

Stakeholders

We engage with stakeholders to help them understand our work and provide them with up-to-date regulatory information.

During the quarter, we supported seven industry events. Our senior executives spoke at 27 local and international conferences and we posted four of their speeches on our website to reach a wider audience. We met with various industry associations to understand their views on regulatory issues.

We were a regulatory partner of the Hong Kong FinTech Week 2019 Main Conference held on 6-7 November. Our Chief Executive Officer Mr Ashley Alder delivered a keynote speech and the Head of our Fintech unit gave a presentation on regulatory issues related to the development of financial technology.

We released the following publications in the quarter:

- The findings of the *Survey on Integrating Environmental, Social and Governance Factors and Climate Risks in Asset Management* provided an overview of industry practices as a reference for formulating future policies.
- The December issue of the *Takeovers Bulletin* highlighted the Takeovers Panel's decision on deducting a final dividend from the stated price of a possible mandatory general offer.

We issued 14 circulars providing guidance on a wide range of matters, including virtual assets, external data storage, dubious private fund and discretionary account arrangements, streamlined requirements for master-feeder exchange traded funds and updates on anti-money laundering and counter-terrorist financing.
