise the procurement of diesel and petrol for vehicles; and
- Educate employees to turn off engines for idling vehicles.

Besides, we perform monthly inspections to monitor our air emissions. We also encourage our employees to utilise the capacity of vehicles and other machinery to reduce unnecessary usage and wastage.

## ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

During the Reporting Period, the Group's nitrogen oxides ("NOX"), sulphur oxides ("SOX") and particulate matter ("PM") emissions decreased by approximately 8.91%, 19.05% and 8.87% respectively, due to a decrease in number of projects. The Group will continue to monitor its air emissions data closely and raise employees' awareness of fuel conservation.

During the Reporting Period, the Group's air emission performance, driven by the Group's vehicles, was as follows:

Types of air emissions <sup>5</sup>	Unit	FY2025	FY2024
NO <sub>x</sub>	kg	25.06	27.51
SO <sub>x</sub>	kg	0.34	0.42
PM	kg	1.85	2.03

Note(s):

5. Figures only include diesel and petrol cars.

### GHG Emissions

The principal sources of the Group's GHG emissions were vehicle fuel consumption and purchased electricity consumption. Further details can be found in the section headed "Metrics and Targets".

### Wastewater Discharge

Due to the Group's business nature, wastewater will be generated and discharged at construction sites. To fully utilise our water resources, wastewater is collected and processed for reuse, such as reusing for dust control measures. A sewage treatment system is also installed at every construction site to filter the wastewater before discharging it into public sewers. The sewage discharged by the Group is considered the same as the amount of water consumed. More water conservation initiatives will be described in the section headed "Water Management" under aspect A2.

### Waste Management

The Group strives to properly manage and dispose of waste produced by the Group's business activities. The Group's waste management practices have complied with relevant laws and regulations relating to environmental protection.

### Hazardous Waste

The Group's business operations may produce chemical waste during construction work. Any chemical waste will be filtered and passed to a qualified chemical waste collector to handle and dispose. The Group aims to continuously reduce its adverse impacts due to the production of hazardous waste.

## ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

The Group has set a target in FY2022 to reduce hazardous waste intensity (kg/million revenue) compared with the year ended 31 October 2021 (“FY2021”) by FY2030. The Group did not record any hazardous waste generated during the Reporting Period. The Group will continue to make an effort to mitigate hazardous waste generation from its construction and operational processes.

During the Reporting Period, the Group’s hazardous waste disposal performance was as follows:

<b>Types of hazardous waste</b>	<b>Unit</b>	<b>FY2025</b>	<b>FY2024</b>
Contaminated soil, debris or matter resulting from cleaning-up of a spill of chemical, mineral oil or scheduled wastes (SW 408)	tonnes	0.00	0.98
Disposed containers, bags or equipment contaminated with chemicals, pesticides, mineral oil or scheduled wastes (SW 409)	tonnes	0.00	0.06
Rags, plastics, papers or filters contaminated with scheduled wastes (SW 410)	tonnes	0.00	0.04
<b>Total hazardous waste</b>	<b>tonnes</b>	<b>0.00</b>	<b>1.08</b>
<b>Hazardous waste intensity</b>	<b>tonnes/million revenue</b>	<b>0.00</b>	<b>0.004</b>

### Non-hazardous Waste

The principal sources of non-hazardous waste from the Group’s operations were construction waste and paper waste. To minimise the environmental impacts of non-hazardous waste generated from our business operations, the Group has implemented measures to manage different types of waste and launched different waste reduction initiatives in different working areas.

In offices, the Group promotes the reduction of paper and stationery usage by adopting the following initiatives and assumes responsibility for overall waste management:

- Encourage double-sided printing;
- Collect single-sided printed paper and computer accessories for reuse;
- Recycle rechargeable batteries and double-sided printing paper;
- Utilise electronic communication where applicable; and
- Reduce the use of single-use disposable items.

With the above measures, the Group’s paper waste decreased by approximately 6.31% during the Reporting Period. The Group considers existing measures helpful in reducing paper waste disposal.

## ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

As for construction waste, an on-site waste sorting area is made available for temporary storage of segregated waste material for reuse at other sites to avoid wastage. Furthermore, for each construction site, solid waste is segregated into general waste and construction waste before being transported to landfills. 3-colour recycling bins are placed in site areas to collect recyclable waste. The Group's non-hazardous waste intensity (tonnes/million revenue) has decreased drastically due to differences in project nature. The Group will continue to make an effort to reduce non-hazardous waste generation from its construction sites and offices.

During the Reporting Period, the Group's non-hazardous waste disposal performance was as follows:

<u>Types of non-hazardous waste</u>	<u>Unit</u>	<u>FY2025</u>	<u>FY2024</u>
Construction waste	tonnes	4,186.00	13,080.00
Paper waste	tonnes	1.04	1.11
<b>Total non-hazardous waste</b>	<b>tonnes</b>	<b>4,187.04</b>	<b>13,081.11</b>
<b>Non-hazardous waste intensity</b>	<b>tonnes/million revenue</b>	<b>16.11</b>	<b>45.23</b>

### A2. Use of Resources

The Group is committed to becoming a resource-saving and environmentally friendly enterprise to promote environmental protection. The Group has established relevant policies and procedures, such as the Environmental Policy, which governs the use of energy and water to achieve higher efficiency and reduce unnecessary use of resources. Within our policy framework, we continually look for opportunities to pursue environmentally friendly initiatives and enhance our environmental performance by reducing energy consumption and the use of other resources.

#### Energy Management

The Group aims to minimise the potential environmental impacts of its operations by identifying and adopting appropriate measures. Energy-saving measures and practices have been implemented to show our commitment to energy efficiency. To minimise energy consumption, the Group has set a target in FY2022 to reduce energy consumption intensity (MWh/million revenue) by 20% by FY2030 compared with FY2022. In order to achieve the aforementioned target, the Group has adopted the following energy-saving measures:

- Maintain a room temperature of 25.5 degrees Celsius;
- Encourage the use of products with energy efficiency labels;
- Switch off all idle appliances and unnecessary lighting upon leaving the office;
- Post reminders near switches and electrical appliances to remind employees to reduce electricity consumption; and
- Purchase equipment and machinery with high energy efficiency when replacing old equipment.

## ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Besides, the Group performs regular inspections of the air-conditioning system, lighting and other office appliances to ensure energy consumption performance. Unexpected fluctuations in energy consumption will be investigated to find out the root cause, and corresponding preventative measures will be taken.

During the Reporting Period, the Group's energy consumption intensity decreased by approximately 62.35% due to the differences in project nature and is approximately 60.69% less than the 3.18 MWh/million revenue in FY2022, thus the Group is in the process of achieving its aforementioned goal. Moving forward, the Group will continue to refine its energy-saving measures and evaluate their effectiveness.

During the Reporting Period, the Group's energy consumption performance was as follows:

Types of energy	Unit	FY2025	FY2024
<b>Direct energy consumption<sup>6</sup></b>	<b>MWh</b>	<b>214.62</b>	<b>263.29</b>
Diesel	MWh	92.40	146.33
Petrol	MWh	122.22	116.96
<b>Indirect energy consumption</b>	<b>MWh</b>	<b>110.40</b>	<b>698.27</b>
Purchased electricity	MWh	110.04	698.27
<b>Total energy consumption</b>	<b>MWh</b>	<b>325.02</b>	<b>961.56</b>
<b>Energy consumption intensity</b>	<b>MWh/million revenue</b>	<b>1.25</b>	<b>3.32</b>

Note(s):

- The unit conversion method for energy consumption data is formulated based on the Energy Statistics Manual issued by the International Energy Agency.

### Water Management

The Group's Environmental Policy outlines the Group's commitment to efficiently utilise precious shared resources like water. For the Group, water was mainly used in the office and construction sites. To minimise water consumption, the Group has set a target in FY2022 to reduce water consumption intensity (m<sup>3</sup>/million revenue) by FY2030 compared with FY2022. The Group therefore actively promotes the importance of water conservation to its employees. Apart from posting reminders next to water taps, the Group also regularly inspects water taps to prevent leakage.

During the Reporting Period, the Group's water consumption intensity decreased by approximately 54.41% due to the differences in project nature and is approximately 61.69% less than the 180.59 m<sup>3</sup>/million revenue in FY2022, thus the Group is on track to achieve its aforementioned target. The Group will continue to closely monitor its performance and avoid unnecessary water consumption in the future.

During the Reporting Period, the Group's water consumption performance was as follows:

Indicator	Unit	FY2025	FY2024
<b>Total water consumption</b>	<b>m<sup>3</sup></b>	<b>17,981.00</b>	<b>43,889.00</b>
<b>Water consumption intensity</b>	<b>m<sup>3</sup>/million revenue</b>	<b>69.18</b>	<b>151.76</b>

## ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

Due to the Group's business nature, the Group did not encounter any problems in sourcing water that is fit for purpose.

### Packaging Material

Due to the Group's business nature, the use of packaging material is not considered a material ESG aspect of the Group.

### A3: The Environment and Natural Resources

As a responsible building construction contractor, the Group believes that corporate development should not come at the expense of the environment and natural resources and accepts responsibility for minimising the negative environmental impacts of its business operations as an ongoing commitment to good corporate citizenship. The Group remains conscious of its potential impact, regularly assesses the environmental risks of its business model, adopts preventive measures to reduce risks and ensures compliance with relevant laws and regulations in accordance with the Group's Environmental Policy.

We are aware that our business activities could potentially generate a significant amount of noise and dust during the construction period due to the use of machinery and heavy vehicles, and that noise and dust generated during our operations may have a significant impact on the environment. Therefore, mitigation measures for noise pollution and air quality have been established and will be described in the section headed "Green Working Environment" under this aspect.

### Green Working Environment

The Group believes it is of paramount importance to provide a pleasant and safe working environment. Air quality is therefore regularly monitored and measured. In offices, air-purifying equipment has been installed, and the ventilation system is cleaned periodically. At construction sites, monthly inspections are performed to monitor dust emissions.

In addition to air quality, noise is regularly monitored and measured at the construction sites. The Group strictly complies with the Factories and Machinery Act 1967 of Malaysia, and has implemented different measures to reduce noise levels and ensure that workers and the surrounding neighbourhood will not be disturbed. Such measures include the installation of acoustic barriers, inspections and maintenance checks on all equipment before use to ensure compliance with the permitted noise level, and construction works will only be conducted during the permitted hours and days.

## B. SOCIAL

### B1. Employment

As a socially responsible enterprise, the Group is responsible for both its consumers and its employees. The Group attaches great importance to its employees, as their contribution and dedication are key to the Group's sustainable business development. Employment policies are formally documented in the Employee Handbook, covering recruitment, promotion, remuneration, dismissal, etc. The Group periodically reviews its existing policies and employment practices to ensure continuous improvement of its employment standards and competitiveness in the industry.

## ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

During the Reporting Period, the Board was not aware of any material non-compliance with employment-related laws and regulations that would have a significant impact on the Group, including but not limited to the Employment Act 1955, the Employment (Amendment) Act 2022, the Minimum Wages Order 2022, the Employment (Restriction) Act 1968, the Employees Provident Fund Act 1991, the Employees' Social Security Act 1969 and the Employment Insurance System Act 2017 of Malaysia.

### Employment Practices

#### Recruitment, Promotion and Dismissal

The Group adheres to the principles of openness and fairness and has therefore adopted a robust recruitment process based on merit selection against the corresponding job criteria. Job applicants are assessed based on their suitability for the positions and potential to fulfil the Group's current and future needs, regardless of their race, gender, religion, physical disability, marital status, sexual orientation, etc.

We offer promotion and development opportunities for outperforming employees through an open and fair assessment system to explore employees' capabilities. Performance reviews are conducted annually, and employees are provided with the opportunity to openly discuss their performance and career development with their supervisors. The results of performance reviews are used for employees' salary reviews and promotion considerations.

Besides, the Group does not tolerate the dismissal of employees on any unreasonable basis. Any termination of the employment contract would be based on reasonable and lawful grounds supported by the Group's internal policies.

#### Remuneration and Benefits

The Group understands that a competitive remuneration package, together with good benefits and welfare, encourages retention and fosters a sense of belonging. The Group provides comprehensive remuneration packages for all its employees, and employees are remunerated fairly according to their contributions with reference to market practices.

The Group's remuneration packages include a basic salary, leaves as stipulated by relevant laws and regulations, medical benefits such as group hospitalisation and surgical insurance, as well as consultation and treatment by specialists, maternity benefits, bonuses, etc. The Group also provides a variety of leaves to cater to the needs of its employees, such as marriage leave, compassionate leave, paternity leave, etc. In addition, the Group has adopted the Staff Loan Policy, under which employees who have worked for more than five years are entitled to apply for staff loans.

With regards to employees' salaries, the management has established a formal written salary range for each position to determine the salary. Such documents are reviewed and approved by the management periodically to ensure salary ranges are aligned with the market. The Group also makes requisite contributions to the Employee Provident Fund ("EPF") and Social Security Organization ("SOCSO") as stipulated by relevant local laws and regulations.

## ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

During the Reporting Period, the Group's overall employee turnover rate<sup>7</sup> was approximately 14.41% (FY2024: approximately 25.41%). The employee turnover rate by gender, age group and geographical region was as follows:

Turnover rate (%) <sup>8</sup>	FY2025	FY2024
<b>By gender</b>		
Male	13.19	26.26
Female	20.00	21.71
<b>By age group</b>		
<30	13.33	50.00
30–50	14.71	26.03
>50	14.29	14.29
<b>By geographical region</b>		
Malaysia	14.41	25.41

Note(s):

- The overall employee turnover rate is calculated by dividing the number of employees leaving employment during the reporting period by the number of employees at the end of the reporting period.
- The employee turnover rate by specific category is calculated by dividing the number of employees in the specified category leaving employment during the reporting period by the number of employees in the specified category at the end of the reporting period.

### Diversity, Equal Opportunities, and Anti-discrimination

The Group recognises the value of a diverse and skilled workforce and is committed to creating and maintaining an inclusive and collaborative workplace culture in which all employees can develop and contribute to their full potential. We are dedicated to providing equal opportunity in all aspects of employment and maintaining a workplace that is free from discrimination, physical or verbal harassment against any individual based on race, religion, colour, national origin, age, sex, sexual orientation or disability.

# ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

As at 31 October 2025, the Group had a total of 111 employees (as at 31 October 2024: 122 employees) who fell within the reporting scope, all of whom were full-time employees working in Malaysia. The distribution of employees according to gender and age group was as follows:

**As at 31 October 2025**  
**Total Number of Employees by Gender**

**As at 31 October 2024**  
**Total Number of Employees by Gender**

**Total Number of Employees by Age Group**

**Total Number of Employees by Age Group**

### Work-life Balance

The Group strives to help employees achieve work-life balance and has formulated policies for regulating working hours and rest periods for employees in accordance with local employment laws. A 5-day work week with 8.5 hours is applied for office staff, while a 6-day work week with 8 hours is applied for site staff. Overtime work can only be performed with prior permission from management, and overtime wages will be paid in accordance with the provisions of the Employment Act 1955 and Employment (Amendment) Act 2022 of Malaysia.

# ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

## B2. Health and Safety

The Group is committed to providing safe and healthy working conditions for its employees to avoid work-related injury and ill health by prioritising “Safety First” in all locations where the Group carries out construction work. The Group’s Occupational Health and Safety Policy has been established in accordance with ISO 45001:2018. Besides, the Group has provided its employees with Group Hospitalisation and Surgical Insurance to reimburse employees for expenses related to treatment involving hospitalisation and surgery. The Group has also established the Emergency Preparedness And Response Procedures to ensure effective emergency management.

During the Reporting Period, the Group was not aware of any material non-compliance with health and safety-related laws and regulations that would have a significant impact on the Group, including but not limited to the Occupational Safety and Health Act 1994 and the Prevention and Control of Infectious Diseases Act 1988 of Malaysia.

In the past 3 years, including the Reporting Period, there were no reported cases of work-related fatalities. To avoid work-related accidents, the preventive measures taken are listed as follows:

- Adopt and enforce the safe operation procedure (“SOP”) specifically for all plumbing and sanitation work;
- Adopt improved edge protection and fall protection systems;
- Increase the participation of top management in safety walkabouts to at least twice a month;
- Take stringent action against any staff/subcontractor who fails to comply with site safety requirements (warning letter/termination of employment/removal from the site);
- Revise the SOP for plumbing and sanitation work periodically;
- Conduct daily inspections and briefings by the Group and trade supervisors before the commencement of high-risk job activities with an established checklist;
- Delegate a full-time supervisor to monitor, coordinate and control the workers’ work activities and behaviours;
- Provide training on safe working methods at heights and floor openings;
- Translate and demonstrate the training programme content to ensure workers understand the briefing content; and
- Conduct monthly reviews of trade worker training or briefings during Safety Committee meetings.

With the above preventive measures as well as the health and safety procedures detailed in the following section – “Occupational Health and Safety”, the Group has recorded approximately no days lost due to work-related injuries during FY2025 (FY2024: approximately 0.1 days). There were 8 cases of recorded work-related injuries, which all of them were minor and treated with basic first-aid measures.

## ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

### Occupational Health and Safety

The Group actively strengthens the occupational safety awareness of employees by providing regular in-house safety training. All employees are required to attend the safety induction course before being deployed to project sites, and only inducted employees will be issued a Security Pass by the Safety Department. All employees are required to wear the Security Pass upon entering the project sites as proof. Employees are also given fire drill training, which covers the use of fire extinguishers. Moreover, all subcontractors are required to provide personal protective equipment for all of their employees, including but not limited to safety helmets, safety vests, safety shoes, etc.

To further ensure workplace health and safety, the Group strictly prohibits any work at the site unless with the approval of the Group's Safety, Health and Environment Representatives, as outlined in the Project Safety, Health & Environmental Procedures. Besides, machinery, power tools and equipment are subject to initial, daily as well as monthly inspections to ensure normal functioning. Furthermore, a designated resting area with the approval of the Group's Safety Department, a first aid box and sufficient portable fire extinguishers are provided at every construction site. In addition, employees of subcontractors are expected to undergo a physical fitness programme prior to work, and any employees under the influence of intoxicants or drugs are strictly prohibited from work and should be directed to leave the project site immediately.

### B3. Development and Training

The valuable contribution of our talents is key to the continued success of the Group. Therefore, nurturing talents and polishing the skills of our human capital are important not only for service excellence but also to support the sustainable growth of businesses and maintain the Group's competitive edge in the industry. This is achieved through the development of training strategies that focus on creating values and serving the needs of our customers, talents and society. As such, employees are encouraged to attend internal and external training sessions and obtain professional qualifications. The Group has also established relevant policies for employee training management.

#### Training and Development

The Group provides a wide variety of training to its employees to equip them with work-related skills. Induction programmes are provided to newly recruited employees, while on-the-job training is provided to all employees in the Group. Each employee will be evaluated, and the results are recorded in a training evaluation form, covering the training type, training scope and performance. Moreover, each employee has an individual training record to monitor whether the training received was sufficient.

## ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

During the Reporting Period, approximately 14.41% (FY2024: approximately 31.15%) of its employees participated in technical and occupational safety and health training<sup>9</sup>, and the average training hours was approximately 3.35 hours<sup>10</sup> (FY2024: approximately 6.16 hours). The percentage of employees trained<sup>11</sup>, breakdown of employees trained<sup>12</sup> and average training hours<sup>13</sup> by gender and employee category were as follows:

	Percentage of employees trained (%)		Breakdown of employees trained (%)		Average training hours (hours)	
	FY2025	FY2024	FY2025	FY2024	FY2025	FY2024
<b>By gender</b>						
Male	10.99	21.21	62.50	55.26	2.32	5.47
Female	30.00	73.91	37.50	44.74	8.05	9.13
<b>By employee category</b>						
Management	5.88	60.00	6.25	31.58	3.29	11.25
Administrative staff	40.00	64.29	37.50	23.68	8.87	9.00
Technical workers	11.39	19.32	56.25	44.74	2.32	4.56

Note(s):

9. The percentage of employees trained is calculated by dividing the total number of employees trained during the reporting period by the total number of employees at the end of the reporting period.
10. The average training hours is calculated by dividing the total number of training hours during the reporting period by the total number of employees at the end of the reporting period.
11. The percentage of employees trained by category is calculated by dividing the number of employees trained in the specified category during the reporting period by the number of employees in the specified category at the end of the reporting period.
12. The breakdown of employees trained by category is calculated by dividing the number of employees trained in the specified category during the reporting period by the total number of employees trained at the end of the reporting period.
13. The average training hours by category is calculated by dividing the number of training hours for employees in the specified category during the reporting period by the number of employees in the specified category at the end of the reporting period.

## ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

### **B4. Labour Standards**

#### **Prevention of Child and Forced Labour**

Child and forced labour are strictly prohibited during the recruitment process, as defined by laws and regulations. The Group strictly abides by local laws and will not employ children under the legal working age or forced labour in accordance with the UN Declaration of Human Rights. The Group's Human Resources Department is responsible for monitoring and ensuring compliance with the latest laws and regulations that prohibit child and forced labour.

To avoid illegal employment of child and forced labour, as stipulated by the Group's recruitment process, applicants are required to fill in the "Application for Employment Form", where personal data necessary for ensuring that the applicants are over the legal working age is collected. Personal information, such as an identity card, is collected for identity verification. If any employees suspect a violation is involved, they should report to their Heads of Department or the Group's Executive Directors. Once the Group discovers any case that fails to conform to the relevant labour laws, regulations or standards, the relevant employment contract will be immediately terminated.

During the Reporting Period, the Group was not aware of any material non-compliance with child and forced labour-related laws and regulations that would have a significant impact on the Group, including but not limited to the Employment Act 1955 and the Employment (Restriction) Act 1968 of Malaysia.

### **B5. Supply Chain Management**

The Group recognises the importance of good supply chain management practices in managing environmental and social risks and regards its suppliers and subcontractors as important business partners. Regarding green supply chain management, the Group strives to engage suppliers and subcontractors that incorporate environmental and social risk considerations into their supply chain management and are socially responsible.

#### **Supplier, Subcontractor and Vendor Management**

To ensure suppliers, subcontractors and vendors have met the Group's requirements concerning quality, price, delivery, terms of payment and health and safety, all suppliers and subcontractors are required to undergo a stringent selection process reviewed by the Group's Executive Directors, Purchasing Assistant and Quantity Surveyor. Visits to potential suppliers might take place if necessary. The Group has also established internal guidelines on purchases, payment procedures and tendering processes, as detailed in the Group's Vendor & Subcontractor Management and Tender Procedure.

Besides, the Group has established an approved list of suppliers and subcontractors who deliver goods and services of acceptable quality, and such a list is regularly updated by the Purchasing Assistant and properly kept by the Quantity Surveyor. The suppliers and subcontractors on the approved list are subject to annual appraisals, where factors such as price, quality and punctuality of deliveries are taken into consideration. Suppliers and subcontractors are classified as good, average or poor upon annual appraisal, and poor suppliers or subcontractors will be de-registered from the approved list.

## ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

During the Reporting Period, the Group had a total of 584 approved vendors (FY2024: 563), all of which were engaged and evaluated under the aforementioned practices. The number of vendors by geographical region of the Group were as follows:

<b>By geographical region</b>	<b>FY2025</b>	<b>FY2024</b>
Malaysia	581	560
Mainland China	3	3
<b>Total</b>	<b>584</b>	<b>563</b>

### ESG Considerations in Supply Chain Management

Apart from requiring its suppliers, subcontractors and vendors to comply with local regulations, the Group is also aware of the importance of enhancing their environmental and safety performance. As stated in the Environmental Policy, we aspire to involve suppliers, subcontractors and vendors in the implementation of our environmental objectives. In order to minimise the adverse effect of pollution and waste on the surrounding environment, the Group's suppliers, subcontractors and vendors must follow the mitigation measures specified in the plan and the environmental impact assessment when available. The management team also regularly visits the sites to inspect the quality of the project and the environmental, health and safety conditions.

During the selection process, to promote improvements in environmental performance, suppliers, subcontractors and vendors are encouraged to consider and manage their environmental and social issues in their operations for priority consideration. The Group maintains close communication with suppliers, understands the suppliers' supply and services, resolves related supply and service issues and makes corresponding improvement measures. The Group also shares sustainable operating practices and disseminates environmental concepts, including the latest knowledge on quality safety, good employment and environmental practices.

Besides, subcontractors on the approved list will be evaluated on safety performance, such as compliance with personal protective equipment, lost time accidents and clean line on-site, to ensure subcontractors are well-aware of safety issues and have complied with the Group's safety standards and the Occupational Safety and Health Act 1994 of Malaysia.

### B6. Product Responsibility

Achieving and maintaining a high-quality standard for projects is of utmost importance for the sustainable growth of the Group. The Group believes completing works that meet or exceed our clients' expectations is crucial for job references and future business opportunities. The Group regularly controls and monitors the progress of each project in order to ensure that it delivers high-quality services and sustainable projects to our customers.

During the Reporting Period, the Board was not aware of any material non-compliance with laws and regulations concerning health and safety, advertising, labelling and privacy matters relating to products and services provided and methods of redress that would have a significant impact on the Group, including but not limited to the Personal Data Protection Act 2010 of Malaysia. Moreover, the Group has obtained the Certificate of Employment of Work (SPKK) under Section 25 of Act 520 of the Malaysian Construction Industry Development Board (LPIPM or CIDB).

## ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

### Quality Assurance

The Group has established a quality management system that has been assessed and registered in accordance with ISO 9001:2015 in order to pursue continuous improvement in quality rather than adopting a short-term and project-based approach. We have also implemented the Quality Policy and are committed to the following quality objectives:

- Complete projects within the scheduled time;
- Achieve zero customer complaints;
- Receive less than 4 corrective action requests per project in the annual internal audit; and
- Provide training for selected employees at least once a year according to their work requirements.

Besides, we conduct on-site quality checks and inspections at various stages of construction and perform incoming inspections, including visual inspections, measurements and checks against manufacturers' test certificates of the purchased materials to ensure they reach the technical specifications and are consistent with the samples provided.

Due to the Group's business nature, disclosures on the number of products sold, shipped subject to recalls for safety and health reasons and recall procedures were all not applicable.

### Protection of Intellectual Property

As at 31 October 2025, the Group has registered 3 trademarks of the Company logo in Malaysia and 1 trademark in Hong Kong. The Group has also registered 1 domain name to prevent others from using the same domain name during the subsisting registration period. The Group conducts regular checks to ensure that intellectual property rights are not being infringed upon.

### Customer Services

Being a building construction contractor focusing on the provision of building construction services, the customers of the Group are primarily main contractors, property developers, factory owners, etc. To understand our customers' needs and provide services that meet their expectations and standards, customer satisfaction surveys are distributed to ensure that any dissatisfaction related to product quality can be identified and follow-up actions can be taken on a timely basis. Besides, the Group maintains on-going communication with them through regular meetings as well as phone and email communications. During the Reporting Period, there were no material claims or complaints brought against the Group by its customers, and the cost incurred for rectifying defective works was immaterial.

### Advertising and Labelling

As the Group's operational process does not involve advertising and labelling practices, the disclosure of information relating to advertising and labelling is not applicable to the Group.

## ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

### Privacy Protection

As the Group understands that safeguarding sensitive information is essential to its success, it considers protecting customer privacy and confidential data of utmost importance. All confidential data relating to the Group's business and customer information is securely protected and may only be used for internal purposes. Employees who have access to the tender and quotation information are required to sign a confidential agreement to better protect customer privacy. Any leakage of confidential information to third parties is strictly prohibited.

### B7. Anti-corruption

The Group strives to maintain a high level of ethical corporate culture and strictly prohibits all forms of bribery, extortion, fraud and money laundering. The Group has formulated an internal policy to ensure that every employee complies with the rules of the Group in its daily operations to prevent legal violations. The Group's Code of Conduct has been formally documented to ensure every employee understands and is well-aware of the Group's ethical expectations and standards.

During the Reporting Period, there were no concluded legal cases regarding corrupt practices brought against the Group or its employees. The Group was also not aware of any material noncompliance with related laws and regulations concerning bribery, extortion, fraud and money laundering that would have a significant impact on the Group, including but not limited to the Anti-Corruption Commission Act 2009 of Malaysia.

The Group is committed to conducting all of its business in an honest and ethical manner, thereby acting professionally, fairly and with integrity in all its business dealings and relationships. Bribery and corruption are strictly prohibited, as stated in the Group's Anti-corruption Policy, which covers bribes, gifts, hospitality, facilitation payments, etc. The policy applies to all employees at all levels, including senior management, officers, trainees, etc. Moreover, employees are encouraged to provide comments and suggestions and make inquiries regarding the policy via the Human Resources Department or senior management.

### Whistle-blowing Mechanism

The Group's Whistleblowing Policy has been set up to encourage and allow employees to raise concerns about possible improprieties in matters of financial reporting, compliance, and other malpractices at the earliest opportunity. The Audit Committee has overall responsibility for the policy. Any employee shall report promptly to the Chairman of the Audit Committee of any unethical or improper practices regarding any item within the scope of the Whistleblowing Policy. All reports are treated confidentially, and the Group makes every effort to keep the employee's identity confidential.

### Anti-corruption Training

To strengthen understanding of relevant applicable laws and regulations, training regarding ethical business conduct covering topics such as integrity and discipline, confidentiality and conflict of interest is provided to all managers and above. The Board has also received internal training on material topics, such as corporate governance, connected and notifiable transactions, legal and regulatory issues and business. During the Reporting Period, 9 directors (FY2024: 7 directors) and 2 employees (FY2024: 2 employees) of the Group have completed anti-corruption training, with an average training time of approximately 1 hour (FY2024: approximately 1.5 hours).

## ENVIRONMENTAL, SOCIAL AND GOVERNANCE REPORT

### B8. Community Investment

#### Corporate Social Responsibility

The Group is committed to empowering and supporting the public through various means of social participation and contribution as part of our strategic development. We strive to nurture corporate culture and practise corporate citizenship on a daily basis. To fulfil our corporate social responsibility, the Group has adopted relevant policies on community engagement that state our selection criteria for suitable donation partners. Meanwhile, the Group also focuses on inspiring our employees' sense of social responsibility by encouraging them to participate in activities that contribute to the community.

During the Reporting Period, we continued to support our local communities through donations to charitable institutions and institutions of public character, such as schools, hospitals, volunteer firefighters and NGOs.

**TO THE MEMBERS OF RIMBACO GROUP GLOBAL LIMITED**  
*(incorporated in the Cayman Islands with limited liability)*

### OPINION

We have audited the consolidated financial statements of Rimbaco Group Global Limited (the “Company”) and its subsidiaries (hereinafter collectively referred to as the “Group”) set out on pages 90 to 154, which comprise the consolidated statement of financial position as at 31 October 2025, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 October 2025, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with IFRS Accounting Standards issued by the International Accounting Standards Board (the “IASB”) and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

### BASIS FOR OPINION

We conducted our audit in accordance with Hong Kong Standards on Auditing (“HKSA”) issued by the Hong Kong Institute of Certified Public Accountants (the “HKICPA”). Our responsibilities under those standards are further described in the Auditor’s Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the HKICPA’s Code of Ethics for Professional Accountants (the “Code”), as applicable to audits of consolidated financial statements of public interest entities. We have also fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### KEY AUDIT MATTERS

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

## INDEPENDENT AUDITOR'S REPORT

### *Revenue recognition from construction works*

Refer to note 5 to the consolidated financial statements and the accounting policies on pages 100 to 102.

#### **The key audit matter**

During the year ended 31 October 2025, the Group recognised revenue from construction works of approximately RM259,932,000.

The Group recognised contract revenue over time by measuring the progress towards complete satisfaction of the performance obligations. At the end of each reporting period, such progress is measured based on the accumulated actual cost incurred to date over the total budgeted contract cost. Accordingly, revenue recognition from construction works involves a significant degree of management estimates and judgements, with estimates being made to assess the total budgeted contract cost and measure the progress towards complete satisfaction of the performance obligation. When there are unavoidable costs of meeting the obligations under a construction contract which exceed the economic benefits expected to be received under it, the present obligation under the onerous construction contract will be recognised and measured as a provision.

We have identified the revenue recognition from construction works as a key audit matter because the amount is significant to the consolidated financial statements as a whole and there is involvement of a significant degree of judgements and estimates made by the management of the Group.

#### **How the matter was addressed in our audit**

Our audit procedures were designed to review the management's assessment, and its estimations and judgements used in the revenue recognition from construction works.

We obtained an understanding of, evaluated and tested, on a sample basis, the relevant controls in place over preparation of and revisions to the estimated transaction price and total costs for the construction contracts and the recording of actual costs incurred for each contract and estimation of provision for onerous construction contracts.

We reviewed construction contracts, variation orders and payment certificates, on a sample basis, to evaluate whether the management had made appropriate judgement in identifying the contract and performance obligations, and determining the transaction price considering the variable consideration. For projects which are expected to be loss-making, we reviewed management's assessment and assessed if the Group has recognised adequate provision for onerous contracts by comparing unavoidable costs of meeting the obligations under a contract and the economic benefits expected to be received under it.

We discussed with the project managers and the management of the Group and checked to the quotations and contracts with suppliers, on a sample basis, to assess the appropriateness of the significant cost components that make up the total budgeted contract costs. We also performed retrospective review by comparing the total actual contract costs incurred at completion against the total budgeted contract costs to assess the reasonableness of the estimates used by the management.

## INDEPENDENT AUDITOR'S REPORT

### *Revenue recognition from construction works (Continued)*

Refer to note 5 to the consolidated financial statements and the accounting policies on pages 100 to 102.

#### **The key audit matter**

#### **How the matter was addressed in our audit**

We tested the actual costs incurred on a sample basis, to underlying documents. We also tested subsequent payments made after year end and unpaid invoices in respect of the projects to assess whether management appropriately accounted for the actual costs incurred up to year end.

We recalculated the percentage of completion based on accumulated actual costs incurred to date over the total budgeted contract costs to assess the reasonableness of the estimates used by the management.

### *Loss allowance on trade receivables and contract assets*

Refer to notes 19, 20 and 30 to the consolidated financial statements and the accounting policies on pages 111 to 113.

#### **The key audit matter**

#### **How the matter was addressed in our audit**

As at 31 October 2025, the carrying amounts of trade receivables and contract assets are approximately RM39,833,000 and RM85,155,000 respectively. The related provisions for expected credit losses for trade receivables and contract assets recognised by the Group amounted to approximately RM6,047,000 and RM1,032,000 respectively.

In assessing the loss allowance made under the expected credit loss ("ECL") model, the management of the Group used judgements and estimates to determine the historical credit loss experience and forward-looking information specific to the debtors and their economic environments.

We have identified the loss allowance on trade receivables and contract assets as a key audit matter because the amount is significant to the consolidated financial statements as a whole and there is involvement of a significant degree of judgements and estimates made by the management of the Group.

Our audit procedures were designed to review the management's assessment of the loss allowance on trade receivables and contract assets made under the ECL model.

We obtained an understanding of the key internal controls on how the management assesses the loss allowance on trade receivables and contract assets under ECL model.

We obtained aging analysis of trade receivables and contract assets and testing the accuracy of information used by management by comparing individual items in the analysis with relevant supporting documents, on a sample basis.

We evaluated the reasonableness of management's judgements and estimates applied in ECL assessment by reviewing historical repayment records of relevant debtors and forward-looking information the management has taken into account, on a sample basis.

## INDEPENDENT AUDITOR'S REPORT

### INFORMATION OTHER THAN THE CONSOLIDATED FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The directors of the Company are responsible for the other information. The other information comprises all of the information included in the annual report, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### RESPONSIBILITIES OF DIRECTORS OF THE COMPANY AND AUDIT COMMITTEE FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors of the Company are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with IFRS Accounting Standards issued by the IASB and the disclosure requirements of the Hong Kong Companies Ordinance, and for such internal control as the directors of the Company determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors of the Company are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors of the Company either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

Audit Committee is responsible for overseeing the Group's financial reporting process.

## INDEPENDENT AUDITOR'S REPORT

### AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion, solely to you, as a body, in accordance with our agreed terms of engagement, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSA's will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSA's, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors of the Company.
- Conclude on the appropriateness of the Company's directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the Group financial statements. We are responsible for the direction, supervision and review of the audit work performed for purpose of the group audit. We remain solely responsible for our audit opinion.

## INDEPENDENT AUDITOR'S REPORT

We communicate with Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Lee Shun Ming.

# NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 October 2025

## 1. GENERAL INFORMATION

Rimbaco Group Global Limited (the “Company”) is incorporated in the Cayman Islands as an exempted company with limited liability on 28 February 2019 under the Companies Law, Cap. 22 (Law 3 of 1961, as consolidated and revised) of the Cayman Islands. The shares of the Company have been listed on the Main Board of The Stock Exchange of Hong Kong Limited (the “Stock Exchange”) on 28 April 2020. The Company’s immediate and ultimate holding company is RBC Venture Limited, a company incorporated in the British Virgin Islands (the “BVI”) which is ultimately owned by Mr. Low Seah Sun (“Mr. Low”), Ms. Seah Peet Hwah (“Ms. Seah”), Mr. Cheang Wye Keong (“Mr. Cheang”) and Mr. Lau Ah Cheng (“Mr. Lau”) (collectively referred to as the “Controlling Shareholders”).

The address of the Company’s registered office is Windward 3, Regatta Office Park, PO Box 1350, Grand Cayman, KY1-1108 Cayman Islands and the address of the Company’s principal place of business is 9-03-01, Jalan Ahmad Nor, Pusat Perdagangan Nova, 11600 Jelutong Penang, Malaysia. The Company has established its place of business in Hong Kong at Suite 2702, 27/F., Shui On Centre, 6–8 Harbour Road, Wanchai, Hong Kong.

The Company is an investment holding company. Its major operating subsidiaries are engaged in the provision of general contractor services in Malaysia.

The functional currency of the Company is Hong Kong dollars (“HK\$”), which is different from the functional currency of the subsidiaries and the consolidated financial statements are presented in Malaysia Ringgit (“RM”). As the Company and its subsidiaries (collectively referred to as the “Group”) mainly operate in Malaysia, the directors of the Company consider that it is appropriate to present the consolidated financial statements in RM.

## 2. APPLICATION OF AMENDMENTS TO AN IFRS ACCOUNTING STANDARD

In the current year, the Group has applied, for the first time, the following amendments to IFRS Accounting Standard issued by the International Accounting Standards Board (the “IASB”) which are effective for the Group’s financial year beginning on 1 November 2024.

Amendments to IAS 1	Classification of Liabilities as Current or Non-current
Amendments to IAS 1	Non-current Liabilities with Covenants
Amendments to IFRS 16	Lease Liability in a Sale and Leaseback
Amendments to IAS 7 and IFRS 7	Supplier Finance Arrangements

The application of the amendments to IFRSs in the current year has had no material impact on the Group’s financial performance and positions for the current and prior years and/or on the disclosures set out in these consolidated financial statements.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

<sup>3</sup> Effective for annual periods beginning on or after 1 January 2027.

<sup>4</sup> Effective for annual periods beginning on or after a date to be determined.

The directors of the Company anticipate that, the application of the new and amendments to IFRS Accounting Standards will have no material impact on the results and the financial position of the Group.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 October 2025

### 3. MATERIAL ACCOUNTING POLICY INFORMATION

The consolidated financial statements have been prepared in accordance with IFRSs issued by the IASB. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on the Stock Exchange of Hong Kong Limited and by the Hong Kong Companies Ordinance.

The consolidated financial statements have been prepared on the historical cost basis at the end of each reporting period.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether that price is directly observable or estimated using another valuation technique. Details of fair value measurement are explained in the accounting policies set out below.

The material accounting policies are set out below.

#### *Basis of consolidation*

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. If a subsidiary prepares its financial statements using accounting policies other than those adopted in the consolidated financial statements for like transactions and events in similar circumstances, appropriate adjustments are made to that subsidiary's financial statements in preparing the consolidated financial statements to ensure conformity with the Group's accounting policies.

Control is achieved where the Group has: (i) the power over the investee; (ii) exposure, or rights, to variable returns from its involvement with the investee; and (iii) the ability to use its power over the investee to affect the amount of the Group's returns.

The Group reassesses whether it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control stated above.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary.

Income and expenses of subsidiaries are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between entities of the Group are eliminated in full on consolidation.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 October 2025

### 3. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

#### *Interest in an associate*

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

The results and assets and liabilities of associates are incorporated in these consolidated financial statements using the equity method. Under the equity method, investment in an associate is initially recognised at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the associate. If the Group's share of losses of an associate equals or exceeds its interest in the associate, which includes any long-term interests that, in substance, form part of the Group's net investment in the associate, the Group discontinues recognising its share of further losses. Additional losses are provided for, and a liability is recognised, only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate.

An investment in an associate is accounted for using the equity method from the date on which the investee becomes an associate. On acquisition of the investment in an associate, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill and is included in the carrying amount of the investment.

Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised immediately in profit or loss in the period in which the investment is acquired.

The requirements of IAS 36 Impairment of Assets ("IAS 36") are applied to determine whether it is necessary to recognise any impairment loss with respect to the Group's investment in an associate. When necessary, the entire carrying amount of the investment (including goodwill) is tested for impairment as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount. Any impairment loss recognised is not allocated to any asset, including goodwill that forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised to the extent that the recoverable amount of the net investment subsequently increases. When the investment ceases to be an associate upon the Group losing significant influence over the associate, the Group discontinues to apply equity method and any difference between the proceeds from disposing of the associate and the carrying amount of the investment at the date the equity method was discontinued is recognised in profit or loss.

Gains and losses resulting from transactions between the Group and its associate are recognised in consolidated financial statements only to the extent of interests in the associate that are unrelated to the Group. The Group's share in the associate's gains or losses resulting from these transactions is eliminated.

### 3. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

#### *Revenue recognition*

Revenue is recognised to depict the transfer of promised services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those services. Specifically, the Group uses a 5-step approach to revenue recognition:

- Step 1: Identify the contract(s) with a customer
- Step 2: Identify the performance obligations in the contract
- Step 3: Determine the transaction price
- Step 4: Allocate the transaction price to the performance obligations in the contract
- Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation

The Group recognised revenue when (or as) a performance obligation is satisfied, i.e. when “control” of the goods or services underlying the particular performance obligation is transferred to customers.

A performance obligation represents a good or service (or a bundle of goods or services) that is distinct or a series of distinct goods or services that are substantially the same.

Control is transferred over time and revenue is recognised over time by reference to the progress towards complete satisfaction of the relevant performance obligation if one of the following criteria is met:

- The customer simultaneously receives and consumes the benefits provided by the Group’s performance as the Group performs;
- The Group’s performance creates and enhances an asset that the customer controls as the asset is created and enhanced; or
- The Group’s performance does not create an asset with an alternative use to the Group and the Group has an enforceable right to payment for performance completed to date.

Otherwise, revenue is recognised at a point in time when the customer obtains control of the distinct goods or service.

Revenue is measured based on the consideration to which the Group expects to be entitled in a contract with a customer, excludes amounts collected on behalf of third parties, discounts and sales related taxes.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 October 2025

### 3. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

#### *Revenue recognition* (Continued)

##### **Contract assets and contract liabilities**

A contract asset represents the Group's right to consideration in exchange for goods or services that the Group has transferred to a customer that is not yet unconditional. It is assessed for impairment in accordance with IFRS 9 Financial Instruments ("IFRS 9"). In contrast, a receivable represents the Group's unconditional right to consideration, i.e. only the passage of time is required before payment of that consideration is due.

A contract liability represents the Group's obligation to transfer goods or services to a customer for which the Group has received consideration from the customer. A contract liability would also be recognised if the Group has an unconditional right to receive consideration before the Group recognises the related revenue. In such cases, a corresponding receivable would also be recognised.

For a single contract with the customer, either a net contract asset or a net contract liability is presented. For multiple contracts, contract assets and contract liabilities of unrelated contracts are not presented on a net basis.

The Group recognised revenue from building construction services.

##### **Building construction services**

A contract with a customer is classified by the Group as a construction contract when the contract relates to work on an asset under the control of the customer and therefore the Group's construction activities create or enhance an asset under the customer's control.

When the outcome of a construction contract can be reasonably measured, revenue from the contract is recognised over time using the cost-to-cost method, i.e. based on the proportion of the actual costs incurred relative to the estimated total costs. When the outcome of the contract cannot be reasonably measured, revenue is recognised only to the extent of contract costs incurred that are expected to be recovered.

If at any time the costs to complete the contract are estimated to exceed the remaining amount of the consideration under the contract, then a provision is recognised in accordance with an onerous contract. An onerous contract exists when the Group has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received from the contract. Provisions for onerous contracts are measured at the present value of the lower of the expected cost of terminating the contract and the net cost of continuing with the contract.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 October 2025

### 3. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

#### *Revenue recognition* (Continued)

##### **Variable consideration**

For the consideration promised in a contract includes a variable amount, the Group estimates the amount of consideration to which the Group will be entitled in exchange for transferring the promised services to a customer.

The estimated amount of variable consideration is included in the transaction price only to the extent that it is highly probable that such an inclusion will not result in a significant revenue reversal in the future when the uncertainty associated with the variable consideration is subsequently resolved.

At the end of each reporting period, the Group updates the estimated transaction price (including updating its assessment of whether an estimate of variable consideration is constrained) to represent faithfully the circumstances during the reporting period.

##### **Principal versus agent**

When another party is involved in providing goods or services to a customer, the Group determines whether the nature of its promise is a performance obligation to provide the specified goods or services itself (i.e. the Group is a principal) or to arrange for those goods or services to be provided by the other party (i.e. the Group is an agent).

The Group is a principal if it controls the specified good or service before that good or service is transferred to a customer.

The Group is an agent if its performance obligation is to arrange for the provision of the specified good or service by another party. In this case, the Group does not control the specified good or service provided by another party before that good or service is transferred to the customer. When the Group acts as an agent, it recognises revenue in the amount of any fee or commission to which it expects to be entitled in exchange for arranging for the specified goods or services to be provided by the other party.

##### **Leasing**

###### **Definition of a lease**

A contract is, or contains, a lease if the contract conveys a right to control the use of an identified asset for a period of time in exchange for consideration.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 October 2025

### 3. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

#### *Leasing* (Continued)

##### The Group as lessee

For contracts entered into or modified on or after the date of initial application of IFRS 16 Leases, the Group assesses whether a contract is or contains a lease, at inception of the contract. The Group recognises a right-of-use asset and a corresponding lease liability with respect to all lease arrangements in which it is the lessee, except for short-term leases (defined as leases with a lease term of 12 months or less from the commencement date and do not contain a purchase option) and leases of low value assets. For these leases, the Group recognises the lease payments as an operating expense on a straight-line basis over the term of the lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased assets are consumed.

##### Lease liabilities

At the commencement date of a lease, the Group recognises and measures lease liability at the present value of the lease payments that are not paid at that date. The lease payments are discounted by using the interest rate implicit in the lease. If this rate cannot be readily determined, the Group uses its incremental borrowing rate.

Lease payments included in the measurement of the lease liability comprise fixed lease payments (including in-substance fixed payments).

The lease liability is presented as a separate line in the consolidated statement of financial position.

The lease liability is subsequently measured by increasing the carrying amount to reflect interest on the lease liability (using the effective interest method) and by reducing the carrying amount to reflect the lease payments made.

Lease liability is remeasured (and with a corresponding adjustment to the related right-of-use asset) whenever the lease term has changed or there is a significant event or change in circumstances resulting in a change in the assessment of exercise of a purchase option, in which case the lease liability is remeasured by discounting the revised lease payments using revised discount rate.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 October 2025

### 3. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

#### *Leasing* (Continued)

##### The Group as lessee (Continued)

##### Right-of-use assets

The right-of-use assets comprise the initial measurement of the corresponding lease liability, lease payments made at or before the commencement date and any initial direct costs, less lease incentives received. Whenever the Group incurs an obligation for costs to dismantle and remove a leased asset, restore the site on which it is located or restore the underlying asset to the condition required by the terms and conditions of the lease, a provision is recognised and measured under IAS 37 Provision, Contingent Liabilities and Contingent Assets. The costs are included in the related right-of-use asset.

Right-of-use assets are subsequently measured at cost less accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. They are depreciated over the shorter period of lease term and useful life of the underlying asset. If a lease transfers ownership of the underlying asset or the cost of the right-of-use asset reflects that the Group expects to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. The depreciation starts at the commencement date of the lease.

The Group presents right-of-use assets as a separate line in the consolidated statement of financial position.

The Group applies IAS 36 to determine whether a right-of-use asset is impaired and accounted for any identified impairment loss.

##### The Group as lessor

The Group enters into lease agreements as a lessor with respect to some of its investment properties. Leases for which the Group is a lessor are classified as finance or operating leases. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

When a contract includes both lease and non-lease components, the Group applies IFRS 15 Revenue from Contracts with Customers ("IFRS 15") to allocate the consideration under the contract to each component.

Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 October 2025

### 3. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

#### *Foreign currencies*

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recognised at the rates of exchanges prevailing on the dates of the transactions. At the end of the reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the retranslation of monetary items, are recognised in profit or loss in the period in which they arise.

For the purposes of presenting the consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into the presentation currency of the Group using exchange rates prevailing at the end of each reporting period. Income and expenses items are translated at the average exchange rates for the year. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity under the heading of translation reserve.

#### *Retirement benefit costs*

Payments to defined contribution benefit plans are recognised as an expense when employees have rendered service entitling them to the contributions.

#### *Short-term employee benefits*

A liability is recognised for benefits accruing to employees in respect of wages and salaries, annual leave and sick leave in the period the related service is rendered at the undiscounted amount of the benefits expected to be paid in exchange for that service.

Liabilities recognised in respect of short-term employee benefits are measured at the undiscounted amount of the benefits expected to be paid in exchange for the related service.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 October 2025

### 3. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

#### *Taxation*

Income tax expense represents the sum of the tax currently payable and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before tax as reported in the consolidated statement of profit or loss and other comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax base used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from goodwill or from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit and at the time of the transaction does not give rise to equal taxable and deductible temporary differences.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and associates, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 October 2025

### 3. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

#### *Taxation (Continued)*

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority.

For leasing transactions in which the tax deductions are attributable to the lease liabilities, the Group applies IAS 12 Income Taxes requirements to the lease liabilities and the related assets separately. The Group recognises a deferred tax asset related to lease liabilities to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised and deferred tax liability for all taxable temporary differences.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income as directly in equity, respectively.

#### *Property, plant and equipment*

Property, plant and equipment are stated in the consolidated statement of financial position at cost less subsequent accumulated depreciation and subsequent accumulated impairment losses, if any.

Freehold lands are not depreciated and are measured at cost less subsequent accumulated impairment losses.

Depreciation is recognised so as to write off the cost of items of property, plant and equipment other than freehold lands less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

#### *Investment properties*

Investment properties are properties held to earn rentals and/or for capital appreciation including properties under construction for such purposes.

### 3. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

#### *Investment properties* (Continued)

Investment properties are initially measured at cost, including any directly attributable expenditure. Subsequent to initial recognition, investment properties are stated at cost less subsequent accumulated depreciation and any accumulated impairment losses. Depreciation is recognised so as to write off the cost of investment properties over their estimated useful lives and after taking into account of their estimated residual value, using the straight-line method.

#### *Cash and cash equivalents*

In the consolidated statement of financial position, cash and bank balances comprise (i.e. cash on hand and demand deposits) and cash equivalents. Cash equivalents are short-term (generally with original maturity of three months or less and demand deposits) and cash equivalents. Cash equivalents are short-term (generally with original maturity of three months or less), highly liquid investments that are readily convertible to a known amount of cash and which are subject to an insignificant risk of changes in value. Cash equivalents are held for purpose of meeting short-term cash commitments rather for investment or other purposes.

For the purpose of the consolidated statement of cash flows, cash and cash equivalents consist of bank balances as defined above.

#### *Financial instruments*

Financial assets and financial liabilities are recognised in the consolidated statement of financial position when a group entity becomes a party to the contractual provisions of the instrument.

Financial assets and financial liabilities are initially measured at fair value, except for trade receivables arising from contracts with customers which are initially measured in accordance with IFRS 15. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition.

#### *Financial assets*

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

All recognised financial assets are subsequently measured in their entirety at either amortised cost or fair value, depending on the classification of the financial assets. Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income ("FVTOCI"), and fair value through profit or loss ("FVTPL").

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them.

#### *Financial instruments* (Continued)

#### **Financial assets** (Continued)

#### Financial assets at amortised cost (debt instruments)

The Group measures financial assets subsequently at amortised cost if both of the following conditions are met:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at amortised cost are subsequently measured using the effective interest method and are subject to impairment.

#### (i) *Amortised cost and effective interest method*

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period.

For financial assets, the effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) excluding expected credit losses, through the expected life of the debt instrument, or, where appropriate, a shorter period, to the gross carrying amount of the debt instrument on initial recognition.

The amortised cost of a financial asset is the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, adjusted for any loss allowance. The gross carrying amount of a financial asset is the amortised cost of a financial asset before adjusting for any loss allowance.

Interest income is recognised in profit or loss and is included in the "Other income, gain and loss" line item (note 6).

#### Financial assets at FVTPL

Financial assets that do not meet the criteria for being measured at amortised cost or FVTOCI are measured at FVTPL. Specifically:

- Investments in equity instruments are classified as at FVTPL, unless the Group designates an equity investment that is neither held for trading nor a contingent consideration arising from a business combination as at FVTOCI on initial recognition.
- Debt instruments that do not meet the amortised cost criteria or the FVTOCI criteria are classified as at FVTPL. In addition, debt instruments that meet either the amortised cost criteria or the FVTOCI criteria may be designated as at FVTPL upon initial recognition if such designation eliminates or significantly reduces a measurement or recognition inconsistency that would arise from measuring assets or liabilities or recognising the gains and losses on them on different bases. The Group has not designated any debt instruments as at FVTPL.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any fair value gains or losses recognised in profit or loss to the extent they are not part of a designated hedging relationship. The net gain or loss recognised in profit or loss excludes any dividend or interest earned on the financial asset and is included in the other income, gain and loss.

### 3. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

#### *Financial instruments* (Continued)

##### **Financial assets** (Continued)

##### **Impairment of financial assets**

The Group always recognises lifetime expected credit losses (“ECL”) for trade receivables and contract assets. The expected credit losses on these financial assets are estimated using a provision matrix based on the Group’s historical credit loss experience and forward looking information that is available without undue cost or effort.

For all other financial instruments, the Group measures the loss allowance equal to 12-month ECL, unless when there is a significant increase in credit risk since initial recognition, the Group recognises lifetime ECL. The assessment of whether lifetime ECL should be recognised is based on significant increase in the likelihood or risk of a default occurring since initial recognition.

##### *Significant increase in credit risk*

In assessing whether the credit risk on a financial instrument has increased significantly since initial recognition, the Group compares the risk of a default occurring on the financial instrument as at the reporting date with the risk of a default occurring on the financial instrument as at the date of initial recognition. In making this assessment, the Group considers both quantitative and qualitative information that is reasonable and supportable, including historical experience and forward-looking information that is available without undue cost or effort. Forward-looking information considered various external sources of actual and forecast economic information that relate to the Group’s operations.

In particular, the following information is taken into account when assessing whether credit risk has increased significantly since initial recognition:

- an actual or expected significant deterioration in the financial instrument’s external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor’s ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor; and
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor’s ability to meet its debt obligations.

#### *Financial instruments* (Continued)

##### **Financial assets** (Continued)

##### **Impairment of financial assets** (Continued)

##### *Significant increase in credit risk* (Continued)

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk on a financial asset has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

Despite the foregoing, the Group assumes that the credit risk on a debt instrument has not increased significantly since initial recognition if the debt instrument is determined to have low credit risk at the reporting date. A debt instrument is determined to have low credit risk if i) the debt instrument has a low risk of default, ii) the debtor has a strong capacity to meet its contractual cash flow obligations in the near term, and iii) adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfill its contractual cash flow obligations.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

##### *Definition of default*

The Group considers the following as constituting an event of default for internal credit risk management purposes as historical experience indicates that receivables that meet either of the following criteria are generally not recoverable:

- when there is a breach of financial covenants by the debtor; or
- information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

Irrespective of the above analysis, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

#### *Financial instruments* (Continued)

#### *Financial assets* (Continued)

#### *Impairment of financial assets* (Continued)

##### *Credit-impaired financial assets*

A financial asset is credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- significant financial difficulty of the issuer or the customer;
- a breach of contract, such as a default or past due event;
- the lender(s) of the customer, for economic or contractual reasons relating to the customer's financial difficulty, having granted to the customer a concession(s) that the lender(s) would not otherwise consider; or
- it is becoming probable that the customer will enter bankruptcy or other financial reorganisation.

##### *Write-off policy*

The Group writes off a financial asset when there is information indicating that the debtor is in severe financial difficulty and there is no realistic prospect of recovery, e.g. when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognised in profit or loss.

##### *Measurement and recognition of ECL*

The measurement of ECL is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information as described above. As for the exposure at default, for financial assets, this is represented by the assets' gross carrying amount at the reporting date.

For financial assets, the ECL is estimated as the difference between all contractual cash flows that are due to the Group in accordance with the contract and all the cash flows that the Group expects to receive, discounted at the original effective interest rate.

If the Group has measured the loss allowance for a financial instrument at an amount equal to lifetime ECL in the previous reporting period, but determines at the current reporting date that the conditions for lifetime ECL are no longer met, the Group measures the loss allowance at an amount equal to 12-month ECL at the current reporting date, except for assets for which simplified approach was used.

The Group recognises an impairment gain or loss in profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account.

### 3. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

#### *Financial instruments* (Continued)

##### **Financial assets** (Continued)

##### **Derecognition of financial assets**

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another party.

On derecognition of a financial asset measured at amortised cost, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

##### **Financial liabilities and equity instruments**

##### **Classification as debt or equity**

Debt and equity instruments issued by a group entity are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

##### **Equity instruments**

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a group entity are recognised at the proceeds received, net of direct issue costs.

##### **Financial liabilities**

All financial liabilities are subsequently measured at amortised cost using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortised cost of a financial liability.

##### *Derecognition of financial liabilities*

The Group derecognises financial liabilities when, and only when, the Group's obligations are discharged, cancelled or they expire. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

### 3. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

#### *Provisions*

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that the Group will be required to settle that obligation, and a reliable estimate can be made of the amount of the obligation.

Provisions are measured at the best estimate of the consideration required to settle the present obligation at the end of each reporting period, taking into account the risks and uncertainties surrounding the obligation. When a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows (where the effect of the time value of money is material).

#### *Onerous contracts*

Present obligations arising under onerous contracts are recognised and measured as provisions. An onerous contract is considered to exist where the Group has a contract under which the unavoidable costs of meeting the obligations under the contract exceed the economic benefits expected to be received under it.

#### *Impairment losses on property, plant and equipment and right-of-use assets*

At the end of the reporting period, the Group reviews the carrying amounts of its property, plant and equipment and right-of-use assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss, if any.

The recoverable amount of property, plant and equipment and right-of-use assets are estimated individually. When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs. Where a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs of disposal and value-in-use. In assessing value-in-use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset (or a cash-generating unit) for which the estimates of future cash flows have not been adjusted.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 October 2025

### 3. MATERIAL ACCOUNTING POLICY INFORMATION (Continued)

#### *Impairment losses on property, plant and equipment and right-of-use assets (Continued)*

If the recoverable amount of an asset (or a cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or the cash-generating unit) is reduced to its recoverable amount. For corporate assets or portion of corporate assets which cannot be allocated on a reasonable and consistent basis to a cash-generating unit, the Group compares the carrying amount of a group of cash-generating units, including the carrying amounts of the corporate assets or portion of corporate assets allocated to that group of cash-generating units, with the recoverable amount of the group of cash-generating units. In allocating the impairment loss, the impairment loss is allocated first to reduce the carrying amount of any goodwill (if applicable) and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit or the group of cash-generating units. The carrying amount of an asset is not reduced below the highest of its fair value less costs of disposal (if measurable), its value in use (if determinable) and zero. The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit or the group of cash-generating units. An impairment loss is recognised as expense immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or the cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or the cash-generating unit) in prior years. A reversal of an impairment loss is recognised as income immediately in profit or loss.

#### *Fair value measurement*

When measuring fair value except for the Group's leasing transactions, the Group takes into account the characteristics of the asset or liability if market participants would take those characteristics into account when pricing the asset or liability at the measurement date.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. Specifically, the Group categorised the fair value measurements into three levels, based on the characteristics of inputs, as follow:

- Level 1 – Fair value measurements are those derived from quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 – Fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3 – Fair value measurements are those derived from valuation techniques that include input for the asset or liability that are not based on observable market data (unobservable inputs).

At the end of the reporting period, the Group determines whether transfer occur between levels of the fair value hierarchy for assets and liabilities which are measured at fair value on recurring basis by reviewing their respective fair value measurement.

### 4. KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in note 3, the directors of the Company are required to make judgements, estimates and assumptions about the amounts of assets, liabilities, revenue and expenses reported and disclosures made in the consolidated financial statements. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

#### *Key sources of estimation uncertainty*

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

#### **Revenue recognition from contracts with customers**

The Group recognises contract revenue and costs by reference to the stage of completion of the contract activity at the end of the reporting period, measured based on the proportion of contract costs incurred for work performed to date relative to the estimated total contract costs. Accordingly, revenue recognition involves a significant degree of judgment, with estimates being made to assess the total contract costs and stage of completion of the contract to provide appropriately for loss making contracts.

The management estimates the amount of foreseeable losses or attributable profits of contract work including construction materials costs, subcontracting costs and labour costs based on the latest available budgets of the contracts prepared by project team with reference to the overall performance of each contract work and the management's best estimates and judgements.

Due to the contracting nature of the business, revenue recognition involves a significant degree of judgement. Notwithstanding that the management reviews and revises the estimates of contract costs for the contract of building construction services as the contract progresses, the actual outcome of the contract in terms of its total costs may be higher or lower than the estimates and this will affect the revenue and profit recognised.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 4. KEY SOURCES OF ESTIMATION UNCERTAINTY (Continued)

#### *Key sources of estimation uncertainty* (Continued)

##### **Loss allowances on trade receivables, other receivables and deposits and contract assets**

The loss allowances on trade receivables, other receivables and deposits and contract assets are based on assumptions about ECL. The Group uses judgement in making these assumptions and selecting the inputs to the impairment calculation, based on the number of days that an individual receivable is outstanding as well as the Group's historical experience and forward-looking information at the end of the reporting period. Changes in these assumptions and estimates could materially affect the result of the assessment and it may be necessary to make additional impairment charge to the consolidated statement of profit or loss and other comprehensive income. At 31 October 2025, the carrying amount of trade receivables, other receivables and deposits, and contract assets are approximately RM39,833,000 (2024: RM85,675,000), RM15,227,000 (2024: RM11,435,000) and RM85,155,000 (2024: RM82,228,000) respectively. As at 31 October 2025, the related provisions for trade receivables, other receivables and contract assets recognised by the Group amounted to approximately RM6,047,000 (2024: RM4,730,000), RM716,000 (2024: RM695,000) and RM1,032,000 (2024: RM1,862,000) respectively.

##### **Estimation of provision for onerous construction contracts**

The Group's management estimates the amount of provision for onerous construction contracts based on the management budgets prepared for the construction works. Budgeted construction income is determined in accordance with the terms set out in the relevant contracts. Budgeted construction costs which mainly comprise subcontracting cost, cost of materials and staff costs are prepared by management on the basis of quotations provided by the major contractors, suppliers and vendors involved, and the experience of the management. Management conducts periodic review on the management budgets by reviewing the actual amounts incurred. Items that will subject to significant variances and impact the amount of provision of onerous construction contracts include the changes in estimations or the actual costs incurred for materials, staff costs, the amount of variation orders and claims as compared to management's budget and such provision for onerous construction contracts will be recognised immediately in the consolidated statement of profit or loss and other comprehensive income. Such significant estimate may have impact on the profit or loss recognised in each period.

During the years ended 31 October 2025 and 2024, no provision for onerous contracts was made.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 5. REVENUE AND SEGMENT INFORMATION

Revenue represents revenue arising from provision of building construction services for the year.

The Group determines its operating segments based on the reports reviewed by the chief operating decision maker (the "CODM"), being the executive directors of the Company for the purposes of resources allocation and assessment of segment performance focuses on types of services delivered or provided. For management purpose, the Group operates in one business unit based on the services provided, and its sole operating segment is the provision of building construction services. The CODM monitors the revenue, results, assets and liabilities of its business unit as a whole and regularly reviews financial information prepared in accordance with the accounting policies which conform with IFRSs and consistently presented in this report, and without further discrete financial information. The Group has one reportable segment, which is the provision of general contractor services in Malaysia. Accordingly, no analysis of segment information other than entity-wide information is presented.

An analysis of the Group's revenue for the year is as follows:

	Year ended 31 October	
	2025 RM'000	2024 RM'000
Revenue from contracts with customers recognised over time and disaggregated by types of building construction services:

### 9. INCOME TAX EXPENSE (Continued)

Malaysian Corporate Income Tax is calculated at the statutory tax rate of 24% on the estimated assessable profit for the years ended 31 October 2025 and 2024.

No provision for Hong Kong Profits Tax has been made as the Group's income neither arises in, nor is derived from, Hong Kong.

Taxation arising in other jurisdiction is calculated at the rates prevailing in the relevant jurisdiction.

Details of deferred taxation are set out in note 24.

The income tax expense for the year can be reconciled to the profit (loss) before tax per the consolidated statement of profit or loss and other comprehensive income as follows:

	2025 RM'000	2024 RM'000
Profit (loss) before tax	6,849	(754)
Tax charge at Malaysian Corporate Income Tax Rate of 24%	1,644	(181)

The buildings included in investment properties are depreciated on a straight-line basis over their estimated useful lives as follows:

Buildings 50 years

All of the Group's property interests in freehold land and buildings as shown above to earn rentals or for capital appreciation purposes are measured using the cost model and classified and accounted for as investment properties.

The fair value of the Group's investment properties at 31 October 2025, all of which is measured at Level 3 of the fair value measurements as set out in note 3, was approximately RM16,210,000 (2024: RM5,963,000). The fair value has been arrived at based on a valuation carried out by an independent qualified professional valuers not connected with the Group.

The valuation was determined by reference to market observable transactions for similar properties, mainly adjusted for differences in the location and condition of the investment properties. There has been no change to the valuation technique for both years ended 31 October 2025 and 2024.

Additions to the investment properties for the year ended 31 October 2025 was RM20,118,000 (2024: nil), due to set-off against the trade receivables.

### 16. LEASES (Continued)

#### (i) Right-of-use assets (Continued)

The above right-of-use assets are depreciated on a straight-line basis over their estimated useful life or lease term as follows:

Buildings over the lease terms of 1 to 3 years

Lease terms are negotiated on an individual basis and contain various different terms and conditions. The lease arrangements do not impose any covenants other than the security interests in leased assets that are held by the lessor.

Additions to the right-of-use assets for the year ended 31 October 2024 amounted to approximately RM187,000 (2025: nil), due to new leases of buildings.

During the year ended 31 October 2024, the Group entered into a number of new lease agreements of buildings and recognised lease liabilities of approximately RM187,000 (2025: nil).

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

For the year ended 31 October 2025

### 16. LEASES (Continued)

#### (ii) Lease liabilities (Continued)

The Group leases properties for operation and these lease liabilities were measured at the present value of the lease payments that are not yet paid. All leases are entered at fixed prices. The Group does not face a significant liquidity risk with regard to its lease liabilities. Lease liabilities are monitored within the Group's treasury function.

Extension options are included in certain lease agreements entered by the Group. Certain periods covered by extension options were included in these lease terms as the Group were reasonably certain to exercise the options.

The total cash outflows for leases including the payments of lease liabilities for the year ended 31 October 2025 was RM556,000 (2024: RM777,000).

### 19. TRADE AND OTHER RECEIVABLES (Continued)

Notes:

- (a) During the year, the Group has offset trade receivables of RM22,949,000 with a trade debtor for two pieces of land, 13 units of properties and cash consideration of RM2,831,000 under settlement agreement. Details are set out in the Company's announcement of the Company dated 20 December 2024.
- (b) Out of the total balance of RM15,557,000 (2024: RM11,580,000) in other receivables, RM15,444,000 (2024: RM11,353,000) represents the amount due from a subcontractor. During the year ended 31 October 2025, other receivables amounted to RM63,910,000 (2024: RM50,248,000) were offset against trade payables at the equivalent amount, reflecting a net position in the consolidated financial statements.

The Group allows an average credit period of not longer than 60 days to its customers. The Group may at its discretion grant a longer credit period to specific customers on a case-by-case basis.

The Group does not hold any collateral over its trade and other receivables. The following is an aged analysis of trade receivables net of allowance for impairment of trade receivables presented based on the date of billing documents, at the end of the reporting period.

	As at 31 October

### 20. CONTRACT ASSETS AND CONTRACT LIABILITIES

#### (a) Contract assets

	Notes	As at 31 October	
		2025 RM'000	2024 RM'000
Analysed as current:			
Unbilled revenue of construction contracts	(i)	49,825	46,348
Retention receivables of construction contracts	(ii)	36,362	37,742
		86,187	84,090
Less: loss allowance on contract assets		(1,032)	(1,862)
		85,155	82,228

Notes:

- (i) Unbilled revenue included in contract assets represents the Group's right to receive consideration for work completed but not yet billed because the rights are conditional upon the satisfaction by the customers on the construction work completed by the Group and the work is pending for the certification by the customers. The contract assets are transferred to the trade receivables when the rights become unconditional, which is typically at the time the Group obtains the certification of the completed construction work from the customers.
- (ii) Retention receivables included in contract assets represents the Group's right to receive consideration for work performed and not yet billed because the rights are conditional on the satisfaction of the service quality by the customers over a certain period as stipulated in the contracts. The contract assets are transferred to the trade receivables when the rights become unconditional, which is typically at the expiry date of the period for the provision of assurance by the Group on the service quality of the construction work performed by the Group.

The retention receivables of construction contracts to be settled based on the date of completion of construction projects/expiry of the defect liability period, at end of each reporting period are as follows:

	As at 31 October	
	2025 RM'000	2024 RM'000
Retention receivables of construction contracts		
Due within one year	23,982	11,457
Due more than one year, but not exceeding two years	11,333	22,894
Due more than two years, but not exceeding five years	1,047	3,391
	36,362	37,742

Details of impairment assessment of contract assets are set out in note 30.

## NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

### 20. CONTRACT ASSETS AND CONTRACT LIABILITIES (Continued)

#### (b) Contract liabilities

	As at 31 October	
	2025 RM'000	2024 RM'000
Advances from customers of building construction contracts	23,498	2,554

When the Group receives a deposit before the construction work commences, this will give rise to contract liabilities at the start of a contract, until the revenue recognised on the relevant contract exceeds the amount of the deposit.

Revenue from building construction contracts recognised during the year ended 31 October 2025 that was included in the contract liabilities at the beginning of the year is approximately RM2,554,000 (2024: RM36,049,000).

### 21. RESTRICTED BANK DEPOSITS/BANK BALANCES AND CASH

Restricted bank deposits are placed with banks to secure general banking facilities granted to the Group. As at 31 October 2025, these deposits carry the interest rate ranged from 2.0% to 2.9% (2024: 2.3% to 3.7%) per annum. The amounts are denominated in RM.

Bank balances and cash comprise bank balances and cash on hand and time deposits with original maturity of three months or less. Bank balances carried interest at prevailing market rates based on daily bank deposit rate for the years ended 31 October 2025 and 2024. As at 31 October 2025, the interest rates of these bank deposits ranged from 0.05% to 4.0% (2024: 0.6% to 2.7%) per annum.

### 23. PROVISIONS

#### *Provision for onerous contracts*

The provision was made for onerous contracts for construction works performed by the Group. Under these contracts, the unavoidable costs of meeting the obligations exceed the economic benefits expected to be received. Consequently, a provision for onerous contracts was recognised in the consolidated statement of profit or loss and other comprehensive income. The provision will be utilised through fulfilling the obligations under the construction contracts. Movements during the years ended 31 October 2025 and 2024 are set out below:

### 26. PERFORMANCE BONDS AND GUARANTEE

#### (a) Performance bonds

	As at 31 October	
	2025 RM'000	2024 RM'000
Performance bonds for construction contracts in favour of customers	26,229	16,802

The above performance bonds were given by banks in favour of some of Group's customers as security for the due performance and observance of the Group's obligations under the construction contracts entered into between the Group and its customers. If the Group fails to provide satisfactory performance to its customers to whom performance bonds have been given, such customers may demand the banks to pay to them the sum or sums stipulated in such demand. The Group will then become liable to compensate such banks accordingly. The performance bonds will be released upon completion of the contract work for the relevant customers. As at 31 October 2025 and 2024, certain of the Group's performance bonds were guaranteed by the Company.

#### (b) Completion guarantee

### 27. RETIREMENT BENEFITS PLAN

The Group participates in the Employee Provident Fund (“EPF”) for its qualifying employees in Malaysia. The assets of the EPF are held separately from those of the Group in funds under the control of an independent trustee. The only obligation of the Group with respect to the EPF is to make the required contributions under the scheme. No forfeited contribution is available to reduce the contribution payable in the future years. The Group contributes 12% of the relevant payroll costs to the EPF for both years, 13% for monthly relevant income of RM5,000 or above.

The total cost of approximately RM991,000 (2024: RM1,116,000) charged to profit or loss represents contribution paid or payable to the above scheme by the Group in respect of the current accounting period.

### 28. RELATED PARTY TRANSACTIONS

### 29. CAPITAL RISK MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to shareholders through the optimisation of the debt and equity balances. The Group's overall strategy remains unchanged from prior year.

The capital structure of the Group consists of bank balances and cash and equity attributable to owners of the Company, comprising the share capital, share premium, merger reserve, and retained earnings of the Group.

The directors of the Company regularly review and manage the Group's capital structure. As part of this review, the directors of the Company consider the cost of capital and risks associated with each class of capital. Based on recommendations of the directors of the Company, the Group will balance its overall capital structure through the payment of dividends.

### 30. FINANCIAL INSTRUMENTS

#### (a) Categories of financial instruments

	2025 RM'000	2024 RM'000
<b>Financial assets</b>		
Financial assets at amortised cost	115,382	171,294
Financial assets at FVTPL	68	68
<b>Financial liabilities</b>		
Financial liabilities at amortised cost	89,360	136,777

#### (b) Financial risk management objectives and policies

The Group's major financial instruments include trade and other receivables, restricted bank deposits, bank balances and cash, other non-current assets and trade, bills and other payables. Details of the financial instruments are disclosed in respective notes. The risks associated with these financial instruments include market risk (interest rate risk), credit risk and liquidity risk. The policies on how to mitigate these risks are set out below. The management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

##### Interest rate risk

The Group is exposed to cash flow interest rate risk in relation to variable-rate restricted bank deposits and bank balances due to the fluctuation of the prevailing market interest rate.

The effect on changes in interest rate to the Group on interest-bearing financial instrument is insignificant and therefore sensitivity analysis on interest rate risk is not presented.

### 30. FINANCIAL INSTRUMENTS (Continued)

#### (b) Financial risk management objectives and policies (Continued)

##### Credit risk

As at 31 October 2025 and 2024, the Group's maximum exposure to credit risk which will cause a financial loss to the Group due to failure to discharge an obligation by the counterparties is arising from the carrying amount of the respective recognised financial assets as stated in the consolidated statement of financial position.

The credit risk of the Group mainly arises from trade receivables and contract assets. In order to minimise the credit risk, the management of the Group has delegated a team responsible for determination of credit limits and credit approvals. Before accepting any new customer, the Group uses an internal credit scoring system to assess the potential customer's credit quality and defines credit limits by customer. Limits and scoring attributed to customers are reviewed regularly. Other monitoring procedures are in place to ensure that follow-up action is taken to recover overdue debts. Also, the management of the Group has assessed the credibility and other monitoring procedures to ensure that follow-up action is taken up to recover overdue debts. In addition, the Group reviews the recoverable amount of each individual trade and other debts at the end of each reporting period to ensure that adequate impairment losses are made for irrecoverable amounts.

For trade receivables and contract assets, the Group performs impairment assessment under ECL model on trade balances individually or based on provision matrix grouped by reference to past default experience of the customers and an analysis of customers' current financial position. Details of the quantitative disclosures are set out below in this note.

The Group has concentration of credit risk as at 31 October 2025 on trade receivables and contract assets from the Group's five major customers amounting to approximately RM86,033,000 (2024: RM138,322,000) and accounted for approximately 65.1% (2024: 82.4%) of the Group's total trade receivables and contract assets. The concentration of credit risk is insignificant after considering their historical settlement record, credit quality and financial position.

For other non-trade related receivables, the Group has assessed whether there has been a significant increase in credit risk since initial recognition. If there has been a significant increase in credit risk, the Group will measure the loss allowance based on lifetime rather than 12-month ECL.

The credit risks on restricted bank deposits and bank balances are limited because the counterparties are banks with high credit ratings assigned by international credit-rating agencies.

Other than the concentration of credit risk on liquid funds which are deposited with several banks with good reputation and high credit ratings, the Group does not have any other significant concentration of credit risk, with exposure spread over a number of counterparties.

#### (b) Financial risk management objectives and policies (Continued)

##### Credit risk (Continued)

The Group's internal credit risk grading assessment comprises the following categories:

Internal credit rating	Description	Trade receivables/ contract assets	Other financial assets
Good	The counterparty has a low risk of default and frequently repays after due dates but usually settle in full	Lifetime ECL – not credit-impaired	12-month ECL
Fair	The debtor may face major ongoing uncertainties that could lead to the obligor's inadequate capacity to meet its financial commitments	Lifetime ECL – not credit-impaired	12-month ECL
Poor	The debtor has minimal capacity for timely payment of financial commitments and increased vulnerability to near term adverse changes in financial and economic conditions. Its ability to pay will depend on favorable condition to the business and economic environment and current ongoing relationship	Lifetime ECL – not credit-impaired	Lifetime ECL – not credit-impaired
Loss	There is evidence indicating the asset is credit-impaired	Lifetime ECL – credit-impaired	Lifetime ECL – credit-impaired
Write-off	There is evidence indicating that the debtor is in severe financial difficulty and the Group has no realistic prospect of recovery	Amount is written-off	Amount is written-off

Bank balances and cash	21	Aa1 to A2	N/A	12-month ECL	40,154	62,794

##### Notes:

- i. For trade receivables and contract assets, the Group has applied the simplified approach in IFRS 9 to measure the loss allowance at lifetime ECL. Except for debtors with significant outstanding balances or credit-impaired balances on which the ECL are assessed individually, the Group determines the ECL on these items by using a provision matrix grouped by reference to past default experience of the customers and an analysis of customers' current financial position.
- ii. For the purposes of internal credit risk management, the Group has applied the general approach to measure the loss allowance at 12-month ECL as there is no significant increase in credit risk since initial recognition. The Group determines the ECL for other receivables by assessment of probability of default and loss given default. During the years ended 31 October 2025 and 2024, in view of the nature of the balance and historical default rate and forward looking information, the Group considers the provision of loss allowance of RM716,000 (2024: RM695,000) was recognised for other receivables which is not credit impaired.

### 30. FINANCIAL INSTRUMENTS (Continued)

#### (b) Financial risk management objectives and policies (Continued)

##### Credit risk (Continued)

During the year ended 31 October 2025, there was impairment loss recognised of approximately RM732,000 (2024: RM1,228,000) on trade receivables based on the provision matrix. During the year ended 31 October 2025, there was impairment loss recognised of approximately RM656,000 (2024: RM520,000) based on individual assessment. During the year ended 31 October 2025, reversal of loss allowance of RM71,000 was recognised on credit-impaired trade receivables (2024: no reversal of loss allowance was recognised on credit-impaired trade receivables).

The following table shows the movement in lifetime ECL that has been recognised for trade receivables under the simplified approach:

	Lifetime ECL (not credit- impaired) RM'000	Lifetime ECL (credit- impaired) RM'000	Total RM'000
As at 1 November 2023	1,220	1,762	2,982
– Impairment losses recognised	1,748	–	1,748
As at 31 October 2024 and 1 November 2024	<b>2,968</b>	<b>1,762</b>	<b>4,730</b>
– Impairment losses recognised	<b>1,388</b>	–	<b>1,388</b>

– Impairment losses reversed	–	<b>(10)</b>	<b>(10)</b>
As at 31 October 2025	<b>716</b>	–	<b>716</b>

The contract assets have substantially the same risk characteristics as the trade receivables for the same type of contracts. The Group has therefore concluded that the loss rates for trade receivables are reasonable approximation of the loss rates for contract assets. During the year ended 31 October 2025, there was impairment losses recognised of approximately RM755,000 (2024: impairment loss of RM150,000) on contract assets based on the provision matrix. Reversal of impairment losses of RM1,585,000 recognised on credit-impaired contract assets during the year ended 31 October 2025 (2024: nil).

The following table shows the movement in lifetime ECL that has been recognised for contract assets under the simplified approach:

##### Liquidity risk

In the management of the liquidity risk, the Group monitors and maintains a level of bank balances and cash deemed adequate by the management to finance the Group's operations and mitigate the effects of fluctuations in cash flows.

The following table details the Group's remaining contractual maturity for its non-derivative financial liabilities and lease liabilities. The table has been drawn up based on the undiscounted cash flows of financial liabilities and lease liabilities based on the earliest date on which the Group can be required to pay. The maturity dates for other non-derivative financial liabilities are based on the agreed repayment dates.

The table includes both interest and principal cash flows. To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate curve at the end of the reporting period.

	Weighted average interest rate %	On demand or less than 1 year RM'000	1 year to 2 years RM'000	Total undiscounted cash flows RM'000	Carrying amount RM'000

### 32. INFORMATION ABOUT THE STATEMENT OF FINANCIAL POSITION OF THE COMPANY (Continued)

Notes:

(a) As at 31 October 2025, investment in a subsidiary is carried at a cost of RM5 (31 October 2024: RM5) less accumulated impairment of nil (2024: nil).

(b) The amounts due from subsidiaries are unsecured, interest-free and repayable on demand.

The Company measures the impairment of amounts due from subsidiaries based on 12-months ECL. As the balance has low risk of default or has not been significantly increased on credit risk since initial recognition, the directors of the Company consider the ECL is insignificant.
