Section II:
Code on Unit Trusts and Mutual Funds
Implementation schedule

The effective date of this UT Code is 1 January 2019.

For the purpose of the implementation of this UT Code:

(a) “New schemes” refer to schemes which apply for the SFC’s authorization on or after the effective date;

(b) “New operators” refer to (i) management companies which do not manage any SFC-authorized schemes as at the effective date (new management companies); and (ii) trustees/custodians which do not act as the trustee/custodian of any SFC-authorized schemes as at the effective date (new trustees/custodians);

(c) “Existing schemes” refer to (i) schemes which are authorized by the SFC as at the effective date; and (ii) schemes which applied for the SFC’s authorization prior to the effective date and are subsequently authorized by the SFC; and

(d) “Existing operators” refer to (i) management companies which are managing SFC-authorized schemes as at the effective date (existing management companies); and (ii) trustees/custodians which are acting as the trustee/custodian of SFC-authorized schemes as at the effective date (existing trustees/custodians).

As from the effective date, this UT Code will apply to new schemes with new operators with immediate effect.

As for existing schemes and existing operators, a transition period of 12 months from the effective date will be provided to comply with this UT Code unless otherwise set out in the attached table.

² Existing unit portfolio management funds are expected to comply with the requirements under Chapter 7. Existing futures and options funds are expected to comply with the requirements either under Chapter 8.7 (hedge funds), Chapter 8.8 (structured funds) or Chapter 8.9 (funds that invest extensively in financial derivative instruments).

³ The 12-month transition period for the enhanced disclosure in a fund’s interim and annual reports as set out in Appendix E of the UT Code means that the interim and annual reports with a financial period or financial year starting on a date after 12 months from the effective date should comply in full with the new requirements.

Explanatory Notes:

(a) The Securities and Futures Commission is empowered under section 104(1) of the Securities and Futures Ordinance (“SFO”) to authorize collective investment schemes. By virtue of section 104(1), the authorization may be granted subject to such conditions as the Commission considers appropriate. This Code on Unit Trusts and Mutual Funds (“UT Code”), which forms part of the Handbook, establishes guidelines for the authorization of collective investment schemes in the nature of mutual fund corporations or unit trusts, and codifies practices established in relation to the former Code on Unit Trusts and Mutual Funds published pursuant to the SFO. Any change or amendment to this UT Code will be made known to the industry and transitional periods for compliance will be allowed where necessary.

(b) The Commission may review its authorization at any time and may modify, add to or withdraw such authorization as it deems fit.

(c) The issue of an advertisement or invitation to the public in Hong Kong to invest in an unauthorized collective investment scheme may amount to an offence under section 103 of the SFO.

(d) This UT Code is made under section 399 of the SFO.

(e) This UT Code does not have the force of law.

(f) The Commission may modify or relax the application of a requirement in this UT Code if it considers that, in particular circumstances, strict application of the requirement would operate in an unduly burdensome or unnecessarily restrictive manner.

Part I: General matters

Chapter 1: Authorization procedures

Schemes established in Hong Kong or elsewhere

1.1 Schemes to be established in Hong Kong or elsewhere are normally expected to comply with the applicable provisions of the Handbook, including without limitation, all of the applicable provisions of this UT Code in order to be authorized in Hong Kong by the SFC pursuant to section 104 of the SFO.

Applications for authorization which seek waivers of any of these provisions must give detailed reasons why waivers are sought.

Scheme established in recognized jurisdictions

1.2 This UT Code accepts that some schemes already comply with certain provisions of this UT Code by virtue of prior authorization in a regulated jurisdiction. It therefore recognizes the types of scheme in jurisdictions set out in the list of recognized jurisdictions published on the Commission’s website. Applications for authorization of recognized jurisdiction schemes will generally be reviewed on the basis that the scheme’s structural and operational requirements, and core investment restrictions, already comply in substance with this UT Code. Applicants should note however that the SFC expects a scheme to comply in all material respects with this UT Code and reserves the right to require such compliance as a condition of authorization.

Documents to be supplied to the Commission

1.3 An applicant for authorization of a scheme must submit a completed Application Form and an Information Checklist as set out on the Commission’s website. The application must also be accompanied by the following and such other documents as may be required by the Commission from time to time:

(a) the scheme's offering and constitutive documents, including its Hong Kong Offering Document and Product KFS [see 3.6, 3.9 and 3.11B];

(b) [deleted]

(c) [deleted]

(d) [deleted]

(e) [deleted]

(f) application fee in the form of a cheque payable to the “Securities and Futures Commission”; and

Note: The current fee schedule is available on the Commission’s website.

(g) the letter nominating an individual to be approved by the Commission as an approved person [see 1.5] containing the individual’s name, employer, position
held and contact details, including, in so far as applicable, the address, telephone and facsimile numbers, and electronic mail address.

In addition to the above, applicants for authorization of a non Hong Kong-based scheme must supply the following:

(h) A written undertaking from the Hong Kong Representative [see 9.7].

(i) [deleted]

Amendments to documents

1.4 In cases where it may not be suitable to amend documentation to comply with a requirement of the Handbook or this UT Code, the Commission may accept a written undertaking from the relevant party that they will comply with the requirement, together with disclosure in the Hong Kong Offering Document regarding compliance.

Nomination of an individual as approved person

1.5 According to sections 104(2) and 105(2) of the SFO, an individual must be approved for the purposes of being served by the Commission with notices and decisions for, respectively, the scheme and the issue of any related advertisement, invitation or document. An applicant for authorization is, therefore, required to nominate an individual for approval by the Commission as an approved person.

1.6 An approved person should:

(a) have his/her ordinary residence in Hong Kong;

(b) inform the Commission of his/her current contact details, including, in so far as applicable, the address, telephone and facsimile numbers, and electronic mail address;

(c) be capable of being contacted by the Commission by post, telephone, facsimile and electronic mail during business hours;

(d) inform the Commission of any change in his/her contact details within 14 days after the change takes place; and

(e) comply with any other requirements as the Commission considers appropriate.

1.7 An individual approved by the Commission as an approved person for a scheme shall generally be approved also for the issue of any advertisement, invitation or document made in respect of that scheme.
Chapter 2: Administrative arrangements

Product advisory committee

2.1 According to section 8 of the SFO, the Commission is empowered to set up committees, whether for advisory or other purposes. The Commission will establish a Products Advisory Committee for the purpose of consultation and advice on matters which may relate to collective investment schemes within the scope of this UT Code of the Handbook. The remit of the Products Advisory Committee and its membership will be set out in its Terms of Reference.

2.2 [deleted]

2.3 [deleted]

2.4 [deleted]

2.5 [deleted]

Data privacy

2.6 The information requested under this UT Code may result in the applicant providing the Commission with personal data as defined in the Personal Data (Privacy) Ordinance. The data supplied will only be used by the Commission to perform its functions, in the course of which it may match, compare, transfer or exchange personal data with data held or obtained by the Commission, government bodies, other regulatory authorities, corporations, organizations or individuals in Hong Kong or overseas for the purpose of verifying those data. Subject to the limits in section 378 of the SFO, the Commission may disclose personal data to other regulatory bodies. You may be entitled under the Personal Data (Privacy) Ordinance to request access to or to request the correction of any data supplied to the Commission, in the manner and subject to the limitations prescribed. All enquiries should be directed to the Data Privacy Officer at the SFC.
Chapter 3: Interpretation

Unless otherwise defined, words and expressions used in this UT Code are as defined in the SFO.

3.1A “Advertising Guidelines” means the Advertising Guidelines Applicable to Collective Investment Schemes Authorized under the Product Codes.

3.1B [deleted]

3.2 “Collective investment scheme” or “scheme” means collective investment schemes commonly regarded as mutual funds (whether they appear in the legal forms of contractual model, companies with variable capital or otherwise) and unit trusts as are contemplated in this UT Code.

3.3 “Commission” or “SFC” means the Securities and Futures Commission referred to in section 3(1) of the SFO.

3.4 [deleted]

3.5 “Connected person” in relation to a company means:

(a) any person or company beneficially owning, directly or indirectly, 20% or more of the ordinary share capital of that company or able to exercise directly or indirectly, 20% or more of the total votes in that company; or

(b) any person or company controlled by a person who or which meets one or both of the descriptions given in (a); or

(c) any member of the group of which that company forms part; or

(d) any director or officer of that company or of any of its connected persons as defined in (a), (b) or (c).

3.6 “Constitutive documents” means the principal documents governing the formation of the scheme, and includes the trust deed in the case of a unit trust and the articles of association of a mutual fund corporation and all material agreements.

3.7 [deleted]

3.7A “Financial derivative instruments” refers to financial instruments which derive their value from the value and characteristics of one or more underlying assets.

3.8 “Holder” in relation to a unit or share in a scheme means the person who is entered in the register as the holder of that unit or share.

3.8A “Hong Kong Representative” or “Representative” means the Hong Kong representative appointed pursuant to 9.1 of this UT Code.

3.9 “Hong Kong Offering Document” means an offering document for distribution in Hong Kong containing the information required by Appendix C of this UT Code, and any other information necessary for investors to make an informed judgement about the scheme.
3.9A “Investment delegate” means an entity that has been delegated the investment management function of a scheme.

3.9B “Management company” means the entity appointed pursuant to 5.1 of this UT Code.

3.10 “Offering document” means that document, or documents issued together, containing information on a scheme to invite offers by the public to buy units/shares in the scheme.

3.10A “Reverse repurchase transactions” means transactions whereby a scheme purchases securities from a counterparty of sale and repurchase transactions and agrees to sell such securities back at an agreed price in the future.

3.10B “Sale and repurchase transactions” means transactions whereby a scheme sells its securities to a counterparty of reverse repurchase transactions and agrees to buy such securities back at an agreed price with a financing cost in the future.

3.10C “Securities financing transactions” has the meaning ascribed to it in 7.32 of this UT Code.

3.10D “Securities lending transactions” means transactions whereby a scheme lends its securities to a security-borrowing counterparty for an agreed fee.

3.11 “SFO” means the Securities and Futures Ordinance (Chapter 571 of the Laws of Hong Kong).

3.11A “Product Code” means any of the following codes administered by the Commission:

(a) Code on Unit Trusts and Mutual Funds
(b) Code on Investment-Linked Assurance Schemes
(c) Code on Pooled Retirement Funds
(d) SFC Code on MPF Products

3.11B “Product KFS” means the Product Key Facts Statement which is the statement required pursuant to 6.2A.

3.12 “Recognized jurisdiction scheme” means a scheme authorized pursuant to overseas laws as listed in the list of recognized jurisdiction schemes which is published on the Commission’s website as amended from time to time.

3.12A “Registered person” means a “registered institution” and, except where the context otherwise requires, includes a “relevant individual” as defined in section 20(10) of the Banking Ordinance (Chapter 155 of Laws of Hong Kong).

3.13 “Substantial financial institution” means an authorized institution as defined in section 2(1) of the Banking Ordinance (Chapter 155 of Laws of Hong Kong) or a financial institution which is on an ongoing basis subject to prudential regulation and supervision, with a minimum net asset value of HK$2 billion or its equivalent in foreign currency.

3.14 “Trustee/custodian”, “trustee” or “custodian” means the entity appointed pursuant to 4.1 of this UT Code and, for the avoidance of doubt, refers to the trustee of a scheme in the case of a unit trust and the custodian of a scheme in the case of a mutual fund corporation.
3.15 [deleted]
Part II: Authorization requirements

Chapter 4: Trustee/Custodian

Appointment of trustee/custodian

4.1 Every collective investment scheme for which authorization is requested must appoint a trustee (in the case of a unit trust) or a custodian (in the case of a mutual fund corporation) that is acceptable to the Commission and shall comply with this Chapter on an ongoing basis.

Notes (1): Schemes established under trust must have a trustee and mutual fund corporations must have a custodian. In this context, this chapter lists the general obligations applicable equally to both trustee and custodian, whichever is appointed. The constitutive documents [see Appendix D] of the scheme must conform in substance to the intended operative effect of the provisions in this Chapter 4. Trustees are expected to fulfill the duties imposed on them by the general law of trusts. In the case of a mutual fund corporation, the responsibilities of a custodian under Chapter 4 may be reflected in the custodian agreement and/or the management agreement instead of the articles of association, where appropriate.

(2): An acceptable trustee/custodian should be subject to prudential regulation and supervision on an ongoing basis. Trustee/custodian shall appoint an independent auditor to periodically review its internal controls and systems on terms of reference in compliance with this UT Code [see Appendix G] and should file such report with the Commission, unless such trustee/custodian is prudentially regulated and supervised by an overseas supervisory authority acceptable to the Commission.

4.2 A trustee/custodian must be:

(a) a bank licensed under section 16 of the Banking Ordinance (Chapter 155 of Laws of Hong Kong); or

(b) a trust company registered under Part VIII of the Trustee Ordinance (Chapter 29 of Laws of Hong Kong) which is a subsidiary of such a bank or a banking institution falling under 4.2(d); or

Note: In determining the acceptability of a subsidiary of a banking institution falling under 4.2(d), the Commission will take into account factors including the level of oversight and supervision from such banking institution.

(c) a trust company which is a trustee of any registered scheme as defined in section 2(1) of the Mandatory Provident Fund Schemes Ordinance (Chapter 485 of Laws of Hong Kong); or

(d) a banking institution incorporated outside Hong Kong which is subject to prudential regulation and supervision on an ongoing basis, or an entity which is authorized to act as trustee/custodian of a scheme and prudentially regulated
and supervised by an overseas supervisory authority acceptable to the Commission.

4.3 A trustee/custodian must be independently audited and have minimum paid-up share capital and non-distributable capital reserves of HK$10 million or its equivalent in foreign currency.

4.4 Notwithstanding 4.3, the trustee/custodian’s paid-up share capital and non-distributable capital reserves may be less than HK$10 million if the trustee/custodian is a wholly-owned subsidiary of a substantial financial institution (the holding company); and

(a) the holding company issues a standing commitment to subscribe sufficient additional capital up to the required amount, if so required by the Commission; or

(b) the holding company undertakes that it would not let its wholly-owned subsidiary default and would not, without prior approval of the Commission, voluntarily dispose of, or permit the disposal or issue of any share capital of the trustee/custodian such that it ceases to be a wholly-owned subsidiary of the holding company.

**General obligations of trustee/custodian**

4.5 The trustee/custodian must:

(a) take into its custody or under its control all the property of the scheme and hold it in trust for the holders (in the case of a unit trust) or the scheme (in the case of a mutual fund corporation) in accordance with the provisions of the constitutive documents;

Note: With respect to property of the scheme which by nature cannot be held in custody, the trustee/custodian shall maintain a proper record of such property in its books under the name of the scheme.

(ii) register cash and registrable assets in the name of or to the order of the trustee/custodian;

(iii) be liable for the acts and omissions of nominees, agents and delegates in relation to assets forming part of the property of the scheme;

Note: Nominees, agents and delegates that are appointed for the custody and/or safekeeping of the property of the scheme shall be subject to prudential regulation and supervision, unless otherwise accepted by the Commission. The Commission must be satisfied with the overall custodial/safekeeping arrangement put in place to provide proper and adequate safeguards for the property of the scheme, having taken into account, among others, applicable local legal and regulatory requirements.

(iv) segregate the property of the scheme from the property of:
(1) the management company, investment delegates and their respective connected persons;

(2) the trustee/custodian and any nominees, agents or delegates throughout the custody chain; and

(3) other clients of the trustee/custodian and nominees, agents or delegates throughout the custody chain, unless held in an omnibus account with adequate safeguards in line with international standards and best practices to ensure that the property of the scheme is properly recorded with frequent and appropriate reconciliations being performed; and

(v) put in place appropriate measures to verify ownership of the property of the scheme;

(b) take reasonable care to ensure that the sale, issue, repurchase, redemption and cancellation of units/shares effected by a scheme are carried out in accordance with the provisions of the constitutive documents;

(c) take reasonable care to ensure that the methods adopted by the management company in calculating the value of units/shares are adequate to ensure that the sale, issue, repurchase, redemption and cancellation prices are calculated in accordance with the provisions of the constitutive documents;

(d) carry out the instructions of the management company in respect of investments unless they are in conflict with the provisions of the offering or constitutive documents or this UT Code;

(e) take reasonable care to ensure that the investment and borrowing limitations set out in the constitutive documents and the conditions under which the scheme was authorized are complied with;

(f) issue a report to the holders to be included in the annual report on whether in the trustee/custodian's opinion, the management company has in all material respects managed the scheme in accordance with the provisions of the constitutive documents; if the management company has not done so, the respects in which it has not done so and the steps which the trustee/custodian has taken in respect thereof;

(g) where applicable, take reasonable care to ensure that unit/share certificates are not issued until subscription moneys have been paid;

(h) take reasonable care to ensure that the cash flows of the scheme are properly monitored;

(i) exercise reasonable care, skill and diligence in the selection, appointment and ongoing monitoring of nominees, agents and delegates which are appointed for the custody and/or safekeeping of scheme’s property [see 4.5(a)(iii)]; and be satisfied that the nominees, agents and delegates retained remain suitably qualified and competent on an ongoing basis to provide the relevant services;
(j) fulfil such other duties and requirements imposed on it as set out in this UT Code; and exercise due skill, care and diligence in discharging its obligations and duties appropriate to the nature, scale and complexity of the scheme; and

Note: In discharging its obligations, trustee/custodian shall make reference to the minimum requirements on the terms of reference for the review of internal controls and systems of trustee/custodian as set out in Appendix G.

(k) establish clear and comprehensive escalation mechanisms to deal with potential breaches detected in the course of discharging its obligations and report material breaches to the Commission in a timely manner.

Note: The trustee/custodian is expected to (i) update the management company and report to the Commission (either directly or via the management company) any material issues or changes that may impact its eligibility/capacity to act as trustee/custodian of a scheme and (ii) inform the Commission promptly of any material breach of this UT Code and applicable provisions of the Handbook with respect to the scheme that has come to its knowledge, which has not been otherwise reported to the Commission by the management company.

Retirement of trustee/custodian

4.6 The trustee/custodian may not retire except upon the appointment of a new trustee/custodian and subject to the prior approval of the Commission [see 11.1]. The retirement of the trustee/custodian should take effect at the same time as the new trustee/custodian takes up office.

Independence of trustee/custodian and the management company

4.7 The trustee/custodian and the management company must be persons who are independent of each other.

4.8 Notwithstanding 4.7, if the trustee/custodian and the management company are both bodies corporate having the same ultimate holding company, whether incorporated in Hong Kong or outside Hong Kong, the trustee/custodian and the management company are deemed to be independent of each other if:

(a) [deleted]

(i) neither the trustee/custodian nor the management company is a subsidiary of the other;

(iii) no person is a director of both the trustee/custodian and the management company; and

(iv) both the trustee/custodian and the management company sign an undertaking that they will act independently of each other in their dealings with the scheme.
Note: Among other things, there should be systems and controls in place to ensure that persons fulfilling the custodial function / safekeeping of the scheme’s assets are functionally independent from persons fulfilling the scheme’s management functions, for example, with an independent board, separate governance structure / lines of reporting to the management of the trustee/custodian and separate operational teams within the same corporate group.

(b) [deleted]
Chapter 5: Management company and auditor

Appointment of the management company

5.1 Every collective investment scheme for which authorization is requested must appoint a management company acceptable to the Commission and shall comply with this Chapter on an ongoing basis.

Note: The management company or the investment delegate (who has been delegated the investment management function of a scheme) should either be licensed or registered in Hong Kong [see 5.6] or based in a jurisdiction with an inspection regime acceptable to the Commission. A list of acceptable inspection regimes is published on the Commission’s website. The Commission will consider other jurisdictions on their merits and may accept an undertaking from the management company that the books and records in relation to its management of a scheme will be made available for inspection by the Commission on request.

5.2 A management company must:

(a) be engaged primarily in the business of fund management;

(b) have sufficient financial resources at its disposal to enable it to conduct its business effectively and meet its liabilities; in particular, it must have minimum paid-up share capital and non-distributable capital reserves of HK$10 million or its equivalent in foreign currency;

(c) not lend to a material extent; and

(d) maintain at all times a positive net asset position.

5.3 Indebtedness owed by the management company to its parent company will be considered as part of capital for the purpose of 5.2(b) in the following circumstances:

(a) the indebtedness must not be settled without the prior written consent of the Commission; and

(b) the indebtedness must be subordinated to all other liabilities of the management company, both in terms of its entitlement to income and its rights in a liquidation.

Qualifications of directors

5.4 The directors of the management company must be of good repute and in the opinion of the Commission possess the necessary experience for the performance of their duties. In determining the acceptability of the management company, the Commission may consider the qualifications and experience of persons employed by the management company and any appointed investment delegate.
Criteria for acceptability of management company

5.5 The acceptability of the management company will be assessed on the following criteria:

(a) The key personnel of the management company and those of the investment delegate are expected to possess at least five years investment experience in managing public funds with reputable institutions. The expertise gained should be in the same or similar type of investments as those proposed for the funds seeking authorization.

Notes: (1) With respect to a management company and an investment delegate belonging to a well-established fund management group(s), the requirement for the key personnel to possess public funds experience may be satisfied if the management company or the investment delegate (as the case may be) on a group-wide basis is able to demonstrate that it possesses the requisite experience and resources as well as appropriate oversight, monitoring and supervision systems to administer public funds (i.e. a fund management group of at least five years of establishment in managing public funds and with good regulatory records). The Commission will take into account various factors in assessing the fund management group’s relevant overall experience, resources and capabilities, including, without limitations, the amount of assets under management attributable to public funds, the group-wide internal controls and risk management systems in place in connection with the management of public funds, and the jurisdiction(s) where the related investment management function(s) and operation(s) of the group is/are based in (with reference to the list of acceptable inspection regimes published on the Commission’s website [see Note to 5.1]). The Commission may require substantiation on the experience in managing public funds and the track record of the management company and its group companies, where applicable.

(2) For the avoidance of doubt, the key personnel are expected to possess at least five years investment experience notwithstanding Note(1) to 5.5(a).

(b) Key personnel shall have a demonstrable investment track record in the management of public funds in accordance with 5.5(a) and must dedicate sufficient time and attention in the management of a scheme.

Notes: (1) In general, there must be at least two key personnel designated for each of the management company and investment delegate (if any) in managing the scheme seeking authorization. In any event, the management company should maintain proper up-to-date records regarding the key personnel of the scheme from time to time and such records must be made available to the Commission upon request.

(2) In the case of a multimanager scheme which is generally expected to have at least three sub-managers delegated with investment function in managing the scheme’s assets under the active monitoring of the management company, the Commission may accept that the key personnel of such sub-managers have demonstrable investment experience.
experience in areas not limited to that relating to public funds on a case-by-case basis. The offering document of the scheme should clearly disclose, among others, the due diligence processes adopted by the management company in selecting and monitoring the sub-managers on an ongoing basis.

(c) Sufficient human and technical resources must be at the disposal of the management company, which should not rely solely on a single individual's expertise.

(d) The Commission must be satisfied with the overall integrity of the applicant management company. Reasonable assurance must be secured of the adequacy of internal controls and the existence of written procedures, which should be regularly monitored by its senior management for updatedness and compliance. Conflicts of interests must be properly addressed to safeguard investors' interests.

(e) Where the investment management functions are delegated to third parties, there should be ongoing supervision and regular monitoring of the competence of the delegates by the management company to ensure that the management company's accountability to investors is not diminished. Although the investment management role of the management company may be sub-contracted to third parties, the responsibilities and obligations of the management company may not be delegated.

Licensing requirement

5.6 The type of licence required depends on the functions performed by the management company in Hong Kong. A management company should be properly licensed or registered under Part V of the SFO to carry on its regulated activities.

Self-managed schemes

5.7 Notwithstanding 5.1, a scheme could be managed by its own board of directors who perform the functions of a management company where the scheme's investment management function is delegated at all times to a qualified investment delegate in compliance with this Chapter. In this case, references in this UT Code to the directors of a management company are deemed to be references to the directors of a self-managed scheme.

5.8 The directors of a self-managed scheme are prohibited from dealing with the scheme as principals.

5.9 The regulations of a self-managed scheme must contain the following provisions:

(a) that holders could convene a meeting and, by way of an ordinary resolution, remove any of the directors considered no longer fit and proper to manage the scheme's assets; and

(b) that the directors' fees and remuneration should be fixed by the holders at a general meeting.
5.10 A management company must:

(a) manage the scheme in accordance with the scheme’s constitutive documents and in the best interests of the holders. It is also expected to fulfill the duties imposed on it by the general law;

(b) maintain or cause to be maintained the books and records of the scheme and prepare the scheme’s financial reports. These reports must be prepared and made available to all registered holders and filed with the Commission in a manner in accordance with 11.6, 11.6A and 11.8;

(c) ensure that the constitutive documents are made available for inspection by the public in Hong Kong, free of charge at all times during normal office hours at its place of business or that of its Hong Kong Representative and make copies of such documents available upon the payment of a reasonable fee;

(d) take reasonable care to ensure that the trustee/custodian is properly qualified for the performance of its duties and functions and discharging its obligations in respect of custody of a scheme’s property, having regard to the requirements as set out in Chapter 4;

Note: For the avoidance of doubt, the management company should:

(1) comply with all applicable legal and regulatory requirements in respect of custody of the scheme’s property; and

(2) provide relevant information to the trustee/custodian to discharge its obligations pursuant to 4.5.

(e) at all times demonstrate that those representatives and agents appointed by it or engaged for the scheme possess sufficient know-how, expertise and experience in dealing with the underlying investments of the scheme;

(f) put in place proper risk management and control systems to effectively monitor and measure the risks of the positions of the scheme and their contribution to the overall risk profile of the scheme’s portfolio; and

Note: Among others, the management company must:

(1) put in place suitable and adequate risk management and control systems to monitor, measure, and manage all relevant risks (including risks associated with financial derivative investment activities) in relation to the scheme. The risk management and control systems must (i) be commensurate with the nature and scale of the transactions and investment activities (including those related to financial derivative instruments) that are undertaken for the scheme, bearing in mind the retail nature and risk profile of the scheme and (ii) be able to deal with normal and exceptional circumstances including extreme market conditions. The management company must maintain at all times effective risk management and control systems;
(2) at all times be adequately and suitably resourced (including having sufficient human resources) in order to properly implement its risk management policy and procedures;

(3) maintain and implement effective liquidity risk management policies and procedures (including stress testing, where applicable) to monitor the liquidity risk of the scheme, taking into account factors including the investment strategy and objectives, investor base, liquidity profile, underlying obligations and redemption policy of the scheme;

(4) maintain and implement effective internal policies and procedures in assessing the credit risk of securities or instruments invested by the scheme. External ratings shall only be one of the factors to take into consideration in assessing the credit quality of an instrument. Mechanistic reliance on external ratings should be avoided; and

(5) comply with all applicable legal and regulatory requirements concerning the risk management of a scheme.

(g) ensure the scheme is designed fairly, and operated according to such product design on an ongoing basis, including, among others, managing the scheme in a cost-efficient manner taking into account the size of the scheme and the level of fees and expenses etc.

Retirement of a management company

5.11 The management company must be subject to removal by notice in writing from the trustee or the directors of a mutual fund corporation in any of the following events:

(a) the management company goes into liquidation, becomes bankrupt or has a receiver appointed over its assets; or

(b) for good and sufficient reason, the trustee or the directors of a mutual fund corporation state in writing that a change in management company is desirable in the interests of the holders; or

(c) in the case of a unit trust, holders representing at least 50% in value of the units outstanding, deliver to the trustee a written request to dismiss the management company.

5.12 In addition, the management company must retire:

(a) in all other cases provided for in the constitutive documents; or

(b) when the Commission withdraws its approval of the management company.

5.13 The Commission must be informed by the trustee or the directors of a mutual fund corporation of any decision to remove the management company.

5.14 Upon the retirement or dismissal of the management company, the trustee or the directors of a mutual fund corporation must appoint a new management company as soon as possible, subject to the approval of the Commission.
Appointment of the auditor

5.15 The management company or the directors of a mutual fund corporation must, at the outset and upon any vacancy, appoint an auditor for the scheme.

5.16 The auditor must be independent of the management company, the trustee/custodian, and, in the case of a mutual fund corporation, the directors.

5.17 The management company must cause the scheme's annual report to be audited by the auditor, and such report should contain the information in Appendix E.
Chapter 6: Operational requirements

Scheme documentation

Matters to be disclosed in offering document

6.1 Authorized schemes must issue an up-to-date offering document, which should contain the information necessary for investors to be able to make an informed judgement of the investment proposed to them, and in particular should contain the information listed in Appendix C.

Note: Provided that the Commission is satisfied that the overall disclosure of required information is clear, a scheme may supplement an overseas offering document with a Hong Kong Covering Document. The Commission however specifically encourages the use of a short, clearly written Hong Kong Offering Document.

English and Chinese offering documents

6.2 Except as provided herein, the information required in Appendix C must be provided in the English and Chinese languages. The Commission may waive the requirement that the information be provided in both languages on a case by case basis where the management company satisfies the Commission that the scheme will only be offered to persons who are fully conversant in the language in which it is intended to publish the information.

Product KFS

6.2A An authorized scheme must issue a Product KFS. Such statement shall be deemed to form a part of the offering document and shall contain information that enables investors to comprehend the key features and risks of the scheme.

Notes: (1) The Commission may, on an exceptional basis, allow the Product KFS not to be deemed to form a part of the offering documents of certain foreign schemes, on the basis of overriding legal requirements of the home jurisdiction.

(2) Illustrative templates of the Product KFS are available on the Commission’s website.

Accompaniment to offering document

6.3 The offering document must be accompanied by the scheme’s most recent audited annual report together with its interim report if published after the annual report.

Application form

6.4 No application form may be provided to any member of the public unless it is accompanied by the offering document.
Inclusion of performance data

6.5 If performance data or estimated yield is quoted, the Commission may require supporting documentation. No forecast of the scheme’s performance may be made. The publication of a prospective yield does not constitute a forecast of performance.

Contents of constitutive documents

6.6 The constitutive documents of a scheme should contain the information listed in Appendix D. Nothing in the constitutive documents may provide that the trustee/custodian, management company or directors of the scheme can be exempted from any liability to holders imposed under Hong Kong law or the law of the scheme’s place of domicile or breaches of trust through fraud or negligence, nor may they be indemnified against such liability by holders or at holders’ expense.

Changes to scheme documentation

6.7 The constitutive documents may be altered by the management company and trustee/custodian, without consulting holders, provided that the trustee/custodian certifies in writing that in its opinion the proposed alteration:

(a) is necessary to make possible compliance with fiscal or other statutory, regulatory or official requirements; or

(b) does not materially prejudice holders’ interests, does not to any material extent release the trustee/custodian, management company or any other person from any liability to holders and does not increase the costs and charges payable from the scheme property; or

(c) is necessary to correct a manifest error.

In all other cases involving any material changes, no alteration may be made except by a special or extraordinary resolution of holders or the approval of the Commission.

Member register

6.8 The scheme, or in the case of a unit trust, the trustee or the person so appointed by the trustee must maintain a register of holders. The Commission must be advised on request of the address(es) where the register is kept.

6.9 [deleted]

Pricing, issue and redemption of units/shares

Initial offers

6.10 If an initial offer is made, no investment of subscription money can be made until the conclusion of the first issue of units/shares at the initial price.
Valuation and pricing

6.11 Offer and redemption prices should be calculated on the basis of the scheme’s net asset value divided by the number of units/shares outstanding. Such prices should fairly reflect the value of a scheme’s assets and may be adjusted by fees and charges, provided the amount or method of calculating such fees and charges is clearly disclosed in the offering document.

6.11A The management company should establish appropriate policies and procedures for independent valuation of each type of assets held by a scheme in consultation with the trustee/custodian. Such policies and procedures should seek to detect, prevent and correct pricing errors and be consistently applied. The management company should review the valuation policies and procedures on a periodic basis to ensure their continued appropriateness and effective implementation. The valuation policies, procedures and process should be reviewed (at least annually) by a competent and functionally-independent party such as a qualified independent third party or a person performing an independent audit function.

Notes: (1) Where fair value adjustments are necessary in view that market value of a scheme’s assets is unavailable, or reasonably considered to be not reliable or reflective of an exit price upon current sale, the management company shall conduct such adjustments with due skill, care and diligence, and in good faith. The process and conduct of fair value adjustments should be done by the management company in consultation with the trustee/custodian.

(2) The management company must comply with all applicable legal and regulatory requirements in respect of the valuation of a scheme’s assets.

(3) For the purpose of satisfying the requirement on independent review of valuation policies, procedures and process, the review should include testing the valuation procedures by which scheme assets are valued. The management company shall exercise due skill, care and diligence in the selection of a competent and functionally-independent party.

6.11B Assets of a scheme should be valued on a regular basis and in any event, on the days that the scheme’s units/shares are offered or redeemed in accordance with the constitutive documents. Valuation frequency and the basis of valuation of a scheme’s assets should be clearly disclosed in the offering document.

6.11C Where a third party is engaged in the valuation of a scheme, the management company shall exercise reasonable care, skill and diligence in the selection, appointment and ongoing monitoring of such third party in ensuring such entity possesses the appropriate level of knowledge, experience and resources that commensurate with the appropriate valuation policies and procedures for each scheme. The valuation activities of such third party should be subject to ongoing supervision and periodic review by the management company.

Valuation of unquoted securities

6.12 The value of investments not listed or quoted on a recognized market should be determined on a regular basis by a professional person approved by the trustee/custodian as qualified to value such investments. Such professional person may, with the approval of the trustee/custodian, be the management company.
Dealing

6.13 There must be at least one regular dealing day per month except for a closed-ended fund authorized pursuant to 8.11 of this UT Code. Any offer price which the management company or the distribution company quotes or publishes must be the maximum price payable on purchase and any redemption price must be the net price receivable on redemption.

Notes: (1) The management company should ensure that it sets a dealing frequency for units/shares in the scheme which is appropriate for its investment objectives and approach, taking into account its liquidity risk management process that enables effective processing of redemptions and other payment obligations. The management company should give due consideration to the structure of the scheme and the appropriateness of the dealing frequency having regard to, among others, the investor base, investment objectives and strategy and also the nature and expected liquidity of the underlying assets of the scheme.

(2) Subscription or redemption of a scheme’s units/shares must be effected on the basis of an unknown/forward price to ensure incoming, existing and outgoing investors are treated fairly and equitably.

6.14 The maximum interval between the receipt of a properly documented request for redemption of units/shares and the payment of the redemption money to the holder may not exceed one calendar month unless the market(s) in which a substantial portion of investments is made is subject to legal or regulatory requirements (such as foreign currency controls) thus rendering the payment of the redemption money within the aforesaid time period not practicable. In such case, the extended time frame for the payment of redemption money shall reflect the additional time needed in light of the specific circumstances in the relevant market(s).

Meetings

6.15 A scheme should arrange to conduct general meetings of holders as follows:

(a) Holders must be able to appoint proxies;

(b) Votes should be proportionate to the number of units/shares held or to the value of units/shares held where there are accumulation units/shares;

(c) The quorum for meetings at which a special or extraordinary resolution is to be considered should be the holders of 25% of the units or shares in issue and 10% if only an ordinary resolution is to be considered;

(d) If within half an hour from the time appointed for the meeting a quorum is not present, the meeting should be adjourned for not less than 15 days. The quorum at an adjourned meeting will be those holders present at the adjourned meeting in person or by proxy;

(e) If the possibility exists of a conflict of interest between different classes of holders there should be provision for class meetings;
(f) A general meeting should be called for the following purposes:

(i) to modify, alter or add to the constitutive documents, except as provided in 6.7; or

(ii) to terminate the scheme (unless the means of termination of the scheme are set out in the constitutive documents, in which case termination must be effected as required) [see D17 of Appendix D];

(iii) [deleted]

(iv) [deleted]

(g) [deleted]

(h) The directors of the scheme, the trustee/custodian, the management company, investment delegate and any of their connected persons must be prohibited from voting their beneficially owned shares at, or counted in the quorum for, a meeting at which they have a material interest in the business to be contracted;

Note: For the purposes of 6.15(h), the management company and its connected persons are entitled to vote their beneficially owned units/shares on any resolution(s) to appoint or dismiss the management company and be counted for the purpose of passing such resolution(s) at the meeting.

(i) An ordinary resolution may be passed by a simple majority of the votes of those present and entitled to vote in person or by proxy at a duly convened meeting; and

(j) A special or extraordinary resolution may only be passed by 75% or more of the votes of those present and entitled to vote in person or by proxy at a duly convened meeting.

Note: For the avoidance of doubt, any general meeting at which a special resolution is to be proposed shall be convened on at least 21 days’ prior notice and that any general meeting at which an ordinary resolution is to be proposed shall be convened on at least 14 days’ prior notice.

Fees

6.16 The level/basis of calculation of all costs and charges payable from the scheme’s property must be clearly stated, with percentages expressed on a per annum basis [see C14 of Appendix C]. The aggregate level of fees for investment management function should also be disclosed.

Note: Transaction fees payable to the management company or any of its connected persons may be disallowed as inconsistent with the management company’s fiduciary responsibility.

6.17 If a performance fee is levied, clear disclosure of the calculation methodology must be set out in the offering document. Performance fee should be calculated in a manner that is objective, verifiable and unambiguous to enable investors to obtain a fair and proportionate share of the investment return of scheme. Performance fee can only be payable:
(a) no more frequently than annually; and

(b) if the net asset value per unit/share exceeds the net asset value per unit/share on which the performance fee was last calculated and paid (i.e. on a "high-on-high" basis). The basis of calculation of net asset value per unit/share used for performance fee calculation should be consistently applied.

Notes: (1) Notwithstanding 6.17(b), the performance fee may also be calculated with reference to the performance of a benchmark or an asset class and the performance fee is only payable upon outperformance of the net asset value per unit/share (net of all other fees and expenses charged) vis-à-vis that of the benchmark or asset class.

(2) Various methodologies may be used for the charging and accrual of performance fees based on the basic principle in 6.17. The Commission may require illustrative examples to be given in the offering document to demonstrate the charging method where it considers appropriate.

(3) Where a scheme intends to achieve equalisation for the calculation of performance fees, its offering document must disclose the mechanism adopted to achieve equalisation.

(4) Where a scheme does not intend to achieve equalisation of performance fees, its offering document must clearly disclose this fact and how the absence of equalisation may affect the amount of performance fees to be borne by investors.

6.18 The following fees, costs and charges must not be paid from the scheme's property:

(a) commissions payable to sales agents arising out of any dealing in units/shares of the scheme;

(b) expenses arising out of any advertising or promotional activities in connection with the scheme;

(c) expenses which are not ordinarily paid from the property of schemes authorized in Hong Kong; and

(d) expenses which have not been disclosed in the constitutive documents as required by D10 of Appendix D.
Chapter 7: Investment: core requirements

This Chapter sets out the core requirements of the investment limitations and prohibitions of a scheme. A specialized scheme under Chapter 8 shall also comply with the core requirements in this Chapter subject to any modifications, exemptions or additions as set out in Chapter 8.

Investments held by a scheme shall be liquid which do not impair the scheme’s ability to satisfy its redemption and other payment obligations. As a general principle, investments of a scheme shall be readily converted into cash at limited cost in an adequately short timeframe taking into account these obligations.

Spread of investments

7.1 The aggregate value of a scheme’s investments in, or exposure to, any single entity through the following may not exceed 10% of its total net asset value:

(a) investments in securities issued by that entity;

(b) exposure to that entity through underlying assets of financial derivative instruments [see 7.27]; and

(c) net counterparty exposure to that entity arising from transactions of over-the-counter financial derivative instruments [see 7.28(c)].

Notes: (1) [deleted]

(2) [deleted]

(3) For the avoidance of doubt, restrictions and limitations on counterparty as set out in 7.1, 7.1A and 7.28(c) will not apply to financial derivative instruments that are:

(a) transacted on an exchange where the clearing house performs a central counterparty role; and

(b) marked-to-market daily in the valuation of their financial derivative instrument positions and subject to margining requirements at least on a daily basis.

(4) 7.1 will also apply in the case of 7.36(e), 7.36(j) and Note to 7.39(a).

7.1A Subject to 7.1 and 7.28(c), the aggregate value of a scheme’s investments in, or exposure to, entities within the same group through the following may not exceed 20% of its total net asset value:

(a) investments in securities issued by those entities;

(b) exposure to those entities through underlying assets of financial derivative instruments [see 7.27]; and
(c) net counterparty exposure to those entities arising from transactions of over-the-counter financial derivative instruments [see 7.28(c)].

Notes: (1) For the purposes of 7.1A and 7.1B, entities which are included in the same group for the purposes of consolidated financial statements prepared in accordance with internationally recognized accounting standards are generally regarded as “entities within the same group”.

(2) 7.1A will also apply in the case of 7.36(e), 7.36(j) and Note to 7.39(a).

7.1B The value of a scheme’s cash deposits made with the same entity or entities within the same group [see Note(1) to 7.1A] may not exceed 20% of its total net asset value.

Notes: (1) For the purposes of 7.1B, cash deposits generally refer to those that are repayable on demand or have the right to be withdrawn by the scheme and not referable to provision of property or services.

(2) The cash deposits made with the same entity or entities within the same group may exceed the prescribed 20% limit in the following circumstances:

(a) cash held before the launch of a scheme and for a reasonable period thereafter prior to the initial subscription proceeds being fully invested; or

(b) cash proceeds from liquidation of investments prior to the merger or termination of a scheme, whereby the placing of cash deposits with various financial institutions would not be in the best interests of investors; or

(c) cash proceeds received from subscriptions pending investments and cash held for the settlement of redemption and other payment obligations, whereby the placing of cash deposits with various financial institutions be unduly burdensome and the cash deposits arrangement would not compromise investors’ interests.

7.2 A scheme may not hold more than 10% of any ordinary shares issued by any single entity.

7.3 The value of a scheme’s investments in securities and other financial products or instruments that are neither listed, quoted nor dealt in on a market may not exceed 15% of its total net asset value.

Note: Market means any stock exchange, over-the-counter market or other organized securities market that is open to the international public and on which such securities are regularly traded.

7.3A Notwithstanding 7.1, 7.1A, 7.2, and 7.3, where direct investment by a scheme in a market is not in the best interests of investors, a scheme may invest through a wholly-owned subsidiary company established solely for the purpose of making direct investments in such market. In this case:
(a) the underlying investments of the subsidiary, together with the direct investments made by the scheme, must in aggregate comply with the requirements of this Chapter;

(b) any increase in the overall fees and charges directly or indirectly borne by the holders or the scheme as a result must be clearly disclosed in the offering document; and

(c) the scheme must produce the reports required by 5.10(b) in a consolidated form to include the assets (including investment portfolio) and liabilities of the subsidiary company as part of those of the scheme.

Government and other public securities

7.4 Notwithstanding 7.1, 7.1A and 7.2, up to 30% of a scheme's total net asset value may be invested in Government and other public securities of the same issue.

7.5 Subject to 7.4, a scheme may invest all of its assets in Government and other public securities in at least six different issues.

Notes: (1) “Government and other public securities” means any investment issued by, or the payment of principal and interest on, which is guaranteed by a government, or any fixed-interest investment issued by its public or local authorities or other multilateral agencies.

(2) Government and other public securities will be regarded as being of a different issue if, even though they are issued by the same person, they are issued on different terms whether as to repayment dates, interest rates, the identity of the guarantor, or otherwise.

7.6 [deleted]

7.7 [deleted]

7.8 [deleted]

Commodities

7.9 [deleted]

7.10 A scheme may not invest in physical commodities unless otherwise approved by the Commission on a case-by-case basis taking into account the liquidity of the physical commodities concerned and availability of sufficient and appropriate additional safeguards where necessary.

Notes: (1) [deleted]

(2) [deleted]

Investment in other schemes

The following provisions govern the spread of investments in other collective investment schemes. 7.1, 7.1A, 7.2 and 7.3 are not applicable to such investments, unless otherwise stated.
Note: For the avoidance of doubt, exchange traded funds that are:

(i) authorized by the Commission under 8.6 or 8.10 of this UT Code; or

(ii) listed and regularly traded on internationally recognized stock exchanges open to the public (nominal listing not accepted) and:

- the principal objective of which is to track, replicate or correspond to a financial index or benchmark, which complies with the applicable requirements under 8.6 of this UT Code; or

- the investment objective, policy, underlying investments and product features of which are substantially in line with or comparable with those set out under 8.10 of this UT Code,

may either be considered and treated as (a) listed securities for the purposes of and subject to the requirements in 7.1, 7.1A and 7.2; or (b) collective investment schemes for the purposes of and subject to the requirements in 7.11, 7.11A and 7.11B. However, the investments in exchange traded funds shall be subject to 7.3 and the relevant investment limits in exchange traded funds by a scheme should be consistently applied and clearly disclosed in the offering document of a scheme.

7.11 The value of a scheme's investment in units or shares in other collective investment schemes (namely, “underlying schemes”) which are non-eligible schemes [see Note to 7.11A] and not authorized by the Commission may not in aggregate exceed 10% of its total net asset value.

7.11A A scheme may invest in one or more underlying schemes which are either authorized by the Commission or eligible schemes. The value of a scheme’s investment in units or shares in each such underlying scheme may not exceed 30% of its total net asset value, unless the underlying scheme is authorized by the Commission, and the name and key investment information of the underlying scheme are disclosed in the offering document of the scheme.

Note: The Commission has set out the eligible schemes for investment pursuant to 7.11A in the list of recognized jurisdictions.

7.11B In addition, each underlying scheme's objective may not be to invest primarily in any investment prohibited by this Chapter, and where such scheme's objective is to invest primarily in investments restricted by this Chapter, such investments may not be in contravention of the relevant limitation.

Notes: (1) [deleted]

(2) The Commission generally does not require the management company to adopt a “see-through” approach in their investments in underlying schemes, except in the case where the underlying schemes are managed by the same management company as that of the scheme that invests in them, or by other companies within the same group that the management company belongs to, then 7.1, 7.1A, 7.2 and 7.3 are also applicable to investments of the underlying schemes.
(3) For the avoidance of doubt, a scheme may invest in scheme(s) authorized by the Commission under Chapter 8 (except for hedge funds under 8.7 of this UT Code), eligible scheme(s) [see 7.11A] of which the net derivative exposure [see Note to 7.26] does not exceed 100% of its total net asset value, and exchange traded funds satisfying the requirements in the Note under “Investment in other schemes” of this Chapter in compliance with 7.11 and 7.11A.

(4) An underlying scheme’s objective may not be to invest primarily in other collective investment scheme(s).

Limitation on charges

7.11C Where a scheme invests in any underlying scheme(s) managed by the same management company or its connected persons, all initial charges and redemption charges on the underlying scheme(s) must be waived.

7.11D The management company of a scheme or any person acting on behalf of the scheme or the management company may not obtain a rebate on any fees or charges levied by an underlying scheme or its management company, or any quantifiable monetary benefits in connection with investments in any underlying scheme.

Feeder fund

7.12 A scheme may invest 90% or more of its total net asset value in a single collective investment scheme and will be authorized as a feeder fund. In this case:

(a) the underlying scheme (“master fund”) must be authorized by the Commission;

(b) the offering document must state that:

(i) the scheme is a feeder fund into the master fund;

(ii) for the purpose of complying with the investment restrictions, the feeder fund and its master fund will be deemed a single entity;

(iii) the feeder fund’s annual report must include the investment portfolio of the master fund as at the financial year end date; and

(iv) the aggregate amount of all the fees and charges of the feeder fund and its master fund must be clearly disclosed;

(c) [deleted]

(d) no increase in the overall total of initial charges, redemption charges, management company's annual fee, or any other costs and charges payable to the management company or any of its connected persons borne by the holders or by the feeder fund may result, if the master fund in which the feeder fund invests is managed by the same management company or by a connected person of that company; and
Note: The SFC may consider on a case-by-case basis allowing additional fees to be payable to the management company or its connected persons in respect of additional or different services and expertise provided by the management company or its connected persons for the benefit of the scheme.

(e) notwithstanding Note(4) to 7.11B, the master fund may invest in other collective investment scheme(s) subject to the investment restrictions as set out in 7.11, 7.11A and 7.11B.

7.13 [deleted]

Prohibition on real estate investments

7.14 A scheme may not invest in any type of real estate (including buildings) or interests in real estate (including options or rights, but excluding shares in real estate companies and interests in real estate investment trusts (REITs)).

Note: In the case of investments in such shares and REITs, they shall comply with the investment limits as set out in 7.1, 7.1A, 7.2, 7.3 and 7.11, where applicable. For the avoidance of doubt, where investments are made in listed REITs, 7.1, 7.1A and 7.2 apply and where investments are made in unlisted REITs, which are either companies or collective investment schemes, then 7.3 and 7.11 apply respectively.

Short selling limitations

7.15 No short sale may be made which will result in the scheme’s liability to deliver securities exceeding 10% of its total net asset value.

Note: For the avoidance of doubt, a scheme is prohibited to carry out any naked or uncovered short sale of securities and short selling should be carried out in accordance with all applicable laws and regulations.

7.16 The security which is to be sold short must be actively traded on a market where short selling activity is permitted [see Note to 7.3].

Limitations on making loans

7.17 Subject to 7.3, a scheme may not lend, assume, guarantee, endorse or otherwise become directly or contingently liable for or in connection with any obligation or indebtedness of any person.

Note: For the avoidance of doubt, reverse repurchase transactions in compliance with the requirements as set out in 7.32 to 7.35 are not subject to the limitations in 7.17.

Unlimited liability

7.18 A scheme may not acquire any asset or engage in any transaction which involves the assumption of any liability which is unlimited.
Limited liability

7.18A The liability of holders must be limited to their investments in the scheme.

Limitations on securities in which directors/officers have interests

7.19 A scheme may not invest in any security of any class in any company or body if any director or officer of the management company individually owns more than 0.5% of the total nominal amount of all the issued securities of that class, or, collectively the directors and officers of the management company own more than 5% of those securities.

Limitations on nil-paid/partly paid securities

7.20 The portfolio of a scheme may not include any security where a call is to be made for any sum unpaid on that security unless that call could be met in full out of cash or near cash by the scheme's portfolio whereby such amount of cash or near cash has not been segregated to cover a future or contingent commitment arising from transaction in financial derivative instruments for the purposes of 7.29 and 7.30.

Limitations on borrowing

7.21 The maximum borrowing of a scheme may not exceed 10% of its total net asset value. For the purposes of 7.21, back-to-back loans do not count as borrowing.

Note: For the avoidance of doubt, securities lending transactions and sale and repurchase transactions in compliance with the requirements as set out in 7.32 to 7.35 are not subject to the limitations in 7.21.

7.22 [restated in 7.40]

7.23 [restated in 7.41]

7.24 [amended and restated in 7.42]

Financial derivative instruments

7.25 A scheme may acquire financial derivative instruments for hedging purposes.

Notes: (1) For the purposes of 7.25, financial derivative instruments are generally considered as being acquired for hedging purposes if they meet all the following criteria:

(a) they are not aimed at generating any investment return;

(b) they are solely intended for the purpose of limiting, offsetting or eliminating the probability of loss or risks arising from the investments being hedged;

(c) although they may not necessarily reference to the same underlying assets, they should relate to the same asset class with high correlation in terms of risks and return, and involve taking opposite positions, in respect of the investments being hedged; and
(d) they exhibit price movements with high negative correlation with the investments being hedged under normal market conditions.

(2) Hedging arrangement should be adjusted or re-positioned, where necessary and with due consideration on the fees, expenses and costs, to enable the scheme to meet its hedging objective in stressed or extreme market conditions.

7.26 A scheme may also acquire financial derivative instruments for non-hedging purposes ("investment purposes") subject to the limit that the scheme’s net exposure relating to these financial derivative instruments ("net derivative exposure") does not exceed 50% of its total net asset value.

Notes: (1) For the purpose of calculating net derivative exposure, the positions of financial derivative instruments acquired by a scheme for investment purposes are converted into the equivalent position in the underlying assets of the financial derivative instruments, taking into account the prevailing market value of the underlying assets, the counterparty risk, future market movements and the time available to liquidate the positions.

(2) The net derivative exposure should be calculated in accordance with the requirements and guidance issued by the Commission which may be updated from time to time.

(3) For the avoidance of doubt, financial derivative instruments acquired for hedging purposes under 7.25 will not be counted towards the 50% limit referred to in 7.26 so long as there is no residual derivative exposure arising from such hedging arrangement.

7.27 Subject to 7.26 and 7.28, a scheme may invest in financial derivative instruments provided that the exposure to the underlying assets of the financial derivative instruments, together with the other investments of the scheme, may not in aggregate exceed the corresponding investment restrictions or limitations applicable to such underlying assets and investments as set out in 7.1, 7.1A, 7.1B, 7.4, 7.5, 7.11, 7.11A, 7.11B and 7.14.

7.28 The financial derivative instruments invested by a scheme should be either listed/quoted on a stock exchange or dealt in over-the-counter market and comply with the following provisions:

(a) the underlying assets consist solely of shares in companies, debt securities, money market instruments, units/shares of collective investment schemes, deposits with substantial financial institutions, Government and other public securities, highly-liquid physical commodities, financial indices, interest rates, foreign exchange rates, currencies, or other asset classes acceptable to the Commission, in which the scheme may invest according to its investment objectives and policies;

Notes: (1) “Highly-liquid physical commodities” includes gold, silver, platinum and crude oil.
(2) Where a scheme invests in index-based financial derivative instruments, the underlying assets of such financial derivative instruments are not required to be aggregated for the purposes of the investment restrictions or limitations set out in 7.1, 7.1A, 7.1B and 7.4 provided that the index is in compliance with 8.6(e) of this UT Code.

(b) the counterparties to transactions of over-the-counter financial derivative instruments or their guarantors are substantial financial institutions;

Note: The Commission may consider to accept other entity falling outside the definition of “substantial financial institution” on a case-by-case basis taking into account factors such as the regulatory status of the entity or the group to which it belongs and the net asset value of the entity.

(c) subject to 7.1 and 7.1A, the scheme’s net counterparty exposure to a single entity arising from transactions of over-the-counter financial derivative instruments may not exceed 10% of the net asset value of the scheme [see 7.36]; and

Note: Exposure to a counterparty of over-the-counter financial derivative instruments may be lowered by the collateral received (if applicable) and should be calculated with reference to the value of collateral and positive mark to market value of the over-the-counter financial derivative instruments with that counterparty, if applicable.

(d) the valuation of the financial derivative instruments is marked-to-market daily, subject to regular, reliable and verifiable valuation conducted by the management company or the trustee/custodian or their nominee(s), agent(s) or delegate(s) independent of the issuer of the financial derivative instruments through measures such as the establishment of a valuation committee or engagement of third party services. The financial derivative instruments can be sold, liquidated or closed by an offsetting transaction at any time at their fair value at the scheme’s initiative. Further, calculation agent/fund administrator should be adequately equipped with the necessary resources to conduct independent marked-to-market valuation and to verify the valuation of the financial derivative instruments on a regular basis.

Cover

7.29 A scheme should at all times be capable of meeting all its payment and delivery obligations incurred under transactions in financial derivative instruments (whether for hedging or for investment purposes). The management company should, as part of its risk management process, monitor to ensure that the transactions in financial derivative instruments are adequately covered on an ongoing basis.

Note: For the purposes of 7.29, assets that are used to cover the scheme’s payment and delivery obligations incurred under transactions in financial derivative instruments should be free from any liens and encumbrances, exclude any cash or near cash for the purpose of meeting a call on any sum unpaid on a security [see 7.20], and cannot be applied for any other purposes.
7.30 Subject to 7.29, a transaction in financial derivative instruments which gives rise to a future commitment or contingent commitment of a scheme should be covered as follows:

(a) in the case of financial derivative instruments transactions which will, or may at the scheme’s discretion, be cash settled, the scheme should at all times hold sufficient assets that can be liquidated within a short timeframe to meet the payment obligation; and

(b) in the case of financial derivative instruments transactions which will, or may at the counterparty’s discretion, require physical delivery of the underlying assets, the scheme should hold the underlying assets in sufficient quantity at all times to meet the delivery obligation. If the management company considers the underlying assets to be liquid and tradable, the scheme may hold other alternative assets in sufficient quantity as cover, provided that such assets may be readily converted into the underlying assets at any time to meet the delivery obligation.

Note: In the case of holding alternative assets as cover, the scheme should apply safeguard measures such as to apply haircut where appropriate to ensure that such alternative assets held are sufficient to meet its future obligations.

Embedded financial derivatives

7.31 Where a financial instrument embeds a financial derivative, 7.25 to 7.30 will also apply to the embedded financial derivative.

Note: An embedded financial derivative is a financial derivative instrument that is embedded in another security, namely the host contract.

Securities financing transactions

7.32 A scheme may engage in securities lending, sale and repurchase and reverse repurchase transactions (collectively, “securities financing transactions”), provided that they are in the best interests of holders to do so and the associated risks have been properly mitigated and addressed.

Note: The counterparties to securities financing transactions should be financial institutions which are subject to ongoing prudential regulation and supervision.

7.33 A scheme should have at least 100% collateralization in respect of the securities financing transaction(s) into which it enters to ensure there is no uncollateralized counterparty risk exposure arising from these transactions [see 7.36].

7.34 All the revenues arising from securities financing transactions, net of direct and indirect expenses as reasonable and normal compensation for the services rendered in the context of the securities financing transactions, should be returned to the scheme.

7.35 A scheme should ensure that it is able at any time to recall the securities or the full amount of cash (as the case may be) subject to the securities financing transaction(s) or terminate the securities financing transaction(s) into which it has entered.
Collateral

The following provisions apply to the collateral held by a scheme.

Note: For the avoidance of doubt, the invested assets under an unfunded swap structure should be treated as collateral and subject to the requirements in 7.36 to 7.38.

7.36 To limit the exposure to each counterparty as set out in 7.28(c) and 7.33, a scheme may receive collateral from such counterparty, provided that the collateral complies with the requirements set out below:

(a) Liquidity – collateral must be sufficiently liquid and tradable in order that it can be sold quickly at a robust price that is close to pre-sale valuation. Collateral should normally trade in a deep and liquid marketplace with transparent pricing;

(b) Valuation – collateral should be marked-to-market daily by using independent pricing source;

(c) Credit quality – asset used as collateral must be of high credit quality and should be replaced immediately as soon as the credit quality of the collateral or the issuer of the asset being used as collateral has deteriorated to such a degree that it would undermine the effectiveness of the collateral;

(d) Haircut – collateral should be subject to prudent haircut policy;

Note: Haircuts should be based on the market risks of the assets used as collateral in order to cover potential maximum expected decline in collateral values during liquidation before a transaction can be closed out with due consideration on stress period and volatile markets. The price volatility of the asset used as collateral should be taken into account when devising the haircut policy. Other specific characteristics of the collateral, including, among others, asset types, issuer creditworthiness, residual maturity, price sensitivity, optionality, expected liquidity in stressed period, impact from foreign exchange, and correlation between securities accepted as collateral and the securities involved in the transactions, should also be considered where appropriate.

(e) Diversification – collateral must be appropriately diversified so as to avoid concentrated exposure to any single entity and/or entities within the same group. The scheme’s exposure to the issuer(s) of the collateral should be taken into account in compliance with the investment restrictions and limitations set out in 7.1, 7.1A, 7.1B, 7.4, 7.5, 7.11, 7.11A, 7.11B and 7.14;

Note: By way of illustration, the value of collateral and the scheme’s other investments in, or exposure to, any single entity or entities within the same group may not exceed 10% or 20% of the scheme’s net asset value respectively [see 7.1 and 7.1A]. Where the collateral is in the form of (i) cash; (ii) Government and other public securities; (iii) collective investment schemes [see 7.36(l)]; and (iv) REITs, the applicable investment limitations and restrictions under (i) 7.1B; (ii) 7.4 and 7.5; (iii) 7.11, 7.11A and 7.11B; and (iv) 7.14 apply respectively, together with the scheme’s other investments or exposure.
(f) Correlation – the value of the collateral should not have any significant correlation with the creditworthiness of the counterparty or the issuer of the financial derivative instruments, or the counterparty of securities financing transactions in such a way that would undermine the effectiveness of the collateral. As such, securities issued by the counterparty or the issuer of the financial derivative instruments, or the counterparty of securities financing transactions or any of their related entities should not be used as collateral;

(g) Management of operational and legal risks – the management company must have appropriate systems, operational capabilities and legal expertise for proper collateral management;

(h) Independent custody – collateral must be held by the trustee/custodian of the scheme;

(i) Enforceability – collateral must be readily accessible / enforceable by the trustee/custodian of the scheme without further recourse to the issuer of the financial derivative instruments, or the counterparty of the securities financing transactions;

(j) Re-investment of collateral – cash collateral received may only be reinvested in short-term deposits, high quality money market instruments and money market funds authorized under 8.2 of this UT Code or regulated in a manner generally comparable with the requirements of the Commission and acceptable to the Commission, and subject to corresponding investment restrictions or limitations applicable to such investments or exposure as set out in this Chapter [see 7.36(e)]. Non-cash collateral received may not be sold, re-invested or pledged;

Notes:

(1) Money market instruments refer to securities normally dealt in on the money markets, for example, government bills, certificates of deposit, commercial papers, short-term notes and bankers’ acceptances, etc. In assessing whether a money market instrument is of high quality, at a minimum, the credit quality and the liquidity profile of the money market instruments must be taken into account.

(2) The portfolio of assets from re-investment of cash collateral shall comply with the requirements as set out in 8.2(f) and 8.2(n).

(3) Cash collateral received is not allowed to be further engaged in any securities financing transactions.

(4) When the cash collateral received is reinvested into other investment(s), such investment(s) is/are not allowed to be engaged in any securities financing transactions.

(k) Collateral should be free of prior encumbrances; and

(l) Collateral generally should not include (i) structured products whose payouts rely on embedded financial derivatives or synthetic instruments; (ii) securities issued by special purpose vehicles, special investment vehicles or similar entities; (iii) securitized products; or (iv) unlisted collective investment schemes.
7.37 A scheme should disclose the information relating to its collateral policy as required under Appendix C.

7.38 A scheme shall disclose in the scheme’s interim and annual reports a description of collateral holdings as required under Appendix E.

**Guaranteed features**

7.39 The following requirements apply to a scheme which contains a structure whereby a guaranteed amount will be paid to investors who invest in units/shares in the scheme at a specified date in the future (with or without conditions):

(a) The guarantor must be:

(i) a substantial financial institution; or

(ii) an authorized insurer authorized under the Insurance Ordinance (Chapter 41 of Laws of Hong Kong).

*Note:* A scheme’s net single counterparty exposure to the guarantor should be taken into account in compliance with the limits on single entity and/or entities within the same group under 7.1 and 7.1A respectively. In addition, the scheme’s net single counterparty exposure to the guarantor may not exceed 10% of its net asset value at all times.

(b) Apart from the standard contents requirements in Appendix C, the offering document of the scheme must contain:

(i) Information about the guarantor

(1) its name;

(2) nature of its business; and

(3) information on its financial position, including paid-up share capital, total net assets or shareholders’ funds, and where applicable, credit rating and any other relevant information.

(ii) Information about the guarantee

(1) the terms of the guarantee, including the scope and validity of the guarantee and the circumstances under which the guarantee may be terminated; and

*Note:* The offering document should contain a summary of the key terms and features of the guarantee.

(2) an illustration or description to clearly demonstrate the guarantee mechanism and how potential returns in excess of the guaranteed amount are calculated.
Notes: (1) Where an indicative participation rate is shown, the illustration should use the quoted indicative rate as the basis for calculation.

(2) Assumptions used in the illustration should be clearly stated. It should be stated that the rates of return shown are for illustrative purpose only and that the actual return may be different.

(iii) A detailed description of the nature of the underlying investments, including:

(1) the proposed percentage, or an estimate thereof, of the scheme to be invested in fixed-interest securities and that in other investments at the time of publication of the offering document;

(2) the issuers/counterparties of the underlying investments, or the criteria for the selection of such parties;

(3) the valuation methodology of the underlying investments;

(4) the liquidation mechanism of the underlying investments to meet redemption requests; and

(5) where relevant, the participation rate or an estimate thereof at the time of publication of the offering document. It should be stated that the actual participation rate may be different from the indicative rate. An analysis of the factors that will impact on the final determination of such rate should also be given.

Note: Where applicable, it should be stated when the actual participation rate will be determined and how such information will be communicated to investors.

(iv) Risk warnings, which should include, but not limited to:

(1) a statement to the effect that due to the guarantee structure, there will be a dilution of performance;

(2) a statement to the effect that potential returns in excess of the guaranteed amount are subject to investment risk and are not guaranteed;

(3) a statement to the effect that the scheme is subject to the credit risk of the guarantor and the issuers of the underlying investments;

(4) a statement to the effect that the scheme is subject to the liquidity risk of the underlying investments;

(5) risks, if any, associated with conflicts of interest that may arise amongst different operating parties;
(6) a warning statement that the scope or validity of the guarantee may be affected under certain circumstances including, where relevant, the condition that the guarantee only applies to investors who hold their investments until the date specified in the guarantee and that dealings before such date are fully exposed to fluctuations in the value of the scheme's assets; and

(7) where applicable, the mechanism of any up-front charging fee structure and the cost implications to investors.

c) Nothing in the deed of guarantee may exclude the jurisdiction of the courts of Hong Kong to entertain an action concerning the scheme or the guarantee.

d) The name of the scheme should accurately reflect the nature of the guarantee.

e) The management company of the scheme should report to the Commission as soon as practicable if it becomes aware of any events which may affect the guarantee or undermine the ability of the guarantor to act as such.

Note: Where the guarantor of a scheme is neither a licensed banking institution authorized under the Banking Ordinance (Chapter 155 of Laws of Hong Kong) nor an authorized insurer authorized under the Insurance Ordinance (Chapter 41 of Laws of Hong Kong), the management company of the scheme must notify the Commission on an annual basis the regulatory status of the guarantor.

(f) Any advertisement or marketing material must contain the following:

(i) the name of the guarantor;

(ii) where relevant, a statement that certain fees are charged up-front and the aggregate amount thereof;

(iii) where an indicative participation rate is quoted, the date of reference should be stated and there should be a warning that the actual participation rate may be different from the indicative rate;

(iv) the statement in 7.39(b)(iv)(6); and

(v) a statement directing investors to read the offering document for further details of the guarantee.

Applicability of restrictions to umbrella funds

7.40 The provisions of this Chapter apply to each sub-fund of the umbrella fund as if each sub-fund were a single scheme, except for 7.2, where the total collective investment by the sub-funds in any ordinary shares issued by any single entity may not exceed 10%.

Breach of investment limits

7.41 If the investment limits in Chapter 7 and 8 are breached, the management company should take as a priority objective all steps as are necessary within a reasonable period of time to remedy the situation, taking due account of the interests of the holders.
Name of scheme

7.42 If the name of the scheme indicates a particular objective, investment strategy, geographic region or market, the scheme should, under normal market circumstances, invest at least 70% of its total net asset value in securities and other investments to reflect the particular objective, investment strategy or geographic region or market which the scheme represents.
Chapter 8: Specialized schemes

This Chapter sets out the requirements for various types of specialized schemes. A specialized scheme means any scheme whose primary objective is not investment in equities and/or bonds, any scheme falling under the categories in this Chapter, or which otherwise does not meet the relevant requirements of Chapter 7 associated with any particular or special feature(s) of the scheme.

For any scheme that has features falling within the scope of one or more specialized scheme(s) under this Chapter, the scheme shall comply with the relevant requirements under this Chapter where applicable, in addition to the requirements under Chapter 7 with modifications, exemptions or additions as set out in this Chapter.

In addition to the specialized schemes mentioned in this Chapter, application may be made for other specialized schemes pursuant to this Chapter. Each such scheme will be considered by the Commission on a case-by-case basis, taking into account the applicable requirements set out in this Chapter and Chapter 7, or pending the issue, if appropriate, of further guidelines.

8.1 [deleted]

8.2 Money market funds

(a) A money market fund means a scheme which invests in short-term and high quality money market investments and seeks to offer returns in line with money market rates.

Note: Collective investment schemes which present the characteristics of a money market fund or which are presented to investors or potential investors as having similar investment objectives (e.g. funds named as “liquid funds” or “cash funds”) should also be subject to the requirements under 8.2 of this UT Code, notwithstanding that such schemes are not marketed as “money market fund”.

Offering document

(b) The offering document must clearly highlight that the purchase of a unit/share in a scheme is not the same as placing funds on deposit with a bank or deposit-taking company, that the management company has no obligation to redeem units/shares at the offer value and that the scheme is not subject to the supervision of the Hong Kong Monetary Authority.

Name of scheme

(c) In addition to 7.42, the scheme's name must not appear to draw a parallel between the scheme and the placement of cash on deposit.
Filing requirement

(d) The scheme must file with the Commission within seven days from the last working day of each month details of the total funds subscribed to the scheme that month, and details of the total funds under management at the end of that month.

Investment limitations

The core requirements on investments as set out in Chapter 7 will apply with the following modifications, exemptions or additional requirements:

(e) Subject to the provisions below, a scheme may only invest in short-term deposits and high quality money market instruments [see Note(1) to 7.36(j)], and money market funds that are authorized by the Commission under 8.2 of this UT Code or regulated in a manner generally comparable with the requirements of the Commission and acceptable to the Commission.

Note: Subject to 8.2(j), money market instruments may include asset-backed securities such as asset-backed commercial papers.

(f) A scheme must maintain a portfolio with weighted average maturity not exceeding 60 days and a weighted average life not exceeding 120 days and must not purchase an instrument with a remaining maturity of more than 397 days, or two years in the case of Government and other public securities [see Notes(1) and (2) to 7.5].

Notes: (1) Weighted average maturity is a measure of the average length of time to maturity of all the underlying securities in the scheme weighted to reflect the relative holdings in each instrument; and is used to measure the sensitivity of a scheme to changing money market interest rates.

(2) Weighted average life is the weighted average of the remaining life of each security held in a scheme; and is used to measure the credit risk, as well as the liquidity risk.

(3) The use of interest rate resets in variable-notes or variable-rate notes generally should not be permitted to shorten the maturity of a security for the purpose of calculating weighted average life, but may be permitted for the purpose of calculating weighted average maturity.

(g) Notwithstanding 7.1 and 7.1B, the aggregate value of a scheme's holding of instruments and deposits issued by a single entity may not exceed 10% of the total net asset value of the scheme except:

(i) where the entity is a substantial financial institution and the total amount does not exceed 10% of the entity's share capital and non-distributable capital reserves, the limit may be increased to 25%; or

(ii) in the case of Government and other public securities, up to 30% may be invested in the same issue; or
(iii) in respect of any deposit of less than US$ 1,000,000 or its equivalent in the base currency of the scheme, where a scheme cannot otherwise diversify as a result of its size.

(g)(a) Notwithstanding 7.1A and 7.1B, the aggregate value of a scheme’s investments in entities within the same group [see Note(1) to 7.1A] through instruments and deposits may not exceed 20% of its total net asset value.

Notes: (1) 8.2(g)(a) will not apply in respect of cash deposit of less than US$ 1,000,000 or its equivalent in the base currency of the scheme, where a scheme cannot otherwise diversify as a result of its size.

(2) where the entity is a substantial financial institution and the total amount does not exceed 10% of the entity’s share capital and non-distributable capital reserves, the limit may be increased to 25%.

Limitations on borrowing

(h) Notwithstanding 7.21, a scheme may borrow up to 10% of its total net asset value but only on a temporary basis for the purpose of meeting redemption requests or defraying operating expenses.

Underlying assets requirements

(i) The value of a scheme’s holding of money market funds that are authorized by the Commission under 8.2 of this UT Code or regulated in a manner generally comparable with the requirements of the Commission and acceptable to the Commission may not in aggregate exceed 10% of its total net asset value.

(j) The value of a scheme’s holding of investments in the form of asset-backed securities may not exceed 15% of its total net asset value.

(k) Subject to 7.32 to 7.38, a scheme may engage in sale and repurchase, and reverse repurchase transactions in compliance with the following additional requirements:

(i) the amount of cash received by a scheme under sale and repurchase transactions may not in aggregate exceed 10% of its total net asset value;

(ii) the aggregate amount of cash provided to the same counterparty in reverse repurchase agreements may not exceed 15% of the net asset value of the scheme;

(iii) collateral received may only be cash, high quality money market instruments [see Note(1) to 7.36(j)] and may also include, in the case of reverse repurchase transactions, government securities receiving a favourable assessment on credit quality [see Note (4) to 5.10(f)]; and

(iv) the holding of collateral, together with other investments of the scheme, must not contravene the investment limitations and requirements set out in 8.2 of this UT Code.
(l) A scheme may use financial derivative instruments for hedging purposes only [see Notes (1) and (2) to 7.25].

(m) The currency risk of a scheme should be appropriately managed. In particular, any material currency risk should be appropriately hedged where a scheme invests in assets that are not denominated in the base currency of the scheme.

(n) A scheme must hold at least 7.5% of its total net asset value in daily liquid assets and at least 15% of its total net asset value in weekly liquid assets.

Notes: (1) Daily liquid assets refers to (i) cash; (ii) instruments or securities convertible into cash (whether by maturity or through exercise of a demand feature) within one working day; and (iii) amount receivable and due unconditionally within one working day on pending sales of portfolio securities.

(2) Weekly liquid assets refers to (i) cash; (ii) instruments or securities convertible into cash (whether by maturity or through exercise of a demand feature) within five working days; and (iii) amount receivable and due unconditionally within five working days on pending sales of portfolio securities.

(3) In addition, it is expected that periodic stress testing to be carried out by the management company in monitoring the scheme’s liquidity.

(o) A scheme that offers a stable or constant net asset value or which adopts an amortized cost accounting for valuation of its assets may only be considered by the Commission on a case-by-case basis.

Note: Among others, the Commission must be satisfied with the overall measures and safeguards put in place by the scheme to properly address relevant risks associated with these features, having taken into account applicable international regulatory standards and requirements. Non-exhaustive examples of safeguards may include setting out clear and reasonable criteria for the types of instruments and the circumstances under which a scheme may use amortized cost accounting, ongoing monitoring of the difference between the amortized cost of an instrument and its market value or the difference between the constant net asset value of the scheme and its marked-to-market net asset value (as the case may be), procedures in place to ensure appropriate actions are to be taken promptly in the interests of the investors when such difference exceeds a pre-determined threshold, enhanced measures to satisfy redemption requests including holding higher level(s) of daily and/or weekly liquid assets.

8.3 [deleted]

8.4 [deleted]

8.4A [deleted]

8.5 [deleted]
8.6 Unlisted index funds and index tracking exchange traded funds

General

(a) An “unlisted index fund” is a scheme, the principal objective of which is to track, replicate or correspond to a financial index or benchmark, with an aim of providing or achieving investment results or returns that closely match or correspond to the performance of the index. Such unlisted index fund authorized by the Commission will be referred to as “index fund” in this UT Code.

(a)(a) An index tracking exchange traded fund means an index fund as defined in 8.6(a) the units/shares of which are listed and traded on a securities exchange. Such index tracking exchange traded fund authorized by the Commission will be referred to as “passive ETF” in this UT Code.

(a)(b) The term “index” used in 8.6 of this UT Code shall mean an index or a benchmark as the context requires.

(a)(c) Subject to consultation with the SFC, a scheme under 8.6 of this UT Code may have unlisted and/or listed unit/share classes. The unlisted class and listed class shall comply with the requirements on index fund and passive ETF in 8.6 of this UT Code respectively.

Index funds

The provisions set out in 8.6(b) to 8.6(m) apply to index funds.

(b) An index fund may seek to track an index by one or a combination of the following strategies:

(i) full replication by investing all or substantially all of its assets in the constituents of the underlying index, broadly in proportion to the respective weightings of the constituents;

(ii) a representative sampling by investing in a portfolio featuring a high correlation with the underlying index; and

Note: The use of sampling where certain securities in the portfolio are not the constituent securities of the index is acceptable if the portfolio matches the characteristics of the index.

(iii) synthetic replication through the use of financial derivative instruments to replicate the index performance.

(c) In achieving its investment objective, an index fund may invest in other appropriate investment instruments, such as financial derivative instruments permitted under this UT Code or otherwise accepted by the Commission, in accordance with the index fund’s disclosed investment strategies and restrictions.
(c)(a) An index fund must also comply with the requirements in 8.8 of this UT Code if the index fund’s net derivative exposure [see Note to 7.26] exceeds 50% of its total net asset value.

(d) In general, the Commission will consider authorizing an index fund only if the underlying index is acceptable to the Commission. Such acceptance does not imply official approval or endorsement of the index. The Commission reserves the right to withdraw the authorization if the index is no longer considered acceptable.

Note: The management company should immediately consult the Commission if for any reasons the index might likely cease or has ceased to be acceptable. The management company should as a priority objective propose remedial actions or alternatives that are acceptable to the Commission.

Acceptable indices

(e) The acceptability of an index will be assessed on the following criteria:

(i) The index should have a clearly defined objective and/or the market or sector it aims to represent should be clear;

Notes: (1) The Commission must be satisfied that the index appropriately reflects the characteristics of the market or sector. The index should be able to, where applicable, reflect the price movements in its underlying constituents and change the composition and weightings of these constituents to reflect changes in the underlying market or sector. The Commission may, where relevant, request information on the market capitalisation of the constituent securities in relation to the total value of the market or sector that an index purports to represent.

(2) Where the index relates to a single commodity or interest rate for money market, it should be well-recognized and representative of the relevant market or sector.

(ii) The index should in general be broadly based;

Note: An index with a single constituent security weighing more than 20% (or 35% where that proves to be justified by exceptional conditions in markets where certain securities are highly dominant and provided that each remaining constituent security does not exceed 20%) or having few constituent securities would generally be considered too concentrated. Exceptions may be made on a case by case basis, particularly where the constituent securities are Government or other public securities, or the index relates to a single commodity or interest rate for money market.

(iii) The index should be investible, where applicable;
Note: The Commission expects that the constituent securities should be sufficiently liquid (taking into account their respective weightings and trading volume), and may be readily acquired or disposed of under normal market circumstances and in the absence of trading restrictions.

(iv) The index should be transparent and published in an appropriate manner; and

Notes: (1) The last closing index level and other important news should be either published in Hong Kong daily newspapers or conveniently accessible by investors (for example, by enquiring of the Hong Kong Representative or through relevant websites). The Commission may also consider whether the index is easily accessible through market data vendors.

(2) The Commission expects that the index constituents together with their respective weightings should be easily accessible, free of charge, by investors (for example, via the internet). This information should be published after each index rebalancing on a retrospective basis and in advance of the next rebalancing.

(v) The index should be objectively calculated and rules-based. The index provider is expected to possess the necessary expertise and technical resources to construct, maintain and review the methodology/rules of the index. The methodology/rules should be well documented, consistent and transparent.

Notes: (1) The Commission may request the submission of the methodology/rules of the index.

(2) Where the index provider is the management company of the index fund (or its connected persons), effective arrangements for management of conflicts of interests should be put in place.

Reporting requirements

(f) The Commission should be consulted on any events that may affect the acceptability of the index. Significant events relating to the index should be notified to the holders as soon as practicable. These may include a change in the methodology/rules for compiling or calculating the index, or a change in the objective or characteristics of the index.

Investment restrictions

(g) The core requirements in Chapter 7 will apply with the modifications or exceptions as set out in 8.6(h) to 8.6(i).

(h) Notwithstanding 7.1, more than 10% of the net asset value of an index fund may be invested in constituent securities issued by a single entity provided that:
it is limited to any constituent securities that each accounts for more than 10% of the weighting of the index; and

(ii) the index fund's holding of any such constituent securities may not exceed their respective weightings in the index, except where weightings are exceeded as a result of changes in the composition of the index and the excess is only transitional and temporary in nature.

(h)(a) Investment restrictions in 8.6(h)(i) and (ii) do not apply if:

(i) an index fund adopts a representative sampling strategy which does not involve the full replication of the constituent securities of the underlying index in the exact weightings of such index;

(ii) the strategy is clearly disclosed in the offering document of the index fund;

(iii) the excess of the weightings of the constituent securities held by the index fund over the weightings in the index is caused by the implementation of the representative sampling strategy;

(iv) any excess weightings of the index fund’s holdings over the weightings in the index must be subject to a maximum limit reasonably determined by the index fund after consultation with the Commission. In determining this limit, the index fund must consider the characteristics of the underlying constituent securities, their weightings and the investment objectives of the index and any other suitable factors;

(v) limits laid down by the index fund pursuant to 8.6(h)(a)(iv) must be disclosed in the offering document; and

(vi) disclosure must be made in the index fund’s interim and annual reports as to whether the limits imposed by the index fund itself pursuant to 8.6(h)(a)(iv) have been complied with in full. If there is non-compliance with the said limits during the relevant reporting period, this must be reported to the Commission on a timely basis and an account for such non-compliance should be stated in the report relating to the period in which the non-compliance occurs or otherwise notified to investors.

(h)(b) Due to its index tracking nature, the Commission may, upon sufficient justification, consider not requiring index fund to strictly comply with the investment restrictions in 7.1A and 7.1B on a case-by-case basis.

(i) Subject to the approval of the Commission, the 30% limit in 7.4 may be exceeded, and an index fund may invest all of its assets in Government and other public securities in any number of different issues despite 7.5.

Disclosure

(j) In addition to the requirements under Appendix C, the offering document of an index fund must make the following disclosure and warnings:

(i) a description of the market or sector the index aims to represent;
(ii) the characteristics and general composition of the index and, where applicable, concentration in any economic sectors and/or issuers;

(iii) a publicly accessible website where the constituents of the index together with their respective weightings are published;

(iv) where necessary, a statement to the effect that the investment of the index fund may be concentrated in the securities of a single issuer or several issuers;

(v) a warning of lack of discretion to adapt to market changes due to the inherent investment nature of index funds and that falls in the index are expected to result in corresponding falls in the value of the index fund;

(vi) a statement to the effect that there is no guarantee or assurance of exact or identical replication at any time of the performance of the index;

(vii) circumstances that may lead to tracking errors and the related risks, and strategies employed in minimising such errors;

(viii) a brief description of the index methodology/rules and/or the means by which investors may obtain such information (for example, by providing the website address of the index provider);

(ix) the means by which investors may obtain the latest index information and other important news of the index;

(x) a warning that index composition may change and securities may be delisted;

(xi) any circumstances that may affect the accuracy and completeness in the calculation of the index;

(xii) a warning in relation to any licensing conditions (including indemnity given to the index provider, if any) for using the index, and the contingency plan in the event of cessation of the availability of the index;

(xiii) a statement on whether the index provider and the management company of the index fund (or its connected persons) are independent of each other. If not, the means by which possible conflicts of interests may be addressed;

(xiv) the Commission reserves the right to withdraw the authorization of the index fund if the index is no longer considered acceptable; and

(xv) any other information which is relevant and material for investors to make an informed investment decision.

Replacement of the underlying index

(k) Following the authorization of the index fund, a replacement of the underlying index may only be made in accordance with the provisions of its offering and constitutive documents and with the prior approval of the Commission.
Note: A replacement of the underlying index may be necessary under circumstances including where the index is no longer available or considered acceptable.

(l) [deleted]

**Name of index fund**

(m) The name of the index fund must reflect the nature of an index fund.

**Note:** Except with the approval of the Commission, the words “index”, “tracking” and/or “tracker” are expected to appear in the name of the index fund.

**Passive ETFs**

The provisions set out in 8.6(n) to 8.6(y) apply to passive ETFs:

(n) Passive ETFs must comply with the requirements in this UT Code not otherwise modified below. In particular, the requirements on index funds in 8.6 of this UT Code are broadly applicable to passive ETFs.

(o) It is a condition for authorizing a passive ETF that it must be listed and traded on The Stock Exchange of Hong Kong Limited (the “SEHK”).

(p) The management company of a passive ETF is generally expected to use its best endeavours to put in place arrangements so that there is at least one market maker for the units/shares (traded in each counter) of the passive ETF and at least one market maker for (each counter of) the passive ETF will give not less than three months’ notice prior to terminating the market making arrangement. The appointed market maker shall observe the applicable requirements concerning market making activities issued by the SEHK.

(q) The management company of a passive ETF shall inform the Commission and holders by way of public announcement, in the manner as may be required by the Commission, and publish as soon as reasonably practicable any information or transaction concerning the passive ETF which:

(i) is necessary to enable holders to appraise the position of the passive ETF; or

(ii) is necessary to avoid a false market in the units/shares of the passive ETF; or

(iii) might be reasonably expected to materially affect market activity in the passive ETF or affect the price of the units/shares of the passive ETF.

(r) Name of a passive ETF under note to 8.6(m) – The note to 8.6(m) is amended to the effect that except with the approval of the Commission, the words “index”, “tracking”, “tracker” and/or “ETF” are expected to appear in the name of a passive ETF.
The notification requirements under 10.7 and 11.1A are modified to the following extent:

(i) Suspension of dealing in 10.7 – The management company must immediately notify the Commission as soon as practicable if dealing in units/shares on the SEHK ceases or is suspended.

(ii) Increase in fees and charges in 11.1A – Any increase in fees and charges from the current level up to the permitted maximum level as disclosed in the Hong Kong Offering Document is subject to at least one week’s prior notice to holders.

(iii) All notices and public announcements made by passive ETFs in accordance with this UT Code must be prepared in both English and Chinese.

Note: For avoidance of doubt, nothing in 8.6(s) shall exempt a passive ETF from compliance with 11.1, 11.4 and 11.5.

Where a passive ETF ceases trading on the SEHK as a result of proposed termination and/or deauthorization and delisting, the requirements in 6.1, 8.6(u)(i) and (ii), 10.7 and 11.1B may be modified and/or not be applicable depending on the specific circumstances of each case and subject to such conditions and requirements as may be imposed by the Commission.

In addition to information commonly available for stocks during the trading hours of the SEHK (e.g. bid/ask prices and queuing displays), a passive ETF must, except with the approval of the Commission, provide the following trading information to the public through the passive ETF’s own website or such other channels as the Commission considers appropriate:

(i) real time or near-real time indicative net asset value per unit/share (updated at least every 15 seconds during trading hours);

(ii) last net asset value per unit/share and last net asset value of the passive ETF (updated on a daily basis); and

(iii) full holdings of the passive ETF (updated on a monthly basis within one month of the end of each month).

Notes: (1) Indicative net asset value per unit/share means a measure of the intraday value of the net asset value per unit/share of a passive ETF based on the most up-to-date information.

(2) For a passive ETF with multiple trading counters, the relevant information shall be provided for each counter.

(3) The offering document shall disclose the policy regarding disclosure of holdings of the passive ETF.

(4) The offering document shall direct investors to the website or other channels where the above information is published.
(5) Where the full holdings of the passive ETF is provided to the public on a more frequent basis (e.g. daily), the passive ETF is not required to comply with 8.6(u)(iii).

(v) If a passive ETF’s net derivative exposure [see Note to 7.26] exceeds 50% of its total net asset value, the passive ETF shall make available, through the passive ETF’s own website or other acceptable channels, the information on financial derivative instruments acquired by the passive ETF (such as counterparty exposure and collateral information) to investors on an ongoing basis. The offering document should direct investors to the website or other channels where this information is published.

(w) Where securities financing transactions undertaken by a passive ETF exceed 50% of its total net asset value, the passive ETF should make available, through the passive ETF’s own website or other acceptable channels, the information on securities financing transactions undertaken by the passive ETF (such as counterparty exposure and collateral information) to investors on an ongoing basis. The offering document should direct investors to the website or other channels where this information is published.

(x) A passive ETF must ensure that the following documents are made readily available to investors through any of the passive ETF’s own website or such other channels as the Commission considers appropriate:

(i) offering document (including Product KFS);

(ii) latest version of the interim and annual reports of the passive ETF; and

(iii) all notices and public announcements (including notices for suspension and resumption of trading) issued by the passive ETF in Hong Kong.

Note: Where a passive ETF is listed and traded on the SEHK, it may, but is not required to, make available the abovementioned documents to investors by way of hyperlinks to the website of Hong Kong Exchanges and Clearing Limited.

(y) The Commission may enter into mutual recognition arrangements with other jurisdictions from time to time to facilitate cross-listing and offering of exchange traded funds in each other’s market. Please refer to the relevant circulars published on the Commission’s website at www.sfc.hk for the specific relief granted to overseas exchange traded funds under relevant mutual recognition arrangements.

8.7 Hedge funds

Foreword

The following criteria apply to collective investment schemes that are commonly known as hedge funds (or alternative investment funds or absolute return funds). Hedge funds are generally regarded as non-traditional funds that possess different characteristics and utilize different investment strategies from traditional funds. In considering an application for authorization, the Commission will, among other things, consider the following:
(i) the choice of asset class; and

(ii) the use of alternative investment strategies such as long/short exposures, leverage, and/or hedging and arbitrage techniques.

Due to the wide array of schemes that may fall under this category, the Commission will exercise its discretion in imposing additional conditions to each scheme on a case-by-case basis as appropriate.

Where a scheme invests all its non-cash assets in other hedge funds, it may be authorized as a fund of hedge funds (FoHFs).

The management company

(a) The management company of a scheme must satisfy the requirements set out in Chapter 5 unless otherwise specified in this Chapter. For the avoidance of doubt, the Commission will consider, among others, the following factors when assessing the acceptability of the management company:

(i) The management company must have the requisite competence, expertise and appropriate risk management and internal controls systems. It must also be adequately and suitably staffed in order to properly manage the risks and operational issues in connection with its hedge funds business;

(ii) the experience of the key personnel of the management company and those of the investment delegate (where the latter has been delegated the investment management function) in managing hedge funds;

Note: The key personnel of the management company of either a single hedge fund1 or a FoHFs must be dedicated full-time staff with a demonstrable track record in the management of hedge funds.

The Commission will take into account various factors in assessing the acceptability of the key personnel for a scheme. These factors may vary from a single hedge fund to a FoHFs having regard to the different strategies and operational differences of these funds.

There must be at least two key personnel in the management company each having at least five years’ relevant experience. The management company must demonstrate that out of these five years’ relevant experience, the two key personnel must each have at least two years’ specific experience:

(a) In the case of a single hedge fund manager, the Commission will normally consider it acceptable if each of the two key personnel has at least two years’ specific investment management experience in the same strategy as that of the scheme.

1 “Single hedge fund” in the context of 8.7 means hedge funds that are not in the form of FoHFs.
(b) In the case of a FoHFs manager, the Commission will normally consider it acceptable if each of the two key personnel has at least two years’ specific investment management experience as a FoHFs manager.

A key personnel may satisfy this five years’ relevant experience by a combination of both his specific experience mentioned above and general experience relating to hedge funds. With respect to general experience, the Commission will normally consider the following types of experience acceptable:

(1) proprietary trading experience in securities, financial derivative instruments or other investment instruments which are of a similar nature to those contemplated by the scheme; or

(2) carrying out investment strategies in the context of investment management or securities dealing business in similar nature to the one contemplated for the scheme; or

(3) prior experience in evaluating or selecting hedge funds for investment purposes.

General experience acquired through academic research, sales or marketing or back-office administration of hedge funds is unlikely to be considered acceptable for meeting the requirement in 8.7(a).

For the avoidance of doubt, to the extent that 5.5(a) requires the key personnel to possess specific public funds experience, this requirement may be satisfied if the management company on a firm-wide basis is able to demonstrate that it possesses the requisite experience and resources to administer public funds.

The Commission may require independent substantiation of the management experience and track record of the key personnel, the management company and the group companies (where appropriate).

The experience requirement of the investment personnel of the underlying funds of a FoHFs is set out in the “Fund of Hedge Funds” section below.

(iii) amount of assets under management;

Note: The Commission would generally expect at least US$100 million for the total amount of assets under management that follow hedge fund strategies. While assets under management may include proprietary funds, the Commission will generally look for experience in managing third-party funds.

(iv) the risk management profile and internal control systems of the management company; and
Note: The management company must have in place suitable internal controls and risk management systems commensurate with the company’s business and risk profile, including a clear risk management policy and written control procedures.

It must continuously deploy such necessary resources and be vigilant to ensure that all the relevant risks in connection with the management of the scheme are properly monitored and controlled in accordance with the investment strategy of the scheme.

The management company must demonstrate that those representatives and agents (including for example, administrators, custodian, brokers, valuation agents) appointed by it possess sufficient know-how and experience in dealing with hedge funds.

In the case of the management of a FoHFs, the management company must:

(a) have in place a due diligence process for the selection of the underlying funds and ongoing monitoring of their activities;

(b) demonstrate its ability to assess and monitor the performance of the managers of the underlying funds, and the ability to replace the underlying funds whenever necessary to protect the interests of holders; and

(c) submit a plan to explain its due diligence and ongoing monitoring processes (containing, among others, the frequency of reporting and evaluation of the underlying funds, and measures adopted by the management company to ensure investment and operational risks of the underlying funds are analysed and controlled) and include a summary of the plan in the offering document of the scheme.

The management company must ensure that its risk management process is able to deal with normal and exceptional circumstances including extreme market conditions.

The management company must take all reasonable care in the selection of its distribution agents engaged in the selling of hedge funds and provide all necessary information and training to these agents for the purpose of selling the scheme.

(v) the investment management operations of the scheme must be based in a jurisdiction with an inspection regime acceptable to the Commission.

Note: Whilst reference would be made to the list of acceptable inspection regimes published on the Commission’s website, it is noted that the regulation of offshore hedge funds vs. onshore funds may be different in some jurisdictions. The acceptability of an inspection regime in the context of a scheme that is subject to such regime and is seeking SFC authorization may need to be considered on a case-by-case basis.
Prime broker

(b) Where a scheme appoints a prime broker, the following shall apply:

(i) the prime broker must be a substantial financial institution;

(ii) where assets of the scheme are charged to the prime broker for financing purpose, such assets must not, at any time, exceed the level of the scheme’s indebtedness to the prime broker;

Note: Where assets of the scheme may be used as collateral or security for financing to be provided by the prime broker, disclosure must be made in the offering document of the risks associated with the collateralisation, for example, foreclosure or re-hypothecation of these assets by the prime broker and any consequential impact to the scheme and its investors.

(iii) the assets charged to the prime broker must remain in a segregated custody account, in the name or held to the order of the trustee/custodian; and

(iv) the scheme’s offering document must disclose the profile of the prime broker and its relationship with the scheme.

Note: Before a prime broker is appointed by the scheme, the scheme or the management company (as the case may be) must conduct due diligence on the prime broker and be reasonably satisfied with the prime broker’s suitability and competence.

Apart from disclosing the profile of the prime broker, the offering document must disclose the role(s) of the prime broker in relation to the hedge fund, whether the prime broker is subject to any prudential regulatory supervision, and if so, a brief description of its licensing status in the relevant jurisdiction. Where appropriate, disclosure of the risks relating to any conflicts of interest between the prime broker and the scheme has to be made in the offering document.

Minimum subscription

(c) The minimum level of initial subscription by each investor in a scheme must not be less than US$50,000*, except for FoHFs, where the minimum initial subscription must not be less than US$10,000*. No minimum subscription level will apply to a scheme which provides at least 100% capital guarantee.

(*) or the currency equivalent

Limited liability

(d) The liability of holders must be limited to their investment in the scheme and this must be clearly stated in the offering document.

(e) Where the scheme is a sub-fund of an umbrella fund, the scheme will be required to demonstrate to the Commission that there are legally enforceable provisions to ring-fence the scheme assets from the liabilities of other sub-funds. A brief description of such ring-fencing arrangement must be made in the offering document.
Note: The Commission may require an independent legal opinion or regulatory confirmation regarding the enforceability of the ring-fencing provisions.

Investment and borrowing restrictions

(f) The scheme must have a set of clearly defined investment and borrowing parameters in its constitutive and offering documents. The offering document must clearly explain the types of financial instruments in which the scheme will invest; the extent of diversification or concentration of investments or strategies; the extent and basis of leverage (including the maximum level of leverage); and the related risk implications of the investment and borrowing parameters.

(g) The core requirements in Chapter 7 will not apply except for 7.12(a), (b), (c) and (d), 7.14, 7.17, 7.18, 7.40 and 7.41.

Name of scheme

(h) If the name of the scheme indicates a particular objective, investment strategy, geographic region or market, the scheme must, under normal market circumstances, utilize at least 70% of its total net asset value for the purposes of pursuing the particular objective, investment strategy or geographic region or market which the scheme represents.

Performance fees

(i) If a performance fee is levied, the scheme must comply with 6.17. Full and clear disclosure of the calculation methodology must be set out in its offering document.

6.17 does not apply to the underlying funds of a FoHFs. For FoHFs, the offering document of the scheme must disclose whether a performance fee is levied at both the scheme level and the underlying funds level. It must also summarize the bases of how performance fees are calculated and paid by the underlying funds. Appropriate warnings must be made in the offering document about the possibility of charging performance fees at various levels within a FoHFs and the implications to investors.

Note: The Commission notes that various methodologies may be used for the charging and accrual of performance fees based on the basic principle in 6.17.

The Commission may require illustrative examples to be given in the offering document to demonstrate the charging method where it considers appropriate.

Where a scheme intends to achieve equalisation for the calculation of performance fees, its offering document must disclose the mechanisms adopted to achieve equalisation.

Where the scheme does not intend to achieve equalisation of performance fees, its offering document must clearly disclose this fact and how the absence of equalisation may affect the amount of performance fees to be borne by investors.
Fund of hedge funds

(j) The FoHFs must comply with the following:

(i) a FoHFs must invest in at least five underlying funds, and not more than 30% of its total net asset value may be invested in any one underlying fund; and

Note: One of the underlying assumptions of a FoHFs is that it can achieve diversification through investing in a range of funds that employ different investment strategies and/or utilise the skills of different fund managers.

Any scheme applying for authorization as a FoHFs should clearly explain its diversification strategy in the offering document.

A FoHFs authorized pursuant to this UT Code is expected to achieve investment return through the performance of its underlying funds rather than direct investments in securities, futures, options, financial derivative instruments, currency or other investments through proprietary trading or “managed accounts”. It is therefore generally not acceptable for a FoHF to carry out proprietary trading directly or through the use of “managed accounts”.

(ii) a FoHFs may not invest in another FoHFs.

(k) The management company of the FoHFs must ensure that:

(i) each of the key personnel of the management company of an underlying fund possesses at least two years’ experience in the relevant hedge fund investment strategy, provided however that up to 10% of the net asset value of the FoHFs may comprise of underlying funds managed by investment personnel with less experience;

(ii) there is an independent trustee/custodian to safe keep the assets of the underlying funds;

(iii) where a FoHFs invests in underlying funds managed by the same management company or its connected persons, all initial charges and redemption charges on such underlying funds are waived;

(iv) neither the management company of the FoHFs nor its connected persons retain a rebate (whether in cash or in kind) on any fees or charges levied by such underlying funds, their management company or any of their connected persons;

(v) the offering document of the FoHFs clearly discloses the aggregate amount or give an indicative range of all the fees and charges of the FoHFs and each of its underlying funds; and

(vi) where the FoHFs invests in hedge funds not authorized by the SFC, such fact is disclosed in the offering document of the FoHFs. A warning must
be included to the effect that some or all of the underlying funds of the FoHFs and their fund managers are not subject to the regulation of the Commission and that such funds may not be subject to rules similar to those of the Commission that are designed to protect investors.

Dealing

(l) There must be at least one regular dealing day per month except for a closed-ended fund authorized pursuant to 8.11 of this UT Code.

(m) The maximum interval between the lodgement of a properly documented redemption request for redemption of units/shares (whether a notice period is required or not) and the payment of redemption money to the holder may not exceed 90 calendar days.

Note: A scheme may only effect redemption in specie with the prior consent of individual redeeming holder. The offering document must disclose the possibility of redemption in specie and the need to obtain prior consent from an individual holder for making such redemption.

A scheme may not effect compulsory redemption except where the management company is reasonably satisfied that it is in the overall benefit of the scheme to do so. Examples where the management may effect compulsory redemption include the circumstances where the continuous holding of the scheme’s interest by a particular holder will cause the scheme to be in breach of any laws or regulations governing the scheme, or result in adverse financial consequences to the scheme such as tax penalties.

Subject to the foregoing, the offering document must disclose the circumstances under which compulsory redemption may be effected and the length of notice for such redemption.

(n) The offering document of the scheme must include a warning to the effect that the redemption price may be affected by the fluctuations in value of the underlying investments during the period between the lodgement of the redemption request and the date when the redemption price is calculated.

Valuation

(o) The investments of the scheme must be independently and fairly valued on a regular basis. Where appropriate, internationally recognized accounting standards and industry’s best practices should be applied on a consistent basis.

Note: It is incumbent upon the management company to demonstrate that the scheme’s investments will be independently and fairly valued.

In considering whether the management company is able to demonstrate that a scheme’s investments are independently valued, the Commission may take into account a number of factors including the following:

a) The duties and functions of the party carrying out the valuation (the “valuation agent”) is expected to be segregated from those of
the party carrying out the investment management function for the scheme e.g. the appointment of an independent administrator. Disclosure of how the segregation is achieved must be made in the offering document;

b) There should be checks and balances to ensure that the valuation process and policy is consistently followed;

c) The pricing data should be gathered from reliable sources;

d) Where necessary, safeguarding measures should be implemented for the valuation to be carried out independently; and

e) The selection of the valuation agent by the management company is based on due process.

Disclosure must be made of (1) the selection criteria of the valuation agent and the relationship between the management company, its group of companies and the valuation agent; and (2) any limitations and constraints of the valuation policies and methodologies.

The above factors are not exhaustive and the Commission may take into account other relevant factors in assessing the compliance with the independence requirement.

(p) Full particulars of the valuation frequency, the valuation methods of the scheme’s investments, the identity and qualifications of the valuation agent(s), the experience of the valuation agent(s) in evaluating hedge fund assets and the relationship of the agent(s) with the scheme’s management company or its group of companies and, where applicable, with the prime broker must be disclosed in the offering document.

(q) The offering document of the scheme must include a warning to the effect that some of the underlying investments of the scheme may not be actively traded and there may be uncertainties involved in the valuation of such investments. Potential investors must be warned that under such circumstances, the net asset value of the scheme may be adversely affected.

Disclosure

(r) The front cover of the offering document must display prominently the following warning statements:

(i) the scheme uses alternative investment strategies and the risks inherent in the scheme are not typically encountered in traditional funds;

(ii) the scheme undertakes special risks which may lead to substantial or total loss of investment and is not suitable for investors who cannot afford to take on such risks;

(iii) investors are advised to consider their own financial circumstances and the suitability of the scheme as part of their investment portfolio; and
(iv) Investors are advised to read this offering document and should obtain professional advice before subscribing to the scheme.

Note: The text of the warning statements may be varied but the message must be clear and not disguised.

(s) For the purpose of 6.1, the offering document must disclose all relevant matters relating to the investment operations and risk management aspects of the scheme and give lucid explanations of the investment strategy of the scheme and the risks inherent in the scheme.

Note: For example, explanations should be given on the nature of the scheme; the markets covered; the instruments used; the risk and reward characteristics of the strategy; the circumstances under which the scheme would work best and the circumstances hostile to the performance of the scheme; the risk management and internal control mechanism, including the setting of investment and borrowing parameters to control the risks; the terms of the offering; the ongoing monitoring of the scheme’s investment and asset allocation process and the performance of the scheme; the ongoing monitoring of the standards of the services provided by key service providers, for example, prime brokers and administrators and the replacement process of these service providers and the responsibilities of each of the relevant parties.

The offering document should be written in plain language. The Commission specifically encourages the use of a glossary to explain technical terms.

Details of unauthorized funds must not be shown in the offering document. Where names of such funds are mentioned, these must be clearly marked as unauthorized and not available to the public in Hong Kong.

(t) The management company must disclose the measures and safeguards put in place for the management of conflicts of interest in relation to the operation of the scheme.

(u) All advertisements must prominently display the warning statements referred to in 8.7(r).

Application form

(v) All application forms of the scheme must state prominently that the scheme is a hedge fund and there are special risks involved with investment in the scheme, and direct investors to read the offering document.

Financial reports

(w) The management company must issue regular reports to holders on the scheme activities at least on a quarterly basis. Reports must be prepared and distributed in accordance with the Guidelines on Hedge Funds Reporting Requirements [see Appendix H].
8.8 Structured funds

The following general criteria shall apply to a scheme, known as structured fund, which seeks to achieve its investment objective primarily through investment in financial derivative instruments, for example futures, swap or market access products or similar arrangements. A structured fund is passively managed and usually tracks the performance of an index [see 8.6(e)] and/or offers structured pay-outs when certain pre-determined conditions are met and its net derivative exposure [see Note to 7.26] exceeds 50% of its total net asset value. The core requirements in Chapter 7 will apply with the modifications, exemptions or additional requirements as set out under 8.8 of this UT Code.

Notes: (1) The requirements under 8.9 of this UT Code are intended to apply to actively managed schemes that gain exposure by investing in financial derivative instruments and therefore are not applicable to structured funds.

(2) An unlisted index fund or a passive ETF must also comply with the requirements in 8.8 of this UT Code if the unlisted index fund’s or the passive ETF’s net derivative exposure [see Note to 7.26] exceeds 50% of its total net asset value.

(a) The management company of a structured fund and the issuer of financial derivative instruments shall be independent of each other.

Notes: (1) The management company cannot also act as the issuer of financial derivative instruments.

(2) The index adopted by the scheme shall be objectively calculated, measurable and transparent to the public, for instance, the index is rules-based with minimal or no discretion exercisable by the issuer of the financial derivative instruments, and the index level or its calculation formula is accessible by the public. Where such index is provided for the use of the structured fund only, this would raise questions as to the propriety of the fund seeking exposure to such index.

(b) Where the scheme is a mutual fund company, the majority of the board of directors of the scheme shall be independent directors (for example, persons who are not employees or officers of the financial derivative instruments counterparty).

(c) The valuation of the financial derivative instruments must meet the requirements set out in 7.28(d).

(d) Notwithstanding 7.28(c), a structured fund should maintain full collateralization and there should be no net exposure to any single counterparty of over-the-counter financial derivative instruments [see Note to 7.28(c)].

Note: The management company shall demonstrate, where appropriate, with proper legal opinion in support, the collateral is held by the trustee/custodian of the scheme and must be readily accessible /
enforceable by it without further recourse to the issuer of the financial derivative instruments.

(e) The collateral requirements in 7.36 shall also be complied with by a scheme falling under 8.8 of this UT Code.

(f) The management company has to put in place detailed contingency plans regarding credit events like significant downgrading of credit rating and the collapse of the issuer of financial derivative instruments.

(g) The collateral disclosure requirements in 7.37 and 7.38 shall also be complied with by a scheme falling under 8.8 of this UT Code.

Disclosure

(h) In addition to the information in Appendix C, the offering document must contain the following:

(i) disclosure of the structure of the scheme, in plain language and supplemented by visual aids and diagrams (where appropriate);

(ii) description of any potential conflicts of interest and the related risks arising from the same entity or entities within the same group acting in different capacities in relation to the scheme;

(iii) description of any other relevant risks (legal or otherwise) arising from the structure of the scheme;

(iv) clear disclosure of the costs of entering into the swap or market access products or similar arrangements with the counterparty, and the maximum amount of redemption fee;

(v) in respect of the asset portfolio of a scheme investing in unfunded swap, the selection criteria and nature of the asset portfolio [see C2A of Appendix C]; and

(vi) in respect of the valuation of financial derivative instruments, the entity responsible for valuation and frequency of such valuation, the entity responsible for verification of valuation and frequency of such verification and any costs embedded in the valuation of the financial derivative instruments.

8.9 Funds that invest extensively in financial derivative instruments

The following general criteria shall apply to an actively managed scheme, the principal objective of which is investment in financial derivative instruments, or which seeks to acquire financial derivative instruments extensively for investment purposes, but does not meet the relevant provisions in Chapter 7. For the avoidance of doubt, the scheme shall also comply with provisions in Chapter 7 subject to the modifications, exemptions or additional requirements as set out in 8.9 of this UT Code.
Financial derivative instruments investments and related operational requirements

(a) Notwithstanding 7.26, a scheme may acquire financial derivative instruments for investment purposes subject to the limit that the scheme’s net derivative exposure [see Note to 7.26] does not exceed 100% of the total net asset value of the scheme.

(b) [deleted]

(c) [deleted]

(d) [deleted]

(e) [deleted]

(f) The requirements on financial derivative instruments in 7.28(a), (b) and (d) shall also be complied with by a scheme falling under 8.9 of this UT Code.

(g) The limitation on counterparty exposure in 7.28(c) shall also be complied by a scheme falling under 8.9 of this UT Code.

(h) The collateral requirements in 7.36 shall also be complied with by a scheme falling under 8.9 of this UT Code.

(i) For the avoidance of doubt, financial derivative instruments acquired for hedging purposes will not be counted towards the 100% limit referred to in 8.9(a).

Disclosure

(j) The offering document shall contain information in plain language to facilitate investors’ understanding of the scheme’s investment strategy and risk profile, including:

(i) additional risk disclosures including the risks associated with investments in financial derivative instruments;
(ii) a statement indicating how and where information regarding the risk management and control policy, procedures and methods employed by the scheme will be made available to Hong Kong investors upon request; and
(iii) a summary of the risk management policy and methods employed by the scheme to effectively measure and manage the risks associated with the investments in financial derivative instruments.

(k) The collateral disclosure requirements in 7.37 and 7.38 shall also be complied with by a scheme falling under 8.9 of this UT Code.

8.10 Listed open-ended funds (also known as active ETFs)

(a) A listed open-ended fund/active ETF is a scheme that is listed and traded on the SEHK other than passive ETFs and closed-ended funds under 8.6 and 8.11 of this UT Code respectively.
(b) A listed open-ended fund shall also comply with provisions in Chapter 7 unless otherwise modified below.

(c) Subject to consultation with the SFC, a scheme under Chapter 7 or 8.10 of this UT Code may have unlisted and/or listed unit/share classes. The unlisted class and listed class shall comply with the requirements in Chapter 7 and 8.10 of this UT Code respectively.

(d) A listed open-ended fund, or a listed share class shall comply with the provisions as set out in 8.6(o) to (q), (s) to (u), (w) and (x).

(e) Where the performance of a listed open-ended fund makes reference to a benchmark, the relevant benchmark shall be disclosed in its offering document.

8.11 Closed-ended funds

The following criteria shall apply to a scheme which is commonly regarded as a closed-ended fund. A closed-ended fund seeking an authorization shall also comply with other applicable provisions in this UT Code including the relevant investment restrictions under Chapter 7 and/or Chapter 8.

Notes: (1) **Closed-ended funds are generally subject to redemption restrictions.**

(2) **For the avoidance of doubt, 8.11 of this UT Code does not apply to a scheme falling within 8.6 and/or 8.10 of this UT Code notwithstanding its units/shares are traded on the SEHK.**

(3) **Some flexibility from strict compliance of the relevant investment restrictions in Chapter 7 and/or Chapter 8 (for example, the requirements regarding holding of illiquid investments) may be allowed where appropriate taking into account the fund’s closed-end nature and investment strategy. An applicant should consult the SFC at the earliest possible time on any flexibility to be sought.**

**Listing and dealing**

(a) The units/shares in the scheme must be listed and traded on the SEHK.

(b) The scheme must have procedure(s) and mechanism(s) in place for it to be widely held.

**Note:** The scheme is expected to have a broad base of holders having regard to the requirements under the Listing Rules including having adequate shareholder spread.

(c) The scheme must have in place measure(s) and mechanism(s) which are fair and equitable to holders to address any prolonged significant discount of its secondary trading price on the SEHK to its net asset value.

**Note:** This may include, for example, providing specified redemption window(s) to allow holders to redeem their units/shares at net asset value in a manner which is compliant with 8.11(i).
(d) The maximum interval between the lodgement of a properly documented redemption request for any redemption of units/shares (whether a notice period is required or not) and the payment of redemption money to holders may not exceed 90 calendar days unless the market(s) in which a substantial portion of investments is made is subject to legal or regulatory requirements (such as foreign currency controls) thus rendering the payment of the redemption money within the aforesaid time period not practicable. In such case, the extended time frame for the payment of redemption money shall reflect the additional time needed in light of the specific circumstances in the relevant market(s).

Matters requiring holders’ approval

(e) Holders’ prior approval will be required for the following matters:

(i) retirement or removal of the management company and appointment of the replacement management company;
(ii) material changes in investment objective, policy or restrictions of the scheme;
(iii) new issue of units/shares following listing at a price below net asset value per unit; and
(iv) request for delisting or de-authorization.

Disclosure

(f) The scheme’s last closing net asset value must be published on the scheme’s website at such times and in such manner as may be acceptable to the Commission taking into account the nature of the investments of the scheme.

(g) The potential risk factors regarding the closed-end nature of the scheme must be fully and prominently disclosed to investors.

(h) The scheme must disclose in its offering document the measures and mechanism referred in 8.11(c), and make appropriate disclosures by way of announcement(s) or notice(s) prior to and after each occasion where any such measures and mechanism are conducted.

Redemptions, takeovers and mergers

(i) Where a scheme proposes any form of redemption, takeover, merger, amalgamation or restructuring, the scheme’s management company and the trustee/custodian shall as soon as practicable consult with the Commission on the manner in which such activities could be carried out so that it is fair and equitable to all holders.

Note: The management company and the trustee/custodian should seek to ensure there is fair and equality of treatment of holders; timely and adequate disclosure of information to enable holders to make an informed decision as to the merits of the transaction; and there is a fair and informed market in the units/shares of the schemes affected by such activities.
Chapter 9: Additional requirements for Non-Hong Kong based schemes

Appointment of representative

9.1 A scheme will be required to appoint a Representative in Hong Kong if its management company is not incorporated and does not have a place of business in Hong Kong.

9.2 If a Representative is appointed, the scheme has to maintain the Representative throughout the period it is authorized in Hong Kong.

Functions of a representative

9.3 The Representative is not required to take responsibility for the acts and omissions of the management company or, in the case of the scheme being a mutual fund corporation, the directors of the scheme. It must, however, be authorized on behalf of the scheme and the management company to:

(a) receive applications and money for units/shares from persons in Hong Kong;
(b) issue receipts in respect of the application moneys received in accordance with 9.3(a);
(c) issue contract notes to the applicants in accordance with the terms of the scheme;
(d) receive redemption notices, transfer instructions and conversion notices from holders for immediate transmission to the management company or the scheme;
(e) accept any notices or correspondence, including service of process, which holders may wish to serve on the scheme, trustee/custodian or the management company;
(f) notify the Commission immediately if redemption of units/shares ceases, or is suspended [see 10.7];
(g) make available for public inspection in Hong Kong, free of charge, and offer for sale at a reasonable price copies of all constitutive documents of the scheme;
(h) provide holders with information on the scheme including the scheme's financial reports and offering document, and relevant circulars, notices and announcements where applicable [see 11.7A];
(i) deliver to the Commission, if it requests, all accounts and records relating to the sale and redemption of units/shares of the scheme in Hong Kong; and
(j) represent the scheme and the management company in relation to all matters in which any holder normally resident in Hong Kong has a pecuniary interest or which relate to units/shares sold in Hong Kong.
Criteria for appointment

9.4 The management company is encouraged to appoint a Representative within the management group. The Representative must:

(a) be licensed or registered under the SFO; or

(b) be a trust company registered under Part VIII of the Trustee Ordinance (Chapter 29 of the laws of Hong Kong) and such company is an affiliate of an authorized financial institution defined under the SFO and is acceptable to the Commission.

9.5 [deleted]

9.6 The Representative must be properly appointed to represent the scheme and the management company.

Written undertaking

9.7 The Representative must provide the Commission with a written undertaking that it will perform the duties required of a Representative under this UT Code.

Retirement and replacement of the representative

9.8 Should the Representative retire or be dismissed, it must be replaced as soon as possible, by another Representative whose appointment is subject to the approval of the Commission [see 11.1(b)].

9.9 [deleted]

Jurisdiction

9.10 Nothing in the constitutive documents may exclude the jurisdiction of the courts of Hong Kong to entertain an action concerning the scheme.
Part III: Post-authorization requirements

Chapter 10: Operational matters

Valuation and pricing

10.1 A scheme must be valued and priced in accordance with the provisions of its offering and constitutive documents and the provisions of Chapter 6.

Pricing errors

10.2 If an error is made in the pricing of units/shares, the error should be corrected as soon as possible and any necessary action should be taken to avoid further error. Trustee/custodian should be informed of any error in the pricing of units/shares in a timely manner.

10.2A If the error results in an incorrect price of 0.5% or more of a scheme's net asset value per unit/share, the trustee/custodian and the Commission must be informed immediately.

Note: For the avoidance of doubt, any error that accounts for less than 0.5% of the scheme’s net asset value per unit/share or net asset value individually but amounts to 0.5% of the scheme’s net asset value per unit/share or net asset value or more in aggregate for incidences that occur in a simultaneous or recurring manner, such errors should be reported to the Commission immediately.

10.2B For any error in the pricing of units/shares of a scheme referred to in 10.2A (and the Note), the affected investors (including former holders) and/or the scheme itself should be compensated for the loss incurred. In such a case, the affected investors and/or the scheme should be compensated as follows, unless determined otherwise by the trustee/custodian with justification to the Commission:

(a) where total loss to individual investors (either purchasing or redeeming) is more than HK$100 or such lesser amount as the management company may decide, investors should be compensated in such manner as the management company should determine with the approval of the trustee/custodian;

(b) where the loss is to the management company, no compensation should be paid; and

(c) where the loss is to the scheme, the scheme should be compensated in all circumstances referred to in 10.2A.

Note: In the event that the management company is to compensate one or more affected investors for errors not falling under 10.2A, compensation to all other affected investors should be made on the same basis.

10.3 [deleted]

10.4 [deleted]

10.5 [deleted]
Suspension and deferral of dealings

10.6 Suspension of dealings may be provided for by the management company in consultation with the trustee/custodian, having regard to the best interests of holders. The management company must regularly review any prolonged suspension of dealings and take all necessary steps to resume normal operations as soon as practicable.

10.7 The management company or the Representative [see 9.3(f)] must immediately notify the SFC if dealing in units/shares ceases or is suspended. The fact that dealing is suspended must be published immediately following such decision and at least once a month during the period of suspension in an appropriate manner.

10.8 Where redemption requests on any one dealing day exceed 10% of the total net asset value or total number of units/shares in issue, redemption requests in excess of 10% may be deferred to the next dealing day.

Note: The Commission may on a case-by-case basis accept a higher or lower threshold to trigger deferral of dealing as reasonably determined by the management company, taking into account the specific circumstances of the scheme, provided that such threshold is clearly disclosed in the offering document.

Transactions with connected persons

10.9 No person may be allowed to enter on behalf of the scheme into underwriting or sub-underwriting contracts without the prior consent of the trustee/custodian and unless the scheme or the management company provides in writing that all commissions and fees payable to the management company under such contracts, and all investments acquired pursuant to such contracts, will form part of the scheme’s assets.

10.10 If cash forming part of the scheme's assets is deposited with the trustee/custodian, the management company, investment delegate or any of their connected persons (being an institution licensed to accept deposits), such cash deposit shall be maintained in a manner that is in the best interests of the holders, having regard to the prevailing commercial rate for a deposit of similar type, size and term negotiated at arm’s length in accordance with ordinary and normal course of business.

10.11 All transactions carried out by or on behalf of the scheme must be executed at arm's length and in the best interests of the holders. In particular, any transactions between the scheme and the management company, investment delegate, directors of the scheme or any of their connected person(s) as principal may only be made with the prior written consent of the trustee/custodian. All such transactions must be disclosed in the scheme’s annual report [see item 2 under Notes to the Financial Reports in Appendix E].

10.12 Neither the management company, investment delegate nor any of their connected persons may retain cash or other rebates from a broker or dealer in consideration of directing transactions in scheme property to the broker or dealer save that goods and services (soft dollars) may be retained if:

(a) the goods or services are of demonstrable benefit to the holders;

(b) transaction execution is consistent with best execution standards and brokerage rates are not in excess of customary institutional full-service brokerage rates;
(c) adequate prior disclosure is made in the scheme’s offering document the terms of which the holder has consented to [see C15 of Appendix C];

(d) periodic disclosure is made in the scheme’s annual report in the form of a statement describing the soft dollar policies and practices of the management company or investment delegate, including a description of the goods and services received by them [see item 3 under Notes to the Financial Reports in Appendix E]; and

(e) the availability of soft dollar arrangements is not the sole or primary purpose to perform or arrange transaction with such broker or dealer.

Note: Goods and services falling within 10.12(a) may include: research and advisory services; economic and political analysis; portfolio analysis, including valuation and performance measurement; market analysis, data and quotation services; computer hardware and software incidental to the above goods and services; clearing and custodian services and investment-related publications. Such goods and services may not include travel, accommodation, entertainment, general administrative goods or services, general office equipment or premises, membership fees, employee salaries, or direct money payments.

10.13 In transacting with brokers or dealers connected to the management company, investment delegate, directors of the scheme, trustee/custodian or any of their connected persons, the management company must ensure that it complies with the following obligations:

(a) such transactions should be on arm’s length terms;

(b) it must use due care in the selection of brokers or dealers and ensure that they are suitably qualified in the circumstances;

(c) transaction execution must be consistent with applicable best execution standards;

(d) the fee or commission paid to any such broker or dealer in respect of a transaction must not be greater than that which is payable at the prevailing market rate for a transaction of that size and nature;

(e) the management company must monitor such transactions to ensure compliance with its obligations; and

(f) the nature of such transactions and the total commissions and other quantifiable benefits received by such broker or dealer shall be disclosed in the scheme’s annual report.
Chapter 11: Scheme changes, notifications and reporting

Scheme changes, notifications and ongoing disclosures

11.1 The proposed changes to a scheme in respect of the following must be submitted to the Commission for prior approval:

(a) changes to constitutive documents (other than changes that have been certified by the trustee/custodian as provided under 6.7 or approved by holders or changes which do not require prior approval from the Commission);

(b) changes of the trustee/custodian, management company, investment delegates and Hong Kong Representative, and their regulatory status;

(c) (i) material changes in investment objectives, policies and restrictions of the scheme (including expansion in the purpose or extent of use of financial derivative instruments for investment purposes [see 7.26]);

(ii) introduction of new fees and charges, or increase in fees and charges payable out of the property of the scheme or by the investors (other than an increase within the permitted maximum level as disclosed in the Hong Kong Offering Document [see Note(3) to 11.1A]); and

(iii) material changes in dealing arrangements, pricing arrangements or distribution policy of the scheme; and

(d) any other changes that may have a material adverse impact on holders’ rights or interests (including changes that may limit holders’ ability in exercising their rights).

11.1A For changes to a scheme that require the Commission’s prior approval pursuant to 11.1, the Commission will determine whether holders should be notified and the period of notice (if any) that should be applied before the changes are to take effect as provided in 11.2. The revised Hong Kong Offering Document as a result of such changes should be submitted to the Commission for prior authorization.

Notes: (1) [deleted]

(2) [deleted]

(3) For any increase in fees and charges from the current level up to the permitted maximum level as disclosed in the Hong Kong Offering Document, prior approval from the Commission is not required, but no less than one month’s prior notice must be given to holders.

11.1B For changes to a scheme that do not require the Commission’s prior approval pursuant to 11.1, the management company should provide holders with reasonable prior notice, or inform holders as soon as reasonably practicable of any information concerning the scheme which is necessary to enable holders to appraise the position of the scheme as provided in 11.2. The Hong Kong Offering Document may be updated to incorporate such changes and reissued without further authorization provided that the content and format of such document remains fundamentally the same as the version previously
authorized. The revised Hong Kong Offering Document must be filed with the Commission, together with a marked-up version against the previously filed version, within one week from the date of issuance.

Note: The management company should inform holders as soon as reasonably practicable of any material adverse change in the financial conditions or business of the key counterparties to a scheme that it is aware of. ‘Key counterparties’ include the management company, guarantor (where relevant), trustee/custodian and major counterparty of the fund for over-the-counter financial derivative instruments or securities financing transactions.

Notices to holders

11.2 Notification to holders must be made in the language(s) in which the scheme is offered to investors. Reasonable notice period(s) should be provided to the holders in order to enable them to appraise the position of the scheme and to make an informed judgement of their investments in the scheme, where applicable.

Notes: In determining the notice period for changes to a scheme falling under 11.1 or 11.1B, the following shall apply:

(1) normally, one month’s prior written notice (or such longer period as required under applicable laws and regulations or the provisions as set out in the offering or constitutive documents) is expected to be provided to holders unless as provided under Notes(2) or (3) to 11.2 or otherwise agreed by the Commission;

(2) a shorter prior notice period may be permitted where the proposed changes to the scheme are of demonstrable benefit to holders;

(3) unless otherwise specified by the Commission, holders should be informed as soon as reasonably practicable for changes to the scheme which are to provide clarification or relate to administrative matters; and

(4) in the case of schemes domiciled outside Hong Kong, notwithstanding the notice provisions of a scheme’s home jurisdiction, the Commission may require additional notice to ensure that Hong Kong investors have sufficient time to consider and respond to the documentation. For example, any general meeting at which a special resolution is to be proposed shall be convened on at least 21 days’ prior notice and that any general meeting at which an ordinary resolution is to be proposed shall be convened on at least 14 days’ prior notice.

The management company is encouraged to consult the Commission in case of doubt.

11.2A Subject to 11.4 and 11.5, notices to holders need not be approved by the Commission prior to issuance, but are required to be filed with the Commission within one week from the date of issuance of the notice. The Commission, however, retains its power to require issuers to submit draft notices for review where the Commission considers it appropriate. For the avoidance of doubt, matters relating to 11.1 should be approved by the Commission prior to the distribution of the relevant notices to holders.
11.2B The management company has the responsibility to ensure that notices to holders are not misleading and contain accurate and adequate information to keep investors informed. All notices should contain a Hong Kong contact number for investors to make enquiries.

Note: Notices should not include any reference to a specific date or timetable in respect of any changes falling under 11.1 and consequential changes made to the offering or constitutive documents where such date or timetable has not been agreed in advance with the Commission.

11.3 (Repealed)

Withdrawal of authorization

11.4 Following the authorization of a scheme, an application for withdrawal of authorization of the scheme must be submitted to the Commission for prior approval. Subject to 11.5, at least three months’ notice should be provided to holders of any intention not to maintain such authorization. Such notice should be submitted to the Commission for prior approval and contain information which is necessary to enable holders to make an informed judgement of the proposed withdrawal of authorization by the management company (including the reasons for the withdrawal of authorization, consequences of the withdrawal, any proposed changes in the operation of the scheme and their effects on existing investors, the alternatives available to investors (including, if possible, a right to switch without charge into another authorized scheme) and, where applicable, an estimate of any relevant expenses and who is expected to bear them).

Notes: (1) Subject to the scheme having served notice period for merger or termination under 11.5, the management company may apply for withdrawal of authorization of the scheme with immediate effect following the completion of the merger or termination (as the case may be).

(2) For an application for withdrawal of authorization in cases other than in connection with a merger or termination of a scheme, the management company must demonstrate to the satisfaction of the Commission that proper measures have been put in place to ensure that the interests of holders who may remain to be invested in the scheme will be safeguarded (e.g. for a scheme domiciled outside Hong Kong, the scheme will continue to be regulated or supervised in a jurisdiction acceptable to the Commission).

Merger or termination

11.5 If a scheme is to be merged or terminated, the management company should follow the procedures as set out in the scheme’s constitutive documents or governing law. Notice should be given to investors as determined by the Commission. Such notice should be submitted to the Commission for prior approval and contain information necessary to enable holders to make an informed judgement of the proposed merger or termination by the management company (including the reasons for the merger or termination, the relevant provisions under the constitutive documents that enable such merger or termination, the consequences of the merger or termination and their effects on existing investors, the alternatives available to investors (including, if possible, a right to switch without charge into another authorized scheme), the estimated costs of the merger or termination and who is expected to bear them).
Notes: (1) Normally, the Commission will expect that at least one month’s prior written notice (or such longer period as required under applicable laws and regulations or the provisions as set out in the offering or constitutive documents) to be provided to holders.

(2) In effecting a merger or termination, the management company must put in place proper measures to minimize the opportunity of any holders to benefit from more favourable or advantageous conditions of the scheme, taking due account of the interests of the holders.

Reporting requirements

Financial reports to holders

11.6 Financial reports of a scheme must be published in respect of its financial year. Annual reports containing the information provided in Appendix E must be published and distributed to holders within four months of the end of the scheme’s financial year and interim reports containing information required in Appendix E must be published and distributed to holders within two months of the end of the period they cover.

As an alternative to the distribution of printed financial reports, holders may be notified of where such reports, in printed and electronic forms, can be obtained within the relevant time frame.

Notes: (1) Where a scheme does not issue bilingual annual and interim reports, the offering document of the scheme shall clearly disclose that annual and interim reports are available in English or Chinese language only, as the case may be.

(2) The Commission may accept the annual reports and interim reports to cover an extended reporting period in cases when the scheme is first launched or upon its termination.

11.6A The annual reports must be prepared in compliance with internationally recognized accounting standards and the interim reports must apply the same accounting policies and method of computation as are applied in the annual reports of the scheme.

Note: For the purposes of 11.6A, internationally recognized accounting standards may include Hong Kong Financial Reporting Standards (HKFRS) or International Financial Reporting Standards (IFRS) or such other accounting standards acceptable to the Commission.

Publication of prices of a scheme

11.7 The scheme’s latest available offer and redemption prices or net asset value must be calculated and made public free of charge on every dealing day in an appropriate manner. If dealing is suspended, this must be published in accordance with 10.7.

Note: Means of dissemination may include newspapers, telephone hotlines and websites.
**Maintenance of a website**

11.7A A scheme should, as a matter of best practice, maintain a website for publication of its offering document, circulars, notices, announcements, financial reports and the latest available offer and redemption prices or net asset value of the scheme.

**Reporting to Commission**

11.8 Subsequent to the authorization of the scheme, all financial reports produced by or for the scheme must be filed with the Commission within the time frame specified in 11.6.

11.9 The management company or the Representative must supply to the Commission, upon request, all information relevant to the scheme's financial reports and accounts.

11.10 [deleted]

**Advertising materials**

11.11 Advertisements and other invitations to invest in a scheme, including but not limited to those issued by licensed or registered persons acting as the distributors of the scheme, must comply with the Advertising Guidelines. All advertisements must be submitted to the Commission for authorization prior to their issue or publication in Hong Kong, unless exempted under section 103 of the SFO. For the avoidance of doubt, even if an advertisement is exempted from obtaining authorization from the Commission under the SFO, the issuer must still ensure that the advertisement or invitation complies with the Advertising Guidelines.

11.12 Where authorization by the Commission is required, it is recommended that the issuer of advertisements nominate one person, such as the Approved Person, the Hong Kong Representative or any other persons acceptable to the Commission, based in Hong Kong to liaise with the Commission. Authorization may be varied or withdrawn by the Commission as it deems fit. Once authorized, the advertisement may be used in any distribution media and reissued without further authorization with updated performance information of schemes and general market commentary provided that the content and format of such advertisement remain fundamentally the same as the version previously authorized and the advertisement, when reissued, is in compliance with the Advertising Guidelines.

*Note:* For radio, television, cinema or other time-limiting advertisements / broadcasts that require authorization by the Commission, the script of any verbal statements in such advertisements should be submitted for the Commission’s advance clearance, followed by the demo of the broadcast (e.g. digital files) for formal authorization.

11.13 Issuers must keep adequate records of the advertisements issued, either in actual form or by way of a copy of the final proof, and the relevant supporting documents for substantiation of information presented thereon. Such records must be retained for at least 3 years from the latest date of publication / distribution of an advertisement and made available to the Commission upon request.
Mention of SFC authorization

11.14 Where a scheme is described as having been authorized by the Commission it must be stated that authorization does not imply official recommendation by adding a prominent note in the following terms to the offering document and advertisements and other invitations to invest in the scheme:

*SFC authorization is not a recommendation or endorsement of a scheme nor does it guarantee the commercial merits of a scheme or its performance. It does not mean the scheme is suitable for all investors nor is it an endorsement of its suitability for any particular investor or class of investors.*

Appendix C

Information to be disclosed in the offering document

This list is not intended to be exhaustive. The directors of the scheme (in the case of a mutual fund corporation) or the management company are obliged to disclose any information which may be necessary for investors to make an informed judgement. For the avoidance of doubt, the offering document should contain all applicable disclosure as required by this UT Code.

Constitution of the scheme

C1 Name, registered address and place and date of creation of the scheme, with an indication of its duration if limited.

Investment objectives and restrictions

C2 Details of investment objectives and policy, including a summary of investment and borrowing restrictions [see Chapter 7 and Chapter 8 (for specialized schemes) of this UT Code]. If the nature of the investment policy so dictates (such as schemes falling under 8.7, 8.8 and 8.9 of this UT Code), a warning that investment in the scheme is subject to special risks, a description of the risks involved, and where appropriate, the risk management policy in place.

If applicable, details of securities financing transactions of the scheme including, at a minimum, the following:

(a) general description of the use of these transactions;

(b) treatment of all revenue generated from such transactions and all the direct and indirect expenses to be incurred. In particular, details and basis of the direct and indirect expenses to be borne by the scheme and paid to any operating party;

(c) criteria for selecting the counterparties, including legal and regulatory status, country of origin and minimum credit rating;

(d) form and nature of the collateral to be received by the scheme, including cash and non-cash assets;

(e) maximum and expected level of the scheme’s assets available for these transactions expressed as proportion of the net asset value of the scheme, and the type of assets that can be subject to these transactions;

(f) involvement of any connected person(s) of the management company, investment delegate, or trustee/custodian in these transactions and details of the arrangement (such as securities lending agent);

(g) custody / safekeeping arrangement of assets subject to these transactions (such as with the trustee/custodian of the scheme); and

(h) risks associated with these transactions, such as operational, liquidity, counterparty, custody and legal risks.
Collateral policy and criteria

C2A Selection criteria, nature and policy of the collateral held by the scheme and description of the holdings of collateral, including:

(a) the nature and quality of the collateral, including asset type (e.g. cash, cash equivalents and money markets; government or corporate (whether investment grade / non-investment grade); and others), issuer, maturity and liquidity;

(b) criteria for selecting counterparties, including legal and regulatory status, country of origin and minimum credit rating;

(c) the source and basis of valuation of collateral, including marked-to-market arrangements;

(d) circumstances under which the collateral may be enforced and whether it will be subject to any net-off or set-off;

(e) description of haircut policy;

(f) collateral diversification and correlation policies;

(g) [deleted]

(h) policies on re-investment of cash collateral, including the maximum amount available for cash collateral re-investment;

(i) (applicable to hedge funds) maximum amount available for collateral re-use or re-hypothecation;

(j) custody / safekeeping arrangement (such as with the trustee/custodian of the scheme) of collateral received and provided; and

(k) risks associated with collateral management and, if applicable, re-investment of cash collateral.

Valuation of property and pricing

C2B A summary of the valuation policies and procedures of the scheme, including the basis and frequency of valuation for the assets to be held by the scheme, and the circumstances under which fair value adjustments may be employed and the relevant procedures to be undertaken (including consultation with trustee/custodian of the scheme) and the pricing policies, including the methods of pricing, methods of calculating the scheme’s net asset value and issue and redemption prices and the circumstances under which they can change.
Liquidity risk management

C2C Details of liquidity risk management of the scheme, including:

(a) description of liquidity risks and the associated impact on the scheme and holders;

(b) summary of the liquidity risk management policy and process; and

(c) description of liquidity risk management tools that may be employed, including the circumstances in which the tools may be activated and the impact on the scheme and holders upon activation [see C11 of this Appendix].

Operators and principals

C3 The names and registered addresses of the following parties (where applicable):

(a) the directors of the scheme (in the case of mutual fund corporation), and the management company and its board of directors;
(b) the trustee/custodian;
(c) the investment delegate;
(d) the Hong Kong Representative;
(e) the Hong Kong distribution company, if different from C3(d) of this Appendix;
(f) the auditors; and
(g) the registrar.

Characteristics of units/shares

C4 Minimum investment and subsequent holding (if any).

C5 A description of the different types of units/shares, including their currency of denomination.

C6 Form of certification.

C7 Frequency of valuation and dealing, including dealing days.

Application and redemption procedures

C8 Dedicated channel(s) for dissemination of price information [see 11.7 of this UT Code].

C9 Procedure for subscribing/redeeming units/shares, and in the case of umbrella funds, conversion of units/shares.

C10 The maximum interval between the request for redemption and the despatch of the redemption proceeds [see 6.14 of this UT Code and D9 (b) of Appendix D].

C11 A summary of the circumstances in which dealing in units/shares may be deferred or suspended.

C12 Statement that no money should be paid to any intermediary in Hong Kong who is not licensed or registered to carry on Type 1 regulated activity under Part V of the SFO.
Distribution policy

C13 The distribution policy and the approximate dates on which dividends (if any) will be paid (if applicable).

Fees and charges

C14
(a) the level of all fees and charges payable by an investor [see 6.16 to 6.18 of this UT Code], including all charges levied on subscription, redemption and conversion (in the case of umbrella funds);
(b) the level of all fees and charges payable by the scheme, including management fees, performance fees (where applicable), trustee/custodian fees and start-up expenses; and
(c) the notice period for fee increases [see 11.1A, 11.1B and 11.2 of this UT Code].

Notes: (1) In the case of indeterminable fees and charges, the basis of calculation or the estimated ranges should be disclosed.
(2) Where performance fee is levied, the calculation methodology together with illustrative examples to demonstrate the charging method and the impact of the absence of equalization arrangement should be disclosed.

C15 Where the management company, investment delegate, or any of their connected persons receives goods or services from a broker or dealer [see 10.12 of this UT Code], a summary describing the presence of such policies and practices, the types of goods and services that may be acquired through soft dollar policies and practices, and the measures taken to manage and minimize conflict of interest should be disclosed. In addition, a nil statement regarding retention of cash rebates by any of these persons.

Taxation

C16 Details of Hong Kong and principal taxes levied on the scheme's income and capital, including tax, if any, deducted on distribution to holders.

Financial reports

C17 The date of the scheme's financial year.

C18 Particulars of what reports will be sent or made available to registered holders and when [see 11.6 of this UT Code].

C18A A statement whether the annual and interim reports would be published in English and/or Chinese.
Warnings

C19 Statements/warnings must be prominently displayed in the offering document as follows:

(a) “Important - if you are in any doubt about the contents of this offering document, you should seek independent professional financial advice”.

(b) other warnings as required by this UT Code.

Product KFS

C19A A Product KFS which is deemed to form a part of the offering document [see Notes to 6.2A of this UT Code].

General information

C20 A list of constitutive documents and an address in Hong Kong where they can be inspected free of charge or purchased at a reasonable price.

C21 The date of publication of the offering document.

C22 A statement that the management company or the directors of the scheme (in the case of a mutual fund corporation) accept full responsibility for the accuracy of the information contained in the offering document and confirm, having made all reasonable enquiries, that to the best of their knowledge and belief there are no other facts the omission of which would make any statement misleading.

C22A If available, website address of the scheme which contains publication of its offering document, circulars, notices, announcements, financial reports and the latest available offer and redemption prices or net asset value. A statement that such website has not been reviewed by the Commission, if applicable.

C23 Details of unauthorized schemes must not be shown in the offering document. Where names of such schemes are mentioned, these must be clearly marked as unauthorized and not available to the public in Hong Kong.

Termination of scheme

C24 A summary of the circumstances in which the scheme can be terminated.

C25 A summary of the arrangements in handling unclaimed proceeds of holders during the termination process, including the minimum period of which such proceeds must be maintained prior to any reallocation, and the procedures to be adopted upon the lapse of such minimum period.

Custody arrangements

C26 A summary of the custody arrangements in respect of the scheme’s assets and the material risks associated with such arrangements (if any).
Appendix D

Contents of the constitutive documents

This Appendix intends to set out the core requirements with respect to the contents of the constitutive documents. For the avoidance of doubt, the constitutive documents, among others, must conform in substance to the intended operative effect of the provisions in Chapter 4 of this UT Code.

D1 Name of scheme

D2 Participating parties

A statement to specify the participating parties including the management company, the Hong Kong representative, trustee/custodian, and investment delegate (if any).

D3 Governing law

Note: See 6.6 and 9.10 of this UT Code.

D4 For unit trusts only:

(a) A statement that the deed is binding on each holder as if he had been a party to it and so to be bound by its provisions and authorizes and requires the trustee and the management company to do as required of them by the terms of the deed.

(b) A provision that a holder is not liable to make any further payment after he had paid the purchase price of his units and that no further liability can be imposed on him in respect of the units which he holds.

(c) A declaration that the property of the scheme is held by the trustee on trust for the holders of the units pari passu according to the number of units held by each holder (This may be modified as appropriate for schemes offering income and accumulation units).

(d) A statement that the trustee will report to holders in accordance with 4.5(f) of this UT Code and to list out the obligations of the trustee as set out in 4.5 of this UT Code.

(e) A statement that the trustee should retire in the manner as stipulated in 4.6 of this UT Code.

D5 For mutual fund corporations only:

(a) A declaration that the property of the scheme is held by the custodian on trust for the scheme.

(b) A statement to list the obligations of the custodian as set out in 4.5 of this UT Code.
(c) A statement that the custodian should retire in the manner as set out in 4.6 of this UT Code.

*Note: See Note(1) to 4.1 of this UT Code.*

**D6 Management company**

(a) A statement to list the obligations of the management company as set out in 5.10 of this UT Code.

(b) A statement that the management company should retire as set out in 5.11 of this UT Code.

*Note: See Note(1) to 4.1 of this UT Code.*

**D7 Investment and borrowing restrictions**

A statement to list the restrictions on the investment and the maximum borrowing limit of the scheme. [see Chapter 7 and Chapter 8 (for specialized schemes) of this UT Code]

**D8 Valuation of property and pricing**

The following rules on valuation of property and pricing must be stipulated:

(a) the method of determining the value of the assets and liabilities of the property of the scheme and the net asset value accordingly;

(b) the method of calculating the issue and redemption prices; and

(c) the method of pricing and the circumstances under which it can change.

**D9 Suspension and deferral of dealing**

The following must be stated:

(a) the circumstances under which the dealing of units/shares can be deferred or suspended; and

(b) the maximum interval between the receipt of a properly documented request for redemption of units/shares and the payment of the redemption money to the holder, which may not exceed one calendar month.

**D10 Fees and charges**

A statement to list out the fees and charges payable out of the property of the scheme.

(a) [deleted]

(b) [deleted]

(c) [deleted]

(d) [deleted]

(e) [deleted]
D11 Meetings

Provisions on the manner in which meetings are conducted in accordance with 6.15 of this UT Code.

D12 Transactions with connected persons

The following must be stated:

(a) cash forming part of the property of the scheme may be placed as deposits with the trustee/custodian, management company, investment delegate or any of their connected persons (being an institution licensed to accept deposits), so long as such cash deposit shall be maintained in a manner that is in the best interests of holders, having regard to the prevailing commercial rate for a deposit of similar type, size and term negotiated at arm's length in accordance with ordinary and normal course of business;

(b) money can be borrowed from the trustee/custodian, management company, investment delegate or any of their connected persons (being a bank) so long as that bank charges interest at no higher rate, and any fee for arranging or terminating the loan is of no greater amount than is in accordance with its normal banking practice, the commercial rate for a loan of the size and nature of the loan in question negotiated at arm's length;

(c) any transactions between the scheme and the management company, the investment delegate, directors of the scheme or any of their connected persons as principal may only be made with the prior written consent of the trustee/custodian; and

(d) all transactions carried out by or on behalf of the scheme must be at arm's length and executed on the best available terms.

D13 Distribution policy and date

Distribution policy and approximate date when income will be distributed (if applicable).

D14 Financial year

Calendar year date on which the financial year ends. In the case of an umbrella fund, the financial year should be the same for all constituent funds.

D15 Base currency

A statement of the base currency of the scheme.

D16 Modification of the constitutive documents

A statement of the means by which modifications to the constitutive documents can be effected [see 6.7 of this UT Code].

D17 Termination of scheme

A statement of the circumstances in which the scheme can be terminated.
Appendix E

Contents of financial reports

Introduction

Pursuant to 11.6 of this UT Code, financial reports of a scheme must be prepared and published in respect of its financial year.

Annual reports must be prepared in compliance with internationally recognized accounting standards pursuant to 11.6A of this UT Code, and contain all the information required in this Appendix and a report issued by the trustee/custodian to holders as required by 4.5(f) of this UT Code.

Interim reports must apply the same accounting policies and methods of computation as are applied in the annual reports of the scheme pursuant to 11.6A of this UT Code and disclose a statement to such effect or include a description of the nature and effect of any change in these policies and methods. Interim reports must at least contain the information/items listed under the Statement of Assets and Liabilities, Revenue Statement, Statement of Movement in Capital Account, Investment Portfolio and Holdings of Collateral. For the avoidance of doubt, if no annual report has been prepared and published pursuant to 11.6 of this UT Code for the relevant reporting period immediately preceding the publication of an interim report (e.g. in the case of a newly launched scheme), such interim report must disclose the accounting policies and methods of computation that are significant for holders to appraise the financial position and performance of a scheme. Where the scheme has paid or proposes to pay an interim dividend, the amount of dividend should be disclosed.

All financial reports must contain comparative figures for the previous period except for the Investment Portfolio and Holdings of Collateral.

The mention of any unauthorized schemes (including underlying schemes) in the financial reports must be indicated as “Not authorized in Hong Kong and not available to the public in Hong Kong”.

For all financial reports, the items listed under the Statement of Assets and Liabilities, Revenue Statement, Statement of Movements in Capital Account and the Notes to the Financial Reports, where applicable, must be disclosed separately. It is however, not mandatory to adopt the format as shown or to disclose the items in the same order and a scheme may use different titles for these statements.

While the SFC recognizes that financial reports of recognized jurisdiction schemes [see 1.2 of this UT Code] will vary in content, financial reports are expected to offer investors comparable disclosure as set out in this Appendix. Although financial reports of recognized jurisdiction schemes will generally be reviewed on the basis that they already comply in substance with this Appendix, disclosure must be made of transactions with connected persons and soft dollar arrangements [see items 2 and 3(a) under Notes to the Financial Reports in this Appendix]. The SFC reserves the right to require additional disclosure.
Statement of Assets and Liabilities

The following must be separately disclosed, where applicable:

1. Total value of investments
2. Bank balances
3. [deleted]
4. Dividends and other receivables
5. Amounts receivable on subscription
6. Bank loans and overdrafts or other forms of borrowings
7. Amounts payable on redemption
8. Distributions payable
9. Total value of all assets
10. Total value of all liabilities
11. Net asset value
12. [deleted]
13. [deleted]

Revenue Statement

1. Total investment income, broken down by category
2. Total other income, broken down by category
3. [deleted]
4. An itemized list of various costs which have been debited to the scheme including, where applicable:
   
   (a) fees paid to the management company (e.g. management fee and performance fee)
   (b) remuneration of the trustee/custodian
   (c) fees paid to investment delegate
   (d) respective amounts paid to any connected persons of the management company, investment delegate, directors of the scheme or trustee/custodian
   (e) formation costs
   (f) directors’ fee and remuneration
   (g) safe custody and bank charges
   (h) auditors' remuneration
   (i) interest on borrowings
   (j) legal and other professional fees
(k) transaction costs
(l) any other expenses borne by the scheme

5. Taxes (including withholding tax)

6. Amounts transferred to and from the Statement of Movements in the Capital Account

7. Net income

**Statement of Movements in Capital Account**

1. Number of units/shares in issue and value of the scheme as at the beginning of the period

2. Number of units/shares issued and the amounts received upon such issuance (after equalization if applicable)

3. Number of units/shares redeemed and the amount paid on redemption (after equalization if applicable)

4. Any items resulting in an increase/decrease in value of the scheme not recognized in the Revenue Statement, including:
   (a) surplus/loss on sale of investments
   (b) exchange gain/loss
   (c) unrealized appreciation/diminution in value of investments
   (d) net income for the period less distribution

5. Amounts transferred to and from the Revenue Statement

6. Number of units/shares in issue and value of the scheme as at the end of the period

**Notes to the Financial Reports**

The following matters should be set out in the notes to the financial reports, where applicable:

1. Principal accounting policies

   State the principal accounting policies in preparing the financial reports for reporting the financial position and performance of a scheme, including the following:

   (a) the basis of valuation of the assets of the scheme including the basis of valuation of unquoted and unlisted securities

   (b) the revenue recognition policy regarding dividend income and other income

   (c) foreign currency translation

   (d) the basis of valuation of financial derivative instruments

   (e) [deleted]

   (f) taxation

   (g) any other accounting policy adopted to deal with items which are judged material or critical in determining the transactions and in stating the disposition of the scheme
Any changes to the above accounting policies and their financial effects upon the accounts should also be disclosed.

2. Transactions with connected persons

The following should be disclosed:

(a) a description of the nature and the amounts of any transactions entered into during the period between the scheme and the management company, investment delegate, directors of the scheme, trustee/custodian or any of their connected persons, together with a statement confirming that these transactions have been entered into in the ordinary course of business and on normal commercial terms;

(b) the total aggregate value of the transactions of the scheme effected through a broker who is a connected person of the management company, investment delegate, directors of the scheme, or trustee/custodian;

(i) the percentage of such transactions in value to the total transactions in value of the scheme during the year;

(ii) the total brokerage commission paid to such broker in relation to transactions effected through it; and

(iii) the average rate of commission effected through such broker;

(c) details of all transactions, including the nature and amounts, which are outside the ordinary course of business or not on normal commercial terms entered into during the period between the scheme and the management company, investment delegate, directors of the scheme, trustee/custodian or any of their connected persons;

(d) name of the management company, investment delegate, directors of the scheme, trustee/custodian or any of their connected persons if any of them becomes entitled to profits from transactions in units/shares or from management of the scheme, and the amount of profits to which each of them becomes entitled;

(e) where the scheme does not have any transactions with the management company, investment delegate, directors of the scheme, trustee/custodian or any of their connected persons during the period, a nil statement to that effect; and

(f) the basis of the fee charged for the management of the fund and the name of the management company and investment delegate. In addition, where a performance fee is charged to the scheme, the basis of calculation and amount of performance fee charged should be separately disclosed.

3. Soft dollar arrangements

(a) A statement on the existence of soft dollar arrangements relating to dealings in the property of the scheme, or a nil statement if no such arrangements exist during the period; and

(b) General description on soft dollar arrangements relating to dealings in the property of the scheme, including the amounts of transactions executed; the
related commissions that have been paid for the transactions; and description of goods and services received by the management company or investment delegate.

4. Borrowings

State whether the borrowings are secured or unsecured and the duration of the borrowings.

5. Contingent liabilities and commitments

Details of any contingent liabilities and commitments of the scheme.

6. If the free negotiability of any asset is restricted by statutory or contractual requirements, this must be stated.

7. Formation costs

Accounting treatment of formation costs and the basis of amortization, including the amounts unamortized and the remaining amortization period.

8. Distribution

Details of any distribution, including the following:

(a) Amount brought forward at the beginning of the period;
(b) Net income for the period;
(c) Interim distribution per unit/share and date of distribution;
(d) Final distribution per unit/share and date of distribution; and
(e) Undistributed income carried forward.

9. Details on units/shares

Number of units/shares in issue and the net asset value per unit/share as at the end of the period.

10. Transaction costs

A description of the nature of transaction costs incurred during the period (e.g. brokerage, exchange and dealing fees etc.).

**Contents of the auditors' report**

The report of the Auditor should state:

1. Whether in the auditor's opinion, the financial reports prepared for that period have been properly prepared in accordance with the relevant provisions of the trust deed (in the case of a unit trust) or articles of association (in the case of a mutual fund) and this UT Code;
2. Without prejudice to the foregoing, whether in the auditor's opinion, a true and fair view is given of the disposition of the scheme at the end of the period and of the transactions of the scheme for the period then ended;

3. If the auditor is of the opinion that proper books and records have not been kept by the scheme and/or the financial reports prepared are not in agreement with the scheme's books and records, that fact; and

4. If the auditor has failed to obtain all the information and explanations which, to the best of his knowledge and belief, are necessary for the purposes of the audit, that fact.

**Investment Portfolio**

1. Number or quantity of each holding together with the description and market value. Distinguish between listed and unlisted and categorize by asset class (such as equities, bonds and collective investment schemes etc.) and country.

2. The total investment stated at cost.

3. The value of each holding as a percentage of net asset value.

4. Statement of movements in portfolio holdings since the end of the preceding accounting period.

   **Notes:** (1) The management company is expected to choose the most appropriate illustration of movement in the portfolio holdings taking into account the objective and nature of a scheme. Any one of the following methods may be considered acceptable to the Commission:

   (a) detailed holdings in individual securities; or
   (b) holdings in different sectors of a particular market; or
   (c) holdings in different countries (in the case of, for example, a global equity fund); or
   (d) holdings in various kinds of securities such as equities, bonds, warrants and options etc. (in the case of a diversified fund).

   (2) Except for Note(1)(a) of item 4 under Investment Portfolio in this Appendix, movements in portfolio holdings can be expressed in percentages.

5. Details in respect of financial derivative instruments:

   (a) the underlying assets of financial derivative instruments; and
   (b) the identity of the issuer(s)/counterparty(ies) of these financial derivative instruments.

6. Details in respect of securities financing transactions and securities borrowing transactions:

   (a) the securities involved in each type of securities financing transactions and securities borrowing transactions;
(b) global data:

(i) amount of securities on loan as a proportion of the scheme's total lendable assets and of the scheme's total net asset value; and

(ii) respective absolute amounts of each type of securities financing transactions and as a proportion of the scheme's total net asset value;

(c) concentration data:

(i) top 10 largest collateral issuers across all securities financial transactions with details on the amounts of collateral received by the scheme; and

(ii) top 10 counterparties of each type of securities financing transactions, including name of counterparty and gross amounts of outstanding transactions;

(d) aggregate transaction data for each type of securities financing transactions and securities borrowing transactions:

(i) the amount (including the currency denomination);

(ii) maturity tenor, including open transactions;

(iii) identity and country of the counterparty(ies);

(iv) settlement and clearing means (e.g. tri-party, central counterparty, bilateral); and

(v) collateral received by the scheme to limit counterparty exposure with details required under items 1(a) and 1(e) of Holdings of Collateral in this Appendix;

(e) amount of revenue, and the direct and indirect expenses incurred relating to each type of securities financing transactions (e.g. the amount of revenue retained by the scheme and the amount of direct and indirect expenses borne by the scheme and paid to the management company, investment delegate, trustee/custodian or any of their connected persons or other parties);

(f) (i) details on re-investment of cash collateral required under item 1(f) of the Holdings of Collateral in this Appendix; and

(ii) (applicable to hedge funds) details on re-use or re-hypothecation of collateral required under item 1(g) of the Holdings of Collateral in this Appendix; and

(g) details on custody/safe-keeping arrangement of collateral under item 1(h) of the Holdings of Collateral in this Appendix.

7. For money market funds:

(a) the weighted average maturity and the weighted average life of the portfolio of the scheme; and
(b) amounts of daily liquid assets and weekly liquid assets and as a percentage of the scheme’s total net asset value.

Holdings of Collateral

1. Description of holdings of collateral, including:
   (a) nature of the collateral, including asset types (e.g. cash, cash equivalents and money markets; government or corporate (whether investment grade / non-investment grade); and others) and currency denomination;
   (b) identity of counterparty providing the collateral;
   (c) value of the scheme (by percentage) secured/covered by collateral, with breakdown by asset class/nature and credit rating (if applicable);
   (d) credit rating of the collateral (if applicable);
   (e) maturity tenor of the collateral, including open transactions;
   (f) data on re-investment of cash collateral:
      (i) share of cash collateral received that is re-invested, compared to the maximum amount specified in the offering document; and
      (ii) returns from re-investment of cash collateral;
   (g) (applicable to hedge funds) data on re-use or re-hypothecation of collateral:
      (i) share of collateral received that is re-used or re-hypothecated, compared to the maximum amount specified in the offering document; and
      (ii) information on any restrictions on type of collateral received; and
   (h) custody/safe-keeping arrangement, including:
      (i) number and names of custodians and the amount of collateral received/held by each of the custodians for the scheme; and
      (ii) the proportion of collateral posted by the scheme which are held in segregated accounts, pooled accounts, or in any other accounts.

Performance table

1. A comparative table covering the last 3 financial years and including, for each financial year, at the end of the financial year:
   (a) the total net asset value; and
   (b) the net asset value per unit/share.

2. A performance record over the last 10 financial years; or if the scheme has not been in existence during the whole of that period, over the whole period in which it has been in existence, showing the highest issue price and the lowest redemption price of the units/shares during each of those years.
Information on exposure arising from financial derivative instruments

1. The lowest, highest and average exposure arising from the use of financial derivative instruments during the period in respect of the following:

   (a) Gross exposure arising from the use of financial derivative instruments for any purposes, with reference to equivalent market value of the underlying assets of the financial derivative instruments, as a proportion to the scheme’s total net asset value; and

   (b) Net derivative exposure [see Note to 7.26 of this UT Code] as a proportion to the scheme’s total net asset value.
Appendix F

(Deleted)
Appendix G

Guidelines for review of internal controls and systems of trustees/custodians

Introduction

1. Pursuant to 4.1 of this UT Code, a trustee/custodian of a collective investment scheme is required to appoint an independent auditor to periodically review its internal controls and systems ("internal control review") on terms of reference in compliance with this Appendix, unless the trustee/custodian is prudentially regulated and supervised by an overseas supervisory authority acceptable to the Commission. A report of the internal control review ("review report") must be filed with the Commission. Trustees/custodians should ensure that adequate policies and procedures of the internal controls and systems are maintained to ensure compliance with the requirements of Chapter 4 of this UT Code.

Note: Where third parties are engaged to carry out functions or operations that are relevant in discharging the responsibilities and obligations of the trustee/custodian, the trustee/custodian should ensure its accountability to the scheme and investors is not diminished and its obligations as set out in 4.5 of this UT Code are duly discharged. Although a third party may be engaged to assume the operations and functions of a trustee/custodian, the responsibilities and obligations of the trustee/custodian may not be delegated and shall remain with the trustee/custodian.

2. [deleted]

Purpose of the guidelines

3. This Appendix provides further guidance to trustees/custodians of schemes on the periodic internal control review requirement. This Appendix sets out the minimum scope of an internal control review which will be acceptable to the SFC. A variety of internal controls and systems can be adopted to achieve the same internal control objectives. Trustees/custodians should exercise professional judgement in deciding the appropriate policies and procedures of their internal controls and systems.

4. For the purposes of this Appendix, the term “auditor” refers to the independent professional accountant who is engaged to conduct the internal control review and issue the required auditor’s report (included in the review report) provided herein.

Scope of review

5. The objective of the internal control review is to assess whether the internal controls and systems of a trustee/custodian are adequate and sufficient to comply with 4.5 of this UT Code. The internal control review should involve all material procedural and control elements that are necessary to discharge the responsibilities and obligations of trustees/custodians in relation to schemes.

Notes: (1) In determining whether the control objectives as set out under paragraph 8A of this Appendix have been achieved, the scope of internal control review should cover the internal controls and systems of the trustee/custodian in monitoring the performance of any third party (such
as sub-custodian, administrator, transfer agent and registrar) who is appointed/engaged to carry out certain functions and operations that are relevant for the trustee/custodian in discharging its responsibilities and obligations. In this case, the relevant third party is expected to establish policies and procedures in its internal controls and systems in support of the trustee/custodian to discharge its responsibilities and obligations.

(2) For the purposes of Note(1) to paragraph 5 of this Appendix, the trustee/custodian should establish policies and procedures in its internal controls and systems to ensure the related functions and operations are properly carried out, implemented and monitored irrespective of the parties designated to perform or handle these functions and operations [see Note to paragraph 1 of this Appendix].

5A. In selecting samples for the internal control review, the auditor should include, where available, different types of scheme(s) authorized by the SFC of which the entity concerned is acting as trustee/custodian. As part of the internal control review, the auditor should also review whether different classes of investors of a scheme are treated fairly under the control framework of the trustee/custodian.

5B. The internal control review should be conducted to provide reasonable assurance in accordance with internationally acceptable standards.

6. The engagement letter between the trustee/custodian and the auditor should incorporate or refer to the terms of reference (“Terms of Reference”) under paragraph 8 of this Appendix which sets out the scope of review for compliance with the requirements of this UT Code. The trustee/custodian may engage the auditor to expand the scope of the internal control review; it is important that this is agreed with the auditor before the commencement of the internal control review.

7. [deleted]

Terms of Reference

8. The precise terms of the internal control review engagement will be as agreed between the trustee/custodian and the auditor in each particular case. The review report should include the following Terms of Reference:

A. Report by the management of the trustee/custodian

The management of the trustee/custodian must issue a report (“trustee/custodian’s report”) to describe the control environment and the policies and procedures of its internal controls and systems that are designed to ensure compliance with the requirements of 4.5 of this UT Code and the control objectives set out in this Appendix. The policies and procedures are expected to cover the control objectives (“Control Objective(s)”) and the key control attributes (“Key Control Attributes”) under each of the areas (namely, (a) maintenance of a control environment, (b) compliance with applicable legal and regulatory requirements, (c) compliance with control policies and procedures, (d) safekeeping of assets against loss, (e) handling of different classes of investors fairly and (f) sound information technology control processes) described in this paragraph 8A below.
Note: In the case where the trustee/custodian is required to take reasonable care in discharging its obligations provided under 4.5 of this UT Code, the trustee/custodian should ensure its obligations (e.g. oversight functions) as set out in this UT Code are duly discharged notwithstanding that third parties may be engaged to carry out the relevant functions or operations.

Control Objective

(a) Maintenance of a control environment

Key Control Attributes

(1) General

(i) Possession of relevant knowledge, skills, qualifications, experiences, resources and operational capabilities commensurate with the nature, scale and complexity of the scheme.

(ii) Devise and tailor appropriate and specific procedures (subject to regular and frequent review and update) for acting as the trustee/custodian of the scheme concerned, including ongoing monitoring on third parties engaged.

(iii) Establish clear and comprehensive escalation mechanism to deal with potential breaches detected in the course of discharging its obligations and report to the SFC on material breaches in a timely manner.

(2) Corporate governance

(i) Establishment of a corporate governance framework for the business and operation as trustee/custodian.

(ii) Timely reporting and involvement of senior management of the trustee/custodian and the management company on matters and issues that may lead to breach of relevant laws and regulations or applicable legal and regulatory requirements.

(iii) Escalation of issues identified to senior management of the trustee/custodian and the management company and ongoing assessment, monitoring of the progress and development.

(3) Risk management framework

(i) Establishment of a risk management framework.

(ii) Identification, monitoring and controlling of relevant risks for acting as the trustee/custodian of a scheme, including but not limited to, operational risks and regulatory risks.

(iii) Supervision from senior management of the trustee/custodian and ongoing communication with the management company.
(4) Business continuity plan
   
   (i) Establishment of a business continuity plan.

   (ii) Regular testing on the effectiveness of the business continuity plan which is subject to review and revision on an ongoing basis.

   (iii) Timely reporting on material exceptions to senior management of the trustee/custodian and the management company.

Control Objective

(b) Compliance with applicable legal and regulatory requirements

Key Control Attributes

(5) Compliance function and review (including but not limited to capital adequacy and independence requirements)

   (i) Formation and documentation of a compliance programme approved by the management of the trustee/custodian for the obligations under 4.5 of this UT Code as well as addressing any compliance / breach issues.

   (ii) Development and maintenance of a compliance policy to provide specific guidance (e.g. ongoing communication, training, etc.) to its staff and third parties engaged in discharging its obligations as trustee/custodian.

   (iii) Sufficient and adequate compliance resources, including human resources, for monitoring and supervision of the compliance programme.

   (iv) Possession of relevant knowledge, skills, qualifications and experience for staff to effectively execute their duties.

   (v) Periodic review on the monitoring and reporting procedures of third parties engaged.

   (vi) Compliance of regulatory reporting requirements.

   (vii) Regular reporting to senior management of the trustee/custodian and communication with the management company.

   (viii) Establishment of procedures for dealing with complaints.

(6) Breach reporting [see 4.5(k) of this UT Code]

   (i) Establishment of procedures and mechanisms to identify breaches in the course of discharging the obligations of the trustee/custodian.

   (ii) Formation and monitoring of rectification plans and remedial actions, including relevant involvement and coordination with the management company.
(iii) Reporting to senior management of the trustee/custodian and the management company and recording of breaches.

(iv) Notification mechanism to relevant regulatory bodies (including the SFC) on material breaches in accordance with 4.5(k) of this UT Code.

Control Objective

(c) Compliance with control policies and procedures

Key Control Attributes

(7) Oversight of management company in managing the scheme in accordance with the provisions of the constitutive documents

(i) Verification of instructions given by the management company with appropriate reconciliation procedures (such as ex-post controls and verification of processes and procedures).

(ii) Escalation and communication with the management company on breaches identified in the course of discharging the obligations of the trustee/custodian.

(8) Appointment of and oversight on third parties that are relevant for the trustee/custodian in discharging its obligations as set out in 4.5 of this UT Code

(i) Selection and due diligence of third parties engaged, including an assessment on their competency, regulatory and financial status, and capabilities in discharging their delegated function(s)/operation(s) and their internal controls and systems, covering the respective Control Objectives and Key Control Attributes provided in this Appendix with respect to the relevant delegated function(s)/operations(s) by the trustee/custodian.

(ii) Ongoing monitoring and review of third parties engaged to ensure the delegated function(s)/operation(s) are performed in compliance with relevant legal and regulatory requirements.

(iii) Oversight on third parties engaged that all the necessary internal controls and systems are established and maintained effectively, in carrying out the delegated function(s)/operation(s).

(iv) Documented procedures in respect of matters in (8)(i) to (8)(iii) above.

(v) Contingency plan on third parties engaged, including actions and measures to be taken on breaches and solvency matters/issues relating to the third parties engaged.

(vi) Policies and measures to address conflicts of interests.

(9) Subscription and redemption monitoring [see 4.5(b) of this UT Code]

(i) Subscription and redemption orders are carried out in accordance with the provisions of the constitutive documents.
Transactions controls and recording systems are in place.

Timely issuance and cancellation of units/share certificate.

Reconciliation and verification on subscription and redemption on a regular basis, such as reconciling the subscription/redemption orders with the proceeds received/paid and the number of units issues/cancelled.

Frequency of reconciliation and verification consistent with the flow of subscriptions and redemptions.

Timely settlement of the subscription and redemption transactions and follow-up actions on exceptions, including communication with senior management of the trustee/custodian and the management company on the exceptions identified.

Proper documentation and records of the considerations taken with respect to suspension of dealing of units/shares of the scheme, including the consultation process and communication between the trustee/custodian and the management company.

Valuation/price/net asset value calculation monitoring [see 4.5(c) of this UT Code]

Methodology adopted in calculating net asset value per unit/share is in accordance with the provisions of the constitutive documents.

Accuracy of net asset value calculation, including interest income, dividend and fee calculation.

Establishment of policies and procedures in monitoring the valuation methodology adopted by the scheme/management company for each type of investments held by the scheme, including illiquid or hard-to-value assets.

Establishment of policies and procedures in monitoring the use of the fair value adjustments considered by the management company for valuing different types of assets of a scheme, including the circumstances that trigger the use of fair value adjustments, and the governance structure and review process for fair value adjustments and consultation with the trustee/custodian where appropriate.

Periodic review of valuation monitoring policies and procedures, including effectiveness, appropriateness and consistency of their application.

Proper documentation and records on the considerations taken with respect to the suspension of calculation of valuation/price/net asset value of the scheme, including the consultation process and communication between the trustee/custodian and the management company.

Establish clear and comprehensive escalation mechanism to deal with errors or exceptions in the pricing of the units/shares of the scheme that has come to the attention of the trustee/custodian in the course of
discharging its obligations, including proper documentation of the mechanism, compensation arrangements to the scheme and/or holders, communication between the trustee/custodian and the management company and timely reporting to the SFC on the pricing errors in accordance with 10.2A of this UT Code.

(viii) Proper recording of interest income, dividend income and other corporate actions.

(11) Distribution payment monitoring

(i) Calculation of distribution is carried out in accordance with the provisions of the constitutive documents.

(ii) Ensure completeness and accuracy of distribution payment.

(iii) Establish clear and comprehensive escalation mechanism to deal with exceptions detected in the course of discharging the obligations of the trustee/custodian; including proper documentation of the mechanism, communication between the trustee/custodian and the management company and reporting to the SFC on material exceptions in a timely manner.

(12) Cash flow monitoring [see 4.5(h) of this UT Code]

(i) Oversight of the safeguards and measures adopted by the scheme/management company to ensure proper cash account opening; proper prior written consent has been obtained from the trustee/custodian in the case where cash is placed with the management company, investment delegates, directors of the scheme or any of their connected persons.

(ii) Oversight of the safeguards and measures adopted by the management company in addressing conflicts of interests where cash is placed with the entities under 10.10 of this UT Code, including oversight on the relevant cash management policy of the management company.

(iii) Ensure proper and effective monitoring on the receipt of subscription proceeds and payment of redemption proceeds.

(iv) Identification of significant cash flow and cash flows which could be inconsistent with the operations of the scheme.

(v) Periodic review of cash flow monitoring policy of the trustee/custodian.

(vi) Escalation procedures with senior management of the trustee/custodian and the management company when material exception is detected in the course of carrying out its duties and the follow-up actions taken.

(13) Investment monitoring [see 4.5(e) of this UT Code]

(i) Carry out instructions of the management company with ex-post verifications in relation to investment limitations and restrictions to ensure compliance with the provisions of the offering and constitutive documents and this UT Code.
(ii) Monitoring investment and borrowing limits.

(iii) Accuracy of investment record and investment reconciliation against third party.

(iv) Transactions controls and recording systems are in place.

(v) Timely settlement of transactions and exceptions detection and follow-up actions taken.

(vi) Establishment of system of recording and reporting pertaining to securities financing transactions.

(vii) Possession of relevant knowledge for staff who are responsible for monitoring and recording securities financing transactions.

(viii) Proper monitoring of the authorized list of eligible counterparties.

(ix) Proper monitoring on the margin requirement for different types of investment.

(x) Verification of daily mark to market value on collateral and reconciliation of reports provided by counterparties.

(14) Accounting system and record keeping

(i) Establishment of proper and appropriate accounting recording systems and record keeping requirements for each scheme.

(ii) Adoption of consistent accounting treatment in accordance with the constitutive documents and relevant accounting standards.

(iii) Timely issuance and distribution of financial reports.

(15) Connected party transactions

(i) Oversight of the safeguards and measures adopted by the scheme/the management company.

(ii) To ensure proper prior written consent has been obtained from the trustee/custodian on transactions between the scheme and the entities under 10.11 of this UT Code and proper documentation on justifications in approval of these transactions.

Control Objective

(d) Safekeeping of assets against loss

Key Control Attributes

(16) Custody and safeguarding of assets

(i) Segregation of assets of the scheme from the assets of:
(I) the management company, investment delegate and their respective connected persons;

(II) the trustee/custodian and any nominees, agents or delegates throughout the custody chain; and

(III) other clients of the trustee/custodian and nominees, agents or delegates throughout the custody chain, unless held in an omnibus account with adequate safeguards in line with international standards and best practices to ensure that the assets of the scheme is properly recorded with frequent reconciliations.

(ii) Segregation of duties in trustee/custodian's operations.

(iii) Safeguard of physical assets of the scheme.

(iv) Payment and asset transfer on behalf of the scheme.

(v) Reconciliation of assets against third party records on a regular basis.

(vi) Obtain sufficient and reliable information to conduct regular verification of ownership (including reconciliation between records of the trustee/custodian and the management company) and maintenance of comprehensive, up-to-date and accurate records for assets of the scheme that cannot be held in custody.

(vii) Proper registration of the scheme's assets.

(viii) Assess and monitor custody risk with adequate organizational arrangement to minimize risk of loss.

(ix) Escalation and rectification procedures on issues and exceptions identified.

(x) All cash of the scheme has been booked in the cash accounts of the scheme.

(xi) Accuracy of cash record and cash reconciliation against third party, such as reconciliation of its own records with records of the management company on a daily basis.

Control Objective

(e) Handling of different classes of investors fairly

Key Control Attributes

(17) Whether different classes of investors are treated fairly under the trustee/custodians' control framework, such as control procedures in ensuring accuracy in the calculation of net asset value of a scheme with multiple classes.
Control Objective

(f) Sound information technology (IT) control processes

Key Control Attributes

(18) IT controls on the IT systems involved in the trustee/custodian’s business and operations relating to schemes authorized by the SFC, including logical and physical access controls; system application controls; system change management controls and testing; IT operations; system resilience and disaster recovery planning; incident management; and technology service providers management.

(19) Risk assessment performed by the trustee/custodian on the IT-related risks of the trustee/custodians’ businesses/operations relating to schemes authorized by the SFC and adequacy of the IT controls to address the IT-related risks identified in the risk assessment.

Please note that the above Control Objectives are not meant to be exhaustive.

The controls designed to meet the above Control Objectives may vary from firm to firm. The SFC does not mandate specific controls to meet the Control Objectives. It is the responsibility of the management of the trustee/custodian to design suitable controls and ensure that these are adequate, effective and properly implemented for the purpose of achieving the Control Objectives so identified.

B. Objective of the review engagement

The objective of the engagement is to review the control objectives and procedures as described in the trustee/custodian’s report and to report on the findings of the review to the management of the trustee/custodian.

(1) Auditor’s work should be planned and conducted so as to obtain reasonable assurance that:

(i) the control procedures as described by the trustee/custodian’s management are suitably designed and adequate to meet the stated control objectives and compliance with 4.5 of this UT Code during the period under review;

(ii) the trustee/custodian’s report in paragraph 8A of this Appendix describes fairly the control procedures in place during the period under review;

(iii) the specific control procedures tested (with details described) operated effectively, in all material respects, during the period under review; and

(iv) material internal control weakness or failure in the internal controls or systems (whether by design or implementation) during the period under review are identified and recommendations for improvement are made.

(2) In assessing whether a control is suitably designed and adequate, the auditor should:
(i) assess whether the control individually or in combination with other controls would, when complied satisfactorily, provide reasonable assurance that the control objectives stated in the description of its internal controls and systems by the management of the trustee/custodian are achieved; and

(ii) take into account the nature of business and size of the operation of the trustee/custodian.

C. Report by the auditor

The auditor should issue a report ("auditor’s report"), addressed to the management of the trustee/custodian, detailing the scope of the review work carried out relating to the report by management and the conclusions reached. The auditor’s report should state:

(i) a summary of the terms of engagement containing the Terms of Reference (or attach a copy of the letter of engagement);

(ii) the respective responsibilities of the management of the trustee/custodian and the auditor;

(iii) the basis of the auditor’s opinion (detailing the scope of work);

(iv) the auditor’s opinion (see Part D of this Appendix); and

(v) where applicable, a description of material weakness and/or failure in the internal controls and systems identified and recommendations made to management of the trustee/custodian (or attach a copy of the letter or memorandum) (see Part E of this Appendix).

D. Auditor’s opinion

The auditor’s opinion should state whether:

(i) the control procedures as described by the trustee/custodian’s management were suitably designed and adequate to meet the stated control objectives and compliance with 4.5 of this UT Code during the period under review;

(ii) the control procedures in the trustee/custodian’s report fairly described the control procedures in place during the period under review; and

(iii) the controls tested, which were those necessary to provide reasonable assurance that the control objectives stated in the trustee/custodian’s description of its control objectives and procedures were achieved, operated effectively during the period under review.

Where applicable, the auditor should state the limitations to the tests performed and whether such limitations have any material impact on the auditor’s opinion.

E. Recommendation for internal controls and systems

Upon identifying any material control weakness or failure in the internal controls and systems or areas for improvement, the auditor’s report should contain:
(a) if any material weakness in internal controls or failure in internal controls and systems has been identified during the auditor's review, a letter/memorandum issued by the auditor to management of the trustee/custodian, and provide a copy of such letter/memorandum to the SFC. The letter/memorandum should include (i) a description of the material internal control weakness or failure in the internal controls and systems together with (ii) auditor’s recommendation for improvement and response from the management of trustee/custodian; or

(b) in cases where no material internal control weakness or failure in internal controls and systems has been identified, if the auditor has made certain recommendations for improvement to trustee/custodian’s internal controls and systems, a letter/memorandum issued by the auditor to management of the trustee/custodian setting out the relevant recommendations for improvement, and provide a copy of the letter/memorandum to the SFC.

Period under review

9. The period under review should be for a period of at least twelve months and should coincide with the financial year of the trustee/custodian unless otherwise agreed with the SFC.

Notes: For a trustee/custodian which is not currently acting as trustee/custodian for schemes authorized by the SFC (“new trustee/custodian”):

(i) where the review represents the first internal control review of the new trustee/custodian which is conducted in accordance with this Appendix, the SFC may consider accepting a shorter review period (e.g. covering a period of six months) which may not coincide with the financial year end of the new trustee/custodian. In any event, the auditor should issue the auditor’s report on the internal control review of the trustee/custodian within six months from the end of the review period and submit the review report to the SFC at the time of submission of the application of the relevant scheme seeking SFC’s authorization or the scheme change application in relation to 11.1(b) of this UT Code in support of such application(s); and

(ii) in the case where the new trustee/custodian has yet to come into operations, the SFC may consider on a case-by-case basis to accept separate review reports which opine on the design suitability and operating effectiveness of its internal controls and systems respectively. The review report which opine on the operating effectiveness may not need to be submitted at the time of application. However, the new trustee/custodian should consult and agree with the SFC in advance regarding the timeframe for submission of such report.

Filing of reports with the SFC

10. The management of the trustee/custodian should file the review report, which comprises of a copy of the auditor’s report and the trustee/custodian’s report (as described in paragraph 8) with the SFC within six months from the end of the period under review. Where applicable, management response to the auditor’s report should also be attached.
Frequency of review

11. The review of internal controls and systems of trustees/custodians should be conducted on an annual basis. The SFC may require more frequent reviews of a trustee/custodian should this be considered necessary.
Appendix H

Guidelines on hedge funds reporting requirements

Introduction

The Commission has published the Guidelines on Hedge Funds Reporting Requirements (the Guidelines). The Guidelines set out the minimum amount of information that is required to be disclosed in regular reporting to holders. The Commission advocates additional information to be disclosed if it is deemed to be appropriate and informative to holders, taking into account the objective and strategy of the scheme.

1. Pursuant to 5.17 and 11.6 of this UT Code, financial reports of authorized schemes are required to be published in respect of its financial year, of which the annual report must be audited by the auditor for the scheme. Pursuant to 8.7(w) of this UT Code, authorized hedge funds are also required to publish quarterly reports for holders. The following scheme reports should be distributed to holders and filed with the Commission within the stipulated timeframe:

<table>
<thead>
<tr>
<th>Nature of reports</th>
<th>No. of reports for each scheme financial year</th>
<th>Timeframe for filing and distribution to holders</th>
</tr>
</thead>
<tbody>
<tr>
<td>Annual report</td>
<td>One</td>
<td>Within four months of the end of the relevant financial year, except for funds of hedge funds (FoHFs) where the timeframe for filing and distribution to holders is within six months of the end of the relevant financial year.</td>
</tr>
<tr>
<td>Interim report</td>
<td>One</td>
<td>Within two months of the end of the relevant period.</td>
</tr>
<tr>
<td>Quarterly reports</td>
<td>Four</td>
<td>Within one month of the end of the relevant period, except for FoHFs where the timeframe for filing and distribution to holders is within six weeks of the end of the relevant period.</td>
</tr>
</tbody>
</table>

Note: Where the management company wishes to report to holders via monthly reports, there is no need to prepare quarterly reports provided that the same requirements for quarterly reports are complied with in the monthly reports.

2. These Guidelines aim to provide further guidance to management companies regarding the ongoing reporting requirements of authorized hedge funds. The Commission reserves the right to require additional disclosure to be made.

3. For the ease of understanding by holders, where technical terms are used in the scheme reports, the management company is specifically encouraged to include a glossary to explain their meaning and their implications to investors. Where financial terms are used in the scheme reports, the management company must provide their calculation bases, definitions, and any underlying assumptions.
4. Where the provisions refer to the scheme in this Appendix, this means the authorized hedge fund.

A. Contents of financial reports

Requirements applicable to both annual and interim reports

5. Annual and interim reports of the scheme must contain the information as required by Appendix E of this UT Code, with the exceptions as provided in paragraph 6 of this Appendix.

6. The Commission encourages full disclosure of individual holdings of the scheme. Where the management company is satisfied that full disclosure of such information may be unduly burdensome, it may adopt alternative disclosures in lieu of the disclosure as required in the Investment Portfolio of Appendix E of this UT Code. In that case, the management company must choose the most appropriate and informative illustration of the scheme’s holdings/exposures at the end of the relevant period, taking into account the objective and strategy of the scheme.

Note: The following will be regarded as minimum disclosures acceptable to the Commission. The Commission reserves the right to require disclosure of the full position of the scheme for the purposes of carrying out its regulatory functions. Such disclosures to the Commission will be subject to the Commission’s preservation of secrecy provisions.

With respect to any scheme that is a FoHFs, the management company should disclose:

a. Exposures (including cash and cash equivalent holdings*) for the scheme at the scheme level as of the reporting date (expressed in percentage terms of net asset value of the scheme) categorized by geographical region, industry, strategy, or some other basis that the management company considers the most appropriate, taking into account the objective and strategy of the scheme;

b. The names and percentage values (based on net asset value of the scheme) of the top five underlying funds held by the scheme as of the reporting date;

c. The number of underlying funds and the number of underlying fund managers included in the scheme as of the reporting date; and

d. (Where the scheme is a multi-strategy FoHFs) disclosure of the number of underlying funds and underlying fund managers under each hedge fund strategy.

With respect to other schemes, the management company should disclose:

a. Exposures (including cash and cash equivalent holdings*) for the scheme as of the reporting date (expressed in percentage terms of net asset value of the scheme) categorized by asset class, geographical region, industry, strategy, or some other basis that the management company considers the most appropriate, taking into account the objective and strategy of the scheme;

b. The names and amounts of the top five long positions and top five short positions held by the scheme on a gross basis as of the reporting date; and
c. The aggregated gross long and short positions held by the scheme as of the reporting date (expressed in percentage terms of the net asset value of the scheme).

* “Cash equivalent holdings” are defined as those assets with a maturity of less than one year and which are readily transactable in an arm’s length transaction between willing and knowledgeable parties.

Requirements specific to annual reports

7. Where performance fees were borne by the scheme during the financial year, the annual reports of the scheme must contain the amount of such performance fees payable at the scheme level expressed as a percentage of average net asset value of the scheme as at the end of the financial year and the calculation basis.

Note (1): A nil statement is required if no performance fees were borne by the scheme during the financial year.
(2): Where the scheme is a FoHFs, only performance fees at the FoHFs’ level need to be disclosed.

B. Quarterly reports

Distribution of quarterly reports

8. The Commission requires that quarterly reports be distributed to holders to keep them informed of the scheme activities on a timely basis.

9. Quarterly reports are required to be filed with the SFC and distributed to holders within the stipulated timeframe under paragraph 1 of these Guidelines.

Note: Given the newness of these Guidelines to the market, measures would be taken to familiarise the management company with the reporting requirements and the disclosure standard expected of these reports. The first quarterly report of each scheme must obtain a “no objection” letter from the Commission before it is issued to persons in Hong Kong. In order to facilitate the vetting procedures, upon request from the management company, Commission staff may review and provide comments on the format of the first quarterly report of each scheme before its contents are ready.

10. Quarterly reports may not be distributed to non-holders unless accompanied by the offering document of the scheme.

Contents of quarterly reports

11. Quarterly reports must be provided in the English and Chinese languages, and must contain the following information regarding the scheme.

Management commentary

12. A statement to the effect that the directors of the scheme and/or the management company accept responsibility for the information contained in the quarterly reports as being accurate as at the date of publication.
(a) **Performance review**

A commentary by the management company that describes and explains the key factors impacting upon the scheme’s financial performance and any style drifts in the scheme during the reporting period.

*Note:* Where the scheme is a FoHFs, the management company is expected to explain what has driven performance in terms of different strategies.

(b) **Market outlook**

A discussion of the management company’s expectation of the primary risk factors to which the scheme is exposed to, and the outlook of the development of these factors as they relate to the scheme.

(c) **Changes in key investment personnel**

A discussion on the changes in composition of the key investment personnel (if any) at the scheme level and their impact on the scheme’s overall strategy, risk profile or future performance.

(d) **Lawsuits**

Details of any lawsuits that may have a financial impact on the scheme during the reporting period.

**Portfolio review**

(e) **Fund size and net asset value per unit/share**

The scheme’s total net asset value, net asset value per unit/share as at the end of the reporting period, and the percentage change in net asset value per unit/share since the last reporting period.

(f) **Cash borrowings and other sources of leverage**

The amount of cash borrowings and other sources of leverage at the scheme level and a summary of how leverage is calculated as at the end of the reporting period.

*Note:* The management company is expected to choose the most appropriate and informative illustration of the scheme’s leverage, consistent with disclosures in the scheme’s offering document, taking into account the objective and strategy of the scheme. Where the scheme is a FoHFs, disclosure is only required at the FoHFs’ level.

(g) **Performance and risk measures**

Disclosure of performance and risk measures of the scheme in tabular form. A sample format with the required parameters and time frames is set out in the *Annex* to these Guidelines.

The management company is encouraged to disclose other appropriate performance and risk measures, taking into account the objective and strategy of the scheme (e.g.
Value at Risk (VaR), Alpha, Sortino ratio, additional Sharpe ratios using alternative risk free rates other than zero, aggregated risk/return statistics, full position disclosure of financial derivative instruments and their basis of calculation, time to recovery periods, % of down months, % of up months, delta equivalent of option positions etc.).

The management company must provide the calculation basis, definition and any underlying assumptions of each performance and risk measure either alongside the performance and risk measure or in a separate glossary.

(h) Amount of seed money

Disclosure of the amount of seed money expressed in percentage terms of the net asset value of the scheme contributed by the management company or its connected persons as at the end of the reporting period.

(i) Illiquid holdings

With respect to any scheme that is a FoHFs, the management company must disclose:

(i) The name(s) of any underlying fund(s) suspended during the reporting period;
(ii) The acquisition cost of such underlying funds; and
(iii) The latest status of such underlying funds as at the end of the reporting period.

With respect to other schemes, the management company must disclose the name(s) and acquisition costs of all illiquid holdings* held by the scheme as at the end of the reporting period, categorized by:

(i) financial derivative instruments ; and
(ii) Non-financial derivative instruments.

* “Illiquid holdings” are defined as assets for which there are no readily available market values to be transacted between knowledgeable and willing parties in an arm’s length transaction, or with no registered turnover in the last 30 days prior to and including the reporting date.

(j) Concentrated exposures

With respect to any scheme that is a FoHFs, the management company should disclose:

(i) Exposures (including cash and cash equivalent holdings) for the scheme at the scheme level as of the reporting date (expressed in percentage terms of net asset value of the scheme) categorized by geographical region, industry, strategy, or some other basis that the management company considers the most appropriate, taking into account the objective and strategy of the scheme;

(ii) The number of underlying funds and the number of underlying fund managers included in the scheme as of the reporting date; and

(iii) (Where the scheme is a multi-strategy FoHFs) disclosure of the number of underlying funds and underlying fund managers under each hedge fund strategy.
With respect to other schemes, the management company should disclose:

(i) Exposures (including cash and cash equivalent holdings) for the scheme as of the reporting date (expressed in percentage terms of net asset value of the scheme) categorized by asset class, geographical region, industry, strategy, or some other basis that the management company considers the most appropriate, taking into account the objective and strategy of the scheme; and

(ii) The aggregated gross long and short positions held by the scheme as of the reporting date (expressed in percentage terms of the net asset value of the scheme).

Note (1): “Cash equivalent holdings” are defined as those assets with a maturity of less than one year and which are readily transactable in an arm’s length transaction between willing and knowledgeable parties.

(2): The Commission reserves the right to require disclosure of the full position of the scheme for the purposes of carrying out its regulatory functions. Such disclosures to the Commission will be subject to the Commission’s preservation of secrecy provisions.

[Display prominent warning statements to the effect that: “Investment involves risk, please see the offering document for further details. Past performance figures shown are not indicative of future performance.”]

Notes:
(1) Calculations must be net of all fees and charges borne by the scheme, with the calculation basis clearly stated.
(2) As per paragraph 3 of the Guidelines, the management company should include a glossary of technical terms to explain their meaning and implications to investors (e.g. the higher the number, the riskier the scheme etc.).
(3) “Year T” denotes the current scheme financial year.
(4) Statistics since launch can only be shown if the scheme has been in existence for one year or longer.
(5) “Annualized standard deviation” is defined as the square root of the squared deviations of the actual returns from the simple average return based on the dealing days of the scheme, divided by the number of observations, shown on an annualised basis.

(6) “Sharpe ratio” is defined as annual return divided by the annualised standard deviation.
   Note: For the sake of simplicity, a zero risk free rate is adopted in the calculation for “Sharpe Ratio”

(7) “Maximum drawdown” is the maximum amount of loss from an equity high until a new equity high, expressed as a percentage of the previous equity high.
