Terms and abbreviations used in this Guideline shall be interpreted by reference to the definitions set out in the Glossary part of the Guideline for LCs. Where applicable, interpretation of other words or phrases should follow those set out in the SFO.

Associated Entities to comply with the Guideline for LCs

This Guideline is intended for use by associated entities (AEs) that are not authorized financial institutions and their officers and staff.

The Guideline for LCs provides a comprehensive explanation of the AML/CFT legislation in Hong Kong and practical guidance in designing and implementing policies, procedures and controls so as to meet the relevant AML/CFT statutory and regulatory requirements and the AML/CFT standards. AEs that are not authorized financial institutions are expected to have regard to the provisions of the Guideline for LCs as if they were themselves LCs.

An AE that is an authorized financial institution should have regard to the provisions of the Guideline on Anti-Money Laundering and Counter-Financing of Terrorism (For Authorized Institutions) issued by the Hong Kong Monetary Authority for use by authorized institutions, (where applicable) paragraph 4.1.6 of the Guideline for LCs for the definition of “customer” for the securities, futures and leveraged foreign exchange businesses (hereinafter collectively referred to as “securities sector” or “securities businesses”), and paragraphs 7.13 and 7.14 of the Guideline for LCs in identifying securities sector specific suspicious transactions.

For the avoidance of doubt, the use of the word “must” or “should” in relation to an action, consideration or measure referred to in this Guideline and the Guideline for LCs indicates that it
is a mandatory requirement. Given the significant differences that exist in the organisational and legal structures of different AEs, and the LCs with which they are in a controlling entity relationship, as well as the nature and scope of the business activities conducted by them, there exists no single set of universally applicable implementation measures. The content of this Guideline and the Guideline for LCs is not intended to be an exhaustive list of the means of meeting the statutory and regulatory requirements. AEs therefore should use this Guideline and the Guideline for LCs as a basis to develop measures appropriate to their structure and business activities.
